Item 4: Advisory Business

We specialize in the following types of services: asset management, financial planning and consulting and pension consulting.

We are dedicated to providing individuals and other types of clients with a wide array of investment advisory services. Our firm is a limited liability company formed in the State of Kentucky. Our firm has been in business as an investment adviser since 2012 and is owned as follows:

Joseph Todd Stricklin – 1/3 Owner

John Francis Gettler Jr. – 1/3 Owner

William Beltzhoover Conner – 1/3 Owner

Description of the Types of Advisory Services We Offer

Asset Management:

We emphasize continuous and regular account supervision. As part of our asset management service, we generally create a portfolio, consisting of individual stocks or bonds, exchange traded funds (“ETFs”), options, mutual funds and other public and private securities or investments. The client’s individual investment strategy is tailored to their specific needs and may include some or all of the previously mentioned securities. Each portfolio will be initially designed to meet a particular investment goal, which we determine to be suitable to the client’s circumstances. Once the appropriate portfolio has been determined, we review the portfolio at least quarterly and if necessary, rebalance the portfolio based upon the client’s individual needs, stated goals and objectives.

Financial Planning & Consulting:

We provide a variety of financial planning and consulting services to individuals, families and other clients regarding the management of their financial resources based upon an analysis of the client’s current situation, goals, and objectives. Generally, such financial planning services will involve preparing a financial plan or rendering a financial consultation for clients based on the client’s financial goals and objectives. This planning or consulting may encompass one or more of the following areas: Investment Planning, Retirement Planning, Estate Planning, Charitable Planning, Education Planning, Corporate and Personal Tax Planning, Cost Segregation Study, Corporate Structure, Real Estate Analysis, Mortgage/Debt Analysis, Insurance Analysis, Lines of Credit Evaluation, Business and Personal Financial Planning.

Our written financial plans or financial consultations rendered to clients usually include general recommendations for a course of activity or specific actions to be taken by the clients. For example, recommendations may be made that the clients begin or revise investment programs, create or revise wills or trusts, obtain or revise insurance coverage, commence or alter retirement savings, or establish education or charitable giving programs. It should also be noted that we refer clients to an accountant, attorney, or other specialist, as necessary for non-advisory-related services. For written financial planning engagements, we provide our clients with a written summary of their financial situation, observations, and recommendations. For financial consulting engagements, we usually do not provide our clients with a written summary of our observations and recommendations as the process is less formal than our planning service. Plans or consultations are typically completed within six (6) months of the client signing a contract with us, if all the information and documents we request

from the client are provided to us promptly. Implementation of the recommendations will be at the discretion of the client.

Pension Consulting:

We provide pension consulting services to employer plan sponsors on a one-time or ongoing basis. Generally, such pension consulting services consist of assisting employer plan sponsors in establishing, monitoring and reviewing their company's participant-directed retirement plan. As the needs of the plan sponsor dictate, areas of advising could include: investment options, plan structure and participant education.

All pension consulting services shall be in compliance with the applicable state law(s) regulating pension consulting services. This applies to client accounts that are pension or other employee benefit plans ("Plan") governed by the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). If the client accounts are part of a Plan, and we accept appointments to provide our services to such accounts, we acknowledge that we are a fiduciary within the meaning of Section 3(21) of ERISA (but only with respect to the provision of services described in section 1 of the Pension Consulting Agreement).

LPL Financial Sponsored Advisory Programs

iTrust Asset Management, LLC may provide advisory services through certain programs sponsored by LPL Financial (LPL), a registered investment advisor and broker-dealer. Below is a brief description of each LPL advisory program available to iTrust Asset Management, LLC. For more information regarding the LPL programs, including more information on the advisory services and fees that apply, the types of investments available in the programs and the potential conflicts of interest presented by the programs please see the LPL Financial Form ADV Part 2 or the applicable program's Appendix 1 (wrap fee program brochure) and the applicable client agreement.

