

Duet Advisory Services, LLC– Form CRS

Item 1 – Introduction

Duet Advisory Services, LLC (“Duet,” “we” or “us”) is registered with the Securities Exchange Commission (“SEC”) as an investment adviser. Our services and compensation structure differ from a registered broker-dealer, and it is important for you to understand the differences between those structures. Free and simple tools are available to research firms and financial professionals at www.investor.gov/CRS. The site also provides educational materials about broker-dealers, investment advisers and investing. The italicized sentences appearing in text boxes below are intended to be “conversation starters” for you to have with us, as required by the instructions to Form CRS.

Item 2 – Relationships and Services

What investment services and advice can you provide me?

Duet offers to provide discretionary and non-discretionary investment advisory services, financial planning services, and related consulting services to individuals, high net worth individuals, their affiliated trusts and estates, and businesses (“clients,” or “you”). For our investment advisory services, we manage portfolios based on each client’s unique investment objectives, risk tolerance, investment time horizon, withdrawal requirements, and other special circumstances. We monitor portfolios periodically and make or propose changes to them as we deem necessary. If we manage your portfolio on a discretionary basis, we have the authority to buy and sell investments in your accounts and/or select/replace third party independent investment managers (“Independent Managers”) without speaking to you before doing so. However, you can place reasonable restrictions on the securities that we buy or Independent Managers we select by notifying us, in writing. If we manage your portfolio on a non-discretionary basis, you make the ultimate decision regarding the purchase or sale of investments, and we cannot execute any account transactions without obtaining your prior consent. Therefore, if we would like to execute a transaction for your non-discretionary account and you are not available to provide consent, we would not be able to execute that transaction, which could place your portfolio at a disadvantage.

We do not have to limit the type of securities we trade for clients to proprietary products or a limited group or type of investment, but we generally construct and manage portfolios consisting primarily of various mutual funds, exchange traded funds (“ETFs”), portfolios managed by Independent Managers, individual equity securities, cash and cash equivalents consistent with the client’s designated investment objectives. While we do not impose any mandatory requirements for opening or maintaining investment advisory accounts, we generally seek to work with clients having at least \$250,000 in assets designated for our management. We also offer financial planning and consulting services on a stand-alone, separate fee basis. When we provide those services, we rely upon the information clients provide and do not verify or monitor it before or after we provide the services. Our financial planning and consulting services are completed upon the communication of our recommendations, delivery of a written financial plan, or termination of the applicable agreement. For more detailed information about our Advisory Business and the Types of Clients we generally service, please see Items 4 and 7, respectively in our [ADV Part 2A Brochure](#).

<i>Given my financial situation, should I choose an investment advisory service? Why or why not?</i>
<i>How will you choose investments to recommend to me?</i>
<i>What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?</i>

Item 3 – Fees, Costs, Conflicts, and Standard of Conduct

What fees will I pay?

Duet’s standard fee for discretionary or non-discretionary investment advisory services (excluding engagements with an allocation to Independent Managers) will be prorated and charged quarterly based on a percentage of the combined market value of the assets placed under Duet’s management, ranging from 0.90% to 1.50%. For clients who engage Duet to provide discretionary investment advisory services using Independent Managers, Duet’s investment advisory fee generally ranges between 0.90% and 1.25% of the value of assets under management through the applicable Independent Managers, payable monthly. This investment advisory fee is separate from, and in addition to, the fees that the respective platform sponsor and the Independent Managers charge. For financial planning and consulting services, Duet either charges \$500 per hour, or generally between \$2,500 and \$10,000 on a fixed fee basis, according to the terms of a stand-alone financial planning and consulting agreement. Without limiting and in addition to the above, Duet charges a flat fee of 1% of assets under Duet’s management contained in a variable annuity product and would exclude the value of those assets from the investment advisory fee calculation under the above fee schedule.

Your account will be held with a qualified custodian. Custodians and their affiliated or unaffiliated broker dealers generally charge transaction fees for executing certain types of securities transactions and for costs to maintain your investment account according to their fee schedules. Those fees and expenses include but are not limited to transaction charges, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. If your assets are allocated to an Independent Manager, you will incur a separate and additional charge for their services and typically a platform fee to compensate the platform sponsor for maintaining the platform and providing administrative services, subject to the terms of a separate agreement you sign with them. If your assets are invested in mutual funds, ETFs, or other registered and unregistered investment companies, you will bear your pro rata share

of the investment management fees and other fees of the funds, which are in addition to the fees you pay us. These fees and expenses are described in each fund's prospectus or other offering documents. You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. For more detailed information about our fees and costs related to our management of your account, please see Items 5 and 7 in our [ADV Part 2A Brochure](#).

Help me understand how these fees and costs might affect my investments. If I give you \$250,000 to invest, how much will go to fees and costs, and how much will be invested for me?

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means:

* Certain of our financial professionals may offer commission-based insurance products. This presents conflicts of interest, because they can recommend that you purchase insurance commission-based products based upon the compensation they will receive, rather than your individual need. You are not under any obligation to purchase those products.

* We may recommend a particular custodian from whom we receive support services. This presents a conflict of interest, because our receipt of their support make us more inclined to continue using and recommending them.

* We may recommend rollovers out of employer-sponsored retirement plans and into Individual Retirement Accounts that we manage for an asset-based fee. If we do not currently manage your account held with your employer's plan, this will increase our compensation.

How might your conflicts of interest affect me, and how will you address them?

For more detailed information about our conflicts of interest, please review Item 4, 5, 8, 10, 11, 12, and 14 of our [ADV Part 2A Brochure](#).

How do your financial professionals make money?

Our financial professionals are equity owners, who stand to earn a share of Duet's profits. This structure presents a conflict of interest because it could incentivize our financial professionals to recommend that you increase the amount of assets under our management. We mitigate that conflict by making investment recommendations in conformity with each client's investment objectives. You should discuss your financial professional's compensation directly with your financial professional.

Item 4 – Disciplinary History

Do you or your financial professionals have legal or disciplinary history?

No. We encourage you to visit www.investor.gov/CRS for a free and simple search tool to research our firm and our financial professionals.

As a financial professional, do you have any disciplinary history? For what type of conduct?

Item 5 – Additional Information

Additional information about our firm is available on the SEC's website at www.adviserinfo.sec.gov. You may contact our Chief Compliance Officer at 925-225-1135 to request a current copy of our [ADV Part 2A Brochure](#) or our relationship summary.

Who is my primary contact person? Is he or she a representative of an investment adviser or broker-dealer? Who can I talk to if I have concerns about how this person is treating me?
