Item 4 Advisory Business

CFM Advisors, Inc. d/b/a CCG Investments is a SEC-registered investment adviser with its principal place of business located in New York. CCG Investments began conducting business in 2011.

Listed below are the firm's principal shareholders (i.e., those individuals and/or entities controlling 25% or more of this company).

- Victor Matera, Owner

CCG Investments offers the following advisory services to our clients:

INVESTMENT SUPERVISORY SERVICES ("ISS") INDIVIDUAL PORTFOLIO MANAGEMENT

Our firm provides continuous advice to a client regarding the investment of client funds based on the individual needs of the client. Through personal discussions in which goals and objectives based on a client's particular circumstances are established, we develop a client's personal investment policy and create and manage a portfolio based on that policy. During our data-gathering process, we determine the client's individual objectives, time horizons, risk tolerance, and liquidity needs. As appropriate, we also review and discuss a client's prior investment history, as well as family composition and background.

We manage these advisory accounts on a non-discretionary basis. Account supervision is guided by the client's stated objectives (i.e., maximum capital appreciation, growth, income, or growth and income), as well as tax considerations.

Our investment recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company and will generally include advice regarding the following securities:

- Exchange-listed securities
- Securities traded over-the-counter
- Corporate debt securities (other than commercial paper)
- Certificates of deposit
- Municipal securities
- Variable life insurance
- Variable annuities
- Mutual fund shares
- United States governmental securities
- Interests in partnerships investing in real estate

Because some types of investments involve certain additional degrees of risk, they will only be implemented/recommended when consistent with the client's stated investment objectives, tolerance for risk, liquidity and suitability.

MANAGER OF MANAGERS PROGRAM

CCG Investments offers advisory management services to clients through our Manager of Managers Program. We provide the client with an asset allocation strategy developed through personal discussions in which the client's goals and objectives are established based on the client's particular circumstances. This asset allocation strategy is drafted into the client's Personal Investment Policy Statement.

CCG Investments performs management searches of various registered investment advisers. Based on the client's individual circumstances and needs (as exhibited in the client's Personal Investment Policy Statement) we determine which selected registered investment adviser's ("adviser" or "asset manager") portfolio management style is appropriate for that client. Factors considered in making this determination include account size, risk tolerance, the opinion of each client and the investment philosophy of the selected asset manager. Clients should refer to the asset manager's Firm Brochure or other disclosure document for a full description of the services offered. Client meetings are available on a regular basis, or as determined by the client, to review the account.

Once we identify the most appropriate asset manager(s), our firm provides the selected adviser with the client's Personal Investment Policy Statement, who then creates and manages the client's portfolio based on that Personal Investment Policy Statement.

On an ongoing basis, we monitor the performance of the asset manager(s). If we determine that a particular adviser is not providing sufficient management services to the client, or is not managing the client's portfolio in a manner consistent with that client's Personal Investment Policy Statement, then we may move the client's portfolio to a different asset manager and/or program sponsor. Under this scenario, our firm retains the discretion to hire and fire the asset manager and/or move the client's portfolio to a different program.

At least annually, we meet with the client to review and update, as necessary, the client's Personal Investment Advisory Statement. However, should there be any material change in the client's personal and/or financial situation, we should be notified immediately to determine whether any review and/or revision of the client's Personal Investment Advisory Statement is warranted.

PENSION CONSULTING SERVICES

We also provide several advisory services separately or in combination. While the primary clients for these services will be pension, profit sharing and 401(k) plans, we offer these services, where appropriate, to individuals and trusts, estates and charitable organizations. Pension Consulting Services are comprised of four distinct services. Clients may choose to use any or all of these services.

Investment Policy Statement Preparation (hereinafter referred to as "IPS"):

We will meet with the client (in person or over the telephone) to determine an appropriate investment strategy that reflects the plan sponsor's stated investment objectives for management of the overall plan. Our firm then prepares a written IPS detailing those needs

and goals, including an encompassing policy under which these goals are to be achieved. The IPS also lists the criteria for selection of investment vehicles as well as the procedures and timing interval for monitoring of investment performance.

Selection of Investment Vehicles:

We assist plan sponsors in constructing appropriate asset allocation models. We will then review various mutual funds (both index and managed) to determine which investments are appropriate to implement the client's IPS. The number of investments to be recommended will be determined by the client, based on the IPS.

Monitoring of Investment Performance:

We monitor client investments continually, based on the procedures and timing intervals delineated in the Investment Policy Statement. Although our firm is not involved in any way in the purchase or sale of these investments, we supervise the client's portfolio and will make recommendations to the client as market factors and the client's needs dictate.

