CHAPTER XIII. MISCELLANEOUS PROVISIONS

Rules 13.1 – 13.7 (No change)

Rule 13.8 EDGA Book Feeds

(a) EDGA Book Feed. The EDGA Book Feed is a data feed that contains all displayed orders for listed securities trading on EDGA, order executions, order cancellations, order modifications, order identification numbers, and administrative messages.

([b]i) Members may obfuscate their unique order identifications number on EDGA Book Feed per Market Participant Identifier for all logical ports or specific logical ports for subsequent replenishments of reserve orders, as designated by the Member. In order to do so, the Member must contact the Exchange’s Member Services (“Member Services”) department. In such case, a randomly generated order identification number would be applied the next trading day by the Exchange for all subsequent replenishments of reserve orders until further instructions are received by Member Services from the Member.

(b) BATS Aggregated Market (“BATS One”) Feed. The BATS One Feed is a data feed that contains the aggregate best bid and offer of all displayed orders for securities traded on EDGA and its affiliated exchanges. The BATS One Feed also contains the individual last sale information for EDGA and each of its affiliated exchanges. The BATS One Feed also consists of Symbol Summary, Market Status, Retail Liquidity Identifier (on behalf of BATS-Y Exchange, Inc., an affiliated exchange of EDGA), Trading Status, and Trade Break messages.

(i) Depth of Book. BATS One Feed recipients may also elect to receive aggregated two-sided quotations from EDGA and each of its affiliated exchanges for five (5) price levels.
