**Part 2A Appendix 1 of Form ADV**  
**Wrap Fee Program Brochure**  
April 8, 2024

**Item 1. Cover Page**

This wrap fee program brochure (“Brochure”) provides information about the qualifications and business practices of FutureMoney RIA, LLC (“FutureMoney RIA” or “we” or “us”), an investment adviser registered with the United States Securities and Exchange Commission (the “SEC”). Registration does not imply a certain level of skill or training but only indicates that FutureMoney RIA has registered its business with state and federal regulatory authorities, including the SEC. The information in this Brochure has not been approved or verified by the SEC or by any state securities authority.

If you have any questions about the contents of this Brochure, please contact us at [support@futuremoney.co](mailto:support@futuremoney.co). Additional information about FutureMoney RIA is also available on the SEC’s website at [www.adviserinfo.sec.gov](http://www.adviserinfo.sec.gov) and on [www.futuremoney.co](http://www.futuremoney.co)

**Item 2. Material Changes**

This is the initial registration filing, and as such, there are no material changes from any prior filing, as there have been no prior filings.

Part 2B - Client Brochure Supplement

#### **Item 4. Services, Fees, and Compensation**

FutureMoney RIA, LLC. (hereinafter “FutureMoney RIA,” “we,” “us,” “our” or the “Firm”) is organized as a New Hampshire limited liability company with a principal place of business in Manchester, NH. While FutureMoney RIA is a wholly-owned subsidiary of Future Money Inc., the companies function independently. Future Money Inc. does not engage in any advisory business. Future Money Inc. is a technology company that has developed an interactive personal financial management and visualization platform, including mobile application.

FutureMoney RIA only offers investment services and advice to retail investors. As part of such services, we offer you the ability to invest in the following types of investment accounts:

1. Taxable investment accounts (“General Investing”)
2. Roth Individual Retirement Accounts (“Roth IRA”)
3. Traditional Individual Retirement Accounts (“Traditional IRA”)
4. 529 education savings plan (“529 Plan”)
5. Tax-free investing account for the benefit of minors - a 529 education savings plan with intent to roll over into a Roth IRA in beneficiary’s name (“Junior Roth IRA™”)

#### **Investment Services**

We offer discretionary investment advisory services, which allows us to make trades in client accounts on their behalf, so that we may promptly implement the investment plan that we created for clients and make ongoing changes as we believe appropriate. Those changes may include periodic rebalancing of asset classes when one or more asset classes have significantly increased or decreased in value. However, due to differences in how exchange traded funds and mutual funds are traded and settled, there may be additional transition time or transactions needed to implement the portfolio best suited for the client's goal.

#### **Limitations of 529 education savings plan and Junior Roth IRA™**

The 529 education savings plans used by FutureMoney RIA may not be the least expensive option available for a 529 plan. Clients may be forgoing tax benefits by using the plan as opposed to a 529 plan in their home state. Clients should therefore consider carefully whether our 529 plan is the best option for their financial situation, and potentially consult with a tax professional to consider all of the impacts and best course of action.

The Junior Roth IRA™ uses a 529 plan in its early years, prior to rolling over into a Roth IRA in the name of the beneficiary, within the allowable limits and criteria established by the Secure Act 2.0. The statements above regarding the 529 therefore apply equally to the Junior Roth IRA™. Rather than being a specific account type, the Junior Roth IRA™ is a term that Future Money Inc. has trademarked to describe a program that aims to grow assets in a 529 plan and roll them over into a Roth IRA in the name of the beneficiary.

#### **Program Description**

FutureMoney RIA currently collects information about a client's age, family, financial condition, employment status, investment goals/objectives, time horizon, and risk tolerance through a

mobile application. Clients set up instructions for recurring weekly deposits into their account(s). Based on that information, current account balance, and a projected rate of return, clients are then able to see approximately what level of assets they and/or their children would be on track to achieve. The ability to modify the projected rate of return in this application is provided to allow clients to simulate various financial outcomes for informational purposes only. It is important to note that altering the projected rate of return in the application does not impact the actual rate of return, which is subject to market conditions. The projected rates of return are hypothetical and should be regarded solely for informational purposes. They do not represent a promise or guarantee of future returns.

