**NCL Notes****Note 1: IDS Network**

When an NCL Customer purchases access to the IDS Network, it receives the ability to access the trading and execution systems of the NYSE, NYSE American, NYSE Arca, NYSE Chicago, and NYSE National (together, the Exchange Systems) as well as of Global OTC (the Global OTC System), subject, in each case, to authorization by the NYSE, NYSE American, NYSE Arca, NYSE Chicago, NYSE National, or Global OTC, as applicable. Each Exchange listed above offers access to its Exchange Systems to its members and Global OTC offers access to the Global OTC System to its subscribers, such that an NCL Customer does not have to purchase a service that includes access to the IDS Network to obtain access to Exchange Systems or the Global OTC System.

When an NCL Customer purchases access to the IDS Network, it receives connectivity to any of the Included Data Products that it selects, subject to any necessary technical provisioning requirements, authorization, and licensing by the provider of the Included Data Feed. Fees for the Included Data Products are charged by the provider of such Included Data Products. An NCL Customer can change the Included Data Products to which it receives connectivity at any time, subject to authorization from the provider of such Included Data Product. Because access to the

IDS Network is not the exclusive method to connect to the Included Data Products, an NCL Customer does not have to purchase a service that includes access to the IDS Network to connect to such Included Data Products.

The Included Data Products are as follows:

<u>NMS feeds</u>
<u>CTS</u>
<u>CQS</u>
<u>OPRA</u>
<u>NYSE</u>
<u>NYSE American</u>
<u>NYSE American Options</u>
<u>NYSE Arca</u>
<u>NYSE Arca Options</u>
<u>NYSE Best Quote and Trades (BQT)</u>
<u>NYSE Bonds</u>
<u>NYSE Chicago</u>
<u>NYSE National</u>

## **Note 2: Third Party Systems**

When an NCL Customer purchases a connection that includes access to Third Party Systems, it receives access to Third Party Systems it selects, subject to any technical provisioning requirements, authorization, and licensing from such Third Party System. Fees for the Third Party Systems are charged by the provider of such Third Party System. The Exchange is not the exclusive method to connect to Third Party Systems. The Third Party Systems are as follows:

<b><u>Third Party Systems</u></b>
<u>Americas Trading Group (ATG)</u>
<u>BM&amp;F Bovespa</u>
<u>Boston Options Exchange (BOX)</u>
<u>Canadian Securities Exchange (CSE)</u>
<u>Cboe BYX Exchange (CboeBYX), Cboe BZX Exchange (CboeBZX), Cboe EDGA Exchange (CboeEDGA), and Cboe EDGX Exchange (CboeEDGX)</u>
<u>Cboe Exchange (Cboe) and Cboe C2 Exchange (C2)</u>
<u>Chicago Mercantile Exchange (CME Group)</u>
<u>Credit Suisse</u>
<u>Euronext Optiq Cash and Derivatives Unicast (EUA)</u>
<u>Euronext Optiq Cash and Derivatives Unicast (Production)</u>
<u>Investors Exchange (IEX)</u>
<u>ITG TriAct Matchnow</u>
<u>Long Term Stock Exchange (LTSE)</u>

<u>Members Exchange (MEMX)</u>
<u>MIAX Options, MIAX PEARL Options, MIAX PEARL Equities, and MIAX Emerald</u>
<u>Morgan Stanley</u>
<u>Nasdaq</u>
<u>NASDAQ Canada (CXC, CXD, CX2)</u>
<u>NASDAQ ISE</u>
<u>Neo Aequitas</u>
<u>NYFIX Marketplace</u>
<u>Omega</u>
<u>OneChicago</u>
<u>OTC Markets Group</u>
<u>TD Ameritrade</u>
<u>TMX Group</u>

**Note 3: Connectivity to Third Party Data Feeds**

Pricing for data feeds from third party markets and other service providers (Third Party Data Feeds) is for connectivity only. Connectivity to Third Party Data Feeds is subject to any technical provisioning requirements, authorization, and licensing from the provider of the data feed. Connectivity to Third Party Data Feeds is over the IDS Network. Fees for Third Party Data Feeds are charged by the provider of such data feeds. Third Party Data Feed providers may charge redistribution fees. When IDS is charged a redistribution fee, IDS passes the charge through to the customer, without change to the fee. The fee is labeled as a pass-through of a redistribution fee on the customer's invoice. IDS does not charge third party markets or content providers for connectivity to their own feeds. IDS is not the exclusive method to connect to Third Party Data Feeds.

**Note 4: NMS Network**

When an NCL Customer purchases access to the NMS Network, upon its request, it will receive connectivity to any of the NMS feeds that it selects, subject to any necessary technical provisioning requirements, authorization, and licensing from the provider of such NMS feed. Fees for the NMS feeds are charged by the provider of such NMS feed. The NMS feeds are as follows:

<u>NMS feeds</u>
<u>CTS</u>
<u>CQS</u>
<u>OPRA</u>
