Thanks for all the extra context here, Brian! Re your community's interest in Jump – we hope to provide some more details soon! :)

Excited about comms collaboration between Jump and TFL. Sounds like mutually beneficial synergy. Please let me know how we can be additive to you guys.

Re podcasts – will definitely get back to you here when it's time to throw @Kanav Kariya out in the wild :). Any more context on influencers? Would be curious to hear what you're doing there.

Will add you on TG now - @apramirez.

Thank you again!

Hey Anthony,

Yea great chatting. Thanks for the resources and timeline for Wormhole.

We will begin working on launch resources for Nebula and Wormhole asap and share them with you. Also, I'll work on putting together a mutual comms collaboration plan with Jump moving forward so you guys can benefit from our networks of resources (e.g., investors, community, etc) and vice versa. Our community is continually curious about what you guys do behind-the-scenes haha so great to get this rolling -- I'm sure engagement will be amazing.

Further, we maintain relationships with media reporters directly through TFL, our investors, and via our contracted PR firm, Melrose, who has been great. If you need help to amplify major news stories, feel free to reach out. We're also currently putting together an interview and marketing pipeline for ecosystem projects and partners through some podcasts, influencers, and shows. So if Jump is interested in getting more exposure via visual and audio mediums, we'd also be happy to help facilitate those opportunities as they arise. It'd be great to get you guys some exposure for Jump Crypto once the news breaks to help define the differentiation between Jump Crypto and Jump Trading across those mediums.

In the meantime, my TG handle is @bk2111 if you want to ping me there and we can establish a more formal comms pipeline to better align everything between TFL/Jump.

Regards,

Brian

Thanks for the time today, Brian. Really enjoyed the chat. Attached is the blog post describing more about jump crypto, our acquisition of Certus One, and a bit more specs on wormhole in case you're interested 🤔

Some additional timeline updates – Wormhole testnet is up and running today! So we are setting our go live mainnet date as Wednesday 8/4.

We'd love to be included in any and all of your communication to your network, network projects, Do's communications, and the investor email you mentioned. So please let us know what you need from us to help make that easy.

Best,
Anthony

Great to meet you and thanks for the intro, Kanav. I'm in Central time zone. How about Wednesday after 1pm Central? I can also chat late at night or early mornings as well, so just keep me posted.

Thanks!

Anthony

Hey Anthony,

Nice to meet you, lmk when you're available to chat sometime.

Thanks,

Brian