Clients should consult with tax or financial advisors if there are additional personal circumstances that are not captured by the FutureMoney platform. While the data used in financial models is believed to be reliable, FutureMoney cannot ensure the accuracy or completeness of data provided by third parties or clients.

Once an individual has opened an account, an algorithm selects a suitable investment model for the client's portfolio based on the client's investment objectives and financial profile.

Our software will monitor clients' accounts portfolio on an ongoing basis and periodically rebalance as required by changes in market conditions, additions, or withdrawals in the client account and or a change in client's financial circumstances.

### **Types of Advisory Services and Investment Strategy**

Future Money Inc. provides an interactive app-based personal financial management and visualization platform to consumers.

A client may update his or her risk profile at any time by updating the risk responses accessible through a client's account in the app. Client assets are used to purchase the securities that align to the client's corresponding target asset allocation within the recommended portfolio or client selected portfolio.

Investment services provided by FutureMoney RIA and its sub advisory partner are designed to encourage higher rates of saving and investing in non-retirement and retirement accounts. At user onboarding, individual clients undergo a financial situation review and risk assessment.

Clients have the option to additionally create individual investment goals with unique time horizons, risk tolerance, and liquidity needs that lead to the programmatic curation of a custom investment portfolio for each goal. Clients may choose to override the algorithm-based portfolios within the bounds deemed suitable for the client by FutureMoney RIA.

As of April 5, 2024 we manage \$0 on a discretionary basis and \$0 on a non-discretionary basis, as this is our initial filing for registration as an Investment Adviser.

## **Wrap Fee**

FutureMoney RIA charges an asset-based wrap fee that covers the costs of its investment advisory services as well as associated trading and custody services. FutureMoney RIA clients pay a \$48 per year wrap fee ("Subscription Fee"), after a 30-day free trial. If at the annual anniversary of their account creation date, a client's Total Account Balance (as defined below) exceeds \$20,000, that client will pay an annualized wrap fee of 0.25% their Total Account Balance ("Management Fee") instead of the \$48 per year wrap fee. "Total Account Balance" is the combined account balance of a client's FutureMoney RIA accounts.

The Subscription Fee is collected by Future Money Inc. from the client's bank account on file. To process billing of the Subscription Fee via recurring annual ACH debit, Future Money Inc. contracts with Stripe as a third-party payment processor. Stripe is licensed and regulated as a money transmitter.

A portion allocable to FutureMoney RIA (the "Advisory Fee") of \$1 is paid out from the Subscription Fee. The Management Fee is collected by FutureMoney RIA, and is deducted from the assets in the investment account(s) monthly. We reserve the right to waive or reduce the Subscription Fee and/or Management Fee for any client, at our sole discretion.

If for any reason the Subscription Fee is unable to be collected from the client's bank account, we reserve the right to sell assets within their investment accounts and charge the fee to the investment accounts, without putting any account into a net debit position.

FutureMoney RIA also makes available to certain clients a pricing plan with a \$0 per year wrap fee, and an annualized wrap fee of 1% of the client's Total Account Balance. This pricing plan is intended for families who are experiencing financial hardship and may be more sensitive to the fixed portion of the wrap fee, and specifically request a change to this plan. Clients on the 1% wrap fee plan can request a change to the standard wrap fee plan at any time.

As a general matter, the more money you invest with us the more fees you will pay; therefore, we have an incentive to encourage you to increase your assets in your account. You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. Clients should be aware that our offering is designed for individuals who make frequent recurring investments. The Fee Schedule is not appropriate for individuals looking to make few or infrequent small-dollar investments. Depending on your situation, FutureMoney RIA's fees may be higher than those of advisors who provide the same or similar services.

Clients are charged a single monthly wrap fee and all transaction costs are paid by FutureMoney RIA from the proceeds of the collective Advisory Fees and Management Fees.

