Item 4 Advisory Business

- A. Strategic Wealth Management Group, LLC, d/b/a StratWealth (the “Registrant”) is a limited liability company formed on February 14, 2001 in the State of Maryland. The Registrant became registered with the Securities and Exchange Commission on May 17, 2002. The Registrant is owned by James Griesser, Shaun Eddy, James Eichelberger, Gary Desjardins and Jennine LaCroix. However, none of those individuals own 25% or more of the Registrant, and are therefore not considered “principal owners” for the purposes of this ADV Part 2A, Firm Brochure.
- B. As discussed below, the Registrant offers to its clients (individuals, high net worth individuals, pension & profit sharing plans, charitable organizations, and corporations or other businesses not listed above) investment advisory services, financial planning and consulting services, and retirement plan consulting services.

INVESTMENT ADVISORY SERVICES

The client can engage the Registrant to provide discretionary or non-discretionary investment advisory services on a fee basis. The Registrant’s annual investment advisory fee is based upon a percentage (%) of the market value of the assets placed under management. Before engaging the Registrant to provide investment advisory services, clients are required to enter into an Investment Advisory Agreement with Registrant setting forth the terms and conditions of the engagement (including termination), describing the scope of the services to be provided, and the fee that is due from the client.

Registrant’s annual investment advisory fee shall include investment advisory services, and limited financial planning and consulting services. In the event that the client requires extraordinary planning and/or consultation services (to be determined in the sole discretion of the Registrant), the Registrant may determine to charge for such additional services pursuant to a stand-alone Financial Planning and Consulting Agreement (see below).

The Registrant provides investment advisory services specific to the needs of each client. Before providing investment advisory services, an investment adviser representative will ascertain each client’s investment objectives. Then, the Registrant will allocate and/or recommend that the client allocate investment assets consistent with the designated investment objectives. The Registrant primarily allocates or recommends that clients allocate investment assets among: exchange-listed securities, mutual funds, bonds, exchange traded funds (“ETFs”), independent managers/separate account managers, and certificates of deposit on a discretionary or non-discretionary basis in accordance with the client’s designated investment objective(s). Once allocated, the Registrant provides ongoing monitoring and review of account performance and asset allocation as compared to client investment objectives.

FINANCIAL PLANNING AND CONSULTING SERVICES (STAND-ALONE)

To the extent requested by a client, the Registrant may also provide financial planning and/or consulting services (including investment and non-investment related matters, including estate planning, insurance planning, etc.) on a stand-alone separate fee basis.

Before engaging the Registrant to provide stand-alone planning or consulting services, clients are required to enter into a Financial Planning and Consulting Agreement with Registrant setting forth the terms and conditions of the engagement (including termination), describing the scope of the services to be provided, and the portion of the fee that is due from the client before Registrant commences services. If requested by the client, Registrant may recommend the services of other professionals for implementation purposes. The client is under no obligation to engage the services of any such recommended professional. The client retains absolute discretion over all such implementation decisions and is free to accept or reject any recommendation from the Registrant.

RETIREMENT PLAN CONSULTING SERVICES

The Registrant also provides non-discretionary retirement plan consulting services, pursuant to which it assists sponsors of self-directed retirement plans and defined benefit plans with the selection and/or monitoring of investment alternatives from which plan participants may choose in self-directing the investments for their individual plan retirement accounts. In addition, to the extent requested by the plan sponsor, the Registrant may also provide participant education designed to assist participants in identifying the appropriate investment strategy for their retirement plan accounts. The terms and conditions of the engagement between the Registrant and the plan sponsor shall be set forth in a Retirement Plan Consulting Agreement.

MISCELLANEOUS

Non-Investment Consulting/Implementation Services. If requested by the client, the Registrant may provide consulting services regarding non-investment related matters, such as estate planning, tax planning, insurance, etc. Neither the Registrant, nor any of its representatives, serves as an attorney or accountant, and no portion of the Registrant's services should be construed as same. To the extent requested by a client, the Registrant may recommend the services of other professionals for certain non-investment implementation purposes (i.e. attorneys, accountants, insurance, etc.), including representatives of the Registrant in their separate capacities as insurance agents which presents a **conflict of interest** as discussed in Item 10C below. **The client is under no obligation to engage the services of any such recommended professional.** The client retains absolute discretion over all such implementation decisions and is free to accept or reject any recommendation from the Registrant. **Please Note:** If the client engages any such recommended professional, and a dispute arises thereafter relative to such engagement, the client agrees to seek recourse exclusively from and against the engaged professional. **Please Also Note:** It remains the client's responsibility to promptly notify the Registrant if there is ever any change in his/her/its financial situation or investment objectives for the purpose of reviewing/evaluating/revising Registrant's previous recommendations and/or services.

