CHAPTER XI. TRADING RULES

* * * * *

Rule 11.6. Definitions

* * * * *

(a) – (m) (No change).

(n) Routing/Posting Instructions

(1) (No change).

(2) Super Aggressive. An order instruction that directs the System to route the order if an away Trading Center locks or crosses the limit price of the order resting on the EDGA Book. A User may instruct the Exchange to apply the Super Aggressive instruction [solely] to routable orders posted to the EDGA Book with remaining size of an Odd Lot. When any order with a Super Aggressive instruction is locked by an incoming order with a Post Only instruction and a Displayed instruction that does not remove liquidity pursuant to Rule 11.6(n)(4) below, the order with a Super Aggressive instruction is converted to an executable order and will remove liquidity against such incoming order. Notwithstanding the foregoing, if an order displayed on the EDGA Book [that] does not contain a Super Aggressive instruction and maintains higher priority than one or more Super Aggressive eligible orders, the Super Aggressive eligible order(s) with lower priority will not be converted, as described above, and the incoming order with a Post Only instruction will be posted or cancelled in accordance with Rule 11.6(n)(4) below.

(3) – (7) (No change).
