Global market value for an Eligible New Listing and Eligible Transfer Company is based on the public offering price; if there is no public offering in connection with listing on the Exchange, then the Exchange shall determine the issuer's global market value at the time of listing for purposes of determining whether the issuer qualifies for Tier A or B.

At the conclusion of the 48-month period (or 24-month period where applicable), Tier A and Tier B issuers receive Tier One or Tier Two products and services if they qualify based on total shares of common stock (for a U.S. issuer) or equity security (for a non-U.S. issuer) issued and outstanding as described above under the heading "Eligible Current Listings."

The period of complimentary products and services provided to Eligible New Listing and Eligible Transfer Companies begins on the date of listing on the Exchange. Notwithstanding the foregoing, however, if an Eligible New Listing or Eligible Transfer Company begins to use a particular product or service provided for under this Section 907.00 within 30 days of its initial listing date, the complimentary period will begin on the date of first use.

In addition to the foregoing, the Exchange provides all listed issuers with complimentary access to whistleblower hotline services (with a commercial value of approximately \$4,000 annually) for a period of 24 calendar months.

Issuers may elect whether or not to receive products and services for which they are eligible under this Section 907.00. For the purposes of this Section 907.00, the term "Eligible New Listing" means (i) any U.S. company that lists common stock on the Exchange for the first time and any non-U.S. company that lists an equity security on the Exchange under Section 102.01 or 103.00 of the Manual for the first time, regardless of whether such U.S. or non-U.S. company conducts an offering and (ii) any U.S. or non-U.S. company emerging from a bankruptcy, spinoff (where a company lists new shares in the absence of a public offering), and carve-out (where a company carves out a business line or division, which then conducts a separate initial public offering). For purposes of this Section 907.00, the term "Eligible Transfer Company" means any U.S. or non-U.S. company that transfers its listing of common stock or equity securities, respectively, to the Exchange from another national securities exchange. For purposes of Section 907.00, an "equity security" means common stock or common share equivalents such as ordinary shares, New York shares, global shares, American Depositary Receipts, or Global Depositary Receipts.

The issuer of an Equity Investment Tracking Stock (as defined in Section 102.07 hereof) that is that issuer's only class of common equity securities listed on the Exchange will not receive the products and services provided for under this Section 907.00, with the exception that such issuers will receive the complimentary products and services and access to discounted third-party products and services through the NYSE Market Access Center available to all listed issuers, as described on the Exchange's Web site. In determining eligibility for the various service tiers under this Section 907.00, the Exchange will aggregate all of the outstanding shares of listed classes of common equity securities of a company, including all outstanding shares of any listed Equity Investment Tracking Stock that is not the issuer's only listed class of common equity securities.

A company listed under Section 102.06 hereof is not eligible to be deemed an Eligible New Listing at the time of its initial listing. However, a company listed under Section 102.06 will be deemed to be an Eligible New Listing at such time as it has completed one or more business combinations having an aggregate fair market value of at least 80% of the value of the trust account as specified in Section 102.06 (the "Business Combination Condition") if it remains listed after meeting that requirement. The period of complimentary products and services provided to such companies begins on the date of meeting the Business Combination Condition. Notwithstanding the foregoing, however, if such a company begins to use a particular product or service provided for under this Section 907.00 within 30 days of meeting the Business Combination Condition, the complimentary period will begin on the date of first use.

The following is the Revised Rule. The Prior Rule continues to establish the entitlements under the rule of Eligible New Listings and Eligible Transfer Companies that list before the implementation of the Revised Rule.]
