

Part 2A of Form ADV: Firm *Brochure*

Item 1 - Cover Page

A. Firm name: LEHMANN LIVIAN FRIDSON ADVISORS, LLC

Business address: 450 7th Avenue, Suite 801
New York, NY 10123

Contact information: LEHMANN LIVIAN FRIDSON ADVISORS
Phone: (212) 319-8903
Fax: (212) 319-8905
E-mail: mlivian@llfadvisors.com

Website address: www.llfadvisors.com

Date of this brochure: March 25, 2024

B. This brochure provides information about the qualifications and business practices of LEHMANN LIVIAN FRIDSON ADVISORS, LLC ("LLFA"). If you have any questions about the contents of this brochure, please contact us at (212) 319-8903 or mlivian@llfadvisors.com. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Additional information about LLFA is also available on the SEC's website at www.adviserinfo.sec.gov.

C. We may occasionally refer to ourselves as "registered investment adviser" or "RIA." Please note that the term "registration" does not imply a certain level of skill or training.

Item 2 - Material Changes

The SEC adopted "Amendments to Form ADV" in July 2010. This Firm Brochure, dated March 25, 2024, is our disclosure document prepared according to the SEC's requirements and rules. As you will see, this document is a narrative that is substantially different in form and content and includes some new information that we were not previously required to disclose. The previous version of this Brochure was dated March 27, 2023.

After our initial filing of this Brochure, this Item will be used to provide our clients with a summary of new and/or updated information. We will inform you of the revision(s) based on the nature of the updated information.

Since the last version of this Brochure no material changes have occurred.

Consistent with the rules, we will ensure that you receive a summary of any material changes to this and subsequent Brochures within 120 days of the close of our business' fiscal year. Furthermore, we will provide you with other interim disclosures about material changes as necessary.

Item 4 - Advisory Business

- A. **Description of Advisory Business and Ownership of LLFA** - We are an investment management firm providing investment consulting as well as discretionary portfolio management services. Our typical clients are high net worth investors with a liquid net worth between one and fifty million US dollars. The firm was formed on June 19, 2013. The principal owner(s) of our firm are:

LIVIAN & CO., LLC –an SEC registered investment adviser majority owned by Michael Livian.

FRIDSONVISION, LLC – a firm owned by Martin Fridson

- B. **Our Advisory Services** - We provide two types of services to our clients: (i) Investment Supervisory Services (ii) Investment Consulting Services (iii) LivX Digital Investment Portfolios Program.

DISCLOSURE FOR RETIREMENT INVESTORS

Pursuant to the Employee Retirement Income Security Act ("ERISA"), and regulations under the Internal Revenue Code of 1986 (the "Code"), Livian & Co., LLC and individuals providing investment advice on our behalf will be deemed to be investment advice fiduciaries when we render individualized investment advice to retirement investors (a participant or beneficiary of a Plan with authority to direct the investment of assets in his or her account or to take a distribution, the beneficial owner of an IRA acting on behalf of the IRA, or a fiduciary of a Plan or an IRA) for a fee or other compensation, whether direct or indirect. While we are already fiduciaries for all of your advisory accounts under the Investment Advisers Act of 1940, we are required to acknowledge our fiduciary status under ERISA and the Code.

(i) INVESTMENT SUPERVISORY SERVICES

We manage advisory accounts on a discretionary and non-discretionary basis. Account supervision is guided by the stated objectives of the client (i.e., maximum capital appreciation, growth, income, or growth and income).

We will create a portfolio of preferred shares, common shares, debt securities as well as Exchange Traded Funds (ETF's) no-load, load-waived, and front-load open-end and closed-end mutual funds. We may occasionally utilize listed option contracts to hedge investment portfolios or to generate income. We will allocate the client's assets among various investments taking into consideration the overall management style selected by the client.

- We select debt securities based on any or all of the following criteria: issuer, credit rating, maturity of the security, price and yield, duration, liquidity of the security, and special features (i.e. embedded options).
- We select common and preferred shares based on any or all of the following criteria: fundamentals of the company, valuation ratios (price-earnings, price-sales, price to book value ratio, dividend yield), and certain quantitative/technical metrics of the price of the shares.
- We select ETFs and ETNs based on any or all of the following: geographic, sector and industry exposure, diversification in the underlying securities, size and liquidity of the instrument and expense ratio.
- We select mutual funds based on any or all of the following criteria: the fund's performance history, the industry sector in which the fund invests, the track record of the fund's manager, the fund's investment objectives, the fund's management style and philosophy, and the fund's management fee structure.

