All parties have completed Please DocuSign: 2022 0119 The Luna Foundation Guard - OTC Token Sale Agreement - Confidential

Good afternoon,

As you are aware, today is the day we move forward with the Luna Foundation Guard token sale. We are very pleased to have you participate in this momentous event for the Terra ecosystem. Attached you will find the final Token Sale Agreement (the "TSA"). Please finalize your purchase amount and execute the document by Monday, January 24.

Please be aware that, due to institutional custodians' current lack of support for Terra-native tokens, such custodial wallets are unable to accommodate the vesting contract

by either technological or operational means and cannot support receipt of the Buyer Tokens at this time. While we will continue to encourage those custodians to enhance their capabilities and support the second largest blockchain by TVL, if you are unable or unwilling to accept receipt of the Buyer Tokens at this time pursuant to Schedule 1 of the TSA, your Buyer Tokens will be held in the claim contract for delivery until such time as you provide the address for a compatible wallet. Should this arrangement be unworkable for you, please let us know immediately so that we may remove your allocation from this sale.

The final token price is USD \$30.95, which represents a 40% discount of the relevant price, as defined by the TSA. Please execute the TSA at your earliest convenience today.

You will have 3 business days to send to the Foundation the purchase consideration for your allocation of LUNA as detailed in Schedule 1 of the TSA. Payment must be made in USDC, USDT, BNB, or BTC. The respective wallet addresses are also listed in Schedule 1.

We encourage you to conduct a test transaction with a de minimis value to verify your access to the addresses. Do not send your purchase consideration until the TSA has been fully executed by all parties.

In addition, you will be receiving a Google Doc where you can provide the Terra address you will be using to receive your LUNA tokens as well as a guide on creating a wallet address in a separate email. Please return the document with your Terra wallet address and an indication regarding whether you plan to stake your LUNA to Carolyn Pehrson.

Please do not hesitate to reach out to me or Carolyn if you have any questions or need any assistance.

Best,

Marc
