Item 4: Advisory Business

A. Description of the Advisory Firm

J/M Financial Advisers, Inc. is a Corporation organized in the state of Connecticut. This firm has been in business since 1985, and the principal owner is James Gerard Hofmann.

B. Types of Advisory Services

J/M Financial Advisers, Inc. (hereinafter "JMFA") offers the following services to advisory clients:

Investment Supervisory Services

JMFA offers ongoing portfolio management services based on the individual goals, objectives, time horizon, and risk tolerance of each client. JMFA outlines the client's current situation (income, tax levels, and risk tolerance levels) and then constructs a plan to aid in the selection of a portfolio that matches each client's specific situation. Investment Supervisory Services include, but are not limited to, the following:

- | | |
|-----------------------|--------------------------------|
| • Investment strategy | • Personal investment policy |
| • Asset allocation | • Asset selection |
| • Risk tolerance | • Regular portfolio monitoring |

JMFA evaluates the current investments of each client with respect to their risk tolerance levels and time horizon.

Financial Planning

Financial plans and financial planning may include, but are not limited to: investment planning, life insurance; tax concerns; retirement planning; college planning; and debt/credit planning. These services are based on fixed fees or hourly fees and the final fee structure is documented in the Financial Planning Agreement.

Services Limited to Specific Types of Investments

JMFA generally limits its investment advice and/or money management to mutual funds, bonds, fixed income, and government securities. JMFA may use other securities as well to help diversify a portfolio when applicable.

C. Client Tailored Services and Client Imposed Restrictions

JMFA offers the same suite of services to all of its clients. For clients who do not chose the Money Management service, the type of investment advice generally furnished by JMFA is in the form of general recommendations regarding general categories of investments. For clients who chose to include the Money Management service, the type of investment advice generally furnished by JMFA includes specific recommendations regarding investments.

Clients may impose restrictions in investing in certain securities or types of securities in accordance with their values or beliefs. However, if the restrictions prevent JMFA from properly servicing the client account, or if the restrictions would require JMFA to deviate from its standard suite of services, JMFA reserves the right to end the relationship.

D. Wrap Fee Programs

A wrap fee program is an investment program where the investor pays one stated fee that includes management fees, transaction costs, fund expenses, and any other administrative fees. JMFA DOES NOT participate in any wrap fee programs.

E. Amounts Under Management

JMFA has the following assets under management:

Discretionary Amounts:	Non-discretionary Amounts:	Date Calculated:
\$0.00	\$130,525,000.00	12/31/2011

Item 5: Fees and Compensation

A. Fee Schedule

Investment Supervisory Services Fees

Total Assets Under Management	Annual Fee
\$1 - \$1,000,000	1.00%
Above \$1,000,000	0.50%

These fees are negotiable depending upon the needs of the client and complexity of the situation, and the final fee schedule is documented in the Investment Advisory Contract. Fees are paid quarterly in advance, and clients may terminate their contracts with written notice. Refunds are given on a prorated basis, based on the number of days remaining in a quarter at the point of termination. The fee refunded will be the balance of the fees collected in advance minus the daily rate* times the number of days in the quarter up to and including the day of termination. (*The daily rate is calculated by dividing the quarterly AUM fee by the number of days in the termination quarter). Clients may terminate their contracts without penalty, for full refund, within 5 business days of signing the advisory contract. If advisory fees are withdrawn directly from the client's accounts, JMFA must first obtain client written authorization.

Financial Planning Fees

Fixed Fees

Depending upon the complexity of the situation and the needs of the client, the rate for creating client financial plans is between \$5,000 and \$10,000. Fees are paid in advance, but never more than six months in advance. Fees that are charged in advance will be refunded based on the prorated amount of work completed at the point of termination. The fees are negotiable and the final fee schedule will be documented in the Financial Planning Agreement. Clients may terminate their contracts without penalty within five business days of signing the advisory contract. The fee refunded will be the balance of the fees collected in advance minus the hourly rate times the number of hours of work that has been completed up to and including the day of termination.

