Item 4: Advisory Business

A. Description of the Advisory Firm

Cornerstone Advisors provides continuous asset management and comprehensive financial planning services to individuals, families, and businesses. While the founder, Donald G. Schwart, has provided professional investment advice since 1966, Cornerstone Advisors was established in 2000 as a "fee-only" advisor. Cornerstone Advisors began actively managing accounts on a fee basis in late 2002 believing that this was a better business model in serving our clients. We primarily invest using mutual funds and ETFs. We are not paid commissions, overrides, or any 12b1 fees on managed accounts; however, from time to time based on the needs of a particular client, we may recommend a commissionable product (see Item 10.A.). We believe that acting as a fiduciary, putting the client's needs first, is the key to both better investment performance and long-term prosperous relationships.

B. Types of Advisory Services

Cornerstone Advisors, LLC offers the following services to advisory clients:

Investment Supervisory Services

Cornerstone Advisors provides continuous advice to a client regarding the investment of client funds based on the individual needs of the client. Through personal discussions in which goals and objectives based on a client's particular circumstances are established, we develop a client's personal investment strategy and create and manage a portfolio based on that strategy. During our data-gathering process, we determine the client's individual objectives, time horizons, risk tolerance, and liquidity needs. As appropriate, we also review and discuss a client's prior investment history, as well as family composition and background.

Cornerstone Advisors manages these advisory accounts on either a discretionary or non-discretionary basis. Account supervision is guided by the client's stated objectives (i.e., maximum capital appreciation, growth, income, or growth and income), as well as tax considerations.

Clients may impose reasonable restrictions on investing in particular funds, types of funds, or industry sectors.

Our investment recommendations are not limited to any specific product or services offered by a broker-dealer or insurance company and will generally include but are not limited to advice regarding the following:

- Mutual fund shares
- Certificates of deposit
- Variable life insurance
- Variable annuities
- Equities
- U.S. government securities
- Real estate REITS
- Option contracts on broad market indexes
- Managed Futures
- Structured CD's

Because some types of investments involve certain additional degrees of risk, they will only be recommended/implemented when consistent with the client's stated investment objectives, risk tolerance, liquidity, and suitability.

Selection of Other Advisors

Cornerstone Advisors may possibly direct clients to third-party money managers. Cornerstone Advisors is currently using two third-party money managers: Flexible Plan Investments, Ltd and Cambridge Investment Research. Other third-party managers will likely be added in the future. Cornerstone Advisors will be compensated in these arrangements via a fee share from the advisors to which it directs those clients.

Financial Planning

Financial plans and financial planning may include, but are not limited to: investment planning, life insurance; tax concerns; retirement planning; college planning; and debt/credit planning. **For most clients, our asset management fee includes the cost of financial planning.** If more complex planning is needed, we will discuss the cost of the additional service and any fee associated with that in advance. If the client wants us to do a financial plan without engaging us to manage their assets, we will charge an hourly rate for that service. Before moving forward, we will give the client an estimate of the cost based upon the expected amount of work that we expect will be needed.

Services Limited to Specific Types of Investments

Cornerstone Advisors limits its investment advice and/or money management to mutual funds, equities, bonds, fixed income, debt securities, ETFs, government securities, real estate, hedge funds, REITs, insurance products including annuities, private placements, and managed futures. Cornerstone Advisors may use other securities as well to help diversify a portfolio when applicable.

C. Client Tailored Services and Client Imposed Restrictions

Cornerstone Advisors offers the same suite of services to all of its clients. However, specific client financial plans and their implementation are dependent upon each client's current situation (income, tax levels, and risk tolerance levels) and is used to construct a client-specific plan to aid in the selection of a portfolio that matches restrictions, needs, and targets.

Clients may impose restrictions in investing in certain securities or types of securities in accordance with their values or beliefs. However, if the restrictions prevent Cornerstone Advisors from properly servicing the client account, or if the restrictions would require Cornerstone Advisors to deviate from its standard suite of services, Cornerstone Advisors reserves the right to end the relationship.

D. Wrap Fee Programs

Cornerstone Advisors does not participate in any wrap fee programs.

E. Amounts Under Management

Cornerstone Advisors has the following assets under management:

Discretionary Amounts:	Non-discretionary Amounts:	Date Calculated:
\$31,576,659	\$37,183,979	12/31/2011

In the past, Cornerstone Advisors standard practice was to manage advisory accounts on a non-discretionary basis, meaning that we would discuss with a client, either orally or in writing, any change to be made in an account prior to making that change. In order to more quickly respond to today's volatile market, Cornerstone Advisors now offers clients the choice of a discretionary account which will allow Cornerstone Advisors to quickly make changes, consistent with the account's investment objectives, without specifically obtaining prior approval for each trade.