Manager Access Select Program ("MAS")

Manager Access Select provides clients access to the investment advisory services of professional portfolio management firms for the individual management of client accounts. The advisor will assist client in identifying a third-party portfolio manager (Portfolio Manager) from a list of Portfolio Managers made available by LPL. The Portfolio Manager manages a client's assets on a discretionary basis. Advisor will provide initial and ongoing assistance regarding the Portfolio Manager Selection process. A minimum account value of \$100,000 is required for Manager Access Select, however, in certain instances, the minimum account size may be lower or higher.

Strategic Wealth Management Program ("SWM")

Strategic Wealth Management (SWM) is a comprehensive, open-architecture, fee-based investment platform created to help us deliver highly customized advice and exceptional service to our clients. The platform provides a foundation to help develop successful client relationships by thoroughly understanding clients' long-term financial goals and offering solutions to address them. With this platform, multiple investments can be wrapped into one account with one consolidated statement for the client.

Tailoring of Advisory Services

We offer individualized investment advice to clients utilizing our Asset Management service. Additionally, we offer general investment advice to clients utilizing our Financial Planning & Consulting and Pension Consulting services.

Each client can place reasonable restrictions on the types of investments to be held in the portfolio. Restrictions on investments in certain securities or types of securities may not be possible due to the level of difficulty this would entail in managing the account. Restrictions would be limited to our Asset Management service. We do not manage assets through our other services.

Participation in Wrap Fee Programs

We offer wrap fee programs as further described in Part 2A, Appendix 1 (the “Wrap Fee Program Brochure”) of our Brochure. Our wrap fee and non-wrap fee accounts are managed on an individualized basis according to the client’s investment objectives, financial goals, risk tolerance, etc. We do not manage wrap fee accounts in a different fashion than non-wrap fee accounts. As further described in our Wrap Fee Program Brochure, we receive a portion of the wrap fee for our services.

Regulatory Assets Under Management

We manage¹ \$144,310,830 on a discretionary basis and \$31,714,658 on a non-discretionary basis as of 2/29/24.

Item 5: Fees & Compensation

How We Are Compensated for Our Advisory Services

Asset Management

The maximum annual advisory fee to be charged for our Asset Management service will not exceed 1.5%. The fee to be assessed in each account will be detailed in the Client’s LPL Account Application or LPL Tiered Fee Authorization form.

Our firm’s fees are billed on a pro-rata annualized basis quarterly in advance based on the value of your account on the last day of the previous quarter. Fees will be deducted from your managed account. We do not offer direct billing as an option for either of these services. Fees will be adjusted for deposits and withdrawals made during the quarter. If accounts are opened during the quarter the pro-rated advisory fees will be deducted during the next regularly scheduled billing cycle. As part of this process, clients are made aware of the following:

- a) LPL Financial as your custodian sends statements at least quarterly to you showing all disbursements for your account, including the amount of the advisory fees paid to us.
- b) You provide authorization permitting LPL Financial to deduct these fees.

¹ Please note that our method for computing the amount of “client assets we manage” can be different from the method for computing “assets under management” required for Item 5.F in Part 1A of Form ADV. However, we have chosen to follow the method outlined for Item 5.F in Part 1A of Form ADV. If we decide to use a different method at a later date to compute “client assets we manage,” we must keep documentation describing the method we use and inform you of the change. The amount of assets we manage may be disclosed by rounding to the nearest \$100,000. Our “as of” date must not be more than three months before the date we last updated our Brochure in response to Item 4.E of Form ADV Part 2A.

- c) LPL Financial calculates the advisory fees for all flat fee and tiered advisory account fee schedules and deducts them from your account.

Financial Planning & Consulting:

We charge on an hourly or flat fee basis for financial planning and consulting services. The total estimated fee, as well as the ultimate fee that we charge you, is based on the scope and complexity of our engagement with you. We will charge a maximum of \$250 per hour. Flat fees generally range from \$2,500 and up.

We require a retainer of fifty percent (50%) of the ultimate financial planning or consulting fee with the remainder of the fee directly billed to you and due to us within thirty (30) days of your financial plan being delivered or consultation rendered to you. In all cases, we will not require a retainer exceeding \$500 when services cannot be rendered within 6 (six) months.