Hourly Fees

The hourly fee for these services is \$300. The fees are negotiable and the final fee schedule will be attached in the Financial Planning Agreement. Fees are paid in arrears upon completion. Because fees are charged in arrears, no refund is necessary. Clients

may terminate their contracts without penalty within five business days of signing the advisory contract.

B. Payment of Fees

Payment of Investment Supervisory Fees

Advisory fees are withdrawn directly from the client's accounts with client written authorization. Fees are paid quarterly in advance. Advisory fees may also be invoiced and billed directly to the client with payments due quarterly in advance. Clients may select the method in which they are billed.

Payment of Financial Planning Fees

Hourly Financial Planning fees are paid via check in arrears upon completion. Because fees are charged in arrears, no refund is necessary.

Fixed Financial Planning fees are paid via check in advance, but never more than six months in advance, with the remainder due upon presentation of the plan. Fees that are charged in advance will be refunded based on the prorated amount of work completed at the point of termination.

C. Clients Are Responsible For Third Party Fees

Clients are responsible for the payment of all third party fees (i.e. custodian fees, brokerage fees, mutual fund fees, transaction fees, etc.). Those fees are separate and distinct from the fees charged by JMFA. Please see Item 12 of this brochure regarding broker/custodian.

D. Prepayment of Fees

JMFA collects fees in arrears and in advance. Fees that are collected in advance will be refunded based on the prorated amount of work completed at the point of termination and the total days during the billing period. Fees will be returned within fourteen days to the client via mailed check.

The fee refunded will be the balance of the fees collected in advance minus the daily rate* times the number of days in the quarter up to and including the day of termination. (*The daily rate is calculated by dividing the quarterly AUM fee by the number of days in the termination quarter).

E. Outside Compensation For the Sale of Securities to Clients

Neither JMFA nor its supervised persons accept any compensation for the sale of securities or other investment products, including asset-based sales charges or services fees from the sale of mutual funds.

Item 6: Performance-Based Fees and Side-By-Side Management

JMFA does not accept performance-based fees or other fees based on a share of capital gains on or capital appreciation of the assets of a client.

Item 7: Types of Clients

JMFA generally provides investment advice and/or management supervisory services to the following types of clients:

- ❖ Individuals
- ❖ High-Net-Worth Individuals
- ❖ Pension and Profit Sharing Plans

Minimum Account Size

There is no account minimum.

Item 8: Methods of Analysis, Investment Strategies, and Risk of Investment Loss

A. Methods of Analysis and Investment Strategies

Methods of Analysis

JMFA primarily uses no-load mutual funds identified through a process that includes identifying top performing funds over the prior five years, reviewing year-to-year returns for any aberrations, identifying the investment strategy of each fund and reviewing fund prospectuses. Portfolios are built using the funds identified to fill the portfolio type created from the client's goals and objectives.

Investment Strategies

JMFA uses long term trading.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

B. Material Risks Involved

Investment Strategies

Long term trading is designed to capture market rates of both return and risk. Frequent trading, when done, can affect investment performance, particularly through increased brokerage and other transaction costs and taxes.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

C. Risks of Specific Securities Utilized

JMFA generally seeks investment strategies that do not involve significant or unusual risk beyond that of the general domestic and/or international equity markets.

Mutual Funds: Investing in mutual funds carries the risk of capital loss. Mutual funds are not guaranteed or insured by the FDIC or any other government agency. You can lose money investing in mutual funds. All mutual funds have costs that lower investment returns. They can be of bond “fixed income” nature (lower risk) or stock “equity” nature (mentioned above).

Equity investment generally refers to buying shares of stocks by an individual or firms in return for receiving a future payment of dividends and capital gains if the value of the stock increases. There is an innate risk involved when purchasing a stock that it may decrease in value and the investment may incur a loss.

