Form ADV Part 2A Appendix 1 – Wrap Fee Program Brochure

This brochure provides information about the qualifications and business practices of Brian Low Financial Group, LLC (“BLFG”) If you have any questions about the contents of this brochure, please contact us at 225-292-4225 . The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority. Brian Low Financial Group, LLC is a Registered Investment Adviser. Registration with the United States Securities and Exchange Commission or any state securities authority does not imply a certain level of skill or training.

Additional information about BLFG is available on the SEC’s website at www.adviserinfo.sec.gov. You can search this site by a unique identifying number, known as an IARD number. The IARD number for BLFG is IARD #30634.

ITEM 2 – Material Changes

This section of the Brochure will address only those “material changes” that have been incorporated since our last delivery or posting of this document on the SEC’s public disclosure website (IAPD) **www.adviserinfo.sec.gov**.

The following changes have been made to our ADV since the last Annual Amendment filing dated March 29, 2023:

No material changes made during period.

If you would like another copy of this Brochure, please download it from the SEC Website as indicated above or you may contact our Chief Compliance Officer at 859-309-8274.

We encourage you to read this document in its entirety.

ITEM 7 – CLIENT INFORMATION PROVIDED TO PORTFOLIO MANAGER(S)	12
ITEM 8 – CLIENT CONTACT WITH PORTFOLIO MANAGER(S)	12
ITEM 9 – ADDITIONAL INFORMATION	12

ITEM 4 – Services, Fees & Compensation

We offer a wrap fee program as described in this Wrap Fee Program Brochure. A wrap fee program is generally considered any arrangement under which clients receive investment advisory services and the execution of client transactions for a specified fee or fees not based upon transactions in their accounts. All of our investment management clients will be offered the wrap fee program structure that includes, as a single fee, the securities transaction costs for trading in Client accounts along with the investment advisory fees earned by our firm. Our firm receives a portion of the wrap fee for the services rendered. While traditional Wrap Fee Programs are often rigid, pre-packaged investment programs, our firm customizes its investment strategies individually for its Clients. Prior to receiving services through the Program, clients are required to enter into a written agreement with our firm setting forth the relevant terms and conditions of the investment advisory relationship (the “Agreement”).

Our Wrap Advisory Services

We manage advisory accounts on a non-discretionary basis. Once we determine a client’s profile, income need, and investment plan, we execute the day-to-day transactions with prior consent, depending on the client’s agreement with our Firm. Account supervision is guided by the client’s written profile and investment plan. We may accept accounts with certain restrictions if circumstances warrant. We primarily allocate client assets among various equities, Exchanged Traded Funds (“ETFs”), mutual funds and debt securities in accordance with their stated investment objectives and income needs.

In personal discussions with clients, we determine their objectives, time horizons, risk tolerance and liquidity and income needs. As appropriate, we also review their prior investment history, as well as family composition and background. Based on client needs, we develop the client’s personal profile and investment plan. We then create and manage the client’s investments based on that policy and plan. It is the client’s obligation to notify us immediately if circumstances have changed with respect to their goals and income needs.

Once we have determined the appropriate strategy for clients or client businesses and executed the strategy, we will provide ongoing investment review and management services. This approach requires us to periodically review client portfolios.

When a non-discretionary relationship is in place, calls will be placed to the client presenting the recommendation made including a rebalancing recommendation and only upon your authorization will any action be taken on your behalf.

You are advised and are expected to understand that our past performance is not a guarantee of future results. Certain market and economic risks exist that adversely affect an account’s performance. This could result in capital losses in your account.

Sub-advisory relationships and Referrals to Third Party Money Managers

Our firm may utilize the services of a sub-advisor or independent third-party money managers for the management of client accounts. Investment advice and trading of securities will only be offered by and through the chosen third-party money managers. Our firm will not offer advice on any specific securities or other investments in connection with this service. Prior to referring clients, our firm will provide initial due diligence on third party money managers and ongoing reviews of their management of client accounts. In order to assist in the selection of a sub-advisor or third-party money manager, our firm will gather client information pertaining to financial situation, investment objectives, and reasonable restrictions to be imposed upon the management of the account.