Pension Consulting:

Assets Under Management	Annual Percentage of Assets Charge
\$0 to \$499,999.99	1.5%
\$500,000 to \$999,999.99	1.3%
\$1,000,000 to \$1,999,999.99	1.1%
\$2,000,000 to 4,999,999.99	1.0%
\$5,000,000 and over	Negotiable

*Our firm's fees are billed on a pro-rata annualized basis quarterly in advance based on the value of your account on the last day of the previous quarter.

Alternatively, we may offer hourly or flat fees. The ultimate fee that we charge you is based on the scope and complexity of our engagement with you. We will charge a maximum of \$400 per hour. Our flat fees generally range from \$1,000 to \$50,000.

The fee-paying arrangements for pension consulting service will be determined on a case-by-case basis and will be detailed in the signed Pension Consulting Agreement. The client will be invoiced directly for the fees.

Fees for LPL Advisory Programs:

The account fee charged to the client for each LPL advisory program is negotiable, subject to the following maximum account fees:

LPL Program	Annual %
Manager Access Select	3.00%

Account fees are payable quarterly in advance. LPL serves as program sponsor, investment advisor and broker-dealer for the LPL advisory programs. CWP and LPL may share in the account fee and other fees associated with program accounts. Associated persons of Advisor may also be registered representatives of LPL.

Other Types of Fees & Expenses

Non-Wrap fee Clients will incur transaction charges for trades executed in their accounts. These transaction fees are separate from our fees and will be disclosed by the firm that the trades are executed through. Also, clients will pay the following separately incurred expenses, which we do not receive any part of: charges imposed directly by a mutual fund, index fund, or exchange traded fund which shall be disclosed in the fund's prospectus (i.e., fund management fees and other fund expenses).

Wrap fee clients will receive our Form ADV, Part 2A, Appendix 1 (the "Wrap Fee Program Brochure"). Wrap fee clients will not incur transaction costs for trades. More information about this is disclosed in our separate Wrap Fee Program Brochure.

Termination & Refunds

We charge our advisory fees quarterly in advance. In the event that you wish to terminate our services, we will refund the unearned portion of our advisory fee to you. You need to contact us in writing and state that you wish to terminate our services. Upon receipt of your letter of termination, we will proceed to close out your account and process a pro-rata refund of unearned advisory fees.

Commissionable Securities Sales

To sell securities for a commission, our supervised persons are registered representatives of LPL Financial, LLC member FINRA/SIPC. Our supervised persons may accept compensation for the sale of securities or other investment products, including distribution or service ("trail") fees from the sale of mutual funds. You should be aware that the practice of accepting commissions for the sale of securities:

1. Presents a conflict of interest and gives our firm and/or our supervised persons an incentive to recommend investment products based on the compensation received, rather than on your needs. We generally address commissionable sales conflicts that arise when explaining to clients that commissionable securities sales create an incentive to recommend products based on the compensation, we and/or our supervised persons may earn and/or when recommending commissionable mutual funds, explaining that "no-load" funds are also available.
2. In no way prohibits you from purchasing investment products recommended by us through other brokers or agents which are not affiliated with us.

Item 6: Performance-Based Fees & Side-By-Side Management

We do not accept performance-based fees.

Item 7: Types of Clients & Account Requirements

We have the following types of clients:

- Individuals and High Net Worth Individuals
- Pension and Profit Sharing Plans
- Corporations, limited liability companies and/or other business types
- State or Municipal Government Entities

Our requirements for opening and maintaining accounts or otherwise engaging us:

- We require a minimum account balance of \$50,000 for our Asset Management services. Generally, this minimum account balance requirement is not negotiable and would be required throughout the course of the client's relationship with our firm.

Item 8: Methods of Analysis, Investment Strategies & Risk of Loss

Methods of Analysis

We use the following methods of analysis in formulating our investment advice and/or managing client assets:

Fundamental Analysis. We attempt to measure the intrinsic value of a security by looking at economic and financial factors (including the overall economy, industry conditions, and the financial condition and management of the company itself) to determine if the company is underpriced (indicating it may be a good time to buy) or overpriced (indicating it may be time to sell). Fundamental analysis does not attempt to anticipate market movements. This presents a potential risk, as the price of a security can move up or down along with the overall market regardless of the economic and financial factors considered in evaluating the stock.