Treasury Inflation Protected/Inflation Linked Bonds: The Risk of default on these bonds is dependent upon the U.S. Treasury defaulting (extremely unlikely); however, they carry a potential risk of losing share price value, albeit rather minimal.

Fixed Income is an investment that guarantees fixed periodic payments in the future that may involve economic risks such as inflationary risk, interest rate risk, default risk, repayment of principal risk, etc.

Long term trading is designed to capture market rates of both return and risk. Due to its nature, the long-term investment strategy can expose clients to various other types of risk that will typically surface at various intervals during the time the client owns the investments. These risks include but are not limited to inflation (purchasing power) risk, interest rate risk, economic risk, market risk, and political/regulatory risk.

Past performance is not a guarantee of future returns. Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

Item 9: Disciplinary Information

A. Criminal or Civil Actions

There are no criminal or civil actions to report.

B. Administrative Proceedings

There are no administrative proceedings to report.

C. Self-regulatory Organization (SRO) Proceedings

There are no self-regulatory organization proceedings to report.

Item 10: Other Financial Industry Activities and Affiliations

A. Registration as a Broker/Dealer or Broker/Dealer Representative

Neither JMFA nor its representatives are registered as or have pending applications to become a broker/dealer or as representatives of a broker/dealer.

B. Registration as a Futures Commission Merchant, Commodity Pool Operator, or a Commodity Trading Advisor

Neither JMFA nor its representatives are registered as or have pending applications to become a Futures Commission Merchant, Commodity Pool Operator, or a Commodity Trading Advisor.

C. Registration Relationships Material to this Advisory Business and Possible Conflicts of Interests

Neither JMFA nor its representatives have any material relationships to this advisory business that would present a possible conflict of interest.

D. Selection of Other Advisers or Managers and How This Adviser is Compensated for Those Selections

JMFA does not utilize nor select other advisers or third party managers.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

We have a written Code of Ethics that covers the following areas: Prohibited Purchases and Sales, Insider Trading, Personal Securities Transactions, Exempted Transactions, Prohibited Activities, Conflicts of Interest, Gifts and Entertainment, Confidentiality, Service on a Board of Directors, Compliance Procedures, Compliance with Laws and Regulations, Procedures and Reporting, Certification of Compliance, Reporting Violations, Compliance Officer Duties, Training and Education, Recordkeeping, Annual Review, and Sanctions. Our Code of Ethics is available free upon request to any client or prospective client.

B. Recommendations Involving Material Financial Interests

JMFA does not recommend that clients buy or sell any security in which a related person to JMFA or JMFA has a material financial interest.

C. Investing Personal Money in the Same Securities as Clients

From time to time, representatives of JMFA may buy or sell securities for themselves that they also recommend to clients. This may provide an opportunity for representatives of JMFA to buy or sell the same securities before or after recommending the same securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest. JMFA will always document any transactions that could be construed as conflicts of interest and will always transact client business before their own when similar securities are being bought or sold.

D. Trading Securities At/Around the Same Time as Clients' Securities

From time to time, representatives of JMFA may buy or sell securities for themselves at or around the same time as clients. This may provide an opportunity for representatives of JMFA to buy or sell securities before or after recommending securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest. JMFA will always transact client's transactions before its own when similar securities are being bought or sold.

Item 12: Brokerage Practices

A. Factors Used to Select Custodians and/or Broker/Dealers

The Custodian, Schwab Institutional, a division of Charles Schwab & Co., Inc., (CRD # 5393), was chosen based on their relatively low transaction fees and access to mutual funds and ETFs. JMFA will never charge a premium or commission on transactions, beyond the actual cost imposed by Custodian.