Employee Communications:

For pension, profit sharing and 401(k) plan clients with individual plan participants exercising control over assets in their own account ("self-directed plans"), we may also provide quarterly educational support and investment workshops designed for the plan participants. The nature of the topics to be covered will be determined by us and the client under the guidelines established in ERISA Section 404(c). The educational support and investment workshops will NOT provide plan participants with individualized, tailored investment advice or individualized, tailored asset allocation recommendations.

FINANCIAL PLANNING SERVICES

We provide financial planning services. Financial planning is a comprehensive evaluation of a client's current and future financial state by using currently known variables to predict future cash flows, asset values and withdrawal plans. Through the financial planning process, all questions, information and analysis are considered as they impact and are impacted by the entire financial and life situation of the client. Clients purchasing this service receive a written report which provides the client with a detailed financial plan designed to assist the client achieve his or her financial goals and objectives.

In general, the financial plan can address any or all of the following areas:

- **PERSONAL:** We review family records, budgeting, personal liability, estate information and financial goals.
- **TAX & CASH FLOW:** We analyze the client's income tax and spending and planning for past, current and future years; then illustrate the impact of various investments on the client's current income tax and future tax liability.
- **INVESTMENTS:** We analyze investment alternatives and their effect on the client's portfolio.

- **INSURANCE:** We review existing policies to ensure proper coverage for life, health, disability, long-term care, liability, home and automobile.
- **RETIREMENT:** We analyze current strategies and investment plans to help the client achieve his or her retirement goals.
- **DEATH & DISABILITY:** We review the client's cash needs at death, income needs of surviving dependents, estate planning and disability income.
- **ESTATE:** We assist the client in assessing and developing long-term strategies, including as appropriate, living trusts, wills, review estate tax, powers of attorney, asset protection plans, nursing homes, Medicaid and elder law.

We gather required information through in-depth personal interviews. Information gathered includes the client's current financial status, tax status, future goals, returns objectives and attitudes towards risk. We carefully review documents supplied by the client, including a questionnaire completed by the client, and prepare a written report. Should the client choose to implement the recommendations contained in the plan, we suggest the client work closely with his/her attorney, accountant, insurance agent, and/or stockbroker. Implementation of financial plan recommendations is entirely at the client's discretion.

We also provide general non-securities advice on topics that may include tax and budgetary planning, estate planning and business planning.

Typically the financial plan is presented to the client within six months of the contract date, provided that all information needed to prepare the financial plan has been promptly provided.

Financial Planning recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company. All recommendations are of a generic nature.

AMOUNT OF MANAGED ASSETS

As of 2/1/2012, we were actively managing \$170,337,000 of clients' assets on a non-discretionary basis.

Item 5 Fees and Compensation

INVESTMENT SUPERVISORY SERVICES INDIVIDUAL PORTFOLIO MANAGEMENT FEES

The annualized fee for Investment Supervisory Services will be charged as a percentage of assets under management, according to the following schedule:

<u>Assets Under Management</u>	<u>Annual Fee</u>
\$0 to \$1,000,000 in Assets	2.00%
\$1,000,001 to \$3,000,000	1.50%
\$3,000,001 to \$5,000,000	1.00%

Over \$8,000,000	0.50%

Limited Negotiability of Advisory Fees: Although CCG Investments has established the aforementioned fee schedule(s), we retain the discretion to negotiate alternative fees on a client-by-client basis. Client facts, circumstances and needs will be considered in determining the fee schedule. These include the complexity of the client, assets to be placed under management, anticipated future additional assets; related accounts; portfolio style, account composition, reports, among other factors. The specific annual fee schedule will be identified in the contract between the adviser and each client.

We may group certain related client accounts for the purposes of achieving the minimum account size requirements and determining the annualized fee.

Discounts, not generally available to our advisory clients, may be offered to family members and friends of associated persons of our firm.