We also offer advice on a more limited basis for securities not recommended by LLFA but included in the client's portfolio at the client's request. In this situation, we will provide reporting services and we will advise the client on the merits of a particular security at the client's request; however, we will not monitor such investments, nor will LLFA take any action regarding the security, even in extreme market conditions, unless contacted by the client and specifically instructed as to the appropriate action to take.

(ii) INVESTMENT CONSULTING SERVICES

We also provide consulting services, in which we may be engaged by a client to provide advice on such areas as asset allocation, review of existing investments and suggestions for future investments, and structuring of investment portfolios.

(iii) LivX DIGITAL INVESTMENT PORTFOLIOS PROGRAM

We offer an automated investment program (the “Program” or “LivX Digital Investment Portfolios”) through which clients are invested in a range of investment strategies we have constructed and manage, each consisting of a portfolio of exchange-traded funds (“Funds”) and a cash allocation. The client may instruct us to exclude up to three Funds from their portfolio. The client’s portfolio is held in a brokerage account opened by the client at Charles Schwab & Co., Inc. (“CS&Co”). We use the Institutional Intelligent Portfolios[®] platform (“Platform”), offered by Schwab Performance Technologies (“SPT”), a software provider to independent investment advisors and an affiliate of CS&Co., to operate the Program. We are independent of and not owned by, affiliated with, or sponsored or supervised by SPT, CS&Co., or their affiliates (together, “Schwab”). We, and not Schwab, are the client’s investment advisor and primary point of contact with respect to the Program. We are solely responsible, and Schwab is not responsible, for determining the appropriateness of the Program for the client, choosing a suitable investment strategy and portfolio for the client’s investment needs and goals, and managing that portfolio on an ongoing basis. We have contracted with SPT to provide us with the Platform, which consists of technology and related trading and account management services for the Program.

The Platform enables us to make the Program available to clients online and includes a system that automates certain key parts of our investment process (the “System”). Option 1) The System includes an online questionnaire that can help us determine the client’s investment objectives and risk tolerance and select an appropriate investment strategy and portfolio. Clients should note that, if we use the online questionnaire, we will recommend a portfolio via the System in response to the client’s answers to the online questionnaire. Option 2) Based on information the client provides to us, we will recommend a portfolio via the System. The client may then indicate an interest in a portfolio that is one level less or more conservative or aggressive than the recommended portfolio, but we then make the final decision and select a portfolio based on all the information we have about the client. The System also includes an automated investment engine through which we manage the client’s portfolio on an ongoing basis through automatic rebalancing and tax-loss harvesting (if the client is eligible and elects).

We charge clients a fee for our services as described below under Item 5 Fees and Compensation. Our fees are not set or supervised by Schwab. Clients do not pay brokerage commissions or any other fees to CS&Co. as part of the Program. Schwab does receive other revenues in connection with the Program.

We do not pay SPT fees for the Platform so long as we maintain \$100 million in client assets in accounts at CS&Co. that are not enrolled in the Program. If we do not meet this condition, then we pay SPT an annual licensing fee of 0.10% (10 basis points) on the value of our clients’ assets in the Program. This fee arrangement gives us an incentive to recommend or require that our clients with accounts not enrolled in the Program be maintained with CS&Co.

The clients enrolled in the LivX Digital Investment Portfolios invest in a select portfolio of exchanged traded funds, researched by us, and cash. For most other LLFA clients we typically invest in income-oriented individual securities. The type of investments in the LivX Program may be materially different from those of a typical client of ours that uses our investment supervisory services.

- C. **Individual Client Needs and Restrictions** - We provide advice to clients regarding the investment of their funds based on their individual needs. Through personal discussions in which goals and objectives based on a client's particular circumstances are established, we develop a client's personal investment policy and create and manage a portfolio based on that policy.

Portfolio weighting between funds and market sectors will be determined by each client's individual needs and circumstances. Clients will have the opportunity to place reasonable restrictions on the types of investments, which will be made on the client's behalf. Clients will retain individual ownership of all securities.