Item 5: Fees and Compensation

A. Fee Schedule

Asset Management Services Fees

Total Assets Under Management	Annual Fee
\$0 - \$99,999	1.25%
\$100,000 - \$1,499,999	1.00%
\$1,500,000 - \$2,999,999	0.75%
\$3,000,000 and Above	0.50%

These fees are negotiable and the final fee schedule is provided to each client in their Investment Management Agreement. Fees are paid quarterly in arrears, and clients may terminate the Agreement with written notice. Because fees are charged in arrears, no refund policy is necessary. Clients may terminate the Agreement with us without penalty at any time. Advisory fees are withdrawn directly from the client's accounts with client written authorization in the Investment Management Agreement unless other arrangements have been made.

Selection of Other Advisors Fees

Cornerstone Advisors may direct clients to third-party money managers; Flexible Plan Investments, Ltd (FPI) or Cambridge Investment Research (CIR). Cornerstone Advisors will be compensated via a fee share from the advisors to which it directs those clients. This relationship will be disclosed in each contract between Cornerstone Advisors and each third-party advisor. The fees shared will not exceed any limit imposed by any regulatory agency. The fee schedule is as follows:

AUM	This RIA's Split	Third Party's Split
FPI: First \$1,000,000	0.25%	1.25%
CIR: First \$1,000,000	1.25%	0.25%

Fees are paid quarterly in arrears, and clients may terminate their contracts upon written notice.

Financial Planning Fees -Hourly Fees

As indicated in *Financial Planning (4B)* above, normally financial planning costs are included within the asset management fees. In those cases where a client may only want a detailed financial plan, depending upon the complexity of the situation and the needs of the client, the hourly fee for these services is between \$100 and \$150. The fees are negotiable and the final fee schedule will be attached to the Financial Planning Agreement. Fees are paid in arrears upon completion. Because fees are charged in arrears, no refund is necessary. Clients may terminate their contracts without penalty within five business days of signing the Financial Planning contract.

B. Payment of Fees

Payment of Asset Management Fees

Asset management fees are withdrawn directly from the client's accounts with client written authorization in the Investment Management Agreement. Fees are paid quarterly in arrears.

Upon prior arrangement, asset management fees may instead be invoiced and billed directly to the client with payment due upon receipt of the bill. Clients may select the method in which they are billed.

Payment of Selection of Other Advisors Fees

Other Advisors fees are withdrawn directly from the client's accounts with client written authorization. Fees are paid quarterly in arrears.

Payment of Financial Planning Fees

Hourly Financial Planning fees are paid via check in arrears upon completion. Because fees are charged in arrears, no refund is necessary.

C. Clients Are Responsible For Third Party Fees

Clients are responsible for the payment of all third-party fees (i.e. custodian fees, mutual fund fees, transaction fees, etc.). Those fees are separate and distinct from the fees and expenses charged by Cornerstone Advisors. Please see Item 12 of this brochure regarding broker/custodian.

D. Prepayment of Fees

Cornerstone Advisors collects its fees in arrears. It does not collect fees in advance.

E. Outside Compensation For the Sale of Securities to Clients

All representatives of Cornerstone Advisors are also registered representatives of a Broker-Dealer and could accept compensation for products that they sell as a registered representative of a Broker-Dealer, independent of their asset management business under Cornerstone Advisors. Cornerstone Advisors does not allow taking a commission on a product that is also included under the asset management arrangement.

Clients always have the option to purchase Cornerstone Advisors recommended products through other brokers or agents that are not affiliated with Cornerstone Advisors.

Item 6: Performance-Based Fees and Side-By-Side Management

Cornerstone Advisors does not accept performance-based fees or other fees based on a share of capital gains on or capital appreciation of the assets of a client.

Item 7: Types of Clients

Cornerstone Advisors generally provides investment advice and/or management supervisory services to the following types of clients:

- ❖ Individuals and Families
- ❖ High-Net-Worth Individuals and Families
- ❖ Corporations or Business Entities

Item 8: Methods of Analysis, Investment Strategies, and Risk of Investment Loss

A. Methods of Analysis and Investment Strategies

Methods of Analysis

Cornerstone Advisors method of security and market analysis may include fundamental analysis as well as a review of general market and financial conditions. Our research sources include commercial research services, financial newspapers and periodicals, and research provided by mutual fund companies.

Based on each client's current financial situation, investment objectives, risk tolerance and time horizon, Cornerstone Advisors will develop an appropriate asset allocation.

