Hutchinson Financial, Inc. is a fee-only financial planning and investment management firm. The firm does not sell annuities, insurance or other commissioned products.

The firm is affiliated with Hutchinson Insurance, Inc., an insurance agency that sells life, disability and long term care insurance and fixed rate annuities. Representatives of Hutchinson Insurance, Inc. may receive commissions from the sale of these insurance products. Hutchinson Financial, Inc. has no other affiliations with any other entities that sell any other financial products or securities. No commissions in any form are accepted by Hutchinson Financial, Inc. No finder's fees are accepted by Hutchinson Financial, Inc. Hutchinson Financial, Inc. does not directly or indirectly compensate anyone for client referrals.

Hutchinson Financial, Inc. does not act as a custodian of client assets. The client always maintains asset control. Hutchinson Financial, Inc. places trades for clients under a limited power of attorney.

A written evaluation of each client's initial situation is provided to the client at the client's request. Periodic reviews are also communicated to provide reminders of the specific courses of action that need to be taken. More frequent reviews occur but are not necessarily communicated to the client unless immediate changes are recommended.

Other professionals (e.g., lawyers, accountants, insurance agents, etc.) are engaged directly by the client on an as-needed basis. Conflicts of interest will be disclosed to the client in the unlikely event they should occur.

The initial meeting, which may be by telephone or in person, is free of charge and is considered an exploratory interview to determine the extent to which financial planning and investment management services may be beneficial to the client.

## **Principal Owner**

Eric Hutchinson is 100% stockholder of Hutchinson Financial, Inc.

## **Types of Advisory Services**

Hutchinson Financial, Inc. provides investment supervisory services, also known as asset management services; manages investment advisory accounts not involving investment supervisory services; and furnishes investment advice through consultations.

On more than an occasional basis, Hutchinson Financial, Inc. furnishes advice to clients on matters not involving securities, such as financial planning matters, taxation issues and trust services that often include estate planning.

As of 12/31/2012, Hutchinson Financial, Inc. manages approximately \$145,070,527 in assets for approximately 267 clients. The total assets under management have been determined to be on a discretionary basis.

Clients may impose restrictions on investing in certain securities or types of securities.

Client assets are invested primarily in no-load, low-load, or load waived mutual funds, exchange-traded funds, and stocks and bonds. Investments may also include: warrants, corporate debt securities, commercial paper, certificates of deposit, municipal securities, investment company securities (mutual fund shares), U. S. government securities and interests in partnerships. Fund companies charge each fund shareholder an investment management fee that is disclosed in the fund prospectus. Brokerage firms may charge a transaction fee for the purchase of some funds and for the purchase or sale of stocks, bonds and other securities.

Hutchinson Financial, Inc. does not receive any compensation, in any form, from mutual fund companies. Hutchinson Financial, Inc. does not receive any share of any transaction cost to buy or sell securities of any kind from any brokerage firm.

## **Types of Agreements**

The following agreements define the typical client relationships.

### **Financial Planning Agreement**

A financial plan is designed to help the client with all aspects of financial planning without ongoing investment management after the financial plan is completed.

The financial plan may include, but is not limited to: a review of investment accounts, including reviewing asset allocation and providing repositioning recommendations; strategic tax planning; a review of retirement accounts and plans including recommendations; a review of insurance policies and recommendations for changes, if necessary; one or more retirement scenarios; estate planning review and recommendations; and education planning with funding recommendations.

Detailed investment advice and specific recommendations are provided as part of a financial plan. Implementation of the recommendations is at the discretion of the client.

The fee for financial planning services is predicated upon the facts known at the start of the engagement. The fee range for financial planning services ranges from \$1,500 to \$5,000 and is negotiable. Since financial planning is a discovery process, situations occur wherein the client is unaware of certain financial exposures or predicaments.

In the event that the client's situation is substantially different than disclosed at the initial meeting, a revised fee will be provided for mutual agreement. The client must approve the change of scope in advance of the additional work being performed when a fee increase is necessary.