D. **Wrap fee programs** – This item is not applicable; we do not participate in wrap fee programs.

E. **Assets Under Management** – The asset under management (AUM) of our firm as of February 29, 2024 are:

Type	AUM (\$mil)
Discretionary	79.9
Non-Discretionary	2.2
Total RAUM	82.1

Item 5 - Fees and Compensation

A. **Fee Schedule** – For our investment supervisory services and consulting services we charge an annual fee calculated as a percentage of assets under management, according to the schedule below:

(i) **INVESTMENT SUPERVISORY SERVICES**

INCOME AND “MULTI-DRIVER” PORTFOLIOS

Accounts up to \$1MM	1.00%
Any additional amounts between \$1MM and \$5MM	0.75%
Any additional amount above \$5M	0.50%

EQUITY PORTFOLIOS	1.50%
--------------------------------	-------

A minimum of \$500,000 of assets under management is required for the services above.

In certain circumstances, this minimum may be negotiable, and may be discounted for previous clients of RICHARD LEHMANN & ASSOCIATES, family members and relatives of the unit holders of LLFA.

(ii) **CONSULTING**
1% of advised assets

(iii) **LIVX DIGITAL INVESTMENT PORTFOLIOS**

LIVX DIGITAL INVESTMENT PORTFOLIOS	0.50%
---	-------

A minimum of \$5,000 of assets under management is required for this service.

Clients will be charged the fees in advance at the beginning of each calendar quarter based upon the quarter end value (market value or fair market value in the absence of market value, plus any credit balance or minus any debit balance) of the client's account for the previous quarter. Initial fees will be prorated for the number of days remaining in the quarter and based on the initial balance in the client's account.

Negotiability of Fees - In certain circumstances, we may negotiate our fees with the clients. We may charge different clients receiving the same services different fees. The above fee schedule is our basic fee schedule, generally charged to clients absent negotiable circumstances.

Fee Calculation - The fee charged is calculated as described above and is not charged on the basis of a share of capital gains upon or capital appreciation of the assets or any portion of the assets of an advisory client (Section 205(a)(1) of the Investment Advisers Act of 1940, as amended).

- B. **Fees charges methodology** - Our clients may select whether they prefer us (i) to deduct our fees from their assets or (ii) to bill them for the incurred fees. We will charge (bill or deduct) our fees to our clients in advance at the beginning of each calendar quarter based upon the quarter end value (market value or fair market value in the absence of market value, plus any credit balance or minus any debit balance) of the client's account for the previous quarter. Initial fees will be prorated for the number of days remaining in the quarter and based on the initial balance in the client's account.
- C. **Fees and Expenses other than advisory fees** - All fees paid to LLFA for investment advisory services are separate and distinct from the fees and expenses charged by custodians, brokerage firms to their clients and mutual funds to their shareholders. These fees and expenses are described in each custodian and brokerage firm's fee schedule and fund's prospectus.

Certain Custodians may charge a custody fee to hold the assets of the client and maintain their account.

Clients will incur brokerage and other transaction costs and should refer to item 12 of this document for further information.

Mutual fund fees will generally include a management fee, other fund expenses, and a possible distribution fee. A client could invest in a mutual fund directly, without our services. In that case, the client would not receive the services that we provide which are designed, among other things, to assist the client in determining which mutual fund or funds are most appropriate to each client's financial condition and objectives. Accordingly, the client should review both the fees charged by the funds and the fees charged by LLFA to fully understand the total amount of fees to be paid by the client and to thereby evaluate the advisory services being provided.

We will charge fees on cash balances in our clients' portfolio. If we maintain a certain cash balance in an investment plan, it is a reflection of a portfolio construction and investment decision.

As described in Item 4 Advisory Business, clients do not pay fees to SPT or brokerage commissions or other fees to CS&Co. as part of the LivX Digital Investment Portfolios' Program. Schwab does receive other revenues in connection with the Program. Brokerage arrangements are further described below in Item 12 Brokerage Practices.

- D. **Prepaid advisory fees and refunds** - Our clients pay their fees quarterly in advance. A client agreement may be canceled at any time, by either party, for any reason upon receipt of 30 days prior written notice. Upon termination of any account, any prepaid, unearned fees will be promptly refunded, and any earned, unpaid fees will be due and payable.

We will calculate the prorated amount of fees until the effective day of the termination of the agreement (30 calendar days after the receipt of the written notice) and refund the client for the balance of the pre-paid fee amount. The client has the right to terminate an agreement without penalty within five business days after entering into the agreement.

- F. **Other compensation** - LEHMANN LIVIAN FRIDSON ADVISORS and our supervised persons **do not** accept any compensation for the sale of securities or other investment products, including asset-based sales charges or service fees from the sale of mutual funds.

