Part 2A Brochure

This brochure provides information about the qualifications and business practices of Pineridge Advisors, LLC. Pineridge Advisors, LLC conducts their advisory business under the name of FYRA Capital Management ("FYRA") to market the services they provide. If you have any questions about the contents of this brochure, please contact us at 636-573-1212. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority. Pineridge is a Registered Investment Advisor. Registration with the United States Securities and Exchange Commission or any state securities authority does not imply a certain level of skill or training.

Additional information about Pineridge Advisors, LLC is available on the SEC's website at www.adviserinfo.sec.gov. You can search this site by a unique identifying number, known as an IARD number. The IARD number for Pineridge Advisors, LLC is 315100.

ITEM 2 – MATERIAL CHANGES

SUMMARY OF MATERIAL CHANGES

This section of the Brochure will address only those “material changes” that have been incorporated since our last delivery or posting of this document on the SEC’s public disclosure website (IAPD) www.adviserinfo.sec.gov.

The following items are changes to our Brochure since the last filing made on February 14, 2023:

Item 4 has been updated to reference language regarding the Wrap Fee Program.

Item 5 was updated to reflect disclosure language on Regulatory Fees.

Item 10 was updated to add disclosure language regarding the Firm’s use of the services of Advisors Excel, a third-party insurance marketing organization ("IMO") to select appropriate products.

Item 14 was updated to reflect language that the firm pays a fee to participate in an online matching program that seeks to match prospective advisory clients with investment advisers. The program, which is operated by SmartAsset, provides information about investment advisory firms to persons who have expressed an interest in such firms.

Currently, a free copy of our Brochure may be requested by contacting Kyle Jones, Chief Compliance Officer of FYRA at 636-573-1212. We encourage you to read this document in its entirety.

ITEM 4 – ADVISORY BUSINESS

This Disclosure document is being offered to you by FYRA Capital Management (“FYRA” or “Firm”) about the investment advisory services we provide. It discloses information about the services that we provide and the way those services are made available to you, the client.

Pineridge Advisors, LLC (marketing the advisory services under the name of FYRA Capital Management) was registered as an Investment Advisor with the SEC in July 2021. The principal owners are Kyle Jones, Matthew Allgeyer, and Peggyann Mueller. Kyle Jones is the Chief Compliance Officer of the Firm.

Our Firm provides investment advice to clients in need of proactive wealth management. Our Firm focuses on helping these clients preserve wealth over multi-generational time periods and position their assets for smooth and efficient multi-generational transitions. Investment advisory services are initiated only after you and FYRA execute an investment management agreement.

INVESTMENT MANAGEMENT AND SUPERVISION SERVICES

We manage advisory accounts on a discretionary and non-discretionary basis. For discretionary accounts, once we have determined a profile and investment plan with a client, we will execute the day-to-day transactions without seeking prior client consent but within the expected investment guidelines. Account supervision is guided by the client’s written profile and investment plan. We will accept accounts with certain trading restrictions, if circumstances warrant. We primarily allocate client assets among various equities, Exchanged Traded Funds (“ETFs”), cash, no-load or load-waived mutual funds in accordance with their stated investment objectives. All of which are considered asset allocation categories for the client’s investment strategy.

During personal discussions with clients, we determine the client’s objectives, time horizons, risk tolerance, and liquidity needs. As appropriate, we also review a client’s prior investment history, as well as family composition and background. Based on client needs, we develop a client’s personal profile and investment plan. We then create and manage the client’s investments based on that policy and plan. It is the client’s obligation to notify us immediately if circumstances have changed with respect to their goals. Once we have determined the types of investments to be included in a client’s portfolio and have allocated the assets, we provide ongoing investment review and management services.

With our discretionary relationship, we will make changes to the portfolio, as we deem appropriate, to meet client financial objectives. We trade these portfolios based on the combination of our market views and client objectives, using our investment process. We

tailor our advisory services to meet the needs of our clients and seek to ensure that your portfolio is managed in a manner consistent with those needs and objectives. Clients have the ability to leave standing instructions with us to refrain from investing in particular industries or invest in limited amounts of securities.

If a non-discretionary relationship is in place, calls will be placed presenting the recommendation made and only upon your authorization will any action be taken on your behalf.

We do have limited authority to direct the Custodian to deduct our investment advisory fees from accounts, but only with the appropriate written authorization from clients.

Clients may engage us to advise on certain investment products that are not maintained at our Firm's recommended custodian, such as variable life insurance, annuity contracts, and assets held in employer sponsored retirement plans. Where appropriate, we provide advice about any type of held away account that is part of a client portfolio.

You are advised and are expected to understand that our past performance is not a guarantee of future results. Certain market and economic risks exist that adversely affect an account's performance. This could result in capital losses in your account.

FINANCIAL PLANNING

Through the financial planning process, our team strives to engage our clients in conversations around the family's goals, objectives, priorities, vision, and legacy – both for the near term as well as for future generations. With the unique goals and circumstances of each family in mind, our team will offer financial planning ideas and strategies to address the client's holistic financial picture, including estate, income tax, charitable, cash flow, wealth transfer, and family legacy objectives. Our team partners with our client's other advisors (CPAs, Enrolled Agents, Estate Attorneys, Insurance Brokers, etc.) to ensure a coordinated effort of all parties toward the client's stated goals. Such services include various reports on specific goals and objectives or general investment and/or planning recommendations, guidance to outside assets, and periodic updates.

Our specific services in preparing your plan may include:

- Review and clarification of your financial goals.
- Assessment of your overall financial position including cash flow, balance sheet, investment strategy, risk management, and estate planning.
- Creation of a unique plan for each goal you have, including personal and business real estate, education, retirement or financial independence, charitable giving, estate planning, business succession, and other personal goals.

- Development of a goal-oriented investment plan, with input from various advisors to our clients around tax suggestions, asset allocation, expenses, risk, and liquidity factors for each goal. This includes IRA and qualified plans, taxable, and trust accounts that require special attention.
- Design of a risk management plan including risk tolerance, risk avoidance, mitigation, and transfer, including liquidity as well as various insurance and possible company benefits; and
- Crafting and implementation of, in conjunction with your estate and/or corporate attorneys as tax advisor, an estate plan to provide for you and/or your heirs in the event of an incapacity or death.

A written evaluation of each client's initial situation or Financial Plan is provided to the client.

SUB-ADVISORY SERVICES

Our firm may determine that engaging the expertise of an independent sub-advisor is best suited for your account. Our firm will have discretion to utilize independent third-party investment advisor to aid in the implementation of investment strategies for your portfolio. In certain circumstances, we may allocate a portion of a portfolio to an independent third-party investment advisor (“Manager”) for separate account management based upon your individual circumstances and objectives, including, but not limited to, your account size and tax circumstances. Upon the recognition of such situations, in coordination with you, we will hire a Manager for the management of those assets. These advisors shall assist our Firm in managing the day-to-day investment operations of the various allocations, shall determine the composition of the investments comprising the allocation, shall determine what securities and other assets of the allocation will be acquired, held, disposed of or loaned in conformity with the written investment objectives, policies and restrictions and other statements of each client comprising the allocation, or as instructed by our Firm.

Managers selected for your investments need to meet several quantitative and qualitative criteria established by us. Among the criteria that may be considered are the Manager’s experience, assets under management, performance record, client retention, the level of client services provided, investment style, buy and sell disciplines, capitalization level, and the general investment process.

You are advised and should understand that:

- A Manager’s past performance is no guarantee of future results;

- There is a certain market and/or interest rate risk which may adversely effect any Manager's objectives and strategies, and could cause a loss in a Client's account(s); and
- Client risk parameters or comparative index selections provided to our firm are guidelines only and there is no guarantee that they will be met or not be exceeded.

Managers may take discretionary authority to determine the securities to be purchased and sold for the client. As stated in the Discretionary Advisory Agreement, our Firm and its associated persons will have discretionary authority to hire and fire the Manager. Our firm will work with the sub-advisor to communicate any trading restrictions or standing instructions to refrain from a particular industry requested by the Client. In all cases, trading restrictions will depend on the sub-advisor and their ability to accommodate such restrictions.

All performance reporting will be the responsibility of the respective Manager. Such performance reports will be provided directly to you and our firm. Disclosures will indicate what firm is providing the reporting.