Technical Analysis. We analyze past market movements and apply that analysis to the present to recognize recurring patterns of investor behavior and potentially predict future price movement. Technical analysis does not consider the underlying financial condition of a company. This presents a risk that a poorly-managed or financially unsound company may underperform regardless of market movement.

Investment Strategies We Use

We use the following strategies in managing client accounts, provided that such strategies are appropriate to the needs of the client and consistent with the client's investment objectives, risk tolerance, and time horizons, among other considerations:

Long-term purchases. When utilizing this strategy, we may purchase securities with the idea of holding them for a relatively long time (typically held for at least a year). A risk in a long-term purchase strategy for non-passive portfolios is that by holding the security for this length of time, we may not take advantage of short-term gains that could be profitable to a client. Moreover, if our predictions are incorrect, a security may decline sharply in value before we make the decision to sell.

Trading. We purchase securities with the idea of selling them very quickly (typically within 30 days or less). We do this to take advantage of our predictions of brief price swings.

Short sales. We borrow shares of a stock for your portfolio from someone who owns the stock on a promise to replace the shares on a future date at a certain price. Those borrowed shares are then sold. On the agreed-upon future date, we buy the same stock and return the shares to the original owner. We engage in short selling based on our determination that the stock will go down in price after we have borrowed the shares. If we are correct and the stock price has gone down since the shares were purchased from the original owner, the client account realizes the profit.

Margin transactions. We will purchase stocks for your portfolio with money borrowed from your brokerage account. This allows you to purchase more stock than you would be able to with your available cash and allows us to purchase stock without selling other holdings.

Option writing. We may use options as an investment strategy. An option is a contract that gives the buyer the right, but not the obligation, to buy or sell an asset (such as a share of stock) at a specific price on or before a certain date. An option, just like a stock or bond, is a security. An option is also a derivative because it derives its value from an underlying asset. The two types of options are calls and puts:

- A call gives us the right to buy an asset at a certain price within a specific period. We will buy a call if we have determined that the stock will increase substantially before the option expires.
- A put gives us the holder the right to sell an asset at a certain price within a specific period. We will buy a put if we have determined that the price of the stock will fall before the option expires.

We will use options to "hedge" a purchase of the underlying security; in other words, we will use an option purchase to limit the potential upside and downside of a security we have purchased for your portfolio.

We use "covered calls", in which we sell an option on security you own. In this strategy, you receive a fee for making the option available, and the person purchasing the option has the right to buy the security from you at an agreed-upon price.

We use a "spreading strategy", in which we purchase two or more option contracts (for example, a call option that you buy and a call option that you sell) for the same underlying security. This effectively puts you on both sides of the market, but with the ability to vary price, time and other factors.

Risk of Loss

Investing in securities involves risk of loss that clients should be prepared to bear. While the financial market may increase and your account(s) could enjoy a gain, it is also possible that the financial market may decrease, and your account(s) could suffer a loss. It is important that you understand the risks associated with investing in the financial market, are appropriately diversified in your investments, and ask us any questions you may have.

Description of Material, Significant or Unusual Risks

We generally invest client's cash balances in money market funds, FDIC Insured Certificates of Deposit, high-grade commercial paper and/or government backed debt instruments. Ultimately, we try to achieve the highest return on our client's cash balances through relatively low-risk conservative investments. In most cases, at least a partial cash balance will be maintained in a money market account so that our firm may debit advisory fees for our services related to Asset Management.

Item 9: Disciplinary Information

There are no legal or disciplinary events that are material to the evaluation of our advisory business or the integrity of our management.

Item 10: Other Financial Industry Activities & Affiliations

Our management persons are registered representatives of LPL Financial, member FINRA/SIPC. As a result of this relationship, LPL Financial may have access to certain confidential information (e.g., financial information, investment objectives, transactions, and holdings) about our client, even if client does not establish any account through LPL. If you would like a copy of the LPL Financial privacy policy, please contact Todd Stricklin. In order to minimize this conflict our firm will make our selections in the best interest of our clients.