Portfolios are diversified among different asset classes. We design long-term portfolios that incorporate the principles of Modern Portfolio Theory. Our investment approach is rooted in the belief that markets are relatively efficient and that investor returns are determined principally by asset allocation decisions. We build our model portfolios utilizing primarily no-load mutual funds and exchange traded funds. A client's tolerance for risk and their long term goals will determine the allocation of their investments among stocks, bonds, alternatives, and cash. By offering to meet with our clients on a regular basis, we stay informed about changes in lifestyles or other events that may cause their goals to change over time.

We take a long-term approach and avoid frequent trading. We will generally hold investments for at least one year, though circumstances (e.g. tax considerations, cash needs, etc.) may sometimes dictate that an investment be sold within one year. We do not typically buy investments on margin but generally establish non-qualified accounts with margin to allow greater flexibility in obtaining cash and allowing time to determine which position within the account to liquidate for cash needs.

Cornerstone Advisors does not believe that anyone can or has successfully timed the market over a long period of time. We do believe that sticking to a sound investment strategy for the long haul helps to ensure success.

Our methods of analysis and investment strategies do not present any significant or unusual risks. However, investing in securities involves risk of loss that clients should be prepared to bear.

Investment Strategies

Cornerstone Advisors uses long-term trading for most accounts but occasionally uses short-term trading strategies primarily for tax planning purposes.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

B. Material Risks Involved

Investment Strategies

Long-term trading is designed to capture market rates of both return and risk. Frequent trading, when done, can affect investment performance, particularly through increased brokerage and other transaction costs and taxes.

Short-term trading hold greater risk and clients should be aware that there is a material risk of loss using any of those strategies.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

C. Risks of Specific Securities Utilized

Cornerstone Advisors generally seeks investment strategies that do not involve significant or unusual risk beyond that of the general domestic and/or international equity markets.

Past performance is not a guarantee of future returns. Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

Item 9: Disciplinary Information

There are no legal or disciplinary events that are material to a client's or prospective client's evaluation of this advisory business or the integrity of our management.

Item 10: Other Financial Industry Activities and Affiliations

A. Registration as a Broker-Dealer or Broker-Dealer Representative

All representatives of Cornerstone Advisors are also registered representatives of a Broker/Dealer. From time to time, they may offer clients advice or products from those activities. Clients should be aware that these services pay a commission and involve a possible conflict of interest, as commissionable products can conflict with the fiduciary duties of a registered investment adviser. Cornerstone Advisors always acts in the best interest of the client; including the sale of commissionable products to advisory clients. Therefore, Cornerstone Advisors does not allow a representative to receive both a commission on a product which is included under the asset management arrangement. Clients are in no way required to purchase any commission product through any representative of Cornerstone Advisors in their capacity as a registered representative.

B. Registration as a Futures Commission Merchant, Commodity Pool Operator, or a Commodity Trading Advisor

Neither Cornerstone Advisors nor its representatives are registered as a Futures Commission Merchant, Commodity Pool Operator, or a Commodity Trading Advisor.

C. Registration Relationships Material to this Advisory Business and Possible Conflicts of Interests

All representatives of Cornerstone Advisors are also licensed insurance agents. From time to time, they will offer clients advice or products from those activities. Clients should be aware that these services pay a commission and involve a possible conflict of interest, as commissionable products can conflict with the fiduciary duties of a investment advisor representative. Cornerstone Advisors always acts in the best interest of the client; including the sale of commissionable products to advisory clients. Therefore, Cornerstone Advisors does not allow a representative to receive a commission on a product which is also included under the asset management arrangement. Clients are in no way required to purchase an insurance product through any representative of Cornerstone Advisors in their capacity as an insurance agent.

D. Selection of Other Advisors or Managers and How This Adviser is Compensated for Those Selections

Cornerstone Advisors may direct clients to third-party money managers. Cornerstone Advisors will be compensated via a fee share from the advisors to which it directs those clients. This relationship will be disclosed in each contract between Cornerstone Advisors and each third-party advisor. The fees shared will not exceed any limit imposed by any regulatory agency. This creates a conflict of interest in that Cornerstone Advisors has an incentive to direct clients to the third-party money managers that possibly may provide Cornerstone Advisors with a slightly larger fee split. Cornerstone Advisors will always act in the best interests of the client, including when determining if/when to recommend a third-party manager to clients. Cornerstone Advisors will ensure that all recommended advisors or managers are licensed or notice filed in the states in which Cornerstone Advisors is recommending them to clients.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

We have a written Code of Ethics that covers the following areas: Prohibited Purchases and Sales, Insider Trading, Personal Securities Transactions, Exempted Transactions, Prohibited Activities, Conflicts of Interest, Gifts and Entertainment, Confidentiality, Service on a Board of Directors, Compliance Procedures, Compliance with Laws and Regulations, Procedures and Reporting, Certification of Compliance, Reporting Violations, Compliance Officer Duties, Training and Education, Recordkeeping, Annual Review, and Sanctions. Clients may request a copy of our Code of Ethics from management.