INVESTMENT SUPERVISORY SERVICES MANAGER OF MANAGERS FEES

CCGI participates in the Managed Accounts Program (the "Program") sponsored by SEI Investments Management Corporation ("SIMC"). To participate in the Program, CCGI, SIMC and each investor execute a tri-party agreement (hereinafter, a "Managed Account Agreement") providing for the management of certain investor assets in accordance with the terms thereof. Pursuant to a Managed Account Agreement, the investor appoints CCGI as its investment adviser to assist the investor in selecting an asset allocation strategy, which would include a the percentage of investor assets allocated to designated portfolios of separate securities (each, a "Separate Account Portfolio") and may include a percentage of assets allocated to a portfolio of mutual funds sponsored by SIMC or an affiliate thereof. The investor appoints SIMC to manage the assets in each Separate Account Portfolio in accordance with a strategy selected by the investor together with CCGI. SIMC may delegate its responsibility for selecting particular securities to one or more portfolio managers. The Program seeks to provide a globally diversified portfolio in order to meet an investor's long-term goals.

CCGI provides recommendations regarding a client's asset allocation strategy and the choice of portfolio managers within the program on a non-discretionary basis. All changes require the prior approval of the client. CCGI will recommend changes to the client based on the individual needs of the client and changes within the Managed Accounts Program.

CCGI also provides advice to pre-existing clients through the ManagersChoice program sponsored by The Managers Funds, LLC. The Program is designed as follows:

CCGI will determine the client's current financial situation, financial goals and attitudes towards risk through various analyses and questionnaires. This process will help CCGI review the client's situation and enable CCGI to recommend an initial asset allocation based on the client's specific needs and goals.

In determining the initial allocation to be used, CCGI will use several model portfolios of no-load mutual funds managed by The Managers Funds, LLC. CCGI, will, if appropriate, suggest modifications to these models to more adequately address the client's individual needs. The client may place reasonable restrictions on the nature of the funds held in the portfolio or the allocation among the various classes, and CCGI will assist the client in understanding and evaluating the potential impact of these restrictions on the model portfolios.

Once the client's asset allocation has been established, the portfolio will be implemented using the mutual funds advised by The Managers Funds, LLC. The Managers Funds, LLC selects the investment managers of the underlying mutual funds. The Managers Funds, LLC utilizes institutional investment management firms. The fund managers are monitored by The Managers Funds, LLC to ensure that their investment styles and performance remain consistent with the objectives of the mutual funds. Accounts will be monitored quarterly and, when appropriate, The Managers Funds, LLC may make changes to or rebalance the client's portfolio without prior notice to the client. In addition, CCGI may suggest a reallocation of the portfolio based on changing economic conditions or changes in the client's individual circumstances. CCGI has no discretionary authority over the client's account.

Contractually, we are paid by the selected asset manager(s), based on a percentage of the client's assets under management with that manager. Accordingly, our fee, which typically ranges from 0.10% to 1.00%, depending on the size of the account, is included in the asset manager's annual management fee.

CCG Investments does not control the fees or the billing arrangements of any selected asset manager. For a complete description of the fee arrangement including billing practices, minimum account requirements and account termination provisions, clients should review the independent investment adviser's Firm Brochure or other disclosure document.

FEES: The following schedule is used as the starting point for determining the fee to be charged to the client, based on the account's asset size and the nature and complexity of the client's circumstances. An exact fee will be quoted to each client. The total of CCG Investments and SIMC's fees charged to the client will typically not exceed 3% of managed assets.

\$8,000,001 and up	0.50%

Plan sponsors are invoiced in advance at the beginning of each calendar quarter.

FINANCIAL PLANNING FEES

Our Financial Planning fee is determined based on the nature of the services being provided and the complexity of each client's circumstances. All fees are agreed upon prior to entering into a contract with any client.

Our Financial Planning fees are calculated and charged on a fixed fee basis, typically ranging from \$500 to \$2,500, depending on the specific arrangement reached with the client.

We may request a retainer upon completion of our initial fact-finding session with the client; however, advance payment will never exceed \$500 for work that will not be completed within six months. The balance is due upon completion of the plan.

GENERAL INFORMATION

Termination of the Advisory Relationship: A client agreement may be canceled at any time, by either party, for any reason upon receipt of 30 days written notice. As disclosed above, certain fees are paid in advance of services provided. Upon termination of any account, any prepaid, unearned fees will be promptly refunded. In calculating a client's reimbursement of fees, we will pro rate the reimbursement according to the number of days remaining in the billing period.

Mutual Fund Fees: All fees paid to CCG Investments for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds and/or ETFs to their shareholders. These fees and expenses are described in each fund's prospectus. These fees will generally include a management fee, other fund expenses, and a possible distribution fee. If the fund also imposes sales charges, a client may pay an initial or deferred sales charge. A client could invest in a mutual fund directly, without our services. In that case, the client would not receive the services provided by our firm which are designed, among other things, to assist the client in determining which mutual fund or funds are most appropriate to each client's financial condition and objectives. Accordingly, the client should review both the fees charged by the funds and our fees to fully understand the total amount of fees to be paid by the client and to thereby evaluate the advisory services being provided.