Non-Discretionary Service Limitations. Clients that determine to engage Registrant on a non-discretionary investment advisory basis must be willing to accept that Registrant cannot effect any account transactions without obtaining prior verbal consent to any such transaction(s) from the client. Thus, in the event that the Registrant would like to make a transaction for a client's account, and the client is unavailable, the Registrant will be unable to effect any account transactions (as it would for its discretionary clients) without first obtaining the client's verbal consent.

Client Obligations. In performing its services, Registrant shall not be required to verify any information received from the client or from the client's other professionals, and is expressly authorized to rely thereon. Moreover, each client is advised that it remains his/her/its responsibility to promptly notify the Registrant if there is ever any change in his/her/its financial situation or investment objectives for the purpose of reviewing/evaluating/revising Registrant's previous recommendations and/or services.

Independent Managers. The Registrant may allocate (and/or recommend that the client allocate) a portion of a client's investment assets among unaffiliated independent investment managers ("Independent Manager(s)") in accordance with the client's designated investment objective(s). In such situations, the Independent Manager(s) shall have day-to-day responsibility for the active discretionary management of the allocated assets. The Registrant shall continue to render investment advisory services to the client relative to the ongoing monitoring and review of account performance, asset allocation and client investment objectives. The Registrant considers the following factors when recommending Independent Manager(s): the client's designated investment objective(s); management style; performance; reputation; financial strength; reporting; pricing; and research.

Disclosure Statement. A copy of the Registrant's written Brochure as set forth on Part 2 of Form ADV shall be provided to each client before, or contemporaneously with, the execution of the Investment Advisory Agreement.

Retirement Plan Rollovers-No Obligation/Conflict of Interest. A client leaving an employer typically has four options regarding an existing retirement plan (and may engage in a combination of these options): (i) leave the money in his/her former employer's plan, if permitted, (ii) roll over the assets to his/her new employer's plan, if one is available and rollovers are permitted, (iii) rollover to an IRA, or (iv) cash out the account value (which could, depending upon the client's age, result in adverse tax consequences). The Registrant may recommend an investor roll over plan assets to an Individual Retirement Account ("IRA") managed by the Registrant. As a result the Registrant and its representatives may earn an asset-based fee. In contrast, a recommendation that a client or prospective client leave his or her plan assets with his/her former employer or roll the assets to a plan sponsored by a new employer will generally result in no compensation to the Registrant (unless clients engage the Registrant to monitor and/or manage the account while maintained at his/her employer). The Registrant has an economic incentive to encourage an investor to roll plan assets into an IRA that the Registrant will manage or to engage the Registrant to monitor and/or manage the account while maintained at the client's employer. There are various factors that the Registrant may consider before recommending a rollover, including but not limited to: (i) the investment options available in the plan versus the investment options available in an IRA, (ii) fees and expenses in the plan versus the fees and expenses in an IRA, (iii) the services and responsiveness of the plan's investment professionals versus

the Registrant's, (iv) protection of assets from creditors and legal judgments, (v) required minimum distributions and age considerations, and (vi) employer stock tax consequences, if any. **No client is under any obligation to rollover plan assets to an IRA managed by the Registrant or to engage the Registrant to monitor and/or manage the account while maintained at the client's employer. Registrant's Chief Compliance Officer, Patricia Eddy, remains available to address any questions that a client or prospective client may have regarding its prospective engagement and the corresponding conflict of interest presented by such engagement.**

Use of Mutual Funds. Many mutual funds are available directly to the public. Thus, a client or prospective client can obtain many of the mutual funds that may be recommended and/or utilized by Registrant independent of engaging Registrant as an investment advisor. However, if a client or prospective client determines to do so, he/she/it will not receive the benefit of Registrant's initial and ongoing investment advisory services.