Our firm will periodically review third party money manager reports provided to the client at least annually. Our firm will contact clients from time to time in order to review their financial situation and objectives and communicate information to third party money managers as warranted. We will also assist the client in understanding and evaluating the services provided by the third party money manager. Clients will be expected to notify our firm of any changes in their financial situation, investment objectives, income needs or account restrictions that could affect their financial standing.

Relative Cost of the Program

A wrap fee program allows our clients to pay a specified fee for investment advisory services and the execution of transactions. By participating in a wrap fee program, you may end up paying more or less than you would through a non-wrap fee program where a lower advisory fee is charged, but trade execution costs are passed directly through to you by the executing broker. We do not charge our clients higher advisory fees based on their trading activity, but you should be aware that we may have an incentive to limit our trading activities in your account(s) because we incur the fees for executed trades. In order to mitigate this conflict of interest, we will fulfill our fiduciary duty by always acting in the client's best interest.

Our Firm charges an advisory fee as compensation for providing Investment Management services on client accounts. These services include advisory services, investment supervision, and other account-maintenance activities. Our custodian charges custodial fees, redemption fees, and retirement plan and administrative fees. Financial planning services by our firm are included in advisory fees outlined below. See Additional Fees and Expenses below for additional details.

The Advisory Fee will be calculated and paid to the Advisor each calendar month or quarter in arrears based on the average daily value of the Portfolio during the calendar month. In the event of termination, any fees due to the Advisor will be deducted from the Client's account prior to termination.

The market value will be determined as reported by the Custodian. Calculations are made as follows:

$$\text{"Average Daily Balance of the prior calendar month"} \times (\text{"Annual Advisory Fee"} / 4) = \text{Monthly Advisory Fee}$$

Our firm's advisory fee schedule is as follows:

\$0 to \$999,999	1.25%	annually
\$1 million and \$1.99 million	1.00%	annually
\$2 million and \$2.99 million	0.90%	annually
Over \$3 million	0.75%	annually

We may negotiate a lower advisory fee or have the right to waive the minimum fee. The specific advisory fees are set forth in your Investment Advisory Agreement. Fees may vary based on the size of the account, complexity of the portfolio, extent of activity in the account or other reasons agreed upon by us and the client. In certain circumstances, our fees and the timing of the fee payments may be negotiated.

Unless otherwise instructed by the Client, we will aggregate related client accounts for the purposes of determining the account size and annualized fee. The common practice is often referred to as "householding" portfolios for fee purposes and may result in lower fees than if fees were calculated on portfolios separately. Our method of householding accounts for fee purposes looks at the overall family dynamic and relationship. When applicable and noted in the Investment Management Agreement, concentrated stock positions may also be excluded from the fee calculation.

The independent qualified custodian holding your funds and securities will debit your account directly for the advisory fee and pay that fee to us. You will provide written authorization permitting the fees to be paid directly from your account held by the qualified custodian. At our discretion, you may pay the advisory fees directly to our Firm by check. Further, the qualified custodian agrees to deliver an account statement to you on a quarterly basis indicating all the amounts deducted from the account including our advisory fees.

Either party giving written or verbal notice to the other may cancel the Investment Advisory Agreement at any time for any reason. Notice given by the client shall be effective upon actual receipt by BLFG at the address specified on the Investment Advisory Agreement or the then current address. The management fee will be pro-rated to the date of termination, for the month in which the cancellation notice was given and the unearned fee billed to your account as indicated in your Agreement. Upon termination, you are responsible for monitoring the securities in your account, and we will have no further obligation to act or advise with respect to those assets. In the event of client's death or disability, our Firm will continue management of the account until we are notified of client's death or disability and given alternative instructions by an authorized party.

In no case are our fees based on, or related to, the performance of your funds or investments.

BLFG is the sponsor and portfolio manager of this Wrap Fee Program. BLFG receives investment advisory fees paid by our clients for investment advisory services covered under this Wrap Fee Program.