Wrap Fee Programs and Separately Managed Account Fees: Clients participating in separately managed account programs may be charged various program fees in addition to

the advisory fee charged by our firm. Such fees may include the investment advisory fees of the independent advisers, which may be charged as part of a wrap fee arrangement. In a wrap fee arrangement, clients pay a single fee for advisory, brokerage and custodial services. Client's portfolio transactions may be executed without commission charge in a wrap fee arrangement. In evaluating such an arrangement, the client should also consider that, depending upon the level of the wrap fee charged by the broker-dealer, the amount of portfolio activity in the client's account, and other factors, the wrap fee may or may not exceed the aggregate cost of such services if they were to be provided separately. We will review with clients any separate program fees that may be charged to clients.

Additional Fees and Expenses: In addition to our advisory fees, clients are also responsible for the fees and expenses charged by custodians and imposed by broker dealers, including, but not limited to, any transaction charges imposed by a broker dealer with which an independent investment manager effects transactions for the client's account(s). Please refer to the "Brokerage Practices" section (Item 12) of this Form ADV for additional information.

Grandfathering of Minimum Account Requirements: Pre-existing advisory clients are subject to CCG Investments' minimum account requirements and advisory fees in effect at the time the client entered into the advisory relationship. Therefore, our firm's minimum account requirements will differ among clients.

ERISA Accounts: CCG Investments is deemed to be a fiduciary to advisory clients that are employee benefit plans or individual retirement accounts (IRAs) pursuant to the Employee Retirement Income and Securities Act ("ERISA"). As such, our firm is subject to specific duties and obligations under ERISA and the Internal Revenue Code that include among other things, restrictions concerning certain forms of compensation. To avoid engaging in prohibited transactions, CCG Investments may only charge fees for investment advice about products for which our firm and/or our related persons do not receive any commissions or 12b-1 fees, or conversely, investment advice about products for which our firm and/or our related persons receive commissions or 12b-1 fees, however, only when such fees are used to offset CCG Investments' advisory fees.

Advisory Fees in General: Clients should note that similar advisory services may (or may not) be available from other registered (or unregistered) investment advisers for similar or lower fees.

Limited Prepayment of Fees: Under no circumstances do we require or solicit payment of fees in excess of \$1200 more than six months in advance of services rendered.

Financial Planning Fees: Fees are determined based on the produces selected by the client. If clients use services described above the applicable fee schedules above will apply. A minimum fee of \$1,000 is charge for planning work performed but this fee is waived if the advisor receives any other form of fee based compensation.

Item 6 Performance-Based Fees and Side-By-Side Management

CCG Investments does not charge performance-based fees.

Item 7 Types of Clients

CCG Investments provides advisory services to the following types of clients:

- Individuals (other than high net worth individuals)
- High net worth individuals
- Pension and profit sharing plans (other than plan participants)
- Corporations or other businesses not listed above

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

METHODS OF ANALYSIS

We use the following methods of analysis in formulating our investment advice and/or managing client assets:

Fundamental Analysis. We attempt to measure the intrinsic value of a security by looking at economic and financial factors (including the overall economy, industry conditions, and the financial condition and management of the company itself) to determine if the company is underpriced (indicating it may be a good time to buy) or overpriced (indicating it may be time to sell).

Fundamental analysis does not attempt to anticipate market movements. This presents a potential risk, as the price of a security can move up or down along with the overall market regardless of the economic and financial factors considered in evaluating the stock.

Technical Analysis. We analyze past market movements and apply that analysis to the present in an attempt to recognize recurring patterns of investor behavior and potentially predict future price movement.

Technical analysis does not consider the underlying financial condition of a company. This presents a risk in that a poorly-managed or financially unsound company may underperform regardless of market movement.

Cyclical Analysis. In this type of technical analysis, we measure the movements of a particular stock against the overall market in an attempt to predict the price movement of the security.

Quantitative Analysis. We use mathematical models in an attempt to obtain more accurate measurements of a company's quantifiable data, such as the value of a share price or earnings per share, and predict changes to that data.

A risk in using quantitative analysis is that the models used may be based on assumptions

that prove to be incorrect.

Qualitative Analysis. We subjectively evaluate non-quantifiable factors such as quality of management, labor relations, and strength of research and development factors not readily subject to measurement, and predict changes to share price based on that data.

