Conversation Starter – You are encouraged to start a conversation with an investment professional by asking the following questions (noted in highlighted blue boxes throughout this summary):

- **Given my financial situation, should I choose an investment advisory service? Why or why not?**
- **How will you choose investments to recommend to me?**
- **What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?**

What fees will I pay?

Management fees are billed quarterly, in advance, in an amount determined by applying the annual rate to the **portfolio market value** on the last business day prior to the quarterly billing period. Fischer Investment Group, Inc. does not accept any performance-based fees. Fees are generally deducted directly from the client account.

- **Fee Schedule: 1.00% on the first \$2,000,000; 0.75% on the next \$3,000,000; 0.50% over \$5,000,000.**
- **Our firm calculates a quarterly fee as follows: $\$1,000,000 \times 1.00\% \div 4 = \$2,500$; Total Quarterly Fee on a portfolio market value of \$1,000,000: \$2,500.**

Fischer Investment Group's fee schedule does not include any brokerage fees, fund expenses, or transaction costs that the client may incur through investing. Our firm does not accept brokerage commissions; "A" share commissions, mutual fund 12-b1 marketing fees or soft dollar commissions. Although many SEC registered investment advisors accept soft dollar commissions, Fischer Investment Group's policy specifically prohibits receiving soft dollar commissions. You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. Fischer Investment Group may receive fees on a monthly basis. Please refer to our **SEC Form ADV Part II** for details on fees and costs.

- **Help me understand how fees and costs may affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?**

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. To help you understand what this means, here is an example of ways we make money and a potential conflicts of interest:

- *The more assets there are in your advisory account, the more you will pay in fees, and thus there is an incentive to encourage you to increase the assets in your account or invest in riskier investments to increase the account size.*

For other potential conflicts of interest, refer to our **SEC Form ADV Part II**.

- **How might your conflicts of interest affect me, and how will you address them?**

How do your financial professionals make money?

Our employees are paid a salary. In addition, employees may receive additional compensation or bonuses based on individual performance and the success of the firm, or client assets they service.

- **Can I access my account online? Will I receive electronic trade confirmations and statements?**