B. Recommendations Involving Material Financial Interests

Cornerstone Advisors does not recommend that clients buy or sell any security in which a related person to Cornerstone Advisors has a material financial interest

C. Investing Personal Money in the Same Securities as Clients

From time to time, representatives of Cornerstone Advisors may buy or sell securities for themselves that they also recommend to clients. Cornerstone Advisors will always document any transactions that could be construed as conflicts of interest and will always transact client business before their own when similar securities are being bought or sold.

The Code of Ethics is designed to assure that the personal securities transactions, activities, and interests of Cornerstone Advisors representatives will not interfere with (1) making decisions in the best interest of advisory clients, and (2) implementing such decisions while, at the same time, allowing representatives to invest for their own accounts.

D. Trading Securities At/Around the Same Time as Clients' Securities

From time to time, representatives of Cornerstone Advisors may buy or sell securities for themselves at or around the same time as clients. Cornerstone Advisors Representatives will not trade non-mutual fund or non-ETF securities 1 day prior to or 1 day after trading the same security for clients.

Item 12: Brokerage Practices

A. Factors Used to Select Custodians and/or Broker-Dealers

The two recommended Custodians (TD Ameritrade Institutional Services and National Financial Services) were chosen based on their financial strength, reputation, execution capabilities, relatively low transaction fees, and access to mutual funds and ETFs. Cornerstone Advisors will never charge a premium or commission on transactions, beyond the actual cost imposed by the Custodian.

1. *Research and Other Soft-Dollar Benefits*

Cornerstone Advisors receives online software from the Custodian which is provided free of charge to help better monitor and service all client accounts at the Custodian.

2. *Brokerage for Client Referrals*

Cornerstone Advisors receives no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

3. *Clients Directing Which Custodian/Broker-Dealer to Use*

Cornerstone Advisors recommends clients use one of the recommended Custodians based on the above-mentioned criteria. If a client chooses to use a different Custodian, Cornerstone Advisors will determine if it is in the client's best interest to do so taking into account all related costs, best execution, etc.

B. Aggregating (Block) Trading for Multiple Client Accounts

Cornerstone Advisors maintains the ability to block trade purchases across accounts.

Item 13: Reviews of Accounts

A. Frequency and Nature of Periodic Reviews and Who Makes Those Reviews

Client accounts are reviewed periodically by Donald Schwart and/or Danyse Ford. These reviewers are instructed to review clients' accounts with regards to their investment policies and risk tolerance levels.

All clients are advised that it remains their responsibility to advise Cornerstone Advisors of any changes in their investment objectives and/or financial situation. All clients are encouraged to comprehensively review investment objectives and account performance with Cornerstone Advisors on an annual basis.

All financial planning accounts are reviewed upon financial plan creation. There is only one level of review and that is the total review conducted to create the financial plan.

B. Factors That Will Trigger a Non-Periodic Review of Client Accounts

Reviews may be triggered by material market, economic, or political events, or by changes in client's financial situations (such as retirement, termination of employment, physical move, significant investments or withdrawals, or inheritance).

C. Content and Frequency of Regular Reports Provided to Clients

Each client will receive at least quarterly a written report that details the client's account which may come from the Custodian.

Clients are provided with transaction confirmation notices and regular monthly account statements directly from the Custodian for their account(s). Those clients to whom Cornerstone Advisors provide investment advisory services shall also receive a periodic report from Cornerstone Advisors summarizing account holdings, investment performance, and general market commentary.

Item 14: Client Referrals and Other Compensation

The IAR is resigning as Trustee and will no longer serve in that capacity by July 30, 2012. The custody of client's accounts is held primarily at a qualified Custodian.

Item 16: Investment Discretion

For those clients' accounts with discretion where Cornerstone Advisors provides ongoing supervision, the client has given Cornerstone Advisors written discretionary authority over the client's accounts with respect to securities to be bought or sold and the amount of securities to be bought or sold. Details of this relationship are fully disclosed to the client in the Investment Management Agreement and before any advisory relationship has commenced. The client provides Cornerstone Advisors discretionary authority via a limited power of attorney in the Investment Management Agreement and in the contract between the client and the Custodian.

Item 17: Voting Client Securities (Proxy Voting)