1. Research and Other Soft-Dollar Benefits

JMFA receives research, products, or other services from its broker/dealer or another third-party in connection with client securities transactions ("soft dollar benefits"). There is no minimum client number or dollar number that JMFA must meet in order to receive free research from the custodian or broker/dealer. There is no incentive for JMFA to direct clients to this particular broker-dealer over other broker-dealers who offer the same services. However, because this firm does not have to produce or pay for services or products it has an incentive to choose a custodian that provides those services based on its interests rather than the clients' interests. The first consideration when recommending broker/dealers to clients is best execution. JMFA always acts in the best interest of the client.

2. Brokerage for Client Referrals

JMFA receives no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

3. Clients Directing Which Broker/Dealer/Custodian to Use

JMFA allows clients to direct brokerage. JMFA may be unable to achieve most favorable execution of client transactions if clients choose to direct brokerage. This may cost clients' money because without the ability to direct brokerage JMFA may not be able to aggregate orders to reduce transactions costs resulting in higher brokerage commissions and less favorable prices. Not all investment advisers allow their clients to direct brokerage.

B. Aggregating (Block) Trading for Multiple Client Accounts

JMFA does not maintain the ability to block trade purchases across accounts. Block trading may benefit a large group of clients by providing JMFA the ability to purchase larger blocks resulting in smaller transaction costs to the client. Declining to block trade can cause more expensive trades for clients.

Item 13: Reviews of Accounts

A. Frequency and Nature of Periodic Reviews and Who Makes Those Reviews

The accounts for clients who choose the Money Management service are reviewed at least quarterly only by James Gerard Hofmann, President. James Gerard Hofmann is the chief advisor and is instructed to review clients' accounts with regards to their investment policies and risk tolerance levels. All accounts at JMFA are assigned to this reviewer.

All financial planning accounts are reviewed upon financial plan creation and plan delivery by James Gerard Hofmann, President. There is only one level of review and that is the total review conducted to create and monitor the financial plan.

B. Factors That Will Trigger a Non-Periodic Review of Client Accounts

Reviews may be triggered by material market, economic or political events, or by changes in client's financial situations (such as retirement, termination of employment, physical move, or inheritance).

C. Content and Frequency of Regular Reports Provided to Clients

Each client will receive at least quarterly from the custodian, a written report that details the client's account including assets held and asset value which will come from the custodian.

Clients are provided a one-time financial plan concerning their financial situation. JMFA also requires at least one monitoring meeting per year.

Item 14: Client Referrals and Other Compensation

A. Economic Benefits Provided by Third Parties for Advice Rendered to Clients (Includes Sales Awards or Other Prizes)

JMFA does not receive any economic benefit, directly or indirectly from any third party for advice rendered to JMFA clients.

B. Compensation to Non – Advisory Personnel for Client Referrals

JMFA does not directly or indirectly compensate any person who is not advisory personnel for client referrals.

Item 15: Custody

JMFA, with client written authority, has limited custody of client's assets through direct fee deduction of JMFA's Fees only. If the client chooses to be billed directly by , Schwab Institutional, a division of Charles Schwab & Co., Inc., (CRD # 5393), JMFA would have constructive custody over that account and must have written authorization from the client to do so. Clients will receive all required account statements and billing invoices that are required in each jurisdiction, and they should carefully review those statements for accuracy.

Item 16: Investment Discretion

JMFA does not have discretion over client accounts at any time.

Item 17: Voting Client Securities (Proxy Voting)

JMFA will not ask for, nor accept voting authority for client securities. Clients will receive proxies directly from the issuer of the security or the custodian. Clients should direct all proxy questions to the issuer of the security.

Item 18: Financial Information

A. Balance Sheet

JMFA does not require nor solicit prepayment of more than \$1,200 in fees per client, six months or more in advance and therefore does not need to include a balance sheet with this brochure.

B. Financial Conditions Reasonably Likely to Impair Ability to Meet Contractual Commitments to Clients

Neither JMFA nor its management have any financial conditions that are likely to reasonably impair our ability to meet contractual commitments to clients.

C. Bankruptcy Petitions in Previous Ten Years

JMFA has not been the subject of a bankruptcy petition in the last ten years.