Fee Differentials. As indicated below, Registrant shall price its services based upon various objective and subjective factors. In certain circumstances, Registrant, in its sole discretion, may charge a different fee (higher or lower) to its clients based upon certain criteria such as: the market value of the assets under management, the complexity of the engagement, the level and scope of the overall investment advisory and/or consulting services to be rendered. As a result of these factors, the services to be provided by the Registrant to any particular client could be available from other advisers at lower fees. All clients and prospective clients should be guided accordingly.

- C. The Registrant shall provide investment advisory services specific to the needs of each client. Before providing investment advisory services, an investment adviser representative will ascertain each client's investment objective(s). Thereafter, the Registrant shall allocate and/or recommend that the client allocate investment assets consistent with the designated investment objective(s). The client may, at anytime, impose reasonable restrictions, in writing, on the Registrant's services.
- D. The Registrant does not participate in a wrap fee program.
- E. As of December 31, 2014, the Registrant had \$667,439,508 in assets under management on a discretionary basis and \$235,263,514 in assets under management on a non-discretionary basis.

Item 5 Fees and Compensation

A. INVESTMENT ADVISORY SERVICES

The client can engage the Registrant on a negotiable fee-only basis to provide discretionary and/or non-discretionary investment advisory services including limited financial planning and consulting services. The negotiable annual fee is based upon a percentage (%) of the total market value and type of assets placed under management, generally between 0.25% and 1.50%, which shall be based upon various objective and subjective factors, including, but not limited to: the amount of the assets placed under Registrant's direct management, the complexity of the engagement, and the level and scope of the overall investment advisory services to be rendered.

FINANCIAL PLANNING AND CONSULTING SERVICES (STAND-ALONE)

The Registrant may determine to provide financial planning and/or consulting services (including investment and non-investment related matters, including estate planning, insurance planning, etc.) on a stand-alone fee basis. Registrant's financial planning and consulting fees are negotiable, but generally range from \$2,500 to \$10,000 on a fixed fee basis, and \$250 on an hourly rate basis, depending upon the level and scope of the service(s) required and the professional(s) rendering the service(s).

RETIREMENT PLAN CONSULTING SERVICES

The Registrant also provides non-discretionary retirement plan consulting services, pursuant to which it assists sponsors of self-directed retirement plans and defined benefit plans with the selection and/or monitoring of investment alternatives (generally open-end mutual funds) from which plan participants shall choose in self-directing the investments for their individual plan retirement accounts. The terms and conditions of the engagement shall generally be set forth in a Retirement Plan Consulting Agreement between the Registrant and the plan sponsor. The Registrant charges a negotiable annual fee for retirement plan consulting services, which generally ranges from 0.10% to 1.50% of plan assets depending on the level and scope of services requested, and the size of the plan.

- B. Clients may elect to have the Registrant's advisory fees deducted from their custodial account. Both Registrant's Investment Advisory Agreement and the custodial/clearing agreement may authorize the custodian to debit the account for the amount of the Registrant's investment advisory fee and to directly remit that advisory fee to the Registrant in compliance with regulatory procedures. In the limited event that the Registrant bills the client directly, payment is due upon receipt of the Registrant's invoice. The Registrant shall deduct fees and/or bill clients quarterly in advance, based upon the market value of the assets on the last business day of the previous quarter.
- C. As discussed below, unless the client directs otherwise or an individual client's circumstances require, the Registrant shall generally recommend that Charles Schwab and Co., Inc., a FINRA-registered broker-dealer, member SIPC, ("Schwab") serve as the broker-dealer/custodian for client investment advisory assets. Broker-dealers such as Schwab charge brokerage commissions and/or transaction fees for effecting certain securities transactions (i.e. transaction fees are charged for certain no-load mutual funds, commissions are charged for individual equity and fixed income securities transactions). In addition to Registrant's investment advisory fee, brokerage commissions and/or

transaction fees, clients will also incur, relative to all mutual fund and ETF purchases, charges imposed at the fund level (e.g. management fees and other fund expenses).