The advisory and other services that are reflected in the Subscription Fee may exceed the costs of similar services purchased separately.

### **Other Types of Fees or Expenses**

The Firm is responsible for and shall pay, or cause to be paid, all of their own ordinary administrative and overhead expenses, including, without limitation, all costs and expenses related to rent, furniture, fixtures, equipment, office supplies, clerical expenses and all salaries, bonuses and benefits paid to, or on behalf of, personnel of the Firm.

Neither the Firm nor its employees accept compensation, including sales charges or service fees, from any person for the sale of securities or other investment products. Clients should be aware that their portfolios may be constructed with ETFs and/or mutual funds that negatively impact client performance, even though neither Future Money Inc. nor FutureMoney RIA participate in earning any revenue from those inherent costs.

ETFs charge fees to cover the costs of managing the underlying ETF in the form of an expense ratio. These fees typically cover the ETF's operating expenses, management fees, marketing costs, custodial fees, etc. These fees are entirely separate and distinct from the fees paid to FutureMoney for its wrap fee program. The expense ratio of each ETF included in the portfolios is outlined in the respective ETF prospectus.

Although FutureMoney RIA reserves the right to waive or reduce any of its fees at its sole discretion, we are unable to waive fees associated with the expense ratios of the ETFs comprising the portfolios. FutureMoney RIA does not charge performance fees.

Certain additional fees are charged to a client for specifically requested services or irregular occurrences, which are outlined in the following table:

Fedwire (Outbound)	\$50 / wire out
ACATS (Outbound)	\$50 / transfer out
ACH Return	\$50 / return

### **Brokerage Practices**

FutureMoney RIA does not have any affiliation with any Broker-Dealer. Specific custodian recommendations are made to clients based on their need for such services. We recommend custodians based on the reputation and services provided by the firm. FutureMoney RIA works with Pershing LLC as custodian, and Atomic Brokerage LLC or Pershing Advisory Solutions as broker-dealer. If FutureMoney RIA engages Atomic Invest LLC as sub-advisor for certain accounts, then Pershing Advisory Solutions is used as broker-dealer for those accounts. Where

FutureMoney RIA does not use a sub-advisor, Atomic Brokerage LLC is used as the broker-dealer.

**Research and Other Soft-Dollar Benefits**

We currently do not receive soft dollar benefits.

**Brokerage for Client Referrals**

We receive no referrals from any broker-dealer or third party in exchange for using that broker-dealer or third party.

**Directed Brokerage**

We do not accept requests for directed brokerage arrangements from clients.

**Aggregating Trading for Multiple Client Accounts**

We place aggregated orders involving multiple client accounts trading in the same securities at approximately the same time when it is in the best interest for all clients involved in the transaction and it is operationally feasible to do so. Each client that participates in an aggregated transaction will participate at the average share price for transactions in the aggregated order.

## **Item 5. Account Requirements and Types of Clients**

FutureMoney RIA uses a software-first approach primarily to support individuals in investing in a tax-advantaged way for their kids.

Each of our investment advisory clients must:

1. Be a natural person who is a legal United States Resident
2. Maintain and link a verified funding source with a United States bank or financial institution to their FutureMoney Account
3. Pass identify verification protocols
4. Make attestations that they are not a politically exposed person (“PEP”), head of an international organization (“HIO”), insider of a publicly traded company, nor are there any other reasons preventing them from being allowed to hold an investment account in the United States.

The minimum account size at which assets will be invested is:

- \$250 for 529 education saving plans
- \$250 for Junior Roth IRA™ accounts
- \$1 for all other accounts

Deposits of at least \$1 can be made to any account, but will be held in cash rather than invested until a certain account size is reached, as outlined above.

Subsequent deposits to Junior Roth IRA™ and 529 education savings plans will only be invested in minimum increments of \$50. Deposits below these amounts will be accepted and held in cash rather than invested.

