* A "Designated Retail Order" is an agency or riskless principal order that meets the criteria of FINRA Rule 5320.03 and that originates from a natural person and is submitted to Nasdaq by a member that designates it pursuant to this rule, provided that no change is made to the terms of the order with respect to price or side of market and the order does not originate from a trading algorithm or any other computerized methodology. An order from a "natural person" can include orders on behalf of accounts that are held in a corporate legal form -- such as an Individual Retirement Account, Corporation, or a Limited Liability Company -- that has been established for the benefit of an individual or group of related family members, provided that the order is submitted

by an individual. Members must submit a signed written attestation, in a form prescribed by Nasdaq, that they have implemented policies and procedures that are reasonably designed to ensure that substantially all orders designated by the member as "Designated Retail Orders" comply with these requirements. Orders may be designated on an order-by-order basis, or by designating all orders on a particular order entry port as Designated Retail Orders.