- D. The Registrant's annual investment advisory fee is prorated and paid quarterly in advance, based upon the market value of the assets on the last business day of the previous quarter. The Registrant generally does not require a minimum annual investment advisory fee. The Registrant, in its sole discretion, may reduce its investment advisory fee based upon certain criteria (i.e. anticipated future earning capacity, anticipated future additional assets, familial relationship, dollar amount of assets to be managed, related accounts, account composition, etc.). Upon termination of the Investment Advisory Agreement or the Retirement Plan Consulting Agreement, the Registrant shall refund the pro-rated portion of the advanced advisory fee paid based upon the number of days remaining in the billing quarter. If the Financial Planning and Consulting Agreement is terminated before the Registrant presents the financial plan to the client: the Registrant will refund any unearned, pre-paid portion of the fee that was advanced by the Client; or the Registrant will bill the client directly for outstanding fees incurred for services rendered.
- E. Neither the Registrant, nor its representatives accept compensation from the sale of securities or other investment products.

Item 6 Performance-Based Fees and Side-by-Side Management

Neither the Registrant nor any supervised person of the Registrant accepts performance-based fees.

Item 7 Types of Clients

The Registrant's clients shall generally include: individuals, high net worth individuals, pension & profit sharing plans, charitable organizations, and corporations or other businesses not listed above. The Registrant generally does not require a minimum annual investment advisory fee. The Registrant, in its sole discretion, may reduce its investment advisory fee based upon certain criteria (i.e. anticipated future earning capacity, anticipated future additional assets, familial relationship, dollar amount of assets to be managed, related accounts, account composition, etc.).

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

- A. The Registrant may utilize the following methods of security analysis:
- Charting – analysis performed using patterns to identify current trends and trend reversals to forecast the direction of prices;
 - Fundamental – analysis performed on historical and present data, with the goal of making financial forecasts; and
 - Technical – analysis performed on historical and present data, focusing on price and trade volume, to forecast the direction of price.

The Registrant may utilize the following investment strategies when implementing investment advice given to clients:

- Long Term Purchases – securities held at least a year; and
- Short Term Purchases – securities sold within a year.

Please Note: Investment Risk. Investing in securities involves risk of loss that clients should be prepared to bear. Different types of investments involve varying degrees of risk, and it should not be assumed that future performance of any specific investment or investment strategy (including the investments and/or investment strategies recommended or undertaken by the Registrant) will be profitable or equal any specific performance level(s). While markets may increase and client account values could benefit as a result, it is also possible that markets may decrease and such account values could suffer a loss. It is therefore important that clients understand investment risks, diversification strategies, and ask Registrant any questions they may have before making any investment decisions.

- B. The Registrant's methods of analysis and investment strategies do not present any significant or unusual risks. However, every method of analysis has its own inherent risks. To perform an accurate market analysis the Registrant must have access to current/new market information. The Registrant has no control over the dissemination rate of market information; therefore, unbeknownst to the Registrant, certain analyses may be compiled with outdated market information, severely limiting the value of the Registrant's analysis. Furthermore, an accurate market analysis can only produce a forecast of the direction of market values. There can be no assurances that a forecasted change in market value will materialize into actionable and/or profitable investment opportunities.

The Registrant's primary investment strategies are fundamental investment strategies. However, every investment strategy has its own inherent risks and limitations. For example, longer term investment strategies require a longer investment time period to allow for the strategy to potentially develop. Shorter term investment strategies require a shorter investment time period to potentially develop but, as a result of more frequent trading, may incur higher transactional costs when compared to a longer term investment strategy.

- C. Currently, the Registrant primarily allocates or recommends that clients allocate investment assets among: exchange-listed securities, mutual funds, bonds, ETFs, independent managers/separate account managers, and certificates of deposit on a discretionary or non-discretionary basis in accordance with the client's designated investment objective(s).

Item 9 Disciplinary Information

The Registrant has not been the subject of a disciplinary action.

Item 10 **Other Financial Industry Activities and Affiliations**

- A. Neither the Registrant, nor its representatives, are registered or have an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.
- B. Neither the Registrant, nor its representatives, are registered or have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading advisor, or a representative of the foregoing.
- C. **Licensed Insurance Producer**. Registrant is a Registered Insurance Producer in the State of Maryland that may receive commission payments from the sale of insurance products. Also, as indicated in Item 4B above, certain of Registrant's investment adviser representatives/related persons are, in their individual capacities, licensed insurance agents who may recommend the purchase of certain insurance-related products and may be engaged to effect such transactions on a commission basis.