Our Firm has entered into agreements with various independent Managers. All third-party Managers to whom we will refer clients will be licensed as registered investment advisors by their resident state and any applicable jurisdictions or registered investment advisors with the Securities and Exchange Commission. A complete description of the Manager's services, fee schedules and account minimums will be disclosed in the Manager's Form ADV or similar Disclosure Brochure.

We review the performance of our Managers on at least a quarterly basis. More frequent reviews may be triggered by changes in Manager's management, performance or geopolitical and macroeconomic specific events. Our Firm only enters into only a select number of relationships with Managers. We have agreed to pay a portion of the overall advisory fee charged to our clients to the Manager.

RETIREMENT PLAN ADVISORY SERVICES

Retirement Plan Advisory Services consists of helping employer plan sponsors to establish, monitor and review their company's retirement plan. As the needs of the plan sponsor dictate, areas of advising could include investment selection and monitoring, plan structure, and participant education.

Pursuant to Section 402(c)(3) of ERISA, the client may appoint us as the Plan's "investment manager" with respect to the Plan's portfolio of investment options. We acknowledge that we are registered as an investment advisor under the State Securities Statutes. Our firm acts as a "fiduciary" within the meaning of Section 3(21) of ERISA with respect to the Plan.

When serving as an ERISA 3(21) investment advisor, the Plan Sponsor and our Firm share fiduciary responsibility. The Plan Sponsor retains ultimate decision-making authority for the investments and may accept or reject the recommendations in accordance with the terms of a separate ERISA 3(21) Plan Sponsor Investment Management Agreement between our Firm and the Plan Sponsor. Under the 3(21) agreement, our Firm can provide the following services to the Plan Sponsor:

- **Review or Development of an Investment Policy Statement**
- **Perform Due Diligence on Money Managers**
- **Provide Initial Investment and Management Selection** - Our Firm typically uses mutual funds/managed accounts/collective trusts/cash equivalents to structure portfolios designed to meet client objectives and risk profiles.
- **Provide ongoing Performance Evaluation and Monitoring of Money Managers**
- **Make Investment Recommendations when necessary**
- **Retirement Plan Services Analysis** - Our Firm will conduct an analysis of a client's retirement plan to evaluate the services currently provided to the client by third parties. The areas of analysis may include asset management services, record keeping, administration, customer service, participant education, etc. These services may also include a cost/benefit analysis, recommendation of alternative vendors, facilitation of the RFP process for solicitation of a new vendor, and/or assistance in fee negotiations with proposed vendors.
- **Provide Employee Education Services** - Our Firm will provide enrollment and educational services the content of the program will be generic in nature.

PARTICIPANT ONE-ON-ONES

We can also be engaged to provide financial education to plan participants. The scope of education provided to participants will not constitute "investment advice" within the meaning of ERISA and participant education will relate to general principles for investing and information about the investment options currently in the plan.

DISCLOSURE REGARDING ROLLOVER RECOMMENDATIONS

A client or prospect leaving an employer typically has four options regarding an existing retirement plan (and may engage in a combination of these options): (i) leave the money in the former employer's plan, if permitted, (ii) roll over the assets to the new employer's plan, if one is available and rollovers are permitted, (iii) rollover to an Individual Retirement Account ("IRA"), or (iv) cash out the account value (which could, depending upon the client's age, result in adverse tax consequences). Our Firm may recommend an investor roll over plan assets to an IRA for which our Firm provides investment advisory services. As a result, our Firm and its representatives may earn an asset-based fee. In contrast, a

recommendation that a client or prospective client leave their plan assets with their previous employer or roll over the assets to a plan sponsored by a new employer will generally result in no compensation to our Firm. Our Firm therefore has an economic incentive to encourage a client to roll plan assets into an IRA that our Firm will manage, which presents a conflict of interest. To mitigate the conflict of interest, there are various factors that our Firm will consider before recommending a rollover, including but not limited to: (i) the investment options available in the plan versus the investment options available in an IRA, (ii) fees and expenses in the plan versus the fees and expenses in an IRA, (iii) the services and responsiveness of the plan's investment professionals versus those of our Firm, (iv) protection of assets from creditors and legal judgments, (v) required minimum distributions and age considerations, and (vi) employer stock tax consequences, if any. All rollover recommendations are also reviewed by our Firm's Chief Compliance Officer in a best effort to determine that the recommendation to a client was reasonable or that the client has determined to make the rollover after being provided ample information about their options. No client is under any obligation to roll over plan assets to an IRA advised by our Firm or to engage our Firm to monitor and/or advise on the account while maintained with the client's employer. Our Firm's Chief Compliance Officer remains available to address any questions that a client or prospective client has regarding this disclosure.

We are fiduciaries under the Investment Advisers Act of 1940 and when we provide investment advice to you regarding your retirement plan account or individual retirement account, we are also fiduciaries within the meaning of Title I of the Employee Retirement Income Security Act and/or the Internal Revenue Code, as applicable, which are laws governing retirement accounts. We have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests.

TAX PLANNING AND PREPARATION

Through an affiliated and separate entity, FYRA does provide tax planning and preparation for individuals and business owners. These services are provided to the client for a separate fee. Accounting services performed by these tax professionals may be separate and distinct from our advisory services. Refer to additional disclosure language under Item 10 of this Brochure.

WRAP FEE PROGRAM

FYRA Capital Management is the sponsor and manager of Wrap Program (the "Program"), a wrap fee program (i.e., an arrangement where brokerage commissions and transaction costs are absorbed by the Firm). The fee covers transaction costs or commissions resulting

from the management of your accounts, however, most investments trade without transaction fees today, so our payment of these and other incidental custodial related expenses should not be considered a significant factor in determining the relative value of our wrap program. Participants in the Program may pay a higher aggregate fee than if brokerage services are purchased separately. Additional information about the Program is available in FYRA's Wrap Brochure, which appears as Part 2A Appendix 1 of the Firm's Form ADV.

ASSETS

As of December 31, 2023, our Firm manages a total of \$393,499,399 in regulatory assets under management, all of which is under our discretionary management.

ITEM 5 - FEES AND COMPENSATION

INVESTMENT MANAGEMENT FEES AND COMPENSATION

FYRA charges a fee as compensation for providing Investment Management services on your account. These services include advisory and consulting services, trade entry, investment supervision, and other account-maintenance activities. Our recommended custodian charges transaction costs, custodial fees, redemption fees, retirement plan and administrative fees or commissions. See Additional Fees and Expenses below for additional details.

The fees for portfolio management are based on an annual percentage of assets under management and are applied to the account asset value on a pro-rata basis. Fees are billed monthly in arrears based on the average daily balance of the account(s) under our Firm's management. Unless otherwise agreed upon and stated in the Investment Management Agreement, fees are assessed on all assets under management, including securities, cash and money market balances. When applicable and noted in the Investment Management Agreement, legacy positions can be excluded from the fee calculation.

Our maximum annual advisory fee is for accounts paying a percentage of assets under management is 2.00% and the specific advisory fees are set forth in your Investment Advisory Agreement. Fixed Fees range from \$500-\$25,000 annually. Fees may vary based on the size of the account, complexity of the portfolio, extent of activity in the account or other reasons agreed upon by us and you as the client. In certain circumstances, our fees and the timing of the fee payments may be negotiated. Our employees and their family related accounts are charged a reduced fee for our services.

Unless otherwise instructed by the client, we will aggregate asset amounts in accounts from your same household together to determine the advisory fee for all your accounts. We would do this, for example, where we also service accounts on behalf of your minor

children, individual and joint accounts for a spouse, and/or other types of related accounts. This consolidation practice is designed to allow you the benefit of an increased asset total, which could cause your account(s) to be assessed a lower advisory fee.

The independent qualified custodian holding your funds and securities will debit your account directly for the advisory fee and pay that fee to us. You will provide written authorization permitting the fees to be paid directly from your account held by the qualified custodian. Further, the qualified custodian agrees to deliver an account statement monthly directly to you indicating all the amounts deducted from the account including our advisory fees. At our discretion, our Firm will allow advisory fees to be paid by check as indicated in the Investment Advisory Agreement. You are encouraged to review your account statements for accuracy.