Item 6 - Performance-Based Fees and Side-By-Side Management

Our supervised persons and we **do not** accept any performance-based fees. Our related person, LIVIAN & CO, LLC manages a limited partnership (LIVIAN CAPITAL OPPORTUNITIES, LP) for accredited and qualified investors. This partnership accepts performance fees.

LIVIAN & CO. LLC and its supervised persons provide regular investment research, back-office, trading, compliance and operation services to LLFA and its clients. In the course of these activities, situations may arise where there is conflict in side-by-side management between the clients of LIVIAN & CO., LLC and LLFA.

For example, which clients have priority with recommendations/transactions, trade allocations or limited investment opportunities when these are equally suitable for LIVIAN & CO.'s and LLFA's clients?

In order to mitigate these conflicts, LIVIAN & CO. has adopted a TRADE ROTATION POLICY. LIVIAN & CO. will maintain a log of the recommendations, transactions, trade allocations and limited opportunities that are equally suitable for the clients of both entities and alternate the order of priority with which they are implemented. This TRADE ROTATION POLICY should ensure that we do not favor any clients over others (LIVIAN & CO's and LLFA's). The TRADE ROTATION POLICY applies to all "across the board" trades for clients; however, some exceptions may occur when:

- Clients request a transaction
- We execute a transaction for a specific client for liquidity needs
- We execute a transaction to replace a security that has been redeemed
- We execute a transaction for a specific client for specific tax reasons
- We execute a transaction to get a new client fully invested according to her/his investment plan.

Item 7 - Types of *Clients*

We generally provide investment advice to the following types of clients:

- Individuals
- Trust, estates and charitable organizations
- Corporations or business entities other than those listed above.

In order to open and maintain an account we require a minimum account size of \$500,000. In certain circumstances this minimum may be negotiable for family members of the principals of the firm and relationships that overall exceed \$500,000 but may be composed of smaller accounts.

Clients eligible to enroll in the LivX Digital Investment Portfolios Program include individuals, IRAs, and revocable living trusts. Clients that are organizations (such as corporations and partnerships) or government entities, and clients that are subject to the Employee Retirement Income Security Act of 1974, are not eligible for the Program. The minimum investment required to open an account in the Program is \$5,000. The minimum account balance to enroll in the tax-loss harvesting feature is \$50,000.

Item 8 - Methods of Analysis, Investment Strategies and Risk of Loss

- A. **Methods of Analysis and Investment Strategies** – In formulating investment advice or managing assets we use a combination of fundamental and technical analysis. Our process generally starts from the “top-down”: we consider several macro-economic and financial variables to formulate our assumptions on capital markets and asset classes (cash, fixed income, equities and other asset classes). We then formulate a strategy within each asset class and identify the most suitable securities to implement our views. We consider common fundamental and valuation metrics as well as technical indicators to identify suitable investments.

Methods of Analysis

- **Fundamental Analysis** - We attempt to measure the intrinsic value of an investment by looking at economic and financial factors (including the overall economy, industry conditions, and the financial condition and management of the company itself) to determine if the security is underpriced (indicating it may be a good time to buy) or overpriced (indicating it may be time to sell).

Fundamental analysis does not attempt to anticipate market movements. This presents a potential risk, as the price of a security can move up or down along with the overall market regardless of the economic and financial factors considered in evaluating the stock.

- **Technical Analysis** - We analyze past market movements and apply that analysis to the present in an attempt to recognize recurring patterns of investor behavior and potentially predict future price movement.

Technical analysis does not consider the underlying financial condition of a company. This presents a risk in that a poorly managed or financially unsound company may underperform regardless of market movement.

Our main sources of information are:

- Financial newspapers and magazines
- The Bloomberg Financial System
- Research material prepared by others
- Corporate rating services
- Annual reports, prospectuses and filings with the Securities and Exchange Commission
- Investment newsletters

Investment newsletters – Martin Fridson, LLFA’s Chief Investment Officer, is also the owner Income Securities Advisors LLC (“ISA”). ISA publishes a financial advisory newsletter, market commentary and model portfolios that may discuss/recommend securities and investments that may also be appropriate for LLFA’s clients. We have adopted the following policies and procedures with respect to the potential conflicts that may arise between managing client assets and ISA offering and selling financial advisory newsletter:

1. We may trade for our clients in securities that are included in ISA’s newsletter. However, despite this policy, we are aware of the conflicts of interest that may arise when trading securities that are recommended in the newsletter for advisory clients. We will, at all times, act in the best interest of our advisory clients.
2. ISA will only cover securities in the newsletter believed to be fit for the objectives of its subscribers; its model portfolios are developed solely for the newsletter. Income Securities Advisor will not cover securities because LLFA made investments on behalf of our advisory clients in a particular issuer.
3. Noting that the investment parameters of newsletter subscribers may differ from those of LLFA’s clients, it is possible that LLFA may act on behalf of LLFA’s clients in a manner contrary to the recommendations provided to newsletter subscribers.

