Rules of Cboe C2 Exchange, Inc.

* * * * *

Rule 5.5. System Access and Connectivity

* * * * *

(c) *Ports*. A User may connect to the Exchange using a logical port available through an API, such as the industry-standard Financial Information eXchange ("FIX") protocol or Binary Order Entry ("BOE") protocol. Users may use multiple logical ports. The term "port" includes the following types of ports:

(1)-(2) No change.

(3) A "bulk port" is a dedicated logical port that provides Users with the ability to submit:

(A) bulk messages, subject to the following:

(i) a bulk message has a Time-in-Force of Day <u>or IOC</u>;

* * * * *

Rule 5.6. Availability of Orders

(a) *Availability*. Unless otherwise specified in the Rules or the context indicates otherwise, the Exchange determines which of the following order types, Order Instructions, and Times-in-Force are available on a class, system, or trading session basis. <u>An Order Instruction or Time-in-Force applied to a bulk message applies to each bid and offer within that bulk message.</u> Rule 5.33 sets forth the order types, Order Instructions, and Times-in-Force the Exchange may make available for complex orders.

* * * * *

(d) *Time-in-Force*. A "Time-in-Force" means the period of time the System holds an order, subject to the restrictions set forth in Rule 5.5(c) with respect to bulk messages submitted through bulk ports, for potential execution, and includes:

Day

The term "Day" means, for an order so designated, an order that, if not executed, expires at the RTH market close. [All bulk messages have a Time-in-Force of Day as set forth in Rule 5.5(c)]Users may designate bulk messages as Day.

* * * * *

Immediate-or-Cancel or IOC

The terms "Immediate-or-Cancel" or "IOC" mean, for an order so designated, a limit order that must execute in whole or in part as soon as the System receives it; the System cancels and does not post to the Book an IOC order (or unexecuted portion) not executed immediately on the Exchange or another options exchange. Users may [not] designate bulk messages as IOC.