Either FYRA or you may terminate the management agreement immediately upon written notice to the other party. The management fee will be pro-rated to the date of termination, for the month in which the cancellation notice was given and billed to your account. Upon termination, you are responsible for monitoring the securities in your account, and we will have no further obligation to act or advise with respect to those assets. In the event of client's death or disability, FYRA will continue management of the account until we are notified of client's death or disability and given alternative instructions by an authorized party.

FINANCIAL PLANNING FEES

Our Firm offers financial planning services for a separate fee. In this circumstance, we will negotiate the planning fees with you. Fees may vary based on the extent and complexity of your individual or family circumstances and the amount of your assets under our management. Our fee will be agreed in advance of services being performed. The fee will be determined based on factors including the complexity of your financial situation, agreed upon deliverables, and whether you intend to implement any recommendations through FYRA. Financial Planning fees are fixed fees only and range from \$500 to \$10,000. The specific fixed fee for your financial plan is specified in your planning agreement with FYRA.

Typically, we complete a plan within a month and will present it to you within 90 days of the contract date, if you have provided us all information needed to prepare the financial plan. Fees are billed and payable at the time the financial plan is delivered to you.

If you choose to terminate the financial planning agreement by providing us with written notice. Upon termination, fees will be prorated to the date of termination and any earned portion of the fee will be billed to you based on the hours that our firm has spent on creating your financial plan prior to termination. The hourly rate used for this purpose is

\$250/hour. The hourly rate would be stated in your executed Financial Planning Agreement.

We will not require prepayment of more than \$1200 in fees per client, six (6) or more months in advance of providing any services. In no case are our fees based on, or related to, the performance of your funds or investments.

SUB-ADVISOR FEES

As discussed in Item 4 above, there will be occasions where an independent Registered Investment Advisory firm acts as a sub-advisor to our Firm. In those circumstances, the other investment advisor manages the assets based upon the parameters provided by our Firm. Our Firm collects the client advisory fee as described above (not to exceed 1.85%) and then pays out the sub advisor a portion of advisory fee based on the assets under management for such services as outlined in the Agreement between our Firm and the sub-advisor.

RETIREMENT PLAN SERVICES

For Retirement Plan Advisory Services compensation, we charge an advisory fee as negotiated with the Plan Sponsor and as disclosed in the Employer Sponsored Retirement Plans Consulting Agreement ("Plan Sponsor Agreement"). Our maximum advisory fees do not exceed 0.75% annually. We do impose a minimum fee of \$1000/annually for all our Retirement Plan clients. Plan Sponsors may elect to be billed a flat dollar fixed fee. Fixed fees range from \$1,000 to \$100,000.

Typically, the billing period for these fees are paid quarterly. This fee is generally negotiable, but terms and advisory fee is agreed to in advance and acknowledged by the Plan Sponsor through the Plan Sponsor Agreement and/or Plan Provider's account agreement. Fee billing methods vary depending on the Plan Provider.

Either our Firm or the Plan Sponsor may terminate the Agreement upon 30 days written notice to the other party. The Plan Sponsor is responsible to pay for services rendered until the termination of the Agreement.

FEEX

FeeX is the third-party service provider whereby FYRA provides an additional service for accounts not directly held with our recommended custodian but where FYRA does have discretion and leverages an Order Management System to implement asset allocation or rebalancing strategies on behalf of the Client. These are primarily 401(k) accounts, 403(b) accounts, variable annuities, and other assets not held with the recommended custodian. FYRA and its Financial Advisors regularly review the current holdings and available

investment options in these accounts, monitors the account, rebalances, and implements our Firm's strategies, as necessary. Our firm is engaged with FeeX, an unaffiliated entity, to offer this service to our Clients.

ADMINISTRATIVE SERVICES

Through our relationship with AE Wealth Management (AEWM), our Firm utilizes AEWM's technology platform to support data reconciliation, performance reporting, fee calculation and billing, research, client database maintenance, quarterly performance evaluations, payable reports, web site administration, models, trading platforms, and other functions related to the administrative tasks of managing client accounts. Due to this arrangement, AEWM will have access to client information, but AEWM will not serve as an investment advisor to our clients. FYRA and AEWM are non-affiliated companies. AEWM charges our Firm an annual fee for each account administered by AEWM. The annual fee is paid from the portion of the management fee retained by us.

ADDITIONAL FEES AND EXPENSES:

In addition to the advisory fees paid to our Firm, clients also incur certain charges imposed by other third parties, such as broker-dealers, custodians, trust companies, banks and other financial institutions (collectively "Financial Institutions"). These additional charges include custodial fees, charges imposed by a mutual fund or ETF in a client's account, as disclosed in the fund's prospectus (e.g., fund management fees and other fund expenses), deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Our brokerage practices are described at length in Item 12, below.

Holding Fees

There are certain securities or investments a client wishes to purchase or hold in their account. These investment products may carry fees from the delivering firm to the Custodian. Custodians may also charge an additional fee for select securities and/or alternative investments to be included in the holdings of their account. Our Firm will communicate in writing to the client on the Advisory Agreement or Addendum if our firm will be reimbursing these "holding" fees. The reimbursement of these unique situations are based on the total assets in the client portfolio and client relationship. For some of the fee reimbursements, certain custodians do not allow our firm to directly reimburse additional fees directly into a client account. In those cases, the client reimbursement is processed and recorded with FYRA's quarterly billing statement.

Non-Transaction Fee (NTF) Mutual Funds

When selecting investments for our clients' portfolios we might choose mutual funds on your account custodian's Non-Transaction Fee (NTF) list. This means that your account

custodian will not charge a transaction fee or commission associated with the purchase or sale of the mutual fund.

The mutual fund companies that choose to participate in your custodian's NTF fund program pay a fee to be included in the NTF program. The fee that a mutual fund company pays to participate in the program is ultimately borne by the owners of the mutual fund including clients of our Firm. When we decide whether to choose a fund from your custodian's NTF list or not, we consider our expected holding period of the fund, the position size and the expense ratio of the fund versus alternative funds. Depending on our analysis and future events, NTF funds might not always be in your best interest.

Regulatory Fees

To facilitate the execution of trades, regulatory Trading Activity Fees (TAF) are added to applicable sales transactions. The Securities and Exchange Commission (SEC) regulatory fee is assessed on client accounts for sell transactions, and a FINRA fee is assessed on client accounts for sell transactions, for certain covered securities. This fee is not charged by our Firm but is assessed and collected by the custodian. The Custodian that our Firm uses, is a FINRA member firm. These fees recover the costs incurred by the SEC and FINRA, for supervising and regulating the securities markets and securities professionals. The fee rates vary depending on the type of transaction and the size of that transaction.

For more information on the SEC and FINRA fees, please visit their websites:

www.sec.gov/fast-answers/answerssec31htm.html

www.finra.org/industry/trading-activity-fee

ITEM 6 - PERFORMANCE BASED FEES AND SIDE-BY-SIDE MANAGEMENT

Our Firm does not engage in performance-based fees. No supervised person is compensated by performance-based fees. Performance-based fees may create an incentive for the advisor to recommend an investment that may carry a higher degree of risk.

ITEM 7 - TYPES OF CLIENTS

Our Firm works with the following types of clients: individuals, high net-worth individuals, foundations, employer sponsored retirement plans, charitable organizations, institutions, trusts and estates. We do not impose a minimum account value to initiate our Firm's advisory and money management services.