Conflict of Interest: The recommendation by Registrant's representatives that a client purchase an insurance commission product presents a **conflict of interest**, as the receipt of commissions may provide an incentive to recommend insurance products based on commissions to be received, rather than on a particular client's need. No client is under any obligation to purchase any insurance commission products from Registrant's investment adviser representatives. Clients are reminded that they may purchase insurance products recommended by Registrant through other, non-affiliated insurance agents. **The Registrant's Chief Compliance Officer, Patricia Eddy, remains available to address any questions that a client or prospective client may have regarding the above conflict of interest.**

- D. The Registrant does not recommend or select other investment advisors for its clients for which the Registrant receives compensation.

Item 11 **Code of Ethics, Participation or Interest in Client Transactions and Personal Trading**

- A. The Registrant maintains an investment policy relative to personal securities transactions. This investment policy is part of Registrant's overall Code of Ethics, which serves to establish a standard of business conduct for all of Registrant's Representatives that is based upon fundamental principles of openness, integrity, honesty and trust, a copy of which is available upon request.

In accordance with Section 204A of the Investment Advisers Act of 1940, the Registrant also maintains and enforces written policies reasonably designed to prevent the misuse of material non-public information by the Registrant or any person associated with the Registrant.

- B. Neither the Registrant nor any related person of Registrant recommends, buys, or sells for client accounts, securities in which the Registrant or any related person of Registrant has a material financial interest.

- C. The Registrant and/or representatives of the Registrant may buy or sell securities that are also recommended to clients. This practice may create a situation where the Registrant and/or representatives of the Registrant are in a position to materially benefit from the sale or purchase of those securities. Therefore, this situation creates a potential conflict of interest. Practices such as “scalping” (i.e., a practice whereby the owner of shares of a security recommends that security for investment and then immediately sells it at a profit upon the rise in the market price which follows the recommendation) could take place if the Registrant did not have adequate policies in place to detect such activities. In addition, this requirement can help detect insider trading, “front-running” (i.e., personal trades executed before those of the Registrant’s clients) and other potentially abusive practices.

The Registrant has a personal securities transaction policy in place to monitor the personal securities transactions and securities holdings of each of the Registrant’s “Access Persons.” The Registrant’s securities transaction policy requires that Access Person of the Registrant must provide the Chief Compliance Officer or his/her designee with a written report of the their current securities holdings within ten (10) days after becoming an Access Person. Furthermore, Access Persons must provide the Chief Compliance Officer with a quarterly transaction report, detail all trades in the Access Person’s account during the previous quarter; and on an annual basis, each Access Person must provide the Chief Compliance Officer with a written report of the Access Person’s current securities holdings. However, at any time that the Registrant has only one Access Person, he or she shall not be required to submit any securities report described above.

- D. The Registrant and/or representatives of the Registrant may buy or sell securities, at or around the same time as those securities are recommended to clients. This practice creates a situation where the Registrant and/or representatives of the Registrant are in a position to materially benefit from the sale or purchase of those securities. Therefore, this situation creates a potential conflict of interest. As indicated above in Item 11C, the Registrant has a personal securities transaction policy in place to monitor the personal securities transaction and securities holdings of each of Registrant’s Access Persons.

Item 12 Brokerage Practices

- A. In the event that the client requests that the Registrant recommend a broker-dealer/custodian for execution and/or custodial services (exclusive of those clients that may direct the Registrant to use a specific broker-dealer/custodian), Registrant generally recommends that investment advisory accounts be maintained at Schwab. Before engaging Registrant to provide investment advisory services, the client will be required to enter into a formal Investment Advisory Agreement with Registrant setting forth the terms and conditions under which Registrant shall manage the client’s assets, and a separate custodial/clearing agreement with each designated broker-dealer/custodian.

Factors that the Registrant considers in recommending Schwab (or another broker-dealer/custodian) to clients include: historical relationship with the Registrant, financial strength, reputation, execution capabilities, pricing, research, and service. Although the commissions and/or transaction fees paid by Registrant’s clients shall comply with the Registrant’s duty to obtain best execution, a client may pay a commission that is higher than another qualified broker-dealer might charge to effect the same transaction where the Registrant determines, in good faith, that the commission/transaction fee is reasonable. In seeking best execution, the determinative factor is not the lowest possible

cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of broker-dealer services, including the value of research provided, execution capability, commission rates, and responsiveness. Accordingly, although Registrant will seek competitive rates, it may not necessarily obtain the lowest possible commission rates for client account transactions. The brokerage commissions or transaction fees charged by the designated broker-dealer/custodian are exclusive of, and in addition to, Registrant's investment advisory fee. The Registrant's best execution responsibility is qualified if securities that it purchases for client accounts are mutual funds that trade at net asset value as determined at the daily market close.