Investment Strategies

We offer our clients both discretionary and non-discretionary portfolio management services. Within our discretionary mandates, we may either create a *customized investment program* to meet specific needs and requirements of a client or utilize a *model portfolio* approach.

We offer five model portfolios suitable for clients with different degrees of risk tolerance. The portfolios are listed in ascending order of riskiness.

- 1) Conservative Income
- 2) Moderate Income
- 3) Aggressive Income
- 4) “Multi-Driver” Portfolio
- 5) Equity Portfolio

We generally purchase securities as long-term investments (securities held at least for a year); however we may purchase tactical short-term investments (securities sold within a year). Occasionally we may implement some trading (securities sold within a month from their purchase date). We may at times use certain option transactions to protect or to increase the income of the investment portfolio.

We may provide investment advice on investments such as limited partnerships and private placement partnerships in other private investments in private equity, venture capital, or other opportunities. Investment advice may be offered on any investments held by a client or about which a client has expressed an interest. **Please note that investing in securities involves risk of loss that clients should be prepared to bear.**

- B. **Investment Strategies and Material Risks** – Investing in securities involves, in general, risk of loss that clients should be prepared to bear. Our investment strategies in principle aim to mitigate market risks through portfolio diversification.

Our Conservative, Moderate and Aggressive Income strategies are subject, in addition to other **general market risks**, to interest rate, credit and volatility/liquidity risk.

- **Interest rate risk** is the risk of a market value loss of a portfolio or of certain securities due to the general increase in interest rates.
- **Credit rate risk** is the risk of a market value loss of a portfolio or of certain securities due to the deterioration of the credit quality of an issuer, the downgrading of its credit rating or the default on its obligations.
- **Volatility/liquidity risk** is the risk that a security may not be promptly sold at generally prevailing market prices and that prices may fluctuate widely due to short-term market uncertainties.

Our strategies may occasionally utilize some trading strategies (securities held less than a month). **Securities trading** represents a significant or unusual risk and frequent trading can affect investment performance, particularly through increased brokerage and other transaction costs and taxes.

Our Equity strategy involves all of the risks discussed above and **concentration risk**. Concentration risk refers to the fact that certain securities may represent a large percentage of the portfolio and price changes or losses in that security may affect very significantly the value of the overall investment portfolio.

- C. **Type of Securities and Material Risks** – We recommend or utilize a wide array of securities in our clients’ investment portfolios, including but not limited to debt securities, mutual funds, exchange traded funds, exchange traded notes, common shares, preferred shares and listed options. All securities are subject to general market risks.

Item 9 - Disciplinary Information

All our supervised persons and we have not been subject to any material disciplinary or legal event. This item is Not Applicable.

Item 10 - Other Financial Industry Activities and Affiliations

- A. **Registration as broker-dealer or registered representative of a broker-dealer** – None of our personnel or us are registered as a broker dealer or as a registered representative of a broker dealer. This item is not applicable.
- B. **Registration as futures commission merchant, commodity pool operator and/or commodity trading advisor** – This item is not applicable.
- C. **Material relationships or arrangements with related persons**

Richard Lehmann is the former Chairman of the Board of Managers and a strategic advisor to LLFA. Richard Lehmann & Assoc. receives compensation for services rendered to us.

Martin Fridson is the owner of Income Security Advisors LLC (“ISA”), a company that publishes a financial advisory newsletter. ISA entered into a referral agreement with LLFA and receives compensation for referring clients to us.

LIVIAN & CO., LLC has a management agreement with LLFA and is responsible for record keeping, investment research, trading, reporting and compliance. LIVIAN & CO. receives an asset-based compensation from LLFA for the services rendered.

Michael Livian is the Chief Executive Officer of both LLFA and Livian & Co., an investment adviser firm registered with the SEC. LLFA has engaged Livian & Co., to provide trading and administrative services to LLFA. Mr. Livian serves on LLFA’s Investment Committee and also provides investment advice on behalf of Livian & Co. From time to time, Mr. Livian may identify an investment opportunity that is appropriate for the clients of both LLFA and Livian & Co. In this situation, the Livian & Co. trading desk will follow the trade rotation policy described in Item 6 of this brochure.