ITEM 8 - METHODS OF ANALYSIS, INVESTMENT STRATEGIES AND RISK OF LOSS

Portfolio strategy at our Firm may use the following methods of analysis in formulating our investment advice and/or managing client assets:

- **Fundamental Analysis:** We attempt to measure the intrinsic value of a security by looking at economic and financial factors (including the overall economy, industry conditions, and the financial condition and management of the company itself) to determine if the company is underpriced (indicating it may be a good time to buy) or overpriced (indicating it may be time to sell). Fundamental analysis does not attempt to anticipate market movements. This presents a potential risk, as the price of a security can move up or down along with the overall market regardless of the economic and financial factors considered in evaluating the stock.
- **Quantitative Analysis:** We use mathematical ratios and other performance appraisal methods in attempt to obtain more accurate measurements of a model manager's investment acumen, idea generation, consistency of purpose and overall ability to outperform their stated benchmark throughout a full market cycle. Additionally, we perform periodic measurements to assess the authenticity of returns. A risk in using quantitative analysis is that the models used may be based on assumptions that prove to be incorrect.
- **Technical Analysis—** We use this method of evaluating securities by analyzing statistics generated by market activity, such as past prices and volume. Technical analysts do not attempt to measure a security's intrinsic value, but instead use charts and other tools to identify patterns that can suggest future activity. Technical analysts believe that the historical performance of stocks and markets are indications of future performance. Technical analysis is even more subjective than fundamental analysis in that it relies on proper interpretation of a given security's price and trading volume data. A decision might be made based on a historical move in a certain direction that was accompanied by heavy volume; however, that heavy volume may only be heavy relative to past volume for the security in question, but not compared to the future trading volume. Therefore, there is the risk of a trading decision being made incorrectly, since future trading volume is an unknown. Technical analysis is also done through observation of various market sentiment readings, many of which are quantitative. Market sentiment gauges the relative degree of bullishness and bearishness in a given security, and a contrarian investor utilizes such sentiment advantageously. When most traders are bullish, then there are very few traders left in a position to buy the security in question, so it becomes advantageous to sell it ahead of the crowd. When most traders are bearish, then there are very few traders left in a position to sell the security in question, so it becomes advantageous to buy it ahead of the crowd. The risk in utilization of such sentiment technical measures is that a very bullish reading can always become more bullish, resulting in lost opportunity if the money manager chooses to act upon the bullish signal by selling out of a position.

The reverse is also true in that a bearish reading of sentiment can always become more bearish, which may result in a premature purchase of a security.

- **Asset Allocation:** Rather than focusing primarily on securities selection, we attempt to identify an appropriate ratio of securities, fixed income, and cash suitable to the client's investment goals and risk tolerance. A risk of asset allocation is that the client may not participate in sharp increases in a particular security, industry or market sector. Another risk is that the ratio of securities, fixed income, and cash will change over time due to stock and market movements and, if not corrected, will no longer be appropriate for the client's goals.
- **Mutual Fund and/or ETF Analysis:** We look at the experience and track record of the manager of the mutual fund or ETF in attempt to determine if that manager has demonstrated an ability to invest over a period of time and in different economic conditions. We also monitor the funds or ETFs in attempt to determine if they are continuing to follow their stated investment strategy.
A risk of mutual fund and/or ETF analysis is that, as in all securities investments, past performance does not guarantee future results. A manager who has been successful may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in a fund or ETF, managers of different funds held by the client may purchase the same security, increasing the risk to the client if that security were to fall in value. There is also a risk that a manager may deviate from the stated investment mandate or strategy of the fund or ETF, which could make the holding(s) less suitable for the client's portfolio.
- **Model Manager Analysis:** We examine the experience, expertise, investment philosophies, and past performance of Model Managers in attempt to determine if that manager has demonstrated an ability to invest over a period of time and in different economic conditions. We monitor the manager's underlying holdings, strategies, concentrations and leverage as part of our overall periodic risk assessment. Additionally, as part of our due-diligence process, we survey the Model Manager's compliance and business enterprise risks.

RISK OF LOSS

A client's investment portfolio is affected by general economic and market conditions, such as interest rates, availability of credit, inflation rates, economic conditions, changes in laws and national and international political circumstances.

Investing in securities involve certain investment risks. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss. FYRA will assist Clients in determining an appropriate strategy based on their tolerance for risk.

Each Client engagement will entail a review of the Client's investment goals, financial situation, time horizon, tolerance for risk and other factors to develop an appropriate strategy for managing a Client's account. Client participation in this process, including full and accurate disclosure of requested information, is essential for the analysis of a Client's account(s). FYRA shall rely on the financial and other information provided by the Client or their designees without the duty or obligation to validate the accuracy and completeness of the provided information. It is the responsibility of the Client to inform FYRA of any changes in financial condition, goals or other factors that may affect this analysis.

Our methods rely on the assumption that the underlying companies within our security allocations are accurately reviewed by the rating agencies and other publicly available sources of information about these securities, are providing accurate and unbiased data. While we are alert to indications that data may be incorrect, there is always a risk that our analysis may be compromised by inaccurate or misleading information.

Investors should be aware that accounts are subject to the following risks:

- **MARKET RISK** - Even a long-term investment approach cannot guarantee a profit. Economic, political, and issuer-specific events will cause the value of securities to rise or fall. Because the value of investment portfolios will fluctuate, there is the risk that you will lose money and your investment may be worth more or less upon liquidation.
- **FOREIGN SECURITIES AND CURRENCY RISK** - Investments in international and emerging-market securities include exposure to risks such as currency fluctuations, foreign taxes and regulations, and the potential for illiquid markets and political instability.
- **CAPITALIZATION RISK** - Small-cap and mid-cap companies may be hindered as a result of limited resources or less diverse products or services. Their stocks have historically been more volatile than the stocks of larger, more established companies.
- **INTEREST RATE RISK** - In a rising rate environment, the value of fixed-income securities generally declines, and the value of equity securities may be adversely affected.
- **CREDIT RISK** - Credit risk is the risk that the issuer of a security may be unable to make interest payments and/or repay principal when due. A downgrade to an issuer's credit rating or a perceived change in an issuer's financial strength may affect a security's value and thus, impact the fund's performance.
- **SECURITIES LENDING RISK** - Securities lending involves the risk that the fund loses money because the borrower fails to return the securities in a timely manner or at all. The fund could also lose money if the value of the collateral provided for loaned securities, or the value of the investments made with the cash collateral, falls. These events could also trigger adverse tax consequences for the fund.

- **EXCHANGE-TRADED FUNDS** - ETFs face market-trading risks, including the potential lack of an active market for shares, losses from trading in the secondary markets, and disruption in the creation/redemption process of the ETF. Any of these factors may lead to the fund's shares trading at either a premium or a discount to its "net asset value."
- **PERFORMANCE OF UNDERLYING MANAGERS** - We select the mutual funds and ETFs in the asset allocation portfolios. However, we depend on the manager of such funds to select individual investments in accordance with their stated investment strategy.
- **CYBERSECURITY RISK** - In addition to the Material Investment Risks listed above, investing involves various operational and "cybersecurity" risks. These risks include both intentional and unintentional events at our firm or one of its third-party counterparties or service providers, that may result in a loss or corruption of data, result in the unauthorized release or other misuse of confidential information, and generally compromise our Firm's ability to conduct its business. A cybersecurity breach may also result in a third-party obtaining unauthorized access to our clients' information, including social security numbers, home addresses, account numbers, account balances, and account holdings. Our Firm has established business continuity plans and risk management systems designed to reduce the risks associated with cybersecurity breaches. However, there are inherent limitations in these plans and systems, including that certain risks may not have been identified, in large part because different or unknown threats may emerge in the future. As such, there is no guarantee that such efforts will succeed, especially because our Firm does not directly control the cybersecurity systems of our third-party service providers. There is also a risk that cybersecurity breaches may not be detected.
- **NON-LIQUID ALTERNATIVE INVESTMENTS** - From time to time, our Firm will recommend to certain qualifying clients that a portion of such clients' assets be invested in private funds, private fund-of-funds and/or other alternative investments (collectively, "Nonliquid Alternative Investments"). Nonliquid Alternative Investments are not suitable for all of our Firm's clients and are offered only to those qualifying clients for whom our Firm believes such an investment is suitable and in line with their overall investment strategy. Nonliquid Alternative Investments typically are available to only a limited number of sophisticated investors who meet the definition of "accredited investor" under Regulation D of the Securities Act of 1933, as amended (the "Securities Act"), or "qualified client" under the Investment Advisors Act of 1940, or "qualified purchaser" under the Investment Company Act of 1940. Nonliquid Alternative Investments present special risks for our Firm's clients, including without limitation, limited liquidity, higher fees and expenses, volatile performance, no assurance of investment returns, heightened risk of loss, limited transparency, additional reliance on underlying management of the investment, special tax considerations, subjective valuations, use of leverage and limited regulatory oversight. When a Nonliquid Alternative Investment invests part or all of its assets in real estate properties, there are additional risks that are unique to real estate investing, including but not limited to: limitations of the appraisal value; the borrower's financial conditions (if the underlying property has been obtained by a loan), including the