Sub-advisory or Third-Party Money Manager (“TPMM”) Fees

Under such arrangements where our Firm elects to utilize a sub-advisor/TPMM and depending on the contract with our Firm, the total advisory fee may be collected from the custodian by our Firm or the independent TPMM. This total fee includes our Firm’s portion of the investment advisory fee as well as the TPMM fee. Total fees for clients utilizing a sub-advisor/TPMM will not exceed 1.25%. Fees and billing methods are outlined in each respective TPMM’s Brochure and Advisory Contract.

Other Types of Fees & Expenses

You may pay custodial fees, charges imposed directly by a mutual fund, index fund, or exchange traded fund which shall be disclosed in the fund’s prospectus (i.e., fund management fees and other fund expenses), mark-ups and mark-downs, wire transfer fees, fees for trades executed away from custodian, and taxes on brokerage accounts and securities transactions. These fees are not included within the wrap-fee you are charged by our firm. Neither our Firm nor its supervised persons accept compensation for the sale of securities. Further, our firm does not share in any of these additional fees and expenses outlined above.

ITEM 5 – Account Requirements & Types of Clients

We provide investment advice to individuals, high net individuals, charitable organizations, estates and trusts. We do not require a minimum dollar amount to open and maintain an advisory account.

ITEM 6 – Portfolio Manager Selection & Evaluation

Portfolio Manager Selection

We serve as the sponsor and portfolio manager for our Wrap Fee Program.

Related Persons

Our firm’s investment adviser representatives serve as the portfolio manager for the services under this Wrap Fee Program. We only manage this wrap fee program and we do not act as portfolio manager for any third-party wrap fee programs.

Supervised Persons

Our investment adviser representatives serve as the portfolio manager for the Wrap Fee Program described in this Wrap Fee Program Brochure. Please refer to the Items 4 and 8 of the Disclosure Brochure for details on the services provided by our Firm. For information related to the background of our supervised persons, please see Items 9 and 11 of the Disclosure Brochure.

Advisory Business

See Item 4 for information about our wrap fee advisory program. We offer individualized investment advice to clients utilizing our Wrap Portfolio Management service.

Each client has the opportunity to place reasonable restrictions on the types of investments to be held in the portfolio. Restrictions on investments in certain securities or types of securities may not be possible due to the level of difficulty this would entail in managing the account.

Participation in Wrap Fee Programs

We offer wrap fee accounts to our clients, which are managed on an individualized basis according to the client's investment objectives, financial goals, risk tolerance, etc.

Performance-Based Fees & Side-By-Side Management

We do not charge performance fees to our clients.

Methods of Analysis, Investment Strategies & Risk of Loss

Investment Strategies, Philosophy, and Methodology

Asset classes, market capitalizations, and investment styles are cyclical – coming into and going out of favor without informing market participants when, to what degree, or for how long they intend on remaining dislocated from their long-term averages. Therefore, we do not try to time when to enter and exit the market – as time in the market is more important than timing it – nor do we portend to have some divine knowledge about the short-term direction of markets – markets that are completely out of our control. Instead of diverting our attention to the items that we are unable to influence, we focus all of our energy on the areas of a client portfolio we do have control over – (1) purpose driven investing through aligning the underlying investment strategy to the needs of the client assets, (2) thorough and exhaustive investment research to potentially maximize long-term wealth accumulation through portfolio positioning, (3) consistent and unwavering diversification within the portfolio in an attempt to ensure against the risk of total loss, and (4) disciplined rebalancing of client assets allowing for an objective reallocation of capital and risk. These four tenants do not guarantee the road won't be bumpy at times; however, they do provide the necessary guardrails to ensure our clients stay on the road to meeting their long-term goals.

BLFG's fundamental job is to meet a variety of client financial goals by selecting and actively managing choices of investments against changing market conditions and opportunities as appropriate to accomplish clients' needs for income, wealth accumulation and/or capital preservation. Our Firm will work through a rigorous financial questionnaire with a client to understand a client's financial values and help them uncover what their next financial step should be. Our Investment Advisor Representatives educate clients on financial planning to ultimately help guide people to make better investment decisions for themselves. Once we go through the financial fact finder process with a client and develop the personalized investment philosophy, our firm will discuss the universe of options to implement the objectives of the client. We start on the

right side of the board, placing clients in risk-based investments, equities, ETFs, and mutual funds. We use the following methods of analysis in formulating our investment advice and/or managing client assets:

- *Fundamental Analysis:* We attempt to measure the intrinsic value of a security by looking at economic and financial factors (including the overall economy, industry conditions, and the financial condition and management of the company) to determine if the security is underpriced (indicating that it may be a good time to buy) or overpriced (indicating that it may be time to sell). Fundamental analysis does not attempt to anticipate market movements. This presents a potential risk because the price of a security can move up or down along with the overall market regardless of the economic and financial factors considered in evaluating the security.
- *Asset Allocation:* In addition to focusing on securities selection, we attempt to identify an appropriate ratio of securities, fixed income, and cash suitable to the client's investment goals and risk tolerance.

A risk of asset allocation is that the client may not participate in sharp increases in a particular security, industry or market sector. Another risk is that the ratio of securities, fixed income, and cash will change over time due to stock and market movements and, if not corrected, will no longer be appropriate for the client's goals. Periodically we may encounter economic conditions that warrant temporary adjustments to the asset allocation of an investment strategy or portfolio. If we believe that these conditions present either an increase in risk or opportunity for that particular asset class we may alter the appropriate allocation to reflect this conviction.

- *Mutual Fund and/or ETF Analysis:* We look at the experience and track record of the manager of the mutual fund or ETF in an attempt to determine if the manager has demonstrated an ability to invest over a period of time and in different economic conditions. We also look at the underlying assets in a mutual fund or ETF in an attempt to determine if there is significant overlap in the underlying investments held in another fund(s) in the client's portfolio. We also monitor the funds or ETFs in an attempt to determine if they are continuing to follow their stated investment strategy.

A risk of mutual fund and/or ETF analysis is that, as in all securities investments, past performance does not guarantee future results. A manager who has been successful may not be able to replicate that success in the future. In addition, because we do not control the underlying investments in a fund or ETF, managers of different funds held by the client may purchase the same security thereby increasing the risk to the client if that security were to fall in value. There is also a risk that a manager may deviate from the stated investment mandate or strategy of the fund or ETF which could make the holding(s) less suitable for the client's portfolio.

- *Technical analysis:* Trends in price and trading volume can provide important clues on the demand for a particular stock. Deciding whether and when to buy or sell a stock or stocks in general (the overall market) is an important part of the investment process, particularly as it applies to managing risk. As an aid in making decisions, we look at the basic technical patterns and signals recognized by the industry as providing meaningful input. The key consideration is a trend: its strength, length, exhaustion and reversal. These situations can result in buying and selling opportunities.

- *Risks for all forms of analysis:* Our securities analysis methods rely on the assumption that the companies whose securities we purchase and sell, the rating agencies that review these securities, and other publicly-available sources of information about these securities, are providing accurate and unbiased data. While we are alert to indications that data may be incorrect, there is always a risk that our analysis may be compromised by inaccurate or misleading information.

Our firm may recommend the use of an alternative investment. Investments classified as "alternative investments" may include a broad range of underlying assets including, but not limited to, hedge funds, private equity, venture capital, and registered, publicly traded securities. Alternative investments are speculative, not suitable for all clients and intended for only experienced and sophisticated investors who are willing to bear the high risk of the investment, which can include: loss of all or a substantial portion of the investment due to leveraging, short-selling, or other speculative investment practices; lack of liquidity in that there may be no secondary market for the fund and none expected to develop; volatility of returns; potential for restrictions on transferring interest in the fund; potential lack of diversification and resulting higher risk due to concentration of trading authority with a single advisor; absence of information regarding valuations and pricing; potential for delays in tax reporting; less regulation and typically higher fees than other investment options such as mutual funds. The SEC requires investors be accredited to invest in these more speculative alternative investments. Investing in a fund that concentrates its investments in a few holdings may involve heightened risk and result in greater price volatility.

Risk of Loss

Clients must understand that past performance is not indicative of future results. Therefore, current and prospective clients should never assume that future performance of any specific investment or investment strategy will be profitable. Investing in securities involves risk of loss. Further, depending on the different types of investments there will be varying degrees of risk. Clients and prospective clients should be prepared to bear investment loss including loss of original principal.