A risk is using qualitative analysis is that our subjective judgment may prove incorrect.

Asset Allocation. Rather than focusing primarily on securities selection, we attempt to identify an appropriate ratio of securities, fixed income, and cash suitable to the client's investment goals and risk tolerance.

A risk of asset allocation is that the client may not participate in sharp increases in a particular security, industry or market sector. Another risk is that the ratio of securities, fixed income, and cash will change over time due to stock and market movements and, if not corrected, will no longer be appropriate for the client's goals.

Mutual Fund and/or ETF Analysis. We look at the experience and track record of the manager of the mutual fund or ETF in an attempt to determine if that manager has demonstrated an ability to invest over a period of time and in different economic conditions. We also look at the underlying assets in a mutual fund or ETF in an attempt to determine if there is significant overlap in the underlying investments held in another fund(s) in the client's portfolio. We also monitor the funds or ETFs in an attempt to determine if they are continuing to follow their stated investment strategy.

A risk of mutual fund and/or ETF analysis is that, as in all securities investments, past performance does not guarantee future results. A manager who has been successful may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in a fund or ETF, managers of different funds held by the client may purchase the same security, increasing the risk to the client if that security were to fall in value. There is also a risk that a manager may deviate from the stated investment mandate or strategy of the fund or ETF, which could make the holding(s) less suitable for the client's portfolio.

Risks for all forms of analysis. Our securities analysis methods rely on the assumption that the companies whose securities we purchase and sell, the rating agencies that review these securities, and other publicly-available sources of information about these securities, are providing accurate and unbiased data. While we are alert to indications that data may be incorrect, there is always a risk that our analysis may be compromised by inaccurate or misleading information.

INVESTMENT STRATEGIES

We use the following strategy(ies) in managing client accounts, provided that such strategy(ies) are appropriate to the needs of the client and consistent with the client's investment objectives, risk tolerance, and time horizons, among other considerations:

Long-term purchases. We purchase securities with the idea of holding them in the client's account for a year or longer. Typically we employ this strategy when:

- we believe the securities to be currently undervalued, and/or
- we want exposure to a particular asset class over time, regardless of the current

projection for this class.

A risk in a long-term purchase strategy is that by holding the security for this length of time, we may not take advantages of short-term gains that could be profitable to a client. Moreover, if our predictions are incorrect, a security may decline sharply in value before we make the decision to sell.

Risk of Loss. Securities investments are not guaranteed and you may lose money on your investments. We ask that you work with us to help us understand your tolerance for risk.

Item 9 Disciplinary Information

We are required to disclose any legal or disciplinary events that are material to a client's or prospective client's evaluation of our advisory business or the integrity of our management. John Romano has a disciplinary history, the details of which can be found on FINRA's BrokerCheck system at www.finra.org/brokercheck. You can search this site by a unique identifying number known as a CRD number. The CRD number for John Romano is 1328361.

Item 10 Other Financial Industry Activities and Affiliations

Management personnel of CCG Investments are also separately affiliated with CEP Consultants, a third-party administrator which provides back office support services to the sponsors of qualified retirement plans for a fee. In particular, CEP provides account recordkeeping services and a trading platform (via internet and telephone) by which plan participants may direct the investment of assets in their qualified plan account. CEP may refer plan sponsors in need of advisory services to our firm. Conversely, we may refer clients in need of third-party administrative services to CEP. However, there are no referral fee arrangements between CEP and our firm for these recommendations. Third-party administrative services provided by CEP are separate and distinct from the advisory services we provide, and are provided for separate and typical compensation. No advisory client is obligated to use CEP for any third-party administrative services, and no client of CEP is obligated to utilize our advisory services. Sponsors or trustees of pension, profit-sharing, 401(k), IRA or other client accounts subject to the provisions of ERISA or the prohibited transaction provisions of the Internal Revenue Code are solely responsible for determining whether or not to engage the services of CEP.

Our advisory fees will always be offset for compensation earned by CEP (or by our affiliated persons providing services through CEP) from pension, profit-sharing, 401(k), IRA or other client accounts where to do otherwise would constitute a prohibited transaction under the provisions of ERISA or the Internal Revenue Code and where an exemption from such prohibition is not otherwise applicable.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Our firm has adopted a Code of Ethics which sets forth high ethical standards of business conduct that we require of our employees, including compliance with applicable federal securities laws.

CCG Investments and our personnel owe a duty of loyalty, fairness and good faith towards our clients, and have an obligation to adhere not only to the specific provisions of the Code of Ethics but to the general principles that guide the Code.