After delivery of a financial plan, future face-to-face meetings may be scheduled as necessary for up to one month. Follow-up on implementation work is billed separately at the rate of \$250 per hour. Fees for follow-up on implementation work are waived if a client chooses to have Hutchinson Financial, Inc. manage some or all of their assets.

### **Asset Management Agreement**

Most clients choose to have Hutchinson Financial, Inc. manage their assets in order to obtain ongoing in-depth advice and life planning. All aspects of the client's financial affairs are reviewed, including those of their children. Realistic and measurable goals are set and objectives to reach those goals are defined. As goals and objectives change over time, suggestions are made and implemented on an ongoing basis.

The scope of work and fee for an Asset Management Agreement is provided to the client in writing prior to the start of the relationship. An Asset Management Agreement includes: investment management (including performance reporting); financial planning; retirement planning; estate planning, as well as the implementation of recommendations within each area. The annual Asset Management Agreement fee is based on a percentage of the investable assets according to the following schedule:

<b>Market Value of Assets Managed</b>	<b>Annual Asset Management Fee</b>
Up to \$1,000,000	1.50%
\$1 – 2.5 million	1.30%
\$2.5 – 5 million	1.15%
\$5 – 10 million	1.00%
\$10 million and up	Negotiable

The minimum annual fee is \$3,000 and is negotiable. Current client relationships may exist where the fees are higher or lower than the fee schedule above.

Although the Asset Management Agreement is an ongoing agreement and constant adjustments are required, the length of service to the client is at the client's discretion. The client or the investment manager may terminate an Agreement by written notice to the other party. At termination, fees will be billed on a pro rata basis for the portion of the billing period completed. The portfolio value at the time of termination is used as the basis for the fee computation, adjusted for the number of days during the billing period prior to termination.

### **Hourly Planning Engagements**

Hutchinson Financial, Inc. provides hourly planning services for clients who need advice on a limited scope of work. The hourly rate for limited scope engagements is \$250 per hour.

### **Termination of Agreement**

A Client may terminate any of the aforementioned agreements at any time by notifying Hutchinson Financial, Inc. in writing and paying the rate for the time spent on the investment advisory engagement prior to notification of termination. If the client made an advance payment, Hutchinson Financial, Inc. will refund any unearned portion of the advance payment.

Hutchinson Financial, Inc. may terminate any of the aforementioned agreements at any time by notifying the client in writing. If the client made an advance payment, Hutchinson Financial, Inc. will refund any unearned portion of the advance payment.

## **Fees and Compensation**

### **Description**

Hutchinson Financial, Inc. bases its asset management fees on a percentage of assets under management. Financial planning services, investment advisory services and investment counseling services are hourly charges or fixed fees agreed up prior to beginning the engagement.

Financial planning services are priced according to the degree of complexity associated with the client's situation.

Fees are negotiable.

### **Fee Billing**

Investment management fees are billed quarterly or monthly, in arrears, meaning that we invoice you after the billing period has ended. Payment in full is expected upon presentation of invoice. Fees are usually deducted from a designated client account to facilitate billing. The client must consent in advance to direct debiting of their investment account.

Fees for financial plans are billed 50% in advance, with the balance due upon delivery of the financial plan.

### **Other Fees**

Custodians may charge transaction fees on purchases or sales of certain mutual funds, exchange-traded funds or other securities. These transaction charges are usually small and incidental to the purchase or sale of a security. The selection of the security is more important than the nominal fee that the custodian charges to buy or sell the security.

Hutchinson Financial, Inc., in its sole discretion, may waive its minimum fee and/or charge a lesser investment advisory fee based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with clients, etc.).

### **Expense Ratios**

Mutual funds generally charge a management fee for their services as investment managers. The management fee is called an expense ratio. For example, an expense ratio of 0.50 means that the mutual fund company charges 0.5% for their services. These fees are in addition to the fees paid by you to Hutchinson Financial, Inc.

Performance figures quoted by mutual fund companies in various publications are after their fees have been deducted.