Because of the inherent risk of loss associated with investing, our Firm is unable to represent, guarantee, or even imply that our services and methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate you from losses due to market corrections or declines.

Investors should be aware that accounts are subject to the following risks:

Charting Analysis Risk - Our charting analysis may not accurately detect anomalies or predict future price movements. Current prices of securities may reflect all information known about the security and day-to-day changes in market prices of securities may follow random patterns and may not be predictable with any reliable degree of accuracy.

Technical Risk - The risk of market timing based on technical analysis is that our analysis may not accurately detect anomalies or predict future price movements. Current prices of securities may reflect all information known about the security and day-to-day changes in

market prices of securities may follow random patterns and may not be predictable with any reliable degree of accuracy.

Market Risk — Even a long-term investment approach cannot guarantee a profit. Economic, political and issuer-specific events will cause the value of securities to rise or fall. Because the value of investment portfolios will fluctuate, there is the risk that you will lose money and your investment may be worth more or less upon liquidation.

Foreign Securities and Currency Risk — Investments in international and emerging-market securities include exposure to risks such as currency fluctuations, foreign taxes and regulations, and the potential for illiquid markets and political instability.

Capitalization Risk — Small-cap and mid-cap companies may be hindered as a result of limited resources or less diverse products or services, and their stocks have historically been more volatile than the stocks of larger, more established companies.

Interest Rate Risk — In a rising rate environment, the value of fixed-income securities generally declines and the value of equity securities may be adversely affected.

Credit Risk — Credit risk is the risk that the issuer of a security may be unable to make interest payments and/or repay principal when due. A downgrade to an issuer's credit rating or a perceived change in an issuer's financial strength may affect a security's value and, thus, impact the fund's performance.

Securities Lending Risk — Securities lending involves the risk that the fund loses money because the borrower fails to return the securities in a timely manner or at all. The fund could also lose money if the value of the collateral provided for loaned securities, or the value of the investments made with the cash collateral, falls. These events could also trigger adverse tax consequences for the fund.

Exchange-Traded Funds — ETFs face market-trading risks, including the potential lack of an active market for shares, losses from trading in the secondary markets and disruption in the creation/redemption process of the ETF. Any of these factors may lead to the fund's shares trading at either a premium or a discount to its "net asset value."

Performance of Underlying Managers — We select the mutual funds and ETFs in our portfolios. However, we depend on the manager of such funds to select individual investments in accordance with their stated investment strategy.

Liquidity Risk - Liquidity risk exists when particular investments would be difficult to purchase or sell, possibly preventing clients from selling such securities at an advantageous time or price.

Voting Client Securities

We will not vote proxies on your behalf. You are welcome to vote proxies or designate an independent third-party at your own discretion. You designate proxy voting authority in the custodial account documents. You must ensure that proxy materials are sent directly to you or your assigned third party. We do not take action with respect to any securities or other

investments that become the subject of any legal proceedings, including bankruptcies. Clients can contact our office with questions about a particular solicitation by phone at 225-292-4225.

ITEM 7 – Client Information Provided to Portfolio Manager(s)

Our firm is required to describe the type and frequency of the information it communicates to external managers that may be involved in managing its Clients' investment portfolios. BLFG serves as the sole portfolio manager under this Wrap Fee Program and, as such, we have no information to disclose regarding this Item.

ITEM 8 – Client Contact with Portfolio Manager(s)

Our firm does not place restrictions on the client's ability to contact and consult their financial advisor. As the portfolio manager, clients are free to contact us at any time.

ITEM 9 – Additional Information

All the information disclosed in Item 9 is for Wrap Fee Clients.

Disciplinary Information

Our Firm does not have any legal disciplinary events, criminal or civil actions, material to a client's decision to choose to engage advisory services from our Firm.