Our management persons are also licensed insurance agents and may offer insurance products and receive normal and customary fees because of insurance sales. A conflict of interest may arise as these insurance sales may create an incentive to recommend products based on the compensation adviser and/or our supervised persons may earn and may not necessarily be in the best interests of the client. To minimize this conflict of interest, our management persons will place client interests ahead of their own interests and adhere to our firm's Code of Ethics as well as clearly explaining this conflict when recommending any such products to our clients. Clients are informed they are not obligated to purchase these products.

Item 11: Code of Ethics, Participation or Interest in Client Transactions & Personal Trading

An investment adviser is considered a fiduciary, and our firm has a fiduciary duty to all clients. As a fiduciary, it is an investment adviser's responsibility to provide fair and full disclosure of all material facts and to always act solely in the best interest of each of our clients. Our fiduciary duty is considered the core underlying principle for our Code of Ethics which also includes Insider Trading and Personal Securities Transactions Policies and Procedures. If a client or a potential client wishes to review our Code of Ethics in its entirety, a copy will be provided upon request.

We recognize that the personal investment transactions of members and employees of our firm demand the application of a high Code of Ethics and require that all such transactions be carried out in a way that does not endanger the interest of any client. At the same time, we believe that if investment goals are similar for clients and for members and employees of our firm, it is logical and even desirable that there be common ownership of some securities.

Therefore, in order to prevent conflicts of interest, we have in place a set of procedures (including a pre-clearing procedure) with respect to transactions effected by our members, officers and employees for their personal accounts². In order to monitor compliance with our personal trading policy, we have a quarterly securities transaction reporting system for all of our associates. Upon employment or affiliation and at least annually thereafter, all supervised persons will sign an acknowledgement that they have read, understand, and agree to comply with our Code of Ethics.

² For purposes of the policy, our associate's personal account generally includes any account (a) in the name of our associate, his/her spouse, his/her minor children or other dependents residing in the same household, (b) for which our associate is a trustee or executor, or (c) which our associate controls, including our client accounts which our associate controls and/or a member of his/her household has a direct or indirect beneficial interest in.

Neither our firm nor a related person recommends to clients, or buys or sells for client accounts, securities in which our firm or a related person has a material financial interest. Related persons of our firm may buy or sell securities and other investments that are also recommended to clients. To minimize this conflict of interest, our related persons will place client interests ahead of their own interests and adhere to our firm's Code of Ethics. Further, our related persons will refrain from buying or selling the same securities prior to buying or selling for our clients on the same day. If related persons' accounts are included in a block trade, our related person's accounts will be traded in the same manner every time.

Our firm and supervised persons must conduct business in an honest, ethical, and fair manner and avoid all circumstances that might negatively affect or appear to affect our duty of complete loyalty to all clients. This disclosure is provided to give all clients a summary of our Code of Ethics.

Item 12: Brokerage Practices

A. Description of the factors that we consider in selecting or recommending broker-dealers for client transactions and determining the reasonableness of their compensation (e.g. commissions).

Our firm has a non-soft-dollar arrangement with LPL Financial under which we receive non-soft-dollar services such as research and administrative functions including portfolio pricing, account statement generation and fee calculations, which are intended to support our firm in conducting business and in serving the best interests of our clients. These services do not incentivize us to recommend LPL Financial. Our recommendation of LPL Financial to our clients is based on our clients' interests in receiving the best execution and the level of competitive, professional services LPL Financial provides. Our firm does not receive client brokerage commissions (or markups or markdowns) to obtain research or other products or services. We do not receive soft dollars, products or services acquired with client brokerage commissions. Our firm does not receive brokerage for client referrals. We do not allow client-directed brokerage, as trades in our clients' accounts are executed through LPL Financial, a qualified custodian and broker-dealer; neither do we direct client transactions to LPL Financial in return for soft-dollar benefits.

Suggestion of Brokers to Clients

We shall recommend LPL Financial. LPL is the broker-dealer with which our representatives are also associated. As a result of the individual association of our representatives with LPL, we are generally required to utilize the brokerage/custodial services of LPL for investment advisory accounts. Our general policies relative to the execution of client securities brokerage transactions are as follows:

Execution of Brokerage Transactions (when applicable)

In seeking "best execution", the determinative factor is not the lowest possible commission cost, but whether the transaction represents the best qualitative execution. LPL also takes into consideration the full range of a broker-dealer's services including execution capability, commission rates, and responsiveness. Although LPL will seek competitive commission rates, it may not necessarily obtain the lowest possible commission rates for all account transactions.