## **Item 6. Portfolio Manager Selection and Evaluation**

### **Selecting/Reviewing Portfolio Manager**

We may engage Atomic Invest LLC as our sub-advisor for certain accounts. We do not engage additional external portfolio managers. Neither we nor a third-party review performance information to determine or verify its accuracy or its compliance with presentation standards. Performance information may not be calculated on a uniform and consistent basis. No related persons act as portfolio manager for our wrap fee program.

### **Performance-Based Fees and Side-By-Side Management**

We do not accept performance-based fees – that is, fees based on a share of capital gains on or capital appreciation of the assets of a client. Furthermore, we do not manage both accounts that are charged a performance-based fee and accounts that are charged another type of fee, such as an hourly or flat fee or an asset-based fee.

### **Method of Analysis, Investment Strategies and Risk of Loss**

FutureMoney RIA provides investment services over the internet through a mobile app, or other online devices. This entails the use of a sub-advisor provided algorithm-based portfolio and digital services, rather than in-person investment services. These automated investment solutions are customized to each client and based on individual characteristics, such as the client's age, risk tolerance, income, and current assets, among others. Clients are encouraged to update their account with any change in their objectives, risk tolerance, or other pertinent information, as that information factors into the algorithmic based portfolio introductions.

The descriptions set forth in this Brochure of specific advisory services that we offer to clients should not be understood to limit in any way our activities. We may offer any advisory services, engage in any investment strategy and make any investment, including any not described in this Brochure, that we consider appropriate. The investment strategies we pursue are speculative and entail substantial risks. Clients should be prepared to bear a substantial loss of capital. There can be no assurance that the investment objectives of any client will be achieved.

### **Risk Management**

The firm focuses on diversification, limited exposure, position sizing, and management to mitigate risk on posted trade services, and for general portfolio guidelines. FutureMoney RIA collects information about a client's investment time horizon, and risk preferences.

### **Risk of Loss**

Investing in securities involves risk of loss that clients should be prepared to bear. All investment programs have certain risks that are borne by the client. The investment approach constantly keeps the risk of loss in mind. Clients face the following investment risks:

**Market Risk:** The risk that the price of a security, bond, or Fund may change in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors,

independent of a security's particular underlying circumstances. For example, political, economic, and social conditions may trigger market events.

**Advisory Risk:** Clients who choose to implement our investment services are not guaranteed investment performance. There is no guarantee that our services will be successful. Further, FutureMoney RIA, through our sub-advisor, recommends stock, bond and money market investment portfolios. While the third-party sub-advisor partner has been vetted, there can be no assurance that services generated will be profitable.

**Software Risk:** While all software is tested and vetted before implementation, the software may not always perform as intended, especially in unusual circumstances. Internet outages, third party hacks, malware, and other events may impact our software and related services. FutureMoney RIA has continuous monitoring, detection, and correction protocols to mitigate but not eliminate this risk. In addition, FutureMoney RIA uses a third-party's software for investment portfolio recommendations and this exposes FutureMoney RIA to third-party software risk.

**Security Selection Risk:** The risk that individual securities may decline in value due to negative news or fundamental developments specific to the issuer. The rationale for selecting the security either may not be correct or the market may not recognize the value.

**Stock Investments:** Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Different parts of the market can react differently to these developments. In addition, stock investments are subject to risk related to market capitalization as well as company-specific risk.

**ETF Risks:** Shares of an ETF may trade on an exchange at prices at, above, or below their most recent NAV. The NAV represents the value of each share's portion of the ETF's underlying assets and cash at the end of the trading day. The per-share NAV of an ETF is calculated at the end of each business day. The trading prices of an ETF's shares fluctuate continuously throughout the trading day based on market supply and demand, which may not correlate to NAV. The trading prices of an ETF's shares may differ significantly from NAV during periods of market volatility, which may, among other factors, lead to the ETF's shares trading at a premium or discount to NAV. Investment policies, management fees and other information can be found in the individual ETF's prospectus. Please read the prospectus carefully before you invest. Clients should consider the investment objectives, risks, charges and expenses of each ETF carefully before investing. This and other information are contained in each ETF's prospectus, which may be obtained by visiting the ETF sponsor's website. Please read each prospectus carefully before you invest.

