³ The Order Entry Port Fee is a connectivity fee assessed on members in connection with routing orders to the Exchange via an external order entry port. Members access the Exchange's network through order entry ports. A member organization may have more than one order entry port.

the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. <u>Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change</u>

1. Purpose

The purpose of the proposed rule change is to amend the applicability of the Order Entry Port Fee. The Exchange currently assesses an Order Entry Port Fee per month per mnemonic⁴ of \$500. This fee is assessed on members regardless of whether the order entry mnemonic is active⁵ during the billing month. The fee is assessed regardless of usage, and solely on the number of order entry ports assigned to each member organization.

The Exchange is proposing to modify the manner in which members are assessed the Order Entry Port Fee as related to complex order.⁶ The Exchange proposes to waive the \$500 per month per mnemonic Order Entry Port Fee for mnemonics used exclusively

⁴ Order entry mnemonics are codes that identify member organization order entry ports.

⁵ An order entry mnemonic is considered active if a member organization sends at least one order to the Exchange using that order entry mnemonic during the applicable billing month. <u>See</u> Securities Exchange Act Release No. 58728 (October 3, 2008), 73 FR 59695 (October 9, 2008) (SR-Phlx-2008-70).

⁶ A complex order is a spread, straddle, combination, ratio or collar order, all of which consist of more than one component, priced like a single order at a net debit or credit based on the prices of the individual components. <u>See</u> Exchange Rule 1080, Commentary .08(a)(i).

for complex orders where one of the components of the complex order is the underlying security.⁷

The Exchange believes that members who transact complex orders may require an increased number of ports due to the member's stock clearance arrangements, which may require additional mnemonics. The Exchange is proposing to limit the fees that would be assessed on members requiring additional ports to transact stock-option orders.⁸

2. Statutory Basis

The Exchange believes that its proposal to amend its Fee Schedule is consistent with Section 6(b) of the Act⁹ in general, and furthers the objectives of Section 6(b)(4) of the Act¹⁰ in particular, in that it is an equitable allocation of reasonable fees and other charges among Exchange members and other persons using its facilities. The Exchange believes that the proposal is equitable and reasonable because all members would be able

⁷ The Exchange recently filed a proposed rule change to add complex orders where one component is the underlying stock or ETF to the functionality on its electronic trading platform for options, Phlx XL. The Exchange also amended its definition of complex orders in Exchange Rule 1080 as follows: Complex Orders is any order involving the simultaneous purchase and/or sale of two or more different options series in the same underlying security, priced at a net debit or credit based on the relative prices of the individual components, for the same account, for the purpose of executing a particular investment strategy. Furthermore, a Complex Order can also be a stock-option order, which is an order to buy or sell a stated number of units of an underlying stock or ETF coupled with the purchase or sale of options contract(s). The Exchange also proposed to permit complex orders consisting of up to six components. See Securities Exchange Act Release No. 63509 (December 9, 2010), 76 FR 2733 (January 14, 2011) (SR-Phlx-2010-157) [sic].

⁸ A complex order with one component that is the underlying stock or Exchange Traded Fund Share ("ETF") is also referred to as a stock-option order.

to limit fees related to order entry ports for such complex orders that are stock-option orders, which may require additional mnemonics.

B. <u>Self-Regulatory Organization's Statement on Burden on Competition</u>

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. <u>Self-Regulatory Organization's Statement on Comments on the Proposed</u> <u>Rule Change Received from Members, Participants, or Others</u>

No written comments were either solicited or received.

III. <u>Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action</u>

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