Financial Industry Activities & Affiliations

Insurance

Some of our IARs are also licensed insurance agents and sell various life insurance products, long term care and fixed annuities. Our IARs receive compensation (commissions, trails, or other compensation from the respective product sponsors) as a result of effecting insurance transactions for clients. A portion of the time IARs spend (generally 50%) is in connection with these insurance activities and it represents 50% of the ongoing revenue for our IARs. The advisor has an incentive to recommend insurance and this incentive creates a conflict of interest between your interests and our Firm. Clients should note that they have the right to decide whether or not to engage the services of our IARs. Further, clients should note they have the right to decide whether to act on the recommendations and the right to choose any professional to execute the advice for any insurance products through our IAR or any licensed insurance agent not affiliated with our Firm. We recognize the fiduciary responsibility to place your interests first and have established policies in this regard to avoid any conflicts of interest.

Clients should be aware that the ability to receive additional compensation by BLFG and its management persons or employees creates conflicts of interest that impair the objectivity of the Firm and these individuals when making advisory recommendations. BLFG endeavors at all times to act in the Clients best interest of its clients. As part of our fiduciary duty as a registered investment adviser, we take the following steps, among others to address this conflict:

- we disclose to clients the existence of all material conflicts of interest, including the potential for the Firm and our employees to earn compensation from advisory clients in addition to the Firm's advisory fees;
- we disclose to clients that they have the right to decide to purchase recommended investment products from our employees or Related Companies;
- we collect, maintain and document accurate, complete and relevant client background information, including the client's financial goals, objectives and risk tolerance;
- we conduct regular reviews of each client advisory account to verify that all recommendations made to a client are in the best interest of the client's needs and circumstances;
- we require that our employees seek prior approval of any outside employment activity so that we may ensure that any conflicts of interests in such activities are properly addressed;
- we periodically monitor these outside employment activities to verify that any conflicts of interest continue to be properly addressed by the Firm; and
- we educate our employees regarding the responsibilities of a fiduciary, including the need for having a reasonable and independent basis for the investment advice provided to clients.

IARs of our Firm do not have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading adviser, or an associated person of the foregoing entities.

Our firm nor any of its management persons are registered or have an application pending to register as a broker-dealer or a registered representative of a broker-dealer.

Brokerage Practices

We participate in the TD Ameritrade Institutional program. TD Ameritrade Institutional is a division of TD Ameritrade, Inc. ("TD Ameritrade") member FINRA/SIPC. TD Ameritrade is an independent and unaffiliated SEC-registered broker-dealer. TD Ameritrade offers services to independent investment advisors that include custody of securities, trade execution, clearance and settlement of transactions. Advisor receives some benefits from TD Ameritrade through its participation in the program. (Please see the disclosure under Item 14 below.)

There is no direct link between our participation in the program and the investment advice we give to our clients, although we receive economic benefits through our participation in the program that are typically not available to any other independent investment advisors participating in the program. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving advisor participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications

network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to us by third party vendors. TD Ameritrade may also have paid for business consulting and professional services received by some of our related persons. Some of the products and services made available by TD Ameritrade through the program may benefit us but may not benefit your account. These products or services may assist us in managing and administering your account, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help us manage and further develop our business enterprise. The benefits received by our firm or our personnel through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of our fiduciary duties to clients, we endeavor at all times to put the interests of our clients first. You should be aware, however, that the receipt of economic benefits by our Firm or our related persons in and of itself creates a conflict of interest and may indirectly influence our choice of TD Ameritrade for custody and brokerage services.

In the event you request us to recommend a broker/dealer custodian for execution and/or custodial services, we generally recommend your account to be maintained at TD Ameritrade. We may recommend that you establish accounts with TD Ameritrade to maintain custody of your assets and to effect trades for your accounts. You are under no obligation to act upon any recommendations, and if you elect to act upon any recommendations, you are under no obligation to place the transactions through any broker/dealer we recommend. Our recommendation is generally based on the broker's cost and fees, skills, reputation, dependability and compatibility with the client. You may be able to obtain lower commissions and fees from other brokers and the value of products, research and services given to us is not a factor in determining the selection of broker/dealer or the reasonableness of their commissions.

Aggregation and Allocation of Transactions

We may aggregate transactions if we believe that aggregation is consistent with the duty to seek best execution for our clients and is consistent with the disclosures made to clients and terms defined in the client Investment Advisory Agreement. We may make trades in individual accounts (that are not aggregated with others) so that we may address that client's unique circumstances. No advisory client will be favored over any other client, and each account that participates in an aggregated order will participate at the average share price (per custodian) for all transactions in that security on a given business day.