**Volatility Risk:** Our investment services rely upon historical securities data; past performance is no guarantee of future results and any historical returns, expected returns, or probability projections may not reflect actual future performance.

**Tax and Regulatory Risk:** Performance of investments may be impacted by government

legislation or regulation including, changes in securities trading regulation, changes in the tax code, changes in tax reporting, and changes in income characterization. Clients will have tax risk exposure if there are future changes in taxation legislation that impact their net returns.

**Liquidity Risk:** The risk that a client will be unable to buy or sell a security at a reasonable price at a certain point in time. This may occur if there is a limited quantity available or only a few market makers willing to trade. For example, U.S. Treasuries are quite liquid, while an equity security subject to a regulatory halt would be illiquid.

**Inflation Risk:** The risk that the value of a dollar will not be worth as much as anticipated. That is, inflation will be higher than expected.

**Values Based Investing Risk:** Clients who choose to modify their investment portfolios for the explicit inclusion or exclusion of specific companies or industries for certain accounts may result in lower returns compared to non-modified portfolios.

## **Item 7. Client Information Provided to Portfolio Managers**

At account opening, users provide their age, financial condition, employment status, investment objectives, time horizon, and risk tolerance, which are used to form an investing plan. Based on this information, FutureMoney RIA selects a suitable asset allocation of stocks, cash, ETFs, mutual funds and/or other products, or its sub-advisor Atomic Invest LLC performs the same function for the account, with the oversight of FutureMoney RIA.

Client accounts will be managed in accordance with their risk profile on an ongoing basis and rebalanced as required by changes in market conditions. On an annual basis, FutureMoney RIA asks clients to update their profile.

**Item 8. Client Contact with Portfolio Managers**

We provide our investment services exclusively through the app. You may contact the app's customer service at [support@futuremoney.co](mailto:support@futuremoney.co) during normal business hours for technical assistance or to answer any questions regarding your account.

## **Item 9. Additional Information**

### **Disciplinary Information**

There are no legal or disciplinary events that are material to a client's evaluation of our advisory business or the integrity of our management.

### **Other Financial Industry Activities and Affiliations**

Neither the Firm nor any of its management persons are registered, and do not have an application pending for registration, as a broker-dealer, broker-dealer representative, futures commission merchant, commodity pool operator, commodity pool trading adviser, or an associated person of the foregoing entities.

### **Code of Ethics**

We maintain a Code of Ethics that requires employees to conduct themselves in a highly ethical manner. Therefore, our Code of Ethics includes guidelines for professional standards of conduct for persons associated with our firm. Our goal is to protect the interests of our clients and demonstrate our commitment to our fiduciary duties of honesty, good faith, and fair dealing. All employees are expected to adhere strictly to the Code of Ethics and report any violations. Additionally, our employees are strictly prohibited from using material, non-public information relating to our clients, their account holdings, or any recommendation or pending transaction for a client.

FutureMoney RIA employees are permitted to purchase or sell securities for themselves in their personal investment accounts that may also be recommended to clients. In addition, our employees may have an interest in securities that may also be purchased in client accounts. The potential for conflicts of interest is that our employees could have an incentive to recommend a security to clients for their own gain. This conflict is mitigated through our strong compliance culture, its rigorous compliance policies and procedures and its surveillance activities, as well as the automated nature of its trading strategies. Moreover, the Code of Ethics and other FutureMoney RIA policies are designed to ensure that our employees never place their personal interests ahead of FutureMoney clients in an attempt to benefit themselves or another party. The Code of Ethics and other FutureMoney RIA policies impose sanctions if these requirements are violated.

FutureMoney's Code of Ethics is available free upon request to any client or prospective client by emailing [support@futuremoney.co](mailto:support@futuremoney.co).

**Review of Accounts**

Client accounts are reviewed on a quarterly basis by David Fortin, CCO of FutureMoney RIA, LLC. Accounts are reviewed with regards to the client's investment policies and risk tolerance levels. Events that may trigger a special review would be unusual performance, addition or deletions of client imposed restrictions, excessive draw-down, volatility in performance, or buy and sell decisions from the firm or per client's needs.

