Rule 5.25.   **Message Traffic Mitigation**

* * * * *

(c) *Message Queues*. All messages will be processed through either a "Priority Queue" or a "General Queue". The System will process a certain number of messages, as determined by the Exchange, from each queue on an alternating basis. Auction response messages will be processed through the Priority Queue, and all remaining messages will be processed through the General Queue. The System will prioritize processing messages in each respective queue in the order in which the System receives them (i.e., in time priority).