We will aggregate trades for ourselves or our associated persons with your trades, providing that the following conditions are met:

1. Our policy for the aggregation of transactions shall be fully disclosed to our existing clients (if any) and the Custodian(s) through which such transactions will be placed;
2. We will not aggregate transactions unless we believe that aggregation is consistent with our duty to seek the best execution (which includes the duty to seek best price) for you and is consistent with the terms of our Investment Advisory Agreement with you for which trades are being aggregated.

3. No advisory client will be favored over any other client; each client that participates in an aggregated order will participate at the average share price for all our transactions in a given security on a given business day, with transaction costs based on each client's participation in the transaction;
4. We will prepare a written statement ("Allocation Statement") specifying the participating client accounts and how to allocate the order among those clients;
5. If the aggregated order is filled in its entirety, it will be allocated among clients in accordance with the allocation statement; if the order is partially filled, the accounts that did not receive the previous trade's positions should be "first in line" to receive the next allocation.
6. Notwithstanding the foregoing, the order may be allocated on a basis different from that specified in the Allocation Statement if all client accounts receive fair and equitable treatment and the reason for difference of allocation is explained in writing and is reviewed by our compliance officer. Our books and records will separately reflect, for each client account, the orders of which aggregated, the securities held by, and bought for that account.
7. We will receive no additional compensation or remuneration of any kind as a result of the proposed aggregation; and
8. Individual advice and treatment will be accorded to each advisory client.

Trade Errors

From time-to-time we may make an error in submitting a trade order on your behalf. When this occurs, we may place a correcting trade with the Custodian of your account. If an investment gain results from the correcting trade, the gain will remain in your account unless the same error involved other client accounts that should have received the gain, it is not permissible for you to retain the gain, or we confer with you and you decide to forgo the gain (e.g. due to tax reasons). If the gain does not remain in your account the Custodian will donate the amount of any gain \$100 and over to charity. If a loss occurs greater than \$100, we will pay for the loss. Custodian will maintain the loss or gain (if such gain is not retained in your account) if it is under \$100 to minimize and offset its administrative time and expense. Generally, if related trade errors result in both gains and losses in your account, they may be netted.

We do not routinely recommend, request or require that you direct us to execute transaction through a specified broker dealer. Additionally, we typically do not permit you to direct brokerage. We place trades for your account subject to our duty to seek best execution and other fiduciary duties.

Code of Ethics, Participation or Interest in Client Transactions & Personal Trading

We have developed and implemented a Code of Ethics that sets forth standards of conduct expected of our advisory personnel to mitigate this conflict of interest. The Code of Ethics addresses, among other things, personal trading, gifts, and the prohibition against the use of inside information.

The Code of Ethics is designed to:

- protect our clients,

- detect and deter misconduct,
- educate personnel regarding the firm's expectations and laws governing their conduct,
- remind personnel that they are in a position of trust and must act with complete propriety at all times,
- protect the reputation of our Firm,
- guard against violation of the securities laws,
- establish procedures for personnel to follow so that we may determine whether their personnel are complying with the firm's ethical principles.

Our Firm and persons associated with us are allowed to invest, buy or sell securities, for their own accounts or to have a material financial interest in the same securities or other investments that we recommend or acquire for your account and may engage in transactions that are the same as transactions made in your account. We recognize the fiduciary responsibility to act in your best interest and have established policies to mitigate conflicts of interest. Trades for supervised persons are traded alongside client accounts and receive the same pricing as clients if traded on the same day.

Neither our Firm nor its related persons recommend to clients, or buys or sells for client accounts, securities in which we have a material financial interest.

We have established the following restrictions in order to ensure our firm's fiduciary responsibilities:

1. A director, officer or employee of BLFG shall not buy or sell any securities for their personal portfolio(s) where their decision is substantially derived, in whole or in part, by reason of his or her employment unless the information is also available to the investing public on reasonable inquiry. No supervised employee of BLFG shall prefer his or her own interest to that of the advisory client.
2. We maintain a list of all securities holdings of anyone associated with this advisory practice with access to advisory recommendations. These holdings are reviewed on a regular basis by an appropriate officer/individual of BLFG.
3. We emphasize the unrestricted right of the client to decline to implement any advice rendered, except in situations where we are granted discretionary authority of the client's account.
4. We require that all supervised employees must act in accordance with all applicable Federal and State regulations governing registered investment advisory practices.
5. Any supervised employee not in observance of the above may be subject to termination.