1. Research and Additional Benefits

Although not a material consideration when determining whether to recommend that a client utilize the services of a particular broker-dealer/custodian, Registrant may receive from Schwab (or another broker-dealer/custodian, investment platform, unaffiliated investment manager, or mutual fund sponsor) without cost (or at a discount) support services or products, certain of which assist the Registrant to better monitor and service client accounts maintained at such institutions. The support services that Registrant may obtain could include: investment-related research; pricing information and market data; software and other technology that provide access to client account data; compliance and/or practice management-related publications; discounted or gratis consulting services; discounted or gratis attendance at conferences meetings, and other educational and/or social events; marketing support; computer hardware or software; or other products used by Registrant in furtherance of its investment advisory business operations.

As indicated above, certain of the support services or products that may be received may assist the Registrant in managing and administering client accounts. Others do not directly provide such assistance, but rather assist the Registrant to manage and further develop its business enterprise.

Registrant's clients do not pay more for investment transactions effected and/or assets maintained at a Schwab or another broker-dealer/custodian as a result of these arrangements. There is no corresponding commitment made by the Registrant to any broker-dealers/custodians or any other entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as a result of the above arrangements.

The Registrant's Chief Compliance Officer, Patricia Eddy, remains available to address any questions that a client or prospective client may have regarding the above arrangements and any corresponding perceived conflict of interest such arrangements may create.

Schwab Advisor Services

Schwab Advisor Services (formerly called Schwab Institutional) is Schwab's business serving independent investment advisory firms like the Registrant. Schwab Advisor Services provides Registrant and its clients with access to its institutional brokerage –trading, custody, reporting and related services – many of which are not typically available to Schwab retail customers. Schwab also makes available various support services. Some of those services help Registrant manage or administer its clients' accounts while others help Registrant manage and grow its business. Schwab may also provide monetary assistance to Registrant to defray certain costs related be

towards certain technology, compliance, legal, business consulting and other related expenses. Schwab's support services are generally available on an unsolicited basis (Registrant does not have to request them) and at no charge to Registrant as long as it maintains a total of at least \$50 million of its clients' assets in accounts at Schwab. In other cases, Schwab may choose to make charitable donations to unaffiliated non-profit organizations upon Registrant's request. The following is a more detailed description of Schwab's support services.

Schwab Advisor Services that Benefit the Client

Schwab's institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of client assets. The investment products available through Schwab include some to which Registrant might not otherwise have access or that would require a significantly higher minimum initial investment by its clients. Schwab's services described in this paragraph generally benefit clients and client accounts.

Schwab Advisor Services that May Not Directly Benefit the Client

Schwab also makes available to Registrant other products and services that benefit Registrant but may not directly benefit its clients or its clients' accounts. These products and services assist Registrant in managing and administering its clients' accounts. Such products and services may include investment research, both Schwab's own and that of third parties. Registrant may use this research to service all or some substantial number of its clients' accounts, including accounts not maintained at Schwab. In addition to investment research, Schwab also makes available software and other technology that: provides access to client account data (such as duplicate trade confirmations and account statements); facilitates trade execution and allocates aggregated trade orders for multiple client accounts; provides pricing and other market data; facilitates payment of Registrant's fees from clients' accounts; and assists with back-office functions, recordkeeping and client reporting.

Schwab Advisor Services that Generally Benefit Only Registrant

Schwab also offers other services intended to help Registrant manage and further develop Registrant's business enterprise. These services include: educational conferences and events; technology, compliance, legal, and business consulting; publications and conferences on practice management and business succession; and access to employee benefits providers, human capital consultants and insurance providers.

Schwab may provide some of these services itself. In other cases, it will arrange for third-party vendors to provide the services to Registrant. Schwab may also discount or waive its fees for some of these services or pay all or a part of a third party's fees. Schwab may also provide Registrant with other benefits such as occasional business entertainment of Registrant's personnel.

