("NSX" or "Exchange") filed with the Securities and Exchange Commission ("Commission" or "SEC") the proposed rule change and their corresponding amendments, as described in Items I and II below, which Items have been substantially prepared by the Exchange. The Commission is publishing this notice to solicit comment on the proposed rule change from interested parties.

II. <u>Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis</u> for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

- A. <u>Self-Regulatory Organization's Statement of the Purpose of, and Statutory</u>
 <u>Basis for, the Proposed Rule Change</u>
 - 1. Purpose

On July 28, 2004, the Commission adopted certain provisions of a new short sale regulation, designated Regulation SHO. On June 28, 2007, the Commission amended Regulation SHO and also repealed Rule 10a-1 under the Act.⁵ We have reviewed the NSX Rules to eliminate those rules which we believe are duplicative of, inconsistent with, or otherwise superceded by, Regulation SHO and the repeal of Rule 10a-1 under the Act.⁶ Therefore, the Exchange is filing this proposed rule change to amend those NSX rules that are affected by the Commission's amended approach to short sale regulation.

First, in addition to the repeal of Rule 10a-1 under the Act, the Commission added Rule 201(b) to Regulation SHO, prohibiting any SRO from having a short sale price test. The Commission also amended Rule 200(g) of Regulation SHO to remove the requirement that a broker-dealer mark a sell order of an equity security as "short exempt," if the seller is relying on an exception from a price test. Accordingly, the Exchange proposes to amend NSX Rule 11.21 to remove the reference to "short exempt." Additionally, the Exchange proposes to remove the second sentence respecting the cancellation of violative orders because there would be no ability to violate a rule that no longer exists. Finally, the Exchange is eliminating the savings clause as duplicative and restating an inherent authority of the Exchange.

Further, the Exchange notes that NSX Rule 14.2(b)(7) regarding the Intermarket Trading System Plan (the "ITS Plan") describes marking requirements necessary to

⁵ Price Test Adopting Release.

Please note that NSX does not have any ETP Holder that is not a member of another self-regulatory organization nor is NSX a designated examining authority or a designated self-regulatory organization for any ETP Holder. Accordingly, it does not subject its members to short interest reporting that is mandated by the other markets.

comply with Rule 10a-1 under the Act.⁷ In light of the repeal of Rule 10a-1, the Exchange proposes to eliminate this provision from its Rules.

As noted below, the Exchange is filing the proposed rule change for immediate effectiveness, with an operative date of July 6, 2007, which is the same date as the effective date of Rule 201 and revised Rule 200(g) of Regulation SHO as well as the elimination of Rule 10a-1 under the Act.⁸

2. <u>Statutory Basis</u>

The Exchange believes that the proposed rule change is consistent with the provisions of Section 6(b) of the Act⁹ in general and furthers the objectives of Section 6(b)(5)¹⁰ in particular in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest. NSX believes that the proposed rule change is necessary and appropriate to comply with the amendments to SEC Rule 10a-1 and Regulation SHO.

B. <u>Self-Regulatory Organization's Statement on Burden on Competition</u>

The Exchange does not believe that that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. <u>Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others</u>

The Exchange will be filing a separate rule change to eliminate the entire chapter respecting the ITS Plan.

¹⁰ 15 U.S.C. 78f(b)(5).

The Exchange has neither solicited nor received written comments on the proposed rule change.

III. <u>Date of Effectiveness of the Proposed Rule Change and Timing for Commission</u> Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative 30 days from the date on which it was filed, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest, it has become effective pursuant to Section 19(b)(3)(A) of the Act¹¹ and Rule 19b-4(f)(6)¹² thereunder.

NSX has asked the Commission to waive the 30-day operative delay. The Commission believes such waiver is consistent with the protection of investors and the public interest because it would allow the proposed rule change to be effective on July 6, 2007, the compliance date for the amendments to Rule 10a-1 and Regulation SHO.¹³ For this reason, the Commission designates the proposal to be operative upon filing with the Commission.

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission

¹² 17 CFR 19b-4(f)(6).

For purposes only of waiving the 30-day pre-operative period, the Commission has considered the proposed rule change's impact on efficiency, competition and capital formation. 15 U.S.C. 78c(f).

that such action is necessary or appropriate in the public interest, for protection of investors, or otherwise in furtherance of the purposes of the Act.
