Carry Advisors LLC (“the Firm” or “we”) is registered with the Securities and Exchange Commission (SEC) as an investment adviser. Brokerage and investment advisory services and fees differ and it is important for you to understand these differences. Free and simple tools are available to research firms and financial professionals at [Investor.gov/CRS](https://www.investor.gov/CRS), which also provides educational materials about broker-dealers, investment advisers, and investing.

**What investment services and advice can you provide me?**

The Firm offers both non-discretionary and discretionary investment advisory services as described in our Carry Advisors Brochure. We operate as an internet advisor through an automated and interactive web-based process. Through our advisory services, we conduct ongoing investment monitoring and portfolio advice. Our advisory program is limited to Solo 401(k), IRA and individual taxable accounts, and to those who use The Vibes Co.’s digital platform.

**Account Monitoring:**

**Flexible** (non-discretionary) Accounts - The Firm offers non-discretionary investment advisory services (**Flexible** Accounts) through our web or mobile platform by assessing your risk tolerance, recommending certain ETFs based on that assessment. Because we have no discretionary authority over your account(s), you make the ultimate decision regarding the purchase or sale of investments and we will not monitor your account.

The accuracy of your investor profile will affect the results of our recommendations. When your profile requires updates or corrections, you may make changes by accessing your settings page in the app. Other than providing these recommendations, we do not tailor our services to your individual financial circumstances.

**Automated** (discretionary) Accounts – We will construct a diversified portfolio comprised of ETFs based on your risk profile. Automated Accounts are rebalanced automatically and daily for cash balance, allocation drift and changes to the portfolio holdings according to parameters we have created. Portfolio holdings are reviewed by our investment committee at least quarterly.

**Account Minimums:** Our advisory program has a one-dollar minimum account size requirement.

**Limited Investment Offerings:**

The securities available are a limited universe of exchange traded funds (“ETFs”) and equities, subject to change, as determined by the clearing firm. All users have access to the same universe of securities. We do not offer proprietary investment products.

While we do not accept custody of client assets, we work with a qualified custodian. For additional information, please see our Carry Advisors Brochure.

**Conversation Starters:**

- *Given my financial situation, should I choose to work with an investment adviser? Why or why not?*