- risk of foreclosures on the property; neighborhood values; the supply of and demand for properties of like kind; and certain city, state and/or federal regulations. Additionally, real estate investing is also subject to possible loss due to uninsured losses from natural and man-made disasters. The above list is not exhaustive of all risks related to an investment in Nonliquid Alternative Investments. A more comprehensive discussion of the risks associated with a particular Nonliquid Investment is set forth in that fund's offering documents, which will be provided to each client subscribing to a Nonliquid Alternative Investment, for review and consideration. It is important that each potential, qualified investor carefully read each offering or private placement memorandum prior to investing.
- **COMMODITIES RISK:** If the commodity is purchased in physical form, such as gold bars and coins, for example, there are risks associated with transporting it from the place of purchase and of storing it securely over time. There are also risks that the transaction costs of buying or selling the physical commodity may be high. Additionally, there may be liquidity risks (one-half of a gold coin cannot be sold, for example). If the commodity is purchased in non-physical form, such as unallocated gold accounts, ETFs or other unit and investment trusts, there are risks associated with the movement in gold prices and the ability of the fund or trust manager to respond or deal with those price movements. There also may be initial charges as well as annual management fees associated with the fund or trust.
 - **DIGITAL CURRENCY:** Our Firm's use of digital currency in a client portfolio is limited only to publicly traded securities that passively or actively invest in digital currency assets. The shares of certain products are also publicly quoted on OTC Markets and shares that have become unrestricted in accordance with the rules and regulations of the SEC may be bought and sold throughout the day through any brokerage account. Cryptocurrency (notably, bitcoin), often referred to as "virtual currency", "digital currency," or "digital assets," operates as a decentralized, peer-to-peer financial exchange and value storage that is used like money. If deemed appropriate, Clients may have exposure to bitcoin, a cryptocurrency. Cryptocurrency operates without central authority or banks and is not backed by any government. Cryptocurrencies (i.e., bitcoin) may experience very high volatility. Cryptocurrency is also not legal tender. Federal, state, or foreign governments may restrict the use and exchange of cryptocurrency, and regulation in the U.S. is still developing. The SEC has issued a public report stating U.S. federal securities laws require treating some digital assets as securities. Cryptocurrency exchanges may stop operating or permanently shut down due to fraud, technical glitches, hackers, or malware. Due to its relatively recent launch, bitcoin has a limited trading history, making it difficult for investors to evaluate investments in this cryptocurrency. It is possible that another entity could manipulate the blockchain in a manner that is detrimental to the bitcoin network. Bitcoin transactions are irreversible such that an improper transfer can only be undone by the receiver of the bitcoin agreeing to return the bitcoin to the original sender. Digital assets are highly dependent on their developers and there is no guarantee that development will continue or that developers will not abandon a project with little or no notice. Third parties may assert intellectual property claims relating to the holding and

transfer of digital assets, including cryptocurrencies, and their source code. Any threatened action that reduces confidence in a network's long-term ability to hold and transfer cryptocurrency may affect investments in cryptocurrencies. Investments in the products are speculative investments that involve high degrees of risk, including a partial or total loss of invested funds. The shares of each product are intended to reflect the price of the digital asset(s) held by such product (based on digital asset(s) per share), less such product's expenses and other liabilities. Because each product does not currently operate a redemption program, there can be no assurance that the value of such product's shares will reflect the value of the assets held by such product, less such product's expenses and other liabilities, and the shares of such product, if traded on any secondary market, may trade at a substantial premium over, or a substantial discount to, the value of the assets held by such product, less such product's expenses and other liabilities, and such product may be unable to meet its investment objective.

- **OPTION RISK:** Variable degree of risk. Transactions in options carry a high degree of risk. Purchasers and sellers of options should familiarize themselves with the type of option (i.e., put or call) which they contemplate trading and the associated risks. Traders of options should calculate the extent to which the value of the options must increase for the position to become profitable, taking into account the premium and all transaction costs.
 - The purchaser of options may offset or exercise the options or allow the options to expire. The exercise of an option results either in a cash settlement or in the purchaser acquiring or delivering the underlying interest. If the option is on a future, the purchaser will acquire a futures position with associated liabilities for margin (see the section on Futures below). If the purchased options expire worthless, the purchaser will suffer a total loss of the investment. In purchasing deep out-of-the-money options, the purchaser should be aware that the chance of such options becoming profitable ordinarily is remote.
 - Selling ("writing" or "granting") an option generally entails considerably greater risk than purchasing options. Although the premium received by the seller is fixed, the seller may sustain a loss well in excess of that amount. The seller will be liable for additional margin to maintain the position if the market moves unfavorably. The seller will also be exposed to the risk of the purchaser exercising the option and the seller being obligated to either settle the option in cash or to acquire or deliver the underlying interest. If the option is on a future, the seller will acquire a position in a future with associated liabilities for margin (see the section on Futures below). If the option is "covered" by the seller holding a corresponding position in the underlying interest or a future or another option, the risk may be reduced. If the option is not covered, the risk of loss can be unlimited.
 - Certain exchanges in some jurisdictions permit deferred payment of the option premium, exposing the purchaser to liability for margin payments not exceeding the amount of the premium. The purchaser is still subject to the risk of losing the premium and transaction costs. When the option is exercised or expires, the purchaser is responsible for any unpaid premium outstanding at that time.

- **STRUCTURED PRODUCTS** – Structured products are securities derived from another asset, such as a security or a basket of securities, an index, a commodity, a debt issuance, or a foreign currency. Structured products frequently limit the upside participation in the reference asset. Structured products are senior unsecured debt of the issuing bank and subject to the credit risk associated with that issuer. This credit risk exists whether or not the investment held in the account offers principal protection. The creditworthiness of the issuer does not affect or enhance the likely performance of the investment other than the ability of the issuer to meet its obligations. Any payments due at maturity are dependent on the issuer’s ability to pay. In addition, the trading price of the security in the secondary market, if there is one, may be adversely impacted if the issuer’s credit rating is downgraded. Some structured products offer full protection of the principal invested, others offer only partial or no protection. Investors may be sacrificing a higher yield to obtain the principal guarantee. In addition, the principal guarantee relates to nominal principal and does not offer inflation protection. An investor in a structured product never has a claim on the underlying investment, whether a security, zero coupon bond, or option. There may be little or no secondary market for the securities and information regarding independent market pricing for the securities may be limited. This is true even if the product has a ticker symbol or has been approved for listing on an exchange. Tax treatment of structured products may be different from other investments held in the account (e.g., income may be taxed as ordinary income even though payment is not received until maturity). Structured CDs that are insured by the FDIC are subject to applicable FDIC limits.

ITEM 9 - DISCIPLINARY INFORMATION

We do not have any legal, financial or other “disciplinary” item to report.

ITEM 10 - OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS

INSURANCE

Some of our IARs are also licensed insurance agents and sell various life insurance products, long term care and fixed annuities. Our IARs receive compensation (commissions, trails, or other compensation from the respective product sponsors) as a result of effecting insurance transactions for clients. A portion of the time IARs spend (generally 10%) is in connection with these insurance activities and it represents 10% of the ongoing revenue for our IARs. The advisor has an incentive to recommend insurance and this incentive creates a conflict of interest between your interests and our Firm. Clients should note that they have the right to decide whether or not to engage the services of our IARs. Further, clients should note they have the right to decide whether to act on the recommendations and the right to choose any professional to execute the advice for any insurance products through our IAR or any licensed insurance agent not

affiliated with our Firm. We recognize the fiduciary responsibility to place your interests first and have established policies in this regard to avoid any conflicts of interest.

DUALLY REGISTERED INVESTMENT ADVISORS

Our Investment Adviser Representatives (“IAR”) are IARs of another Investment Registered Advisor. These IARs are considered dually registered IARs. Please note this dual registration is temporary and only for the transitioning of clients to our Firm. No new advisory business will be conducted under the other Registered Investment Adviser.