- D. **Other investment advisers and other compensation** – We do not recommend or select other investment advisers for our clients and receive directly or indirectly any compensation from those advisers. This item is not applicable.

Item 11 - Code of Ethics, Participation or Interest in *Client* Transactions and Personal Trading

- A. **Code of Ethics** - We have adopted a Code of Ethics expressing the firm's commitment to ethical conduct. Our Code of Ethics describes the firm's fiduciary duties and responsibilities to clients, and sets forth LLFA's practices of supervising the personal securities transactions of supervised persons with access to client information. Individuals associated with LLFA may buy or sell securities for their personal accounts identical to or different from those recommended to clients. It is our expressed policy that none of our employees shall prefer his or her own interest to that of an advisory client or make personal investment decisions based on the investment decisions of advisory clients.

To supervise compliance with our Code of Ethics, we require that anyone associated with this advisory practice with access to advisory recommendations provide annual securities holdings reports and quarterly transaction reports to the firm's Chief Compliance Officer. We require such access persons to also receive approval from the Chief Compliance Officer prior to investing in any IPO's or private placements (limited offerings).

We require that all individuals must act in accordance with all applicable Federal and State regulations governing registered investment advisory practices. Our Code of Ethics further includes the firm's policy prohibiting the use of material non-public information. Any individual not in observance of the above may be subject to discipline.

We will provide a complete copy of our Code of Ethics to any client or prospective client upon request to our Chief Compliance Officer at our principal address.

- B. **Material Financial Interest** – We or any related person do not recommend to clients or buy or sell for client accounts securities in which we or any related person has a material financial interest in without specific disclosures.
- C. **Personal Transactions** – We or a related person may buy or sell securities for our personal accounts identical to or different than those we recommend to our clients. This may represent a conflict of interest that we try to mitigate with our expressed policy that none of our employees shall prefer his or her own interest to that of an advisory client or make personal investment decisions based on the investment decisions for advisory clients. We require that anyone associated with our advisory practice with access to advisory recommendations provide annual securities holdings reports and quarterly transaction reports to the firm's Chief Compliance Officer and that they comply with Federal and State regulations applicable for registered investment advisers.
- D. Shareholders and employees of LLFA may themselves be advisory clients of LLFA, and we will treat them like any other client. Apart from this situation, personal transactions for LLFA and our related persons will not be included in blocks with client trades.

Item 12 - Brokerage Practices

- A. **Broker-dealers Selection** – We endeavor to select those brokers or dealers that will provide the best services at the lowest commission rates possible. The reasonableness of commissions is based on the broker's ability to provide professional services, competitive commission rates and other services, which will help us in providing investment management services to our clients. We may, therefore recommend the use of (or use) a broker who provides useful platform and securities transaction services even though a lower commission may be charged by a different broker.
- 1. **Research and Other Soft Dollar Benefits** - This item is not applicable. We do not receive research or other products or services other than execution from a broker-dealer or a third party in connection with *client* securities transactions (“soft dollar benefits”).
- 2. **Brokerage for *Client* Referrals** – This item is not applicable.
- 3. **Directed Brokerage.**
 - a. We do not routinely recommend, request or require that a *client* direct us to execute transactions through a specified broker-dealer. We may however recommend that our *clients* use Schwab and/or Fidelity Investments and its affiliate National Financial Services LLC (“Fidelity”) as Custodians and we may suggest that they use them also as a broker-dealer when the economics of the transactions are beneficial to the client. Clients may have accounts at Schwab and/or Fidelity and trade away from them.

With exclusive reference to clients enrolled in the LivX Digital Investment Portfolios Program, accounts are maintained at, and receive the brokerage services of, CS&Co., a broker- dealer registered with the Securities and Exchange Commission and a member of FINRA and SIPC. While clients are required to use CS&Co. as custodian/broker to enroll in the Program, the client decides whether to do so and opens its account with CS&Co. by entering into a brokerage account agreement directly with CS&Co. We do not open the account for the client. If the client does not wish to place his or her assets with CS&Co., then we cannot manage the client’s account through the Program. CS&Co. may aggregate purchase and sale orders for Funds across accounts enrolled in the Program, including both accounts for our clients and accounts for clients of other independent investment advisory firms using the Platform.

