B. Our Advisory Services

Guidance Investments, LLC provides investment supervisory services as a sub-manager. Our investment advisory agreement gives us only the authority to act as sub-manager under an investment policy provided by our client.

We make recommendation using our best judgment and good faith efforts. However, we cannot guarantee any performance result, or that your account will be profitable over time. **Our investment decisions and recommendations will not all be profitable.** Under the investment advisory agreement, you do not grant us discretion over the investment decisions and consequently you agree to bear all market risk for the implementation or decisions not to implement our recommendations. Market risk is the risk that the securities in your account could decline in value. In addition, the investment decisions we make and the value of your account is subject to other forms of market, currency, economic, political and business risks.

Unless there is a law that provides otherwise, we are not liable to you for:

- (A) Any loss in your account caused by any investment decision or other action made or omitted in good faith by Guidance Investments, LLC with that degree of care, skill, prudence and diligence under the circumstances that a prudent person acting in a fiduciary capacity would use;
- (B) Any loss arising from our adherence to your instructions; or
- (C) Any act or failure to act third parties responsible for execution, settlement and clearance of transactions. Nothing in the investment advisory agreement relieves us from our responsibility or liability under State or Federal statutes.

We do not have custody of or discretion over the assets in your account and we are not liable to you for any loss or other harm to any property in the account, including losses caused by an insolvency of your custodian. We are also not liable for any acts of the agents or employees of the custodian, regardless of whether or not the full amount of loss is covered by the Securities Investor Protection Corporation (“SIPC”) or any other insurance carried by the custodian. You understand that SIPC provides only limited protection of the loss of property held at your broker-dealer.

Total Assets Under Management	\$63,852,975.

Item 5 Fees and Compensation

- A. We charge a fee for our services that is described in “Schedule 1- Part C” of our Delegation Agreement . We will get your consent in advance of any change in the fee calculation evidenced by an amendment to the Delegation Agreement.

The fee is calculated as the trade date market value of the account on the final day of the preceding quarter times the agreed upon rate divided by four. The market value is the sum of the value of all assets in the account, not adjusted by any margin debt. We will provide you with an invoice showing the calculation method, value of assets on which we calculate the fee and the fee amount.

Standard Fee Schedule

0.05% of Total Assets, capped at \$75,000 per annum

- B. The fees we charge you will be billed quarterly in arrears and we will send you a bill. We calculate the fees using the formula described above based on the agreed upon annual rate listed in “Schedule 1 – Part C” of the Delegation Agreement. Payment is due within 30 days of the date of the invoice.
- C. In addition to Guidance Investment’s fee, you are responsible for any other costs including a proportional share of the fund’s expenses (as described in the fund’s prospectus), commissions, stock transfer fees and other similar charges. It is your responsibility to verify the accuracy of the Guidance Investment’s fee calculation.

In order to calculate value, securities and other instruments traded on a market for which actual transaction prices are publicly reported are valued at the last reported sale price on the principal market in which they are traded. If there are no sales on that date, the price will be reflected as the simple average between the closing bid and asked prices on that date. Other readily marketable securities and other instruments will be priced using a pricing service or through quotations from one or more dealers. We will value all other assets at fair value and the value we assign as fair value is conclusive.

- D. We will bill you the sub-management fee in arrears. Fees for partial quarters at the commencement or termination of the investment advisory agreement will be prorated based on the number of days the account was open during the quarter. If you or we terminate the advisory agreement, we will refund the difference between the actual amount billed and the fee for the days when the account was open during the quarter.
- E. Guidance Investment’s supervised persons do not receive compensation for the sale of securities or other investment products to our clients.

Item 6 *Performance-Based Fees and Side-By-Side Management*

We do not receive performance-based fees from our clients.

Item 7 *Types of Clients*

We provide investment advice to the following client(s):

- Corporations or other business entities, including other investment advisors

The minimum account size is \$25,000,000, although we may, at our sole discretion, accept accounts smaller than this amount.

Item 8 *Methods of Analysis, Investment Strategies and Risk of Loss*

We manage our clients' portfolio with a focus on increasing diversification to minimize the risks that the performance of any one investment will have a large impact on the portfolio performance. However, other risks remain, including the risk of loss. **Not every investment decision or recommendation we make will be profitable.**

Our investment strategy is an asset allocation model. We invest in a mix of asset classes using mutual funds including:

- Fixed income
 - Investment-grade bonds
 - High-yield bonds
 - Inflation-protection bonds
 - Emerging-market bonds
- Equities
 - Larger-Cap U.S. Stocks
 - Smaller-Cap U.S. Stocks
 - International Stocks
 - Emerging Markets Equities
- Other Asset Classes
 - Commodities

We recommend mutual fund managers to implement our recommended asset class allocation. The risks to this investment strategy is that your investments will lose money if the markets fall broadly. Your investments will underperform the major indices that we select underperforming mutual fund managers or allocate more of the investments into underperforming asset classes. Our selection of mutual funds is based on our research into the portfolio manager's investment decision-making process.

Item 9 *Disciplinary Information*

There are no disciplinary actions against the firm or management persons.

Item 10 *Other Financial Industry Activities and Affiliations*