TAX SERVICES

Kyle Jones & Matthew Allgeyer, owners of FYRA, own and operate Equitas Accounting LLC (“Equitas”), a separate and affiliated limited liability corporation. Equitas offers tax preparation and planning services. Mr. Jones and Mr. Allgeyer have an incentive to recommend tax services and this incentive creates a conflict of interest between your interests and our Firm. IARs of FYRA will receive additional compensation for the tax services performed by the CPA related work. Any fees received through the tax services do not offset advisory fees the client may pay for advisory services under FYRA.

We mitigate this conflict by disclosing to clients they have the right to decide whether to engage the services offered through Equitas. Further, clients should note they have the right to decide whether to act on the recommendations and the right to choose any professional to execute the advice for any tax services through any Certified Public Accountant not affiliated with our Firm. We recognize the fiduciary responsibility to place the client’s interests first and have established policies in this regard to avoid any conflicts of interest. Fees for these services are paid directly to Equitas. If negotiated by the Firm and outlined in the Financial Planning Agreement, financial planning fees described in Item 5 may include the fees for tax preparation and planning by Equitas.

BROKER DEALER

Certain IARs of FYRA are registered representatives of Advisors Excel Financial Services, LLC a securities broker-dealer and will be compensated for effecting securities transactions or providing advisory services. A portion of the time of FYRA and these IARs is spent in connection with broker/dealer activities.

As a broker-dealer, Advisors Excel Financial Services, LLC engages in a broad range of activities normally associated with securities brokerage firms. Pursuant to the investment advice given by FYRA or its IARs, investments in securities may be recommended for clients. If Advisors Excel Financial Services, LLC is selected as the broker-dealer, Advisors Excel Financial Services, LLC and its registered representatives, including IARs of FYRA, may receive commissions for executing securities transactions. When IARs of FYRA receive

commissions in connection with the advice given to advisory clients, FYRA may reduce a portion of its fees by the amount of the commissions earned by FYRA IARs. Clients that purchase any products resulting in commission to the registered representative will not be assessed an advisory fee on those products sold through the broker-dealer.

You are advised that if Advisors Excel Financial Services, LLC is selected as the broker-dealer, the transaction charges may be higher or lower than the charges you may pay if the transactions were executed at other broker/dealers. You should note, however, that you have the right to decide to purchase products through the broker dealer. If you do decide to purchase products, you have the right to choose from whom you will purchase the products.

FYRA may provide advice regarding mutual fund securities. You should be aware that, in addition to the advisory fees you pay in connection with any FYRA program, each investment company also pays its own separate investment advisory fees and other expenses. Mutual funds also charge their own internal separate fees for investing in their fund. Such fees and expenses are disclosed in the mutual fund's prospectus. In addition, clients should be aware that mutual funds may be purchased separately, independent of the investment management services of FYRA and fees of FYRA.

Moreover, you should note that under the rules and regulations of FINRA, Advisors Excel Financial Services, LLC has an obligation to maintain certain client records and perform other functions regarding certain aspects of the investment advisory activities of its registered representatives. These obligations require Advisors Excel Financial Services, LLC to coordinate with and have the cooperation of its registered representatives that operate as, or are otherwise associated with, investment advisors other than Advisors Excel Financial Services, LLC.

SUB ADVISOR RELATIONSHIPS

Please refer to Item 4 and Item 5 above for more information about the selection of sub-advisors used with our services. Our firm pays a portion of the advisory fee to the sub-advisor. A conflict of interest for our firm in utilizing a sub advisor is receipt of discounts or services not available to us from other similar sub advisors. In order to minimize this conflict our firm will make our recommendations and selections of sub-advisors in the best interest of our clients.

THIRD PARTY MARKETING ORGANIZATION (IMO) – ADVISORS EXCEL

The Firm will utilize the services of Advisors Excel, a third-party insurance marketing organization ("IMO") to select appropriate products. Advisors Excel is an affiliate of AE Wealth Management and the Firm's decision to work with AE Wealth Management is

significantly based on the Firm's IMO relationship with Advisors Excel. IMOs offer special incentive compensation to meet certain overall sales goals by placing annuities and/or other insurance products through the IMO. The receipt of commissions and additional incentive compensation itself creates a conflict of interest. Clients are not required to purchase any insurance products through us in the Firm's separate capacity as insurance agents. The purpose of the IMO is to assist us in finding the insurance company that best fits the client's situation.

Advisors Excel and Advisors Excel Wealth Management provides marketing assistance and business development tools to acquire new clients, technology with the goal of improving the client experience and the Firm's efficiency, back office and operations support to assist in the processing of the Firm's insurance (through Advisors Excel) and investment services (Advisors Excel Wealth Management) for clients, business succession planning, business conferences and incentive trips for the Firm. Although some of these services can benefit a client, other services obtained by us from Advisors Excel such as marketing assistance, business development and incentive trips will not benefit an existing client. The Firm can also receive bonus payments from an insurance company for selling a targeted number of annuities during a specified period of time which creates a conflict of interest.

The Firm has taken steps to manage these conflicts of interest by requiring that each investment advisor representative:

- only recommend insurance and annuities when in the best interest of the client and without regard to the financial interest of the Firm and its investment advisor representative.
- not recommend insurance and/or annuities which result in its investment advisor representative and/or the Firm receiving unreasonable compensation related to the recommendation; and,
- disclose material conflicts of interest related to insurance or annuity recommendations.

OTHER AFFILIATIONS

Kyle Jones and Matthew Allgeyer, Managing Members of the Firm, are also Managing Members of FYRA, LLC. FYRA LLC is a commonly owned entity used for payroll and bookkeeping purposes. FYRA Capital Management is used as a marketing name for the advisory business conducted under Pineridge Advisors, LLC.

Clients should be aware that the ability to receive additional compensation by our Firm and its management persons or employees creates conflicts of interest that impair the

objectivity of the Firm and these individuals when making advisory recommendations. Our Firm endeavors at all times to put the interest of its clients first as part of our fiduciary duty as a registered investment advisor; we take the following steps, among others to address this conflict:

- we disclose to clients the existence of all material conflicts of interest, including the potential for the Firm and our employees to earn compensation from advisory clients in addition to the Firm's advisory fees;
- we disclose to clients that they have the right to decide to purchase recommended investment products from our employees.
- we collect, maintain and document accurate, complete and relevant client background information, including the client's financial goals, objectives, and liquidity needs.
- the Firm conducts regular reviews of each client advisory account to verify that all recommendations made to a client are in the best interest of the client's needs and circumstances.
- we require that our employees seek prior approval of any outside employment activity so that we may ensure that any conflicts of interests in such activities are properly addressed.
- we periodically monitor these outside employment activities to verify that any conflicts of interest continue to be properly addressed by the Firm.

Our Firm does not have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading advisor, or an associated person of the foregoing entities.

Our firm nor any of its management persons are registered or have an application pending to register as a broker-dealer or a registered representative of a broker-dealer.

ITEM 11 - CODE OF ETHICS

Our Firm and persons associated with us are allowed to invest for their own accounts, or to have a financial investment in the same securities or other investments that we recommend or acquire for your account and may engage in transactions that are the same as or different than transactions recommended to or made for your account. This creates a conflict of interest. We recognize the fiduciary responsibility to act in your best interest and have established policies to mitigate conflicts of interest.

We have developed and implemented a Code of Ethics that sets forth standards of conduct expected of our advisory personnel to mitigate this conflict of interest. The Code of Ethics

addresses, among other things, personal trading, gifts, and the prohibition against the use of inside information.

The Code of Ethics is designed to protect our clients to detect and deter misconduct, educate personnel regarding the Firm's expectations and laws governing their conduct, remind personnel that they are in a position of trust and must act with complete propriety at all times, protect the reputation of FYRA, safeguard against the violation of the securities laws, and establish procedures for personnel to follow so that we may determine whether their personnel are complying with the Firm's ethical principles.

We have established the following restrictions in order to ensure our Firm's fiduciary responsibilities:

- No supervised employee of FYRA shall prefer his or her own interest to that of the advisory client. Trades for supervised employees are traded alongside client accounts.
- We maintain a list of all securities holdings of anyone associated with this advisory practice with access to advisory recommendations. These holdings are reviewed on a regular basis by an appropriate officer/individual of FYRA.
- We emphasize the unrestricted right of the client to decline implementation of any advice rendered, except in situations where we are granted discretionary authority of the client's account.
- We require that all supervised employees must act in accordance with all applicable Federal and State regulations governing registered investment advisory practices.
- Any supervised employee not in observance of the above may be subject to termination.