Over-the-Counter (OTC) securities transactions are generally effected based on two (2) separate broker-dealers: (1) a “dealer” or “principal” acting as market-maker; and (2) the executing broker-dealer that acts in an agency capacity. Dealers executing principal transactions typically include a mark-up/down, which is included in the offer or bid price of the securities purchased or sold. In addition to the dealer mark-up/down, the client may also incur the transaction fee imposed by the executing broker-dealer. We do not receive any portion of the dealer mark-up/down or the executing broker-dealer transaction fee.

Transactions for each client account will be affected independently. We individually review each client’s account and place trades accordingly. Despite being purchased or sold at approximately the same time all clients’ transactions will incur individual transaction fees.

Special Considerations for ERISA Clients

A retirement or ERISA plan client may direct all or part of portfolio transactions for its account through a specific broker or dealer in order to obtain goods or services on behalf of the plan. Such direction is permitted provided that the goods and services provided are reasonable expenses of the plan incurred in the ordinary course of its business for which it otherwise would be obligated and empowered to pay. ERISA prohibits directed brokerage arrangements when the goods or services purchased are not for the exclusive benefit of the plan. Consequently, we will request that plan sponsors who direct plan brokerage provide us with a letter documenting that this arrangement will be for the exclusive benefit of the plan.

- B. Discussion of whether, and under what conditions, we aggregate the purchase or sale of securities for various client accounts in quantities sufficient to obtain reduced transaction costs (known as bunching). If we do not bunch orders when we have the opportunity to do so, we are required to explain our practice and describe the costs to clients of not bunching.

We do not aggregate the purchase or sale of securities for various client accounts but rather review accounts independently and place transactions accordingly. Whether or not securities are purchased or sold at approximately the same time, all client transactions will incur individual transaction fees. Whether or not we aggregate our orders, LPL Financial does bunch orders. The advantage of bunching is that orders are handled in a way that may mitigate market impact, when applicable and possible. If orders are bunched, each client gets the same average execution price.

Item 13: Review of Accounts or Financial Plans

- A. Review of client accounts or financial plans, along with a description of the frequency and nature of our review, and the titles of our employees who conduct the review.

We review accounts on at least a quarterly basis for our clients subscribing to the Asset Management service. The nature of these reviews is to learn whether clients’ accounts are in line with their investment objectives, appropriately positioned based on market conditions, and investment policies, if applicable. Only our Financial Advisors or Portfolio Managers will conduct reviews.

Pension consulting clients receive reviews of their pension plans for the duration of the pension consulting service. We also provide ongoing services to pension consulting clients where we meet with such clients upon their request to discuss updates to their plans, changes in their circumstances, etc.

Financial planning clients do not receive reviews of their written plans unless they take action to schedule a financial consultation with us. We do not provide ongoing services to financial planning clients, but are willing to meet with such clients upon their request to discuss updates to their plans, changes in their circumstances, etc.

- B. Review of client accounts on other than a periodic basis, along with a description of the factors that trigger a review.

We may review client accounts more frequently than described above. Among the factors which may trigger an off-cycle review are major market or economic events, the client's life events, requests by the client, etc.

- C. Description of the content and indication of the frequency of written or verbal regular reports we provide to clients regarding their accounts.

We do not provide written reports to clients, unless asked to do so. Verbal reports to clients take place on at least an annual basis when we meet with clients who subscribe to the Asset Management service.

As mentioned in Item 13A of this Brochure, pension clients do not receive written or verbal updated reports regarding their pension plans unless they choose to contract with us for ongoing Pension Consulting services.

As also mentioned in Item 13A of this Brochure, financial planning clients do not receive written or verbal updated reports regarding their financial plans unless they separately contract with us for a post-financial plan meeting or update to their initial written financial plan.

