TEXAS STOCK EXCHANGE FEE SCHEDULE

[October]November 2026

* * * * *

Section A — Transaction Fees

TXSE Members are charged fees or provided rebates for transactions executed on the Exchange according to the schedule below. Fees and rebates are stated per share for securities priced at or above $1.00 and as a percentage of the total dollar value ("TDV") of the transaction for securities priced below $1.00.

Description	Securities at or above $1.00	Securities below $1.00
Add displayed liquidity	($0.003[1]2)	(0.15% of TDV)
Remove displayed liquidity	$0.0030	0.15% of TDV
Add non-displayed liquidity	$0.000[2]6	[0.05% of TDV]Free
Remove non-displayed liquidity	$0.000[2]6	[0.05% of TDV]Free
Add displayed liquidity in a TXSE-listed corporate security	($0.0038)	Not applicable

Section F – Lead Market Maker Program

Definitions

* * * * *

"Size Near the Inside" means the [average notional depth within 25 basis points of the NBBO]minimum notional value of both bids and offers within 0.25% of the NBBO for at least 95% of the trading day.

"Time at NBBO" means [the percentage of time during Regular Trading Hours in which the LMM maintains both a bid and offer at the NBBO with at least $10,000 notional at each of the NBB and NBO]the average of (a) the percentage of time the LMM has at least $10,000 notional at the NBB and (b) the percentage of time the LMM has at least $10,000 notional at the NBO.

Notes to Lead Market Maker Program

- Periods during which the SIP NBBO is missing, invalid, locked, or crossed are treated as ineligible and excluded from denominators for NBBO-referenced metrics.

- Certain percentage-based thresholds set forth in the Program shall be adjusted for leveraged ETPs to reflect the product's stated leverage factor. The adjusted threshold shall equal the stated threshold multiplied by the absolute value of the leverage factor (e.g., 2 for a 2x product, 3 for a 3x product, irrespective of direction). The percentage adjustment applies to the following standards: the basis point threshold of Maximum LMM Spread; the basis point threshold of Size Near the Inside; the percentage threshold of Layered Depth; the basis point threshold of Opening/Closing Auction Depth; the basis point threshold of Opening/Closing Auction Reference Price. Notional dollar thresholds are not subject to the leverage adjustment and apply as stated in the applicable tier.