None of our associated persons may affect for himself/herself or for accounts in which he/she holds a beneficial interest, any transactions in a security which is being actively recommended to any of our clients, unless in accordance with the Firm's procedures.

You may request a complete copy of our Code by contacting us at the address, telephone, or email on the cover page of this Part 2; ATTN: Kyle Jones, Chief Compliance Officer.

ITEM 12 - BROKERAGE PRACTICES

Clients must maintain assets in an account at a "qualified custodian," generally a broker-dealer or bank. We recommend that our clients use Charles Schwab & Co., Inc. Advisor Services, among others ("Custodian"). These are all registered broker-dealers, member SIPC, and will act as the qualified custodian. We are independently owned and operated, and unaffiliated with Custodian. Custodian will hold client assets in a brokerage account, and buy and sell securities when we instruct them to. While we recommend that clients

use Custodian as custodian/broker, client must decide whether to do so and open accounts with Custodian by entering into account agreements directly with them. The Client opens the accounts with Custodian. The accounts will always be held in the name of the client and never in FYRA's name.

How We Select Brokers/Custodians

We seek to recommend a custodian/broker who will hold client assets and execute transactions on terms that are, overall, most advantageous when compared to other available providers and their services. We consider a wide range of factors, including, among others:

1. Combination of transaction execution services and asset custody services (generally without a separate fee for custody)
2. Capability to execute, clear, and settle trades (buy and sell securities for client accounts)
3. Capability to facilitate transfers and payments to and from accounts (wire transfers, check requests, bill payment, etc.)
4. Breadth of available investment products (stocks, bonds, mutual funds, exchange-traded funds [ETFs], etc.)
5. Availability of investment research and tools that assist us in making investment decisions
6. Quality of services
7. Competitiveness of the price of those services (commission rates, other fees, etc.) and willingness to negotiate the prices
8. Reputation, financial strength, and stability
9. Prior service to FYRA and our other clients
10. Availability of other products and services that benefit us, as discussed below (see Products and Services Available to Us from Custodian)

Client Brokerage and Custody Costs

For our clients' accounts that Custodian maintains, Custodian generally does not charge separately for custody services. However, Custodian receives compensation by charging ticket charges or other fees on trades that it executes or that settle into clients' Custodian accounts. We have determined that having Custodian execute most trades is consistent with our duty to seek "best execution" of client trades. Best execution means the most favorable terms for a transaction based on all relevant factors, including those listed above (see How We Select Brokers/Custodians).

Products and Services Available to Us from Custodian

The Custodian will provide FYRA and our clients with access to its institutional brokerage, trading, custody, reporting, and related services, many of which are not typically available to Custodian retail customers. Custodian also makes available various support services. Some of those services help us manage or administer our clients' accounts; others help us manage and grow our business. Custodian's support services generally are available on an unsolicited basis (we do not have to request them) and at no charge to us. These are considered soft dollar benefits because there is an incentive to do business with Custodian. This creates a conflict of interest. We recognize the fiduciary responsibility to act in your best interest and have established policies in this regard to mitigate any conflicts of interest.

Following is a more detailed description of Custodian's support services:

Services That Benefit Our Clients

Custodian's institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of client assets. The investment products available through Custodian include some to which we might not otherwise have access or that would require a significantly higher minimum initial investment by our clients. Custodian's services described in this paragraph generally benefit our clients and their accounts.

Services That May Not Directly Benefit Our Clients

Custodian also makes available to us other products and services that benefit us but may not directly benefit our clients or their accounts. These products and services assist us in managing and administering our clients' accounts. They include investment research, both Custodian's own and that of third parties. We may use this research to service all or a substantial number of our clients' accounts, including accounts not maintained at Custodian. In addition to investment research, Custodian also makes available software and other technology that:

1. Provide access to client account data (such as duplicate trade confirmations and account statements)
2. Facilitate trade execution and allocate aggregated trade orders for multiple client accounts
3. Provide pricing and other market data
4. Facilitate payment of our fees from our clients' accounts
5. Assist with back-office functions, recordkeeping, and client reporting

Services That Generally Benefit Only Us

Custodian also offers other services intended to help us manage and further develop our business enterprise.

These services include:

1. Educational conferences and events
2. Consulting on technology, compliance, legal, and business needs
3. Publications and conferences on practice management and business succession
4. Access to employee benefits providers, human capital consultants, and insurance providers

Custodian may provide some of these services itself. In other cases, it will arrange for third-party vendors to provide the services to us. Custodian may also discount or waive its fees for some of these services or pay all or a part of a third party's fees. Custodian may also provide us with other benefits, such as occasional business entertainment of our personnel.

Our Interest in Custodian's Services

The availability of these services from Custodian benefits us because we do not have to produce or purchase them. These services are not contingent upon us committing any specific amount of business to Custodian in trading commissions. We believe that our selection of Custodian as custodian and broker is in the best interests of our clients.

Some of the products, services and other benefits provided by Custodian benefit FYRA and may not benefit our client accounts. Our recommendation or requirement that you place assets in Custodian's custody may be based in part on benefits Custodian provides to us, or our agreement to maintain certain Assets Under Management at Custodian, and not solely on the nature, cost or quality of custody and execution services provided by Custodian. This is a conflict of interest. We believe this arrangement is in the clients best interest and have developed policies to mitigate this conflict.

We place trades for our clients' accounts subject to its duty to seek best execution and its other fiduciary duties. Custodian's execution quality may be different than other custodians.

BROKERAGE FOR CLIENT REFERRALS

FYRA does not receive client referrals from any custodian or third party in exchange for using that custodian or third party.

AGGREGATION AND ALLOCATION OF TRANSACTIONS

FYRA may aggregate transactions if we believe that aggregation is consistent with the duty to seek best execution for our clients and is consistent with the disclosures made to clients and terms defined in the client investment advisory agreement. No advisory client will be favored over any other client, and each account that participates in an aggregated order will participate at the average share price (per custodian) for all transactions in that security on a given business day. FYRA aggregates trades of our personnel with those of client accounts.

If we do not receive a complete fill for an aggregated order, we will allocate the order on a pro-rata basis. If we determine that a pro-rata allocation is not appropriate under the particular circumstances, we will base the allocation on other relevant factors, which may include:

1. When only a small percentage of the order is executed, with respect to purchase allocations, allocations may be given to accounts high in cash;
2. With respect to sale allocations, allocations may be given to accounts low in cash;
3. We may allocate shares to the account with the smallest order, or to the smallest position, or to an account that is out of line with respect to security or sector weightings, relative to other portfolios with similar mandates;
4. We may allocate to one account when that account has limitations in its investment guidelines prohibiting it from purchasing other securities that we expect to produce similar investment results and that can be purchased by other accounts in the block;
5. If an account reaches an investment guideline limit and cannot participate in an allocation, we may reallocate shares to other accounts. For example, this may be due to unforeseen changes in an account's assets after an order is placed;
6. If a pro-rata allocation of a potential execution would result in a de minimis allocation in one or more accounts, we may exclude the account(s) from the allocation and disgorge any profits. Generally, de minimis allocations do not exceed 5% of the total allocation. Additionally, we may execute the transactions on a pro-rata basis.
7. We will document the reasons for any deviation from a pro-rata allocation.

TRADE ERRORS

We have implemented procedures designed to prevent trade errors; however, trade errors in client accounts cannot always be avoided. Consistent with our fiduciary duty, it is our policy to correct trade errors in a manner that is in the best interest of the client. In cases

where the client causes the trade error, the client will be responsible for any loss resulting from the correction. Depending on the specific circumstances of the trade error, the client may not be able to receive any gains generated as a result of the error correction. In all situations where the client does not cause the trade error, the client will be made whole and we will absorb any loss resulting from the trade error if the error was caused by the firm. If the error is caused by the custodian, the custodian will be responsible for covering all trade error costs. If an investment gain results from the correcting trade, the gain will be donated to charity. We will never benefit or profit from trade errors.

DIRECTED BROKERAGE

We do not routinely recommend, request or require that you direct us to execute transaction through a specified broker dealer. Additionally, we typically do not permit you to direct brokerage. We place trades for your account subject to our duty to seek best execution and other fiduciary duties.

