The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. <u>Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis</u> for, the Proposed Rule Change

1. Purpose

CBSX proposes to amend its Fees Schedule. Starting on September 10, 2012, CBSX will begin to implement the functionality that will allow CBSX Traders to send silent orders, silent-mid orders, silent-mid orders, silent-mid-seeker orders to CBSX.³ Pursuant to such implementation, CBSX proposes to adopt Maker and Taker fees for transactions in securities priced \$1 or greater relating to these new order types. For transactions in securities priced less than \$1, these new order types will be subject to the same Maker and Taker fees (\$0.00 fee for Makers, 0.30% of the dollar value of the transaction fee for Takers) that apply to most other orders.

The Maker fee for adding liquidity using a silent order will be \$0.0018 per share, same as the regular Maker rate (though not subject to the reduced fee tiers for adding increasing amounts of liquidity in one day). The Taker rebate for removing silent order liquidity will be \$0.0014 per share. The Maker fee for adding liquidity using a silent-mid or silent-post-mid order will be \$0.0008 per share. The Taker rebate for removing silent-mid or silent-post-mid liquidity will be \$0.0004 per share. The purpose of the new Maker fees is to incentivize passive liquidity provision using the silent, silent-mid, and silent-post-mid order types. The purpose of the new Taker rebates is to incentivize routing to the Exchange for the purpose of removing liquidity. The fees proposed for adding and rebates for removing liquidity are both intended to compliment

the existing maker-taker fee structure and to improve realized prices and price discovery on the Exchange by efficiently and predictably allocating the economics specifically for each form of liquidity provision, and to incentivize participants to route orders to the Exchange in the first instance.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Act and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.⁴ Specifically, the Exchange believes the proposed rule change is consistent with Section 6(b)(4) of the Act⁵, which provides that Exchange rules may provide for the equitable allocation of reasonable dues, fees, and other charges among its Trading Permit Holders and other persons using its facilities. The amount of the proposed Maker fee for silent orders is reasonable because it is the same amount as the regular Maker fee. Not applying the reduced fee tiers for adding increasing amounts of liquidity in one day to silent Maker orders is equitable and not unfairly discriminatory because these silent orders are not displayed [sic] do not improve the Exchange's displayed prices. Further, the Maker fee for silent orders will apply to all market participants trading silent orders.

The amount of the proposed Taker rebate for removing silent order liquidity is reasonable because it will allow market participants removing silent order liquidity to receive a rebate (and not pay a fee) for doing so. The proposed Taker rebate is equitable and not unfairly discriminatory because such undisplayed orders do not transparently improve the prices available within the market, while displayed orders do. As such, the pricing is designed to promote the use

⁴ 15 U.S.C. 78f(b).

⁵ 15 U.S.C. 78f(b)(4).

of and interaction with displayed liquidity more than undisplayed liquidity. Further, the Taker rebate for silent orders will apply to all market participants trading silent orders.

The amount of the proposed Maker fee for adding liquidity using a silent-mid or silent-post-mid order is reasonable because it is lower than the amount of the fee for other Maker orders. This is equitable and not unfairly discriminatory because the liquidity is priced at the midpoint of the NBBO, and therefore the fee will be less. This offers the remover of liquidity significant price improvement. Further, the Maker [sic] proposed Maker fee for adding liquidity using a silent-mid or silent-post-mid order will apply to all market participants adding liquidity using a silent-mid or silent-post-mid order.

The amount of the proposed Taker rebate for removing silent-mid or silent-post-mid liquidity is reasonable because it will allow market participants removing silent order liquidity to receive a rebate (and not pay a fee) for doing so. The proposed Taker rebate for removing silent-mid or silent-post-mid liquidity is equitable and not unfairly discriminatory because the trade will result in an improved price over the displayed market (as the trade occurs at the midpoint of the NBBO). Further, the Taker removing silent-mid or silent-post-mid liquidity will apply to all market participants removing silent-mid or silent-post-mid liquidity.

Assessing different fees for orders priced \$1 or greater than for such orders priced less than \$1 is equitable and not unfairly discriminatory because since orders priced less than \$1 can be entered in sub-penny increments (four-decimal increments), the Exchange believes that employing Maker-Taker pricing similar to that employed for orders priced \$1 or greater would not be effective given a market participant's ability to more-transparently and finitely establish

prices in the book. Further, CBSX already assesses different fees for other orders priced \$1 or greater than for the same orders priced less than \$1.6

B. <u>Self-Regulatory Organization's Statement on Burden on Competition</u>

CBOE does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. <u>Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others</u>

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)⁷ of the Act and paragraph (f) of Rule 19b-4⁸ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.