Our Code of Ethics includes policies and procedures for the review of quarterly securities transactions reports as well as initial and annual securities holdings reports that must be submitted by the firm's access persons. Among other things, our Code of Ethics also requires the prior approval of any acquisition of securities in a limited offering (e.g., private placement) or an initial public offering. Our code also provides for oversight, enforcement and recordkeeping provisions.

CCG Investments' Code of Ethics further includes the firm's policy prohibiting the use of material non-public information. While we do not believe that we have any particular access to non-public information, all employees are reminded that such information may not be used in a personal or professional capacity.

A copy of our Code of Ethics is available to our advisory clients and prospective clients. You may request a copy by email sent to jromano@ccg1800.com, or by calling us at 631-249-0500.

CCG Investments and individuals associated with our firm are prohibited from engaging in principal transactions.

CCG Investments and individuals associated with our firm are prohibited from engaging in agency cross transactions.

Our Code of Ethics is designed to assure that the personal securities transactions, activities and interests of our employees will not interfere with (i) making decisions in the best interest of advisory clients and (ii) implementing such decisions while, at the same time, allowing employees to invest for their own accounts.

Our firm and/or individuals associated with our firm may buy or sell for their personal accounts securities identical to or different from those recommended to our clients. In addition, any related person(s) may have an interest or position in a certain security(ies) which may also be recommended to a client.

It is the expressed policy of our firm that no person employed by us may purchase or sell any security prior to a transaction(s) being implemented for an advisory account, thereby preventing such employee(s) from benefiting from transactions placed on behalf of advisory accounts.

Item 12 Brokerage Practices

CCG Investments does not have any soft-dollar arrangements and does not receive any soft-dollar benefits.

As a matter of policy and practice, CCG Investments does not generally block client trades and, therefore, we implement client transactions separately for each account. Consequently, certain client trades may be executed before others, at a different price and/or commission rate. Additionally, our clients may not receive volume discounts available to advisers who block client trades.

CCG Investments may recommend that clients establish brokerage accounts with the Schwab Institutional division of Charles Schwab & Co., Inc. ("Schwab"), a FINRA registered broker-dealer, member SIPC, to maintain custody of clients' assets and to effect trades for their accounts. Although we recommend that clients establish accounts at Schwab, it is the client's decision to custody assets with Schwab. CCG Investments is independently owned and operated and not affiliated with Schwab.

Schwab provides CCG Investments with access to its institutional trading and custody services, which are typically not available to Schwab retail investors. These services generally are available to independent investment advisers on an unsolicited basis, at no charge to them so long as a total of at least \$10 million of the adviser's clients' assets are maintained in accounts at Schwab Institutional. These services are not contingent upon our firm committing to Schwab any specific amount of business (assets in custody or trading commissions). Schwab's brokerage services include the execution of securities transactions, custody, research, and access to mutual funds and other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment.

For our client accounts maintained in its custody, Schwab generally does not charge separately for custody services but is compensated by account holders through commissions and other transaction-related or asset-based fees for securities trades that are executed through Schwab or that settle into Schwab accounts.

Schwab Institutional also makes available to our firm other products and services that benefit CCG Investments but may not directly benefit our clients' accounts. Many of these products and services may be used to service all or some substantial number of our client accounts, including accounts not maintained at Schwab.

Schwab's products and services that assist us in managing and administering our clients' accounts include software and other technology that:

- provide access to client account data (such as trade confirmations and account statements);
- facilitate trade execution and allocate aggregated trade orders for multiple client accounts;
- provide research, pricing and other market data;
- facilitate payment of our fees from clients' accounts; and

- assist with back-office functions, recordkeeping and client reporting.

Schwab Institutional also offers other services intended to help us manage and further develop our business enterprise. These services may include:

- compliance, legal and business consulting;
- publications and conferences on practice management and business succession; and
- access to employee benefits providers, human capital consultants and insurance providers.

Schwab may make available, arrange and/or pay third-party vendors for the types of services rendered to CCG Investments. Schwab Institutional may discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to our firm. Schwab Institutional may also provide other benefits such as educational events or occasional business entertainment of our personnel. In evaluating whether to recommend or require that clients custody their assets at Schwab, we may take into account the availability of some of the foregoing products and services and other arrangements as part of the total mix of factors we consider and not solely on the nature, cost or quality of custody and brokerage services provided by Schwab, which may create a potential conflict of interest.

