

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-104093; File No. SR-GEMX-2025-26]

Self-Regulatory Organizations; Nasdaq GEMX, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Amend NDX Pricing

September 26, 2025.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹, and Rule 19b-4 thereunder,² notice is hereby given that on September 24, 2025, Nasdaq GEMX, LLC (“GEMX” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend the fees for Nasdaq 100[®] Index options in the Exchange’s Pricing Schedule at Options 7, Section 3.

While the changes proposed herein are effective upon filing, the Exchange has designated the amendments become operative on October 1, 2025.

The text of the proposed rule change is available on the Exchange’s Website at <https://listingcenter.nasdaq.com/rulebook/phlx/rulefilings>, and at the principal office of the Exchange.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to amend the fees for the Nasdaq 100® Index ("NDX").³

As set forth in Options 7, Section 3, the Exchange currently charges all Non-Priority Customer⁴ orders in NDX a \$0.75 per contract transaction fee. Priority Customer⁵ orders are currently assessed a \$0.25 per contract transaction fee.

The Exchange now proposes to increase the Priority Customer pricing in NDX from \$0.25 to \$0.50 per contract. Priority Customers will continue to be assessed a lower fee as compared to Non-Customers. While the Exchange is increasing the fee, the Exchange believes

³ NDX represents A.M.-settled options on the full value of the Nasdaq 100 Index traded under the symbol NDX.

⁴ The term "Non-Priority Customers" include Market Makers, Non-Nasdaq GEMX Market Makers (FarMMs), Firm Proprietary / Broker-Dealers, and Professional Customers. See Options 7, Section 1(c).

⁵ A "Priority Customer" is a person or entity that is not a broker/dealer in securities, and does not place more than 390 orders in listed options per day on average during a calendar month for its own beneficial account(s), as defined in Nasdaq GEMX Options 1, Section 1(a)(36). Unless otherwise noted, when used in this Pricing Schedule the term "Priority Customer" includes "Retail." A "Retail" order is a Priority Customer order that originates from a natural person, provided that no change is made to the terms of the order with respect to price or side of market and the order does not originate from a trading algorithm or any other computerized methodology. See Options 7, Section 1(c).

that a Priority Customer fee of \$0.50 per contract will continue to attract order flow to the Exchange.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,⁶ in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,⁷ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes that its proposal to increase the Priority Customer pricing in NDX from \$0.25 to \$0.50 per contract is reasonable because Priority Customers will continue to be assessed a lower fee as compared to Non- Priority Customers. While the Exchange is increasing the fee, the Exchange believes that a Priority Customer fee of \$0.50 per contract will continue to attract order flow to the Exchange. The Exchange notes that market participants are offered different ways to gain exposure to the Nasdaq 100 Index, whether through the Exchange's proprietary products like options overlying NDX or XND, or separately through multi-listed options overlying Invesco QQQ Trust ("QQQ").⁸ Offering such products provides market participants with a variety of choices in selecting the product they desire to utilize in order to gain exposure to the Nasdaq 100 Index.

The Exchange believes that its proposal is equitable and not unfairly discriminatory because it will be applied uniformly to all Priority Customers. Assessing a lower fee to Priority Customers as compared to Non-Priority Customers is equitable and not unfairly discriminatory

because Priority Customer liquidity benefits all market participants by providing more trading opportunities, which attracts market makers. An increase in the activity of these market participants in turn facilitates tighter spreads, which may cause an additional corresponding increase in order flow from other market participants, to the benefit of all market participants who may interact with the order flow.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

In terms of intra-market competition, the Exchange believes that its proposal does not impose an undue burden on competition because the fee will be applied uniformly to all Priority Customers. Assessing a lower fee to Priority Customers as compared to Non-Priority Customers is does not impose an undue burden on competition because Priority Customer liquidity benefits all market participants by providing more trading opportunities, which attracts market makers. An increase in the activity of these market participants in turn facilitates tighter spreads, which may cause an additional corresponding increase in order flow from other market participants, to the benefit of all market participants who may interact with the order flow.

In terms of inter-market competition, the Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its fees to remain competitive with other options exchanges. Because competitors are free to modify their own fees in response, and because market participants may readily adjust their order routing practices, the Exchange believes that the degree to which fee changes in this market may

impose any burden on competition is extremely limited. As noted above, market participants are offered an opportunity to transact in NDX, NDXP, or XND, or separately execute options overlying QQQ. Offering these products provides market participants with a variety of choices in selecting the product they desire to use to gain exposure to the Nasdaq 100 Index.

In addition to the Exchange, market participants have alternative options exchanges that they may participate on and direct their order flow, which list proprietary products that compete with NDX.⁹ In sum, if the changes proposed herein are unattractive to market participants, it is likely that the Exchange will lose market share as a result. Accordingly, the Exchange does not believe that the proposed changes will impair the ability of members or competing options exchanges to maintain their competitive standing in the financial markets.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.¹⁰

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action,