### **Past Due Accounts and Termination of Agreement**

Hutchinson Financial, Inc. reserves the right to stop work on any account that is more than 30 days overdue. In addition, Hutchinson Financial, Inc. reserves the right to terminate any financial planning engagement where a client has willfully concealed or has refused to provide pertinent information about financial situations when necessary and appropriate, in Hutchinson Financial, Inc.'s judgment, to providing proper financial advice. Any unused portion of fees collected in advance will be refunded within 30 days.

## **Performance-Based Fees**

### **Sharing of Capital Gains**

Fees are not based on a share of the capital gains or capital appreciation of managed securities.

Hutchinson Financial, Inc. does not use a performance-based fee structure because of the potential conflict of interest. Performance-based compensation may create an incentive for the adviser to recommend an investment that may carry a higher degree of risk to the client.

## **Types of Clients**

### **Description**

Hutchinson Financial, Inc. generally provides investment advice to individuals, pension and profit sharing plans, trusts, estates, charitable organizations and corporations or business entities.

Client relationships vary in scope and length of service.

### **Account Minimums**

The minimum asset management account size is \$200,000 of assets under management, which equates to an annual fee of \$3,000.

When an account falls below \$200,000 in value, the minimum annual fee of \$3,000 is charged.

Hutchinson Financial, Inc. has the discretion to waive the account minimum. Other exceptions will apply to employees of Hutchinson Financial, Inc. and their relatives, or relatives of existing clients.

Clients with assets below the minimum account size may pay a higher percentage rate on their annual fees than the fees paid by clients with greater assets under management.

## **Methods of Analysis, Investment Strategies and Risk of Loss**

### **Methods of Analysis**

Security analysis methods may include charting, fundamental analysis, technical analysis and cyclical analysis.

The main sources of information include financial newspapers and magazines, inspections of corporate activities, research materials prepared by others, corporate rating services, timing services, annual reports, prospectuses, filings with the Securities and Exchange Commission and company press releases.

Other sources of information that Hutchinson Financial, Inc. may use include, but is not limited to, Morningstar Principia mutual fund information, Morningstar Principia stock information, Charles Schwab & Company's "SchwabLink" service, Vector Vest, MetaStock, Zephyr Associates and the World Wide Web.

### **Investment Strategies**

The primary investment strategy used in client accounts is strategic asset allocation utilizing a core and satellite approach. This means that we use passively-managed index and exchange-traded funds as the core investments, and then add actively-managed funds and individual securities where there are greater opportunities to make a difference. In some cases only actively managed mutual funds are used to build a client portfolio.

Portfolios are globally diversified to manage the risk associated with traditional markets.

The investment strategy for a specific client is based upon the objectives stated by the client during consultations. The client may change these objectives at any time.

### **Risk of Loss**

All investment programs have certain risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks:

- **Interest-rate Risk:** Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- **Market Risk:** The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- **Inflation Risk:** When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.
- **Currency Risk:** Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- **Reinvestment Risk:** This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
- **Business Risk:** These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company, which generates its income from a steady stream of customers who buy electricity no matter what the economic environment is like.
- **Liquidity Risk:** Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- **Financial Risk:** Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.

Discretionary trading authority facilitates placing trades in your accounts on your behalf so that we may promptly implement the investment policy that you have approved in writing.

The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. Individuals who become certified must complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks:

To attain the right to use the CRPC® marks, an individual must satisfactorily complete an advanced college-level course of study incorporating the following topics: The Retirement Planning Process & Meeting Multiple Financial Objectives, Sources of Retirement Income, Personal Savings: Investing for Retirement, Employer-Sponsored Plans, Individual Deferred Compensation, Planning for Incapacity, Disability & Long-Term Care, When to Retire, Retirement Plan Distributions, Asset Management & Investment Strategy During Retirement, Income Taxes & the Retiree, Estate Planning and Retirement Cash Flow Considerations.

**The CHARTERED LIFE UNDERWRITER™ and CLU®** are federally registered marks and are professional certification marks granted in the United States by The American College. The authority to use the CLU® mark is granted by the Certification
