- c. "Customer" shall mean a person other than a broker or dealer.
- d. "Electronic Communication Network" shall mean any electronic system that widely disseminates to third parties orders entered therein by an exchange market maker or over-the-counter market maker, and permits such orders to be executed in whole or in part, and as further defined in Rule 600(b)(23) of SEC Regulation NMS.

While the purchase or sale of the stocks must be in conjunction with the purchase or sale of derivative index products, the transaction need not be executed contemporaneously to be considered index arbitrage. The term "derivative index

- products" refers to cashsettled options or futures contracts on index stock groups, and options on any such futures contracts.

"Order" shall mean any oral, written, or electronic instruction to effect a transaction in an NMS Stock that is received by a Participant from another person for handling or execution, or that is originated by a department of a Participant for execution by the same or another Participant, other than any such instruction to effect a proprietary transaction originated by a trading desk in the ordinary course of a Participant's market making activities.
 - l. "Order Audit Trail System" shall mean the automated system owned and operated by FINRA that is designed to capture order information in NMS Stocks reported by Participants for integration with trade and quotation information to provide the Exchange with an accurate time sequenced record of orders and transactions.
 - m. "Program Trading" means either (A) index arbitrage or (B) any trading strategy involving the related purchase or sale of a "basket" or group of 15 or more stocks. Program trading includes the purchases or sales of stocks that are part of a coordinated trading strategy, even if the purchases or sales are neither entered nor executed contemporaneously, nor part of a trading strategy involving options or futures contracts on an index stock group, or options on any such futures contracts, or otherwise relating to a stock market index.