Item 14: Client Referrals, Trade Correction Policy & Other Compensation

- A. If someone who is not a client provides an economic benefit to our firm for providing investment advice or other advisory services to our clients, we must generally describe the arrangement. For the purposes of this Item, economic benefits include any sales awards or other prizes.

Investment or Brokerage Discretion

We provide discretionary portfolio management services where the investment advice provided is custom tailored to meet the needs and investment objectives of each client. Accordingly, we are authorized to perform various functions, at the client's expense, without further approval from the client. Such functions include the determination of securities to be purchased/sold and the number of securities to be purchased/sold. We do not have discretionary authority over the broker or dealer to be used.

Suggestion of Brokers to Clients

We shall recommend LPL Financial. LPL is the broker-dealer with which our representatives are also associated. As a result of the individual association of our representatives with LPL, we are generally required to utilize the brokerage/custodial services of LPL for investment advisory

accounts. Our general policies relative to the execution of client securities brokerage transactions are as follows:

Trade Correction Policy

Trade Error Definition:

A trade error is an error in the placement, execution or settlement of a trade for a client account. For purposes of this policy, trade errors include but are not limited to the following: Securities were not legally permitted for an account, or not within an account's investment guidelines; The wrong securities, or the wrong quantity of securities, were purchased or sold for an account; Securities were purchased or sold for the wrong account; Securities were allocated to the wrong account; Duplicate orders were submitted; A failure to purchase or sell securities as intended for a particular account; Securities were purchased rather than sold for an account (or securities were sold rather than purchased); or Inappropriately delaying the investment of client assets. Whether or not a given occurrence constitutes a trade error is in part dependent on situation-specific facts and circumstances. It will not necessarily be the case that each of the foregoing would constitute a trade error in every given instance. Moreover, certain occurrences not listed above may constitute trade errors. Note that, for purposes of this policy, the following situations are not deemed to be trade errors: A good faith error in judgment in making an investment decision for a client; A trade error caught and corrected before execution; and Market-related or other events beyond the advisor's control, such as market volatility, suspension of trading or severe weather, which may impact the price of a security.

Resolving Trade Errors

If an advisor determines that he/she has made a trade error or has a question as to whether a particular situation is deemed to be a trade error, the advisor must promptly contact the respective trade desk. Under no circumstances may an advisor take any self-corrective action (i.e. place buy or sell orders) relative to resolving a trade error.

iTrust Asset Management adheres to the following guidelines in addressing trade errors:

In most circumstances, our firm takes action to return the client's account to the position it would have been in but for the error ("made whole"), at iTrust's or the advisor's expense where applicable. Any corrective action will be taken either directly by our custodian LPL Financial or at LPL's direction. For the avoidance of doubt, advisors may not independently initiate corrective action. In the event where the presumed trade error results in a gain in the client's account, our custodian LPL Financial will make the correction to return the client's account to the position it would have been in but for the error, and the net gain will remain with LPL. The gain will never be retained by iTrust or the client. An error should generally be corrected as soon after discovery as is reasonably practical, and in a manner designed to appropriately prevent or remedy actual adverse impact to affected clients. Actions taken to resolve an error should be determined considering iTrust's obligations to the client under applicable law and the agreement with the client. iTrust does not cause one account to absorb an error from a different account, including but not limited to rebilling the erroneous transaction to a different account.

Client Notice and Recordkeeping

Our custodian LPL will notify clients with reasonable promptness of corrective action taken with respect to a material error affecting their accounts through client confirmation mailings or otherwise.

LPL home office will maintain a record of all trade error reports and all related documentation for a period of six years from the end of the fiscal year in which such records were generated (the first two years at an appropriate office of LPL).

Execution of Brokerage Transactions (when applicable)

In seeking “best execution”, the determinative factor is not the lowest possible commission cost, but whether the transaction represents the best qualitative execution.

LPL also takes into consideration the full range of a broker-dealer's services including execution capability, commission rates, and responsiveness. Although LPL will seek competitive commission rates, it may not necessarily obtain the lowest possible commission rates for all account transactions.