ITEM 13 - REVIEW OF ACCOUNTS

ACCOUNT REVIEWS AND REVIEWERS – INVESTMENT SUPERVISORY SERVICES

Our Investment Advisor Representatives will monitor client accounts on a regular basis and perform annual reviews with each client. All accounts are reviewed for consistency with client investment strategy, asset allocation, risk tolerance, and performance relative to the appropriate benchmark. More frequent reviews may be triggered by changes in an account holder's personal, tax, or financial status. Geopolitical and macroeconomic specific events may also trigger reviews. You are urged to notify us of any changes in your personal circumstances.

STATEMENTS AND REPORTS

Reports from our Firm are generated for clients on an annual basis or as requested. These reports show the rate of return of accounts under management of FYRA.

The custodian for the individual client's account will also provide clients with an account statement at least quarterly. You are urged to compare the reports and invoices provided by FYRA against the account statements you receive directly from your account custodian.

ITEM 14 – CLIENT REFERRALS AND OTHER COMPENSATION

Lead Generation Provider

The Firm pays a fee to participate in an online matching program that seeks to match prospective advisory clients with investment advisers. The program, which is operated by SmartAsset, provides information about investment advisory firms to persons who have

expressed an interest in such firms. The program also provides the name and contact information of such persons to the advisory firms as potential leads. The fee we pay for being provided with potential leads varies based on certain factors, including the size of the person's portfolio, and the fee is payable regardless of whether the prospect becomes our advisory client.

Other Compensation

We receive an economic benefit from Custodian in the form of the support products and services it makes available to us. These products and services, how they benefit us, and the related conflicts of interest are described above under Item 12 Brokerage Practices. The availability to us of Custodian's products and services is not based on us giving particular investment advice, such as buying particular securities for our clients.

Our Firm received an economic benefit from AE Wealth Management, LLC in the form of a loan (\$200,000), which is forgiven over a three-year period, if our Firm meets certain conditions in terms of maintaining a relationship with AE Wealth Management, LLC. The amount of the loan, paid to the Firm in August 2021, represents a substantial payment. Forgiveness of the loan, in whole or in part, is conditioned on FYRA Capital Management remaining affiliated with AE Wealth Management, LLC and is based on 90% of our Firm's client assets being maintained with AE Wealth Management and as such, our representatives have a financial incentive to recommend that its clients maintain their accounts with AE Wealth Management.

From time to time, we may receive expense reimbursement for travel and/or marketing expenses from distributors of investment and/or insurance products. Travel expense reimbursements are typically a result of attendance at due diligence and/or investment training events hosted by product sponsors. Marketing-expense reimbursements are typically the result of informal expense sharing arrangements in which product sponsors may underwrite costs incurred for marketing such as advertising, publishing and seminar expenses. Although receipt of these travel and marketing expense reimbursements are not predicated upon specific sales quotas, the product sponsor reimbursements are typically made by those sponsors for whom sales have been made or it is anticipated sales will be made.

Our Firm may be asked to recommend a financial professional, such as an attorney, accountant, or mortgage broker. In such cases, our Firm does not receive any direct compensation in return for any referrals made to individuals or firms in our professional network. Clients must independently evaluate these firms or individuals before engaging in business with them and clients have the right to choose any financial professional to conduct business. Individuals and firms in our financial professional network may refer

clients to our Firm. Again, our Firm does not pay any direct compensation in return for any referrals made to our Firm. Our Firm does recognize the fiduciary responsibility to place your interests first and have established policies in this regard to mitigate any conflicts of interest.

ITEM 15 – CUSTODY

Custody, as it applies to investment advisors, has been defined by regulators as having access or control over client funds and/or securities. In other words, custody is not limited to physically holding client funds and securities. If an investment advisor has the ability to access or control client funds or securities, the investment advisor is deemed to have custody and must ensure proper procedures are implemented.

While our firm does not maintain physical custody of client assets (which are maintained by a qualified custodian, as discussed above), we are deemed to have custody of certain client assets if given the authority to withdraw assets from client accounts, as further described below under “Standing Instructions”. All our clients receive account statements directly from their qualified custodian(s) at least quarterly upon opening of an account. We urge our clients to carefully review these statements. Additionally, if our firm decides to send its own account statements to clients, such statements will include a legend that recommends the client compare the account statements received from the qualified custodian with those received from our firm. Clients are encouraged to raise any questions with us about the custody, safety or security of their assets and our custodial recommendations.

The SEC issued a no-action letter (“Letter”) with respect to the Rule 206(4)-2 (“Custody Rule”) under the Investment Advisors Act of 1940 (“Advisors Act”). The letter provided guidance on the Custody Rule as well as clarified that an Advisor who has the power to disburse client funds to a third party under a standing letter of instruction (“SLOA”) is deemed to have custody. As such, our Firm has adopted the following safeguards in conjunction with our custodians:

- The client provides an instruction to the qualified custodian, in writing, that includes the client’s signature, the third party’s name, and either the third party’s address or the third party’s account number at a custodian to which the transfer should be directed.
- The client authorizes the investment advisor, in writing, either on the qualified custodian’s form or separately, to direct transfers to the third party either on a specified schedule or from time to time.

- The client's qualified custodian performs appropriate verification of the instruction, such as a signature review or other method to verify the client's authorization and provides a transfer of funds notice to the client promptly after each transfer.
- The client has the ability to terminate or change the instruction to the client's qualified custodian.
- The investment advisor has no authority or ability to designate or change the identity of the third party, the address, or any other information about the third party contained in the client's instruction.
- The investment advisor maintains records showing that the third party is not a related party of the investment advisor or located at the same address as the investment advisor.
- The client's qualified custodian sends the client, in writing, an initial notice confirming the instruction and an annual notice reconfirming the instruction.

FYRA is deemed to have custody of client funds and securities whenever FYRA is given the authority to have fees deducted directly from client accounts. However, this is the only form of custody FYRA will ever maintain. It should be noted that authorization to trade in client accounts is not deemed by regulators to be custody.

Account statements are delivered directly from the qualified custodian to each client, or the client's independent representative, at least quarterly. You should carefully review those statements and are urged to compare the statements against reports received from FYRA. When you have questions about your account statements, you should contact FYRA or the qualified custodian preparing the statement.

ITEM 16 – INVESTMENT DISCRETION

For discretionary accounts, prior to engaging FYRA to provide investment advisory services, you will enter a written Agreement with us granting the Firm the authority to supervise and direct, on an on-going basis, investments in accordance with the client's investment objective and guidelines. In addition, you will need to execute additional documents required by the Custodian to authorize and enable FYRA, in its sole discretion, without prior consultation with or ratification by you, to purchase, sell, or exchange securities in and for your accounts. We are authorized, in our discretion and without prior consultation with you to: (1) buy, sell, exchange and trade any stocks, bonds or other securities or assets and (2) determine the amount of securities to be bought or sold, and (3) place orders with the custodian. Any limitations to such discretionary authority will be communicated to our Firm in writing by you, the client.

The limitations on investment and brokerage discretion held by FYRA for you are:

- For discretionary accounts, we require that we be provided with authority to determine which securities and the amounts of securities to be bought or sold.
- Any limitations on this discretionary authority shall in writing as indicated on the Investment advisory Agreement. You may change/amend these limitations as required.

In some instances, we may not have discretion. We will discuss all transactions with you prior to execution or you will be required to make the trades if in an employer sponsored account.

ITEM 17 – VOTING YOUR SECURITIES

We will not vote proxies on your behalf. You are welcome to vote proxies or designate an independent third-party at your own discretion. You designate proxy voting authority in the custodial account documents. You must ensure that proxy materials are sent directly to you or your assigned third party. We do not act with respect to any securities or other investments that become the subject of any legal proceedings, including bankruptcies. Clients can contact our office with questions about a particular proxy solicitation by phone at 636-573-1212.

ITEM 18 – FINANCIAL INFORMATION

We do not require or solicit prepayment of more than \$1,200 in fees per client, six months or more in advance. Therefore, we are not required to include a balance sheet for our most recent fiscal year. We are not subject to a financial condition that is reasonably likely to impair our ability to meet contractual commitments to clients. Finally, we have not been the subject of a bankruptcy petition at any time.
