Secretary  
U.S. Securities and Exchange Commission  
100 F Street, NE, Washington, DC 20549-1090  
Attention: Matthew Lee, Adam Allogrimento, Claire Noakes

To Whom It May Concern:

SS&C Technologies, Inc. ("SS&C") hereby requests withdrawal of its application on Form CA-1, File No. 600-34 and cancel its exemption from registration as a clearing agency.

In November 2015, SS&C was granted an exemption from registration as a clearing agency pursuant to Section 17A of the Exchange Act and Rule 17Ab2-1 (the "17A Exemption") to provide independent ETC services and matching services through its post trade communications network solution, SSCNet. SS&C requests that the Commission cancel the exemption and withdraw its application under Release No. 34-76514 (Nov. 24, 2015) and 80 FR 75388 (Dec. 1, 2015).

The anticipated benefits of the 17A Exemption would have enabled SSCNet to provide interoperability with Omgeo/DTCC, and other 17A exempt participant organizations, for communication of trade confirmations for The Depository Trust Company (the "DTC") eligible securities. The 17A Exemption would also permit broker dealer participants using SSCNet to submit an official confirm record to the DTC, with a DTC control ID generated by SSCNet and its matching and affirmation process. These benefits would have allowed SSCNet to present itself as an alternative for official confirmation delivery and matching service in the US.

SS&C did not ultimately continue pursuit of interoperability and has not, does not, and will not provide central matching services in the US that would require registration as a clearing agency. Therefore, we are requesting to withdraw SS&C's exemption from registration as a clearing agency which would remove SSCNet's status as an "SCI system" regulated by REG SCI.

Sincerely,

SS&C Technologies, Inc.
