Sec. 1003. APPLICATION OF POLICIES

The Exchange has adopted certain standards, outlined below, under which it will normally give consideration to suspending dealings in, or removing, a security from listing or unlisted trading. When an issuer falls below any of the continued listing standards, the Exchange will review the appropriateness of continued listing. The Exchange may give consideration to any action that an issuer proposes to take that would enable it to comply with the continued listing standards. The specific procedures and timelines regarding such proposals are set forth in Section 1009 unless otherwise provided below. However, the standards set forth below in no way limit or restrict the Exchange in applying its policies regarding continued listing, and the Exchange may at any time, in view of the circumstances in each case, suspend dealings in, or remove, a security from listing or unlisted trading when in its opinion such security is unsuitable for continued trading on the Exchange. Such action will be taken regardless of whether the issuer meets or fails to meet any or all of the standards discussed below.

(i) *Change in Primary Business Focus*

The Exchange will give consideration to the delisting of a company that has changed its primary business focus to a new area of business that is substantially different from the business it was engaged in at the time of its original listing or which was immaterial to its operations at the time of its original listing. Any company that undertakes such a change in its primary business focus must promptly provide notice of such change in writing to the Exchange. The Exchange's assessment of the company's suitability for continued listing in light of such change will also take into consideration other changes that may have occurred in connection with the change in the company's primary business focus, including, but not limited to, changes in the management, board of directors, voting power, ownership, and financial structure of the company. The Exchange will focus its analysis of the company's suitability for continued listing on whether it would have accepted the listed company for initial listing if it had been engaged in its modified business at the time of original listing. If the Exchange determines that a listed company is

unsuitable for continued listing due to a change in its primary business focus, the Exchange will commence suspension and delisting procedures immediately in accordance with the procedures set out in Section 1010. A listed company is not eligible to follow the procedures outlined in Section 1009 with respect to this criterion.