Schwab Advisor ServicesTM (formerly called Schwab Institutional) is Schwab's business serving independent investment advisory firms like us. Through Schwab Advisor Services, CS&Co. provides us and our clients, both those enrolled in the Program and our clients not enrolled in the Program, with access to its institutional brokerage services— trading, custody, reporting, and related services—many of which are not typically available to CS&Co. retail customers. CS&Co. also makes available various support services. Some of those services help us manage or administer our clients' accounts, while others help us manage and grow our business. CS&Co.'s support services described below are generally available on an unsolicited basis (we don't have to request them) and at no charge to us. The availability to us of CS&Co.'s products and services is not based on us giving particular investment advice, such as buying particular securities for our clients. Here is a more detailed description of CS&Co.'s support services:

CS&Co.'s institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of client assets. The investment products available through Schwab include some to which we might not otherwise have access or that would require a significantly higher minimum initial investment by our clients. CS&Co.'s services described in this paragraph generally benefit the client and the client's account. CS&Co. also makes available to us other products and services that benefit us but may not directly benefit the client or its account. These products and services assist us in managing and administering our clients' accounts. They include investment research, both Schwab's own and that of third parties. We may use this research to service all or some substantial number of our clients' accounts, including accounts not maintained at CS&Co. In addition to investment research, CS&Co. also makes available software and other technology that provide access to client account data (such as duplicate trade confirmations and account statements); facilitate trade execution and allocate aggregated trade orders for multiple client accounts; provide pricing and other market data; facilitate payment of our fees from our clients' accounts; and assist with back-office functions, recordkeeping, and client reporting. CS&Co. offers other services intended to help us manage and further develop our business enterprise. These may include:

- educational conferences and events;
- technology, compliance, legal, and business consulting;
- publications and conferences on practice management and business succession; and
- access to employee benefits providers, human capital consultants, and insurance providers.

CS&Co. may provide some of these services itself. In other cases, it will arrange for third-party vendors to provide the services to us. CS&Co. may also discount or waive its fees for some of these services or pay all or a part of a third party's fees. CS&Co. may also provide us with other benefits such as occasional business entertainment of our personnel.

The availability of services from CS&Co. benefits us because we do not have to produce or purchase them. We don't have to pay for these services, and they are not contingent upon us committing any specific amount of business to CS&Co. in trading commissions or assets in custody. With respect to the Program, as described above under Item 4 Advisory Business, we do not pay SPT fees for the Platform so long as we maintain \$100 Million in client assets in accounts at CS&Co. that are not enrolled in the Program. In light of our arrangements with Schwab, we may have an incentive to recommend that our clients maintain their accounts with CS&Co. based on our interest in receiving Schwab's services that benefit our business rather than based on the client's

interest in receiving the best value in custody services and the most favorable execution of transactions. This is a potential conflict of interest. We believe, however, that our selection of CS&Co. as custodian and broker is in the best interests of our clients. It is primarily supported by the scope, quality, and price of CS&Co.'s services and not Schwab's services that benefit only us.

b. Directed Brokerage - Many clients, when undertaking an advisory relationship, already have a pre-established relationship with a broker and they will instruct us to execute all transactions through that broker. In the event that a client directs us to use a particular broker or dealer, it should be understood that under those circumstances we will not have authority to negotiate commissions or obtain volume discounts and best execution may not be achieved. In addition, under these circumstances a disparity may exist between these commission charges and the commissions charged to other clients.

- B. Block Trades** - We will aggregate the purchase or sale of securities where possible and when advantageous to clients. This blocking of trades permits the trading of aggregate blocks of securities composed of assets from multiple clients' accounts so long as transaction costs are shared equally and on a pro-rated basis between all accounts included in any such block. Block trading allows us to execute trades in a more timely and equitable manner. Because it can often take time to contact and obtain permission to place trades for nondiscretionary clients, we will typically place trades for discretionary clients before trades are placed for non-discretionary clients. Non-discretionary clients may, therefore, receive different prices for securities trades than do discretionary clients, and investment opportunities available to discretionary clients may no longer be available by the time a non-discretionary client can be contacted by us.

Timing of Transactions Relative to Income Securities' Newsletter Publications –Martin Fridson is the owner of Income Securities Advisors LLC. ISA publishes a financial advisory newsletter, market commentary and model portfolios. This newsletter may discuss/recommend securities and investments that may also be appropriate for LLFA's clients.

When trading securities of companies that are discussed/recommended in the newsletter we will:

- 1) maintain a record of the securities and issuers featured in the newsletter for that month (**restricted list**)
- 2) we will not trade the securities in the restricted list for a period of 24 hours prior to and a period of 48 hours following the publication/dissemination of the newsletter (**black-out period**).