Clients will receive quarterly statements and annual tax reporting statements from their custodian showing all activity in the accounts, such as receipt of dividends and interest.

FutureMoney RIA does not produce any reports for clients outside of those produced by the custodian.

**Voting Client Securities**

FutureMoney RIA will not ask for, nor accept voting authority for client securities. Clients will receive proxies directly from the issuer of the security or the custodian. Clients should direct all proxy questions to the issuer of the security.

**Client Referrals and Other Compensation**

We do not receive economic benefits from non-clients for providing investment advice and other advisory services. Neither we, nor any of our related persons, directly or indirectly, compensate any person who is not a supervised person for client referrals. Individuals who become clients as a result of our various referral programs acknowledge in our client agreement that they have reviewed, read, and understood FutureMoney RIA, LLC's disclosures and Form ADV.

**Promotions**

FutureMoney RIA, LLC and/or its parent company Future Money Inc. have periodic promotions for technology products, fee waivers on management fees, or reduced management fees. Client referrals, or other referral arrangements as outlined below may, from time to time, be combined with promotional offers. Any combination of benefit and promotional items will not result in a Client paying a higher advisory fee. We will disclose the terms of the promotional offers to Clients at the time of the offer.

**Referrals**

FutureMoney RIA, LLC and/or its parent company Future Money Inc. may offer free subscription months for existing clients who refer new clients. From time to time, Future Money Inc., may also offer other incentives for client referrals. Future Money Inc. will disclose the details of those incentives to existing and referred Clients at the time of the offer. Prospective clients that are referred by existing Clients should be aware that the

referring Client will receive an economic benefit for making the referral. The free advisory Services awarded or any other incentive provided does not increase the fees or costs for the referring or referred Client. Referral arrangements create an incentive for third parties and existing Clients to recommend FutureMoney RIA over other similar advisers which may have lower fees.

### **Affiliate Marketing Program**

FutureMoney RIA, LLC and/or its parent company Future Money Inc. may offer an affiliate marketing program for web-based authors, social media influencers, companies and individuals, and participates in co-registration agreements, where the participants (“affiliate” or “affiliates”) are compensated for each person who uses the affiliates’ webpages to become users of the FutureMoney app. These affiliates may be eligible for compensation even if the referred person does not become an advisory client. As a result of these arrangements, affiliates will financially benefit from referring users to FutureMoney RIA, LLC. This creates a conflict of interest and incentivizes affiliates to present content favorable to FutureMoney RIA because of the compensation structure of the affiliate marketing program.

### **Other Referral Arrangements**

FutureMoney RIA, LLC and/or its parent company Future Money Inc. enter into referral agreements with third parties who refer prospective clients to FutureMoney RIA (“Referrer” or “Referrers”) under which Referrers may receive compensation for each individual who creates a FutureMoney RIA financial profile. Individuals referred by Referrers may also be given a promotional offer for a waiver on management fees or a waiver on subscription fees for a given time period.

### **Testimonials and Endorsements**

FutureMoney RIA, LLC and/or its parent company Future Money Inc. enter into agreements with clients and non-client Third Parties (“Promoters”) to provide testimonials or endorsements of our Advisory Services. Any advertisement that displays a testimonial or endorsement provided by a promoter will disclose clearly and prominently whether the Promoter i) is a Client of FutureMoney RIA, LLC, ii) is paid or unpaid, and iii) creates any other material conflict of interest. If the promoter is paid, FutureMoney RIA, LLC confirms that the Promoter is not disqualified under Federal Securities Laws and discloses the compensation.

### **Financial Information**

We do not require or solicit prepayment of more than \$1,200 in fees per client, six months or more in advance; therefore, we are not required to provide a balance sheet. We have not been the subject of a bankruptcy petition at any time during the past ten years, and we do not have any financial circumstances that would impair our ability to meet our contractual responsibilities to our clients.