The availability of these services from Schwab benefits Registrant because it does not have to produce or purchase them. Registrant does not have to pay for Schwab's services so long as it maintains a total of at least \$50 million of client assets in accounts at Schwab. (Beyond that, these services are not contingent upon Registrant committing any specific amount of business to Schwab in trading commissions or assets in custody.) The \$50 million minimum may give Registrant an incentive to request that clients maintain their account with Schwab based on Registrant's interest

in receiving Schwab's services that benefit Registrant's business rather than based on clients' interest in receiving the best value in custody services and the most favorable execution of transactions. This is a potential **conflict of interest**. Registrant may believe, however, that its selection of Schwab as custodian and broker is in the best interests of its clients based upon the factors discussed above.

Based on the value of Registrant's assets under management as reported above under Item 4.E., the Registrant does not believe that maintaining at least \$50 million of those assets at Schwab in order to avoid paying Schwab quarterly service fees presents a material conflict of interest.

The Registrant's Chief Compliance Officer, Patricia Eddy, remains available to address any questions that a client or prospective client may have regarding the above arrangements and any corresponding perceived conflict of interest such arrangements may create.

Schwab Advisor Services Technology, Operations and Service Advisory Board
Patricia Eddy, Registrant's Chief Compliance Officer and Chief Operating Officer serves on the Schwab Advisor Services Technology, Operations and Service Advisory Board (the "Board"). The Board consists of approximately 21 representatives of independent investment advisory firms who have been invited by Schwab management to participate in meetings and discussions of Schwab Advisor Services' services for independent investment advisory firms and their clients. Board members serve for three-year terms. Ms. Eddy's term ends 2017. Board members enter nondisclosure agreements with Schwab under which they agree not to disclose confidential information shared with them. This information generally does not include material nonpublic information about the Charles Schwab Corporation, whose common stock is listed for trading on the New York Stock Exchange and the NASDAQ stock market (symbol SCHW). The Board meets in person approximately twice per year and has periodic conference calls scheduled as needed. Board members are not compensated by Schwab for their service, but Schwab does pay for or reimburse Board members' travel, lodging, meals and other incidental expenses incurred in attending Board meetings.

The Registrant's Chief Compliance Officer, Patricia Eddy, remains available to address any questions that a client or prospective client may have regarding the above arrangement and any corresponding perceived conflict of interest such arrangement may create.

2. The Registrant does not receive referrals from broker-dealers.
3. The Registrant does not generally accept directed brokerage arrangements (when a client requires that account transactions be effected through a specific broker-dealer). In such client directed arrangements, the client will negotiate terms and arrangements for their account with that broker-dealer, and Registrant will not seek better execution services or prices from other broker-dealers or be able to "batch" the client's transactions for execution through other broker-dealers with orders for other accounts managed by Registrant. As a result, client may pay higher commissions or other transaction costs or greater spreads, or receive less favorable net prices, on transactions for the account than would otherwise be the case. Higher transaction costs adversely impact account performance.

Please Note: In the event that the client directs Registrant to effect securities transactions for the client's accounts through a specific broker-dealer, the client correspondingly acknowledges that such direction may cause the accounts to incur higher commissions or transaction costs than the accounts would otherwise incur had the client determined to effect account transactions through alternative clearing arrangements that may be available through Registrant.

The Registrant's Chief Compliance Officer, Patricia Eddy, remains available to address any questions that a client or prospective client may have regarding the above arrangement.

- B. To the extent that the Registrant provides investment advisory services to its clients, the transactions for each client account generally will be effected independently, unless the Registrant decides to purchase or sell the same securities for several clients at approximately the same time. The Registrant may (but is not obligated to) combine or "bunch" such orders to obtain best execution, to negotiate more favorable commission rates or to allocate equitably among the Registrant's clients differences in prices and commissions or other transaction costs that might have been obtained had such orders been placed independently. Under this procedure, transactions will be averaged as to price and will be allocated among clients in proportion to the purchase and sale orders placed for each client account on any given day. The Registrant shall not receive any additional compensation or remuneration as a result of such aggregation.