Item 13 - Review of Accounts

- A. Reviews** – The securities that we recommend or purchase in Investment Supervisory Services accounts are continuously reviewed. Investment Supervisory Services accounts are reviewed periodically and at least quarterly.

More frequent reviews may be triggered by material market, economic or political events, or by changes in the client's individual circumstances.

Investment Consulting accounts are reviewed as contracted for at the inception of the advisory relationship.

Our account reviews include a general review of the performance of the investment portfolio, of its overall asset allocation and alignment with the agreed targets. Furthermore, we review the size and performance of each individual position.

All the accounts are reviewed by Martin Fridson, CFA and Michael Livian, CFA.

- B. More Frequent Reviews** - More frequent reviews of the accounts may be triggered by material market, economic or political events, or by changes in the client's individual circumstances.

- C. **Regular Reports** – Our clients will receive regular reports from their broker-dealer and/or qualified custodian(s). We will provide additional reports as contracted for at the inception of the advisory relationship at least quarterly. The reports that we provide are written and will include information about the positions in the portfolio, the market value of the portfolio and the unrealized gain and losses.

Item 14 - Client Referrals and Other Compensation

- A. We receive an economic benefit from Schwab in the form of the support products and services it makes available to us. These products and services, how they benefit us, and the related conflicts of interest are described above under Item 12 Brokerage Practices. The availability to us of Schwab's products and services is not based on us giving particular investment advice, such as buying particular securities for our clients.
- B. Pursuant to the new Marketing Rule of the Investment Adviser Act of 1940 (amended in December 2020), we currently have a promoter's agreement with Income Securities Advisors LLC (ISA), a company owned by Martin Fridson (LLFA's Chief Investment Officer). ISA receives 30% of the client revenue referred by them to LLFA. We have entered into a similar promoter's agreement with Richard Lehmann & Associates (RLA). RLA receives 30% of the referred client revenue.

Item 15 - Custody

We have custody of clients' *funds* or *securities* in two instances.

- 1) Certain clients may choose for us to debit our advisory fees directly to their accounts (as evidenced in their investment advisory agreements). A qualified custodian (bank, broker-dealer or other qualified custodian) will send clients account statements directly, quarterly or more frequently. Clients should carefully review those statements. We may provide clients with additional reports and we urge them to compare them with the account statements that they receive from their qualified custodians.

With reference to the LivX Digital investment Portfolios Program, we are deemed to have custody of a client's assets if the client authorizes us to instruct CS&Co. to deduct our advisory fees directly from the client's account. This is the case for accounts in the Program. CS&Co. maintains actual custody of clients' assets. Clients receive account statements directly from CS&Co. at least quarterly. They will be sent to the email or postal mailing address the client provides to CS&Co. Clients should carefully review those statements promptly when received. We also urge clients to compare CS&Co.'s account statements to the reports clients receive from us.

- 2) In some instances, we assist clients in submitting their third-party wiring instructions to their qualified custodian. This is deemed to be custody, based on recent guidance from the US Securities and Exchange Commission. We will not provide this service to clients enrolled in the LivX Digital Investment Portfolios Program.

Item 16 - Investment Discretion

We do accept discretionary authority to manage securities account on behalf of clients.

For our discretionary clients, we request that it be provided with written authority to determine which securities and the amounts of securities that are bought or sold, the broker dealer to use for client transactions and the commissions costs that will be charged to our clients for these transactions. This written authority is generally included in our discretionary investment advisory agreements.

Any limitations on this discretionary authority shall be included in this written authority statement. Clients may change/amend these limitations as required. Such amendments shall be submitted in writing.

Item 17 - Voting *Client* Securities

- A. **Voting Authority** – We do not accept authority to vote *client* securities.
- B. We do not have authority to vote *client* securities. *Clients* will receive their proxies or other solicitations directly from their custodian or a transfer agent; *clients* can contact us with questions about a particular solicitation.

Item 18 - Financial Information

- A. This item is not applicable.
- B. We do not have any financial condition that is reasonably likely to impair our ability to meet contractual commitments to *clients*.
- C. **Bankruptcy Petition** – This item is not applicable.

Part 2B of Form ADV: *Brochure Supplement*

Item 1 - Cover Page

A.

1. Supervised Person: MARTIN FRIDSON, CFA
450 7th Avenue, Suite 801
New York, NY 10123
Phone: (212) 319-8903