CCG Investments has an arrangement with National Financial Services LLC, and Fidelity Brokerage Services LLC (together with all affiliates, "Fidelity") through which Fidelity provides our firm with their "platform" services. The platform services include, among others, brokerage, custodial, administrative support, record keeping and related services that are intended to support intermediaries like CCG Investments in conducting business and in serving the best interests of our clients but that may also benefit us.

Fidelity charges brokerage commissions and transaction fees for effecting certain securities transactions (i.e., transactions fees are charged for certain no-load mutual funds, commissions are charged for individual equity and debt securities transactions). Fidelity enables CCG Investments to obtain many no-load mutual funds without transaction charges and other no-load funds at nominal transaction charges. Fidelity's commission rates are generally considered discounted from customary retail commission rates. However, the commissions and transaction fees charged by Fidelity may be higher or lower than those charged by other custodians and broker-dealers. As part of the arrangement, Fidelity also makes available to our firm, at no additional charge to us, certain research and brokerage services, including research services obtained by Fidelity directly from independent research companies, as selected by CCG Investments (within specified parameters). These research and brokerage services presently include services such as Morningstar and are used by our firm to manage accounts for which we have investment discretion.

CCG Investments may also receive additional services which may include re-balancing tools. Without this arrangement, we might be compelled to purchase the same or similar services at our own expense.

As a result of receiving such services for no additional cost, we may have an incentive to continue to use or expand the use of Fidelity's services. We examined this potential conflict of

interest when we chose to enter into the relationship with Fidelity and have determined that the relationship is in the best interests of CCG Investments' clients and satisfies our client obligations, including our duty to seek best execution. A client may pay a commission that is higher than another qualified broker-dealer might charge to effect the same transaction where we determine in good faith that the commission is reasonable in relation to the value of the brokerage and research services received. In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a broker-dealer's services, including the value of research provided, execution capability, commission rates, and responsiveness. Accordingly, while CCG Investments will seek competitive rates, to the benefit of all clients, we may not necessarily obtain the lowest possible commission rates for specific client account transactions. Although the investment research products and services that may be obtained by us will generally be used to service all of our clients, a brokerage commission paid by a specific client may be used to pay for research that is not used in managing that specific client's account. CCG Investments and Fidelity are not affiliated, and no broker-dealer affiliated with us is involved in the relationship between CCG Investments and Fidelity.

Item 13 Review of Accounts

INVESTMENT SUPERVISORY SERVICES INDIVIDUAL PORTFOLIO MANAGEMENT

REVIEWS: While the underlying securities within Individual Portfolio Management Services accounts are continually monitored, these accounts are reviewed at least quarterly. Accounts are reviewed in the context of each client's stated investment objectives and guidelines. More frequent reviews may be triggered by material changes in variables such as the client's individual circumstances, or the market, political or economic environment.

These accounts are reviewed by: John Romano, Director and Robert Disimile, Director of Investments.

REPORTS: In addition to the monthly statements and confirmations of transactions that clients receive from their broker-dealer, we provide quarterly reports summarizing account performance, balances and holdings.

MANAGER OF MANAGERS PROGRAM

REVIEWS: The performance of the registered investment adviser(s) selected to manage client portfolios within our Manager of Managers Program is continually monitored by CCG Investments. Furthermore, accounts within this program are formally reviewed at least quarterly. More frequent reviews may be triggered by material changes in variables such as the client's individual circumstances, or the market, political or economic environment.

These accounts are reviewed by: John Romano, Director and Robert Disimile, Director of Investments.

REPORTS: In addition to the monthly statements and confirmations of transactions that these clients receive from their respective broker-dealer, the asset manager(s) selected by CCG

Investments to manage the client's portfolio(s) within our Manager of Managers Program provides the client with written quarterly performance reports. Unless otherwise contracted for, we do not typically provide additional reports.

PORTFOLIO MANAGEMENT SERVICES

REVIEWS: While the underlying securities within Individual Portfolio Management Services accounts are continually monitored, these accounts are reviewed quarterly. Accounts are reviewed in the context of each client's stated investment objectives and guidelines. More frequent reviews may be triggered by material changes in variables such as the client's individual circumstances, or the market, political or economic environment.

These accounts are reviewed by: John Romano, Director and Robert Disimile, Director of Investments.

REPORTS: In addition to the monthly statements and confirmations of transactions that Portfolio Management Services clients receive from their broker-dealer, CCG Investments will provide quarterly reports summarizing account performance, balances and holdings.