Over-the-Counter (OTC) securities transactions are generally effected based on two (2) separate broker-dealers: (1) a “dealer” or “principal” acting as market-maker; and (2) the executing broker-dealer that acts in an agency capacity. Dealers executing principal transactions typically include a mark-up/down, which is included in the offer or bid price of the securities purchased or sold. In addition to the dealer mark-up/down, the client may also incur the transaction fee imposed by the executing broker-dealer. We do not receive any portion of the dealer mark-up/down or the executing broker-dealer transaction fee.

Transactions for each client account will be affected independently. We individually review each client's account and place trades accordingly. Despite being purchased or sold at approximately the same time all clients' transactions will incur individual transaction fees.

Additional Compensation

We may receive from LPL or a mutual fund company, without cost and/or at a discount non soft-dollar support services and/or products, to assist us to better monitor and service client accounts maintained at such institutions. Included within the support services we may receive investment-related research, pricing information and market data, software and other technology that provide access to client account data, compliance and/or practice management-related publications, discounted or gratis consulting services, discounted and/or gratis attendance at conferences, meetings, and other educational and/or social events, marketing support, computer hardware and/or software and/or other products used by us to assist us in our investment advisory business operations.

Our clients do not pay more for investment transactions effected and/or assets maintained at LPL because of this arrangement. There is no commitment made by us to LPL or any other institution because of the above arrangement.

If our firm or a related person directly or indirectly compensates any person who is not our employee for client referrals, we are required to describe the arrangement and the compensation.

We do not pay referral fees (non-commission based) to independent solicitors (non-registered representatives) for the referral of their clients to our firm in accordance with relevant state statutes and rules.

Item 15: Custody

We do not have custody of client funds or securities. All of our clients receive at least quarterly account statements directly from LPL detailing the fee and its quarterly calculation. We encourage our clients to raise any questions with us about the custody, safety, or security of their assets. The custodians we do business with will send you independent account statements listing your account balance(s), transaction history and any fee debits or other fees taken out of your account.

Should our firm inadvertently be in possession of client fund or securities, the funds or securities will be returned to sender within three (3) business days and checks payable to a third party will be forwarded to the appropriate third party within twenty-four (24) hours. Our firm will also retain the appropriate books and records for these returns or forward.

Item 16: Investment Discretion

Clients provide our firm with investment discretion on their behalf, pursuant to an executed investment advisory client agreement. By granting investment discretion, we are authorized to execute securities transactions, which securities are bought and sold, and the total amount to be bought and sold. Limitations may be imposed by the client in the form of specific constraints on any of these areas of discretion with our firm's written acknowledgement.

Item 17: Voting Client Securities

We do not accept proxy authority to vote client securities. Clients will receive proxies or other solicitations directly from their custodian or a transfer agent. If proxies are sent to our firm, we will forward them on to you and ask the party who sent them to mail them directly to you in the future. Clients may call, write, or email us to discuss questions they may have about particular proxy votes or other solicitations.

Item 18: Financial Information

We are not required to provide financial information in this Brochure because:

- We do not require the prepayment of more than \$500 in fees and six or more months in advance.
- We do not take custody of client funds or securities.
- We do not have a financial condition or commitment that impairs our ability to meet contractual and fiduciary obligations to clients.

We have never been the subject of a bankruptcy proceeding.

Item 19: Requirements for State-Registered Advisers

Principal Executive Officers & Management Persons

Joseph Todd Stricklin

Year of Birth: 1969

Educational Background:

- 1995; University of Kentucky; Master's Degree, MHA/MBA

Please see Item 10 of this Firm Brochure for any other business in which we are actively engaged. We do not charge performance-based fees. Our firm and management persons have not been involved in any arbitration awards, found liable in any civil, self-regulatory organization or administrative proceedings or have any relationships with issuers or securities apart from what is disclosed above.

Our firm does not have compensation arrangements connected with advisory services which are in addition to our advisory fees. Our management persons and representatives do not engage in other financial industry activities or affiliations. As a fiduciary, we always put our client's interest above our own. Information regarding participation of interest in client transactions can be found in our Code of Ethics as well as Item 11 of this Brochure. You may obtain a copy of our Code of Ethics by contacting Todd Stricklin, Chief Compliance Officer, at (859) 425-1222.