You may request a complete copy of our Code of Ethics by contacting us at the telephone number on the cover page of this Part 2; Attn: Chief Compliance Officer.

Review of Accounts

Account Reviews and Reviewers – Investment Supervisory Services

Our Investment Advisor Representatives will monitor client accounts on at least a monthly basis and perform reviews with each client annually or as often as is agreed upon by the client and Advisor. All accounts are reviewed for consistency with client investment strategy, asset allocation, risk tolerance and performance relative to the appropriate benchmark. More frequent reviews may be triggered by changes in an account holder's personal, tax or financial status. Geopolitical and macroeconomic specific events may also trigger reviews. Clients may request a review at any time.

Statements and Reports

The custodian for the individual client's account will provide clients with an account statement at least quarterly. You are urged to compare any reports and invoices provided by our firm against the account statements you receive directly from your account custodian.

Client Referrals & Other Compensation

Our Firm and its related entities do not directly or indirectly compensate any person who is not an IAR of our firm nor receive any compensation for any client referrals.

We receive an economic benefit from TD Ameritrade in the form of the support products and services it makes available to us. These products and services, how they benefit us, and the related conflicts of interest are described above under Item 12 Brokerage Practices. The availability to us of TD Ameritrade's products and services is not based on us giving particular investment advice, such as buying particular securities for our clients.

Insurance

Some of our IARs are also licensed insurance agents and sell various life insurance products, long term care and fixed annuities through our affiliated licensed insurance agency, PC-190, LLC. There is a conflict of interest to clients because our firm and our IARs receive compensation (commissions, trails, or other compensation from the sale of the respective insurance products) as a result of effecting insurance transactions for clients.

The firm and the IAR have an incentive to recommend insurance products and this incentive creates a conflict of interest between your interests and our Firm. We mitigate this conflict by disclosing to clients they have the right to decide whether or not to engage the services of our IARs or our affiliated Insurance agency. Further, clients should note they have the right to decide whether to act on the recommendations and the right to choose any professional to execute the advice for any insurance products through our IAR or any licensed insurance agent not affiliated with our Firm. We recognize the fiduciary responsibility to place the client's interests first and have established policies in this regard to avoid any conflicts of interest.

Soft Dollars

Our firm does not accept any direct soft dollars.

Note that TD Ameritrade provides our firm and our clients with access to its institutional brokerage, trading, custody, reporting, and related services, many of which are not typically

available to TD Ameritrade retail customers. TD Ameritrade also makes available various support services. Some of those services help us manage or administer our clients' accounts; others help us manage and grow our business. TD Ameritrade's support services generally are available on an unsolicited basis (we do not have to request them) and at no charge to us. These are considered soft dollar benefits because there is an incentive to do business with TD Ameritrade. This creates a conflict of interest. We recognize the fiduciary responsibility to act in your best interest and have established policies in this regard to mitigate any conflicts of interest.

Directed Brokerage

We do not routinely recommend, request or require that you direct us to execute transaction through a specified broker dealer. Additionally, we typically do not permit you to direct brokerage. We place trades for your account subject to our duty to seek best execution and other fiduciary duties.

Custodian's execution quality may be different than other Custodians.

BLFG annually reviews the relationship between our Custodians, BLFG and the client in order to determine if the custodial relationship is in the best interest of the client.

Financial Information

We do not require or solicit prepayment of more than \$500 in fees per client, six months or more in advance. Therefore, we are not required to include a balance sheet for our most recent fiscal year. We are not subject to a financial condition that is reasonably likely to impair our ability to meet contractual commitments to clients. Finally, we have not been the subject of a bankruptcy petition at any time.

We do not take custody of client funds or securities, except for our authorization to directly deduct fees as disclosed in item 4.