PENSION CONSULTING SERVICES

REVIEWS: CCG Investments will review the client's Investment Policy Statement (IPS) whenever the client advises us of a change in circumstances regarding the needs of the plan. CCG Investments will also review the investment options of the plan according to the agreed upon time intervals established in the IPS. Such reviews will generally occur quarterly.

These accounts are reviewed by: John Romano, Director and Robert Disimile, Director of Investments.

REPORTS: These client accounts will receive reports as contracted for at the inception of the advisory relationship.

SELECTION and MONITORING of THIRD-PARTY MONEY MANAGERS

REVIEWS: These client accounts should refer to the independent registered investment adviser's Firm Brochure (or other disclosure document used in lieu of the brochure) for information regarding the nature and frequency of reviews provided by that independent registered investment adviser.

CCG Investments will provide reviews as contracted for at the inception of the advisory relationship.

These accounts are reviewed by: John Romano, Director and Robert Disimile, Director of Investments.

REPORTS: These clients should refer to the independent registered investment adviser's Firm Brochure (or other disclosure document used in lieu of the brochure) for information regarding the nature and frequency of reports provided by that independent registered investment adviser.

CCG Investments does not typically provide reports in addition to those provided by the independent registered investment adviser selected to manage the client's assets.

FINANCIAL PLANNING SERVICES

REVIEWS: These client accounts are not reviewed after the planning has been completed unless as part of the planning another CCG Investment service is used. Financial plans are reviewed at the request of the client and addition fees would apply.

REPORTS: These client accounts do not receive reports after the planning has been completed unless as part of the planning another CCG Investment service is used. Reports will be provided as part of the initial Financial Planning process but will not continue once the planning process has been completed.

Item 14 Client Referrals and Other Compensation

CLIENT REFERRALS

Our firm may pay referral fees to independent persons or firms ("Solicitors") for introducing clients to us. Whenever we pay a referral fee, we require the Solicitor to provide the prospective client with a copy of this document (our *Firm Brochure*) and a separate disclosure statement that includes the following information:

- the Solicitor's name and relationship with our firm;
- the fact that the Solicitor is being paid a referral fee;
- the amount of the fee; and
- whether the fee paid to us by the client will be increased above our normal fees in order to compensate the Solicitor.

As a matter of firm practice, the advisory fees paid to us by clients referred by solicitors are not increased as a result of any referral.

It is CCG Investments' policy not to accept or allow our related persons to accept any form of compensation, including cash, sales awards or other prizes, from a non-client in conjunction with the advisory services we provide to our clients.

Item 15 Custody

We previously disclosed in the "Fees and Compensation" section (Item 5) of this Brochure that our firm directly debits advisory fees from client accounts.

As part of this billing process, the client's custodian is advised of the amount of the fee to be deducted from that client's account. On at least a quarterly basis, the custodian is required to send to the client a statement showing all transactions within the account during the reporting period.

Because the custodian does not calculate the amount of the fee to be deducted, it is

important for clients to carefully review their custodial statements to verify the accuracy of the calculation, among other things. Clients should contact us directly if they believe that there may be an error in their statement.

Our firm does not have actual or constructive custody of client accounts.

Item 16 Investment Discretion

As previously disclosed in Item 4 of this brochure, our firm does not provide discretionary asset management services.

MANAGER OF MANAGERS PROGRAM

As previously disclosed in Item 4 of this brochure, we do not "manage" client portfolios in the traditional sense of the definition, rather CCG Investments manages the managers of client portfolios within this program. Accordingly, clients participating in this program grant us authority to hire and fire the selected asset manager(s) managing client accounts.

Item 17 Voting Client Securities

As a matter of firm policy, we do not vote proxies on behalf of clients. Therefore, although our firm may provide investment advisory services relative to client investment assets, clients maintain exclusive responsibility for: (1) directing the manner in which proxies solicited by issuers of securities beneficially owned by the client shall be voted, and (2) making all elections relative to any mergers, acquisitions, tender offers, bankruptcy proceedings or other type events pertaining to the client's investment assets. Clients are responsible for instructing each custodian of the assets, to forward to the client copies of all proxies and shareholder communications relating to the client's investment assets.

We do not offer any consulting assistance regarding proxy issues to clients.

Item 18 Financial Information

CCG Investments has no additional no financial circumstances to report.

Under no circumstances do we require or solicit payment of fees in excess of \$1200 per client more than six months in advance of services rendered. Therefore, we are not required to include a financial statement.

CCG Investments has not been the subject of a bankruptcy petition at any time during the past ten years.