Item 13 Review of Accounts

- A. For those clients to whom Registrant provides investment supervisory services, account reviews are conducted on an ongoing basis by the Registrant's principals or investment adviser representatives. All investment supervisory clients are advised that it remains their responsibility to advise the Registrant of any changes in their investment objectives or financial situation. All clients (in person or via telephone) are encouraged to review financial planning issues (to the extent applicable), investment objectives and account performance with the Registrant on an annual basis.
- B. The Registrant may conduct account reviews on an other-than-periodic basis upon the occurrence of a triggering event, such as a change in client investment objectives and/or financial situation, market corrections and client request.
- C. Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the broker-dealer/custodian and/or program sponsor for the client accounts. The Registrant may also provide a written periodic report summarizing account activity and performance.

Item 14 Client Referrals and Other Compensation

- A. As referenced in Item 12.A.1 above, the Registrant may receive indirect economic benefits from Schwab or other broker-dealers/custodians such as support services and/or products.

Registrant's clients do not pay more for investment transactions effected and/or assets maintained at Schwab or another broker-dealer/custodian as a result of these arrangements. There is no corresponding commitment made by the Registrant to a broker-dealer/custodian or any other entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as a result of the above arrangement.

The Registrant's Chief Compliance Officer, Patricia Eddy, remains available to address any questions that a client or prospective client may have regarding the above arrangement and any corresponding perceived conflict of interest any such arrangement may create.

- B. If a client is introduced to the Registrant by either an unaffiliated or an affiliated solicitor, Registrant may pay that solicitor a referral fee in accordance with the requirements of Rule 206(4)-3 of the Investment Advisers Act of 1940, and any corresponding state securities law requirements. Any such referral fee shall be paid solely from the Registrant's investment management fee, and shall not result in any additional charge to the client. If the client is introduced to the Registrant by an unaffiliated solicitor, the solicitor, at the time of the solicitation, shall disclose the nature of his/her/its solicitor relationship, and shall provide each prospective client with a copy of the Registrant's written Brochure with a copy of the written disclosure statement from the solicitor to the client disclosing the terms of the solicitation arrangement between the Registrant and the solicitor, including the compensation to be received by the solicitor from the Registrant.

Item 15 Custody

The Registrant shall have written authorization granting it the ability to have its advisory fee for each client debited by the custodian on a quarterly basis. Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the broker-dealer/custodian and/or program sponsor for the client accounts. The Registrant may also provide a written periodic report summarizing account activity and performance.

Please Note: To the extent that the Registrant provides clients with periodic account statements or reports, the client is urged to compare any statement or report provided by the Registrant with the account statements received from the account custodian. **Please Also Note:** The account custodian does not verify the accuracy of the Registrant's advisory fee calculation.

Item 16 Investment Discretion

The client can determine to engage the Registrant to provide investment advisory services on a discretionary or non-discretionary basis. Before the Registrant assumes discretionary authority over a client's account, the client shall be required to execute an Investment Advisory Agreement, naming the Registrant as client's attorney and agent in fact, granting the Registrant full authority to buy, sell, or otherwise effect investment transactions involving the assets in the client's name found in the discretionary account.

Clients who engage the Registrant on a discretionary basis may, at anytime, impose restrictions, **in writing**, on the Registrant's discretionary authority (i.e. limit the types/amounts of particular securities purchased for their account, exclude the ability to purchase securities with an inverse relationship to the market, limit or proscribe the Registrant's use of margin, etc.).

Item 17 Voting Client Securities

- A. The Registrant does not vote client proxies. Clients maintain exclusive responsibility for: (1) directing the manner in which proxies solicited by issuers of securities owned by the client shall be voted, and (2) making all elections relative to any mergers, acquisitions, tender offers, bankruptcy proceedings or other type events pertaining to the client's investment assets.
- B. Clients will receive their proxies or other solicitations directly from their custodian. Clients may contact the Registrant to discuss any questions they may have with a particular solicitation.

Item 18 Financial Information

- A. The Registrant does not solicit fees of more than \$1,200, per client, six months or more in advance.
- B. The Registrant is unaware of any financial condition that is reasonably likely to impair its ability to meet its contractual commitments relating to its discretionary authority over certain client accounts.
- C. The Registrant has not been the subject of a bankruptcy petition.

ANY QUESTIONS: The Registrant's Chief Compliance Officer, Patricia Eddy, remains available to address any questions that a client or prospective client may have regarding the above disclosures and arrangements.
