ITEM 4 ADVISORY BUSINESSES

A.

Modern Portfolio Consultants, LLC (“MPC”) has been in business since 2002. MPC is a California Limited Liability Company (LLC).

B.

MPC’s primary business is of a consulting and educational nature only. MPC provides comprehensive investment management consulting services to sponsors of investment programs. In this capacity MPC does not act as a conventional money manager offering discretionary or advisory asset management. In its consulting role MPC offers assistance in the following general areas: (1) The development of long-term strategic asset allocation policy, (2) The development and maintenance of investment policies and guidelines, (3) The selection of investment managers/investment funds, (4) the monitoring and evaluation of sponsored portfolios. Evaluations generally include returns based on analyses (comparisons to objectives, risk/return analysis etc.) as well as holdings based analyses (actual portfolio characteristics, attribution etc.), (5) Setting policies concerning certain administrative and program implementation functions, such as custody, brokerage, securities lending, compliance controls etc.), (6) Customized client educational programs.

Additionally, MPC presents Investment Performance reports to clients or to its clients’ Investment Committees on a quarterly basis. The MPC will also assist client and/or the client’s Investment Committee with regular review and updates of Investment Policy Statements including asset allocation, investment manager selection, and selection of appropriate benchmarks. Other services provided may include custodian review and analysis, ongoing research and education and portfolio manager searches, including non-traditional asset classes.

At no time will MPC have any discretion to make any changes to the portfolios’ individual investments, to its overall structure or to its investment managers without the specific instruction of the client. MPC agrees to provide immediate disclosure pertaining to any other relationships in which MPC has a financial interest or receives compensation.

MPC may offer investment analytics and transparency software as a web-based investment reporting solution that provides performance and risk information. Some of this information, such as performance, will be available on a monthly basis where applicable.

C.

MPC customizes its services for each client. Thus fees may vary significantly from client to client. Our fees are determined by the services required, the complexity of tasks involved, the time required, the amount of assets, and the nature of the relationship. Fees can be paid as a percentage of assets or a retainer fee. Clients are generally billed quarterly, in advance. Generally the minimum account size is \$30,000,000 and /or a minimum fee of \$50,000 per year. All fees are negotiable. Following the first week after signing of our contract, clients may terminate the contract with between 30 and 90 days written notice and receive a refund of fees for services not yet rendered. The length of time required for notification of termination is negotiated and can vary from client to client.

D.

MPC does not participate in wrap fee programs by providing portfolio management services.

E.

As of March 25, 2013, MPC was managing no client accounts on a discretionary basis and 6 client accounts on a non-discretionary basis with total assets under management of \$272,583,000.

ITEM 5 FEES AND COMPENSATION

A.

MPC customizes its services for each client. Thus fees may vary significantly from client to client. Our fees are determined by the services required, the complexity of tasks involved, the time required, the amount of assets, and the nature of the relationship. Fees can be paid as a percentage of assets or a retainer fee. Clients are generally billed quarterly, in advance. Generally the minimum account size is \$30,000,000 and /or a minimum fee of \$50,000 per year. All fees are negotiable.

B.

Following the first week after signing of our contract, clients may terminate the contract with between 30 and 90 days written notice and receive a refund of fees for services not yet rendered. The length of time required for notification of termination is negotiated and can vary from client to client. If agreements are canceled during their term, any fees due either party will be prorated appropriately as set forth in the advisory agreement. Accordingly, if a client pays in advance and the agreement is terminated prior to the end of the billing period, MPC will return a proportionate amount of the fees based on the percentage of services performed or the proportion of the period for which MPC has performed services, depending on the particular client agreement.

ITEM 6 PERFORMANCE-BASED FEES AND SIDE-BY-SIDE MANAGEMENT

Neither MPC nor any of its officers, directors, employees, or persons providing advice on MPC's behalf and subject to MPC's supervision and control accepts performance-based fees.

ITEM 7 TYPES OF CLIENTS

MPC provides Investment Management Consulting Services to Institutions, Trusts, Endowments, Foundations, Religious Organizations and Church Plans

ITEM 8 METHODS OF ANALYSIS, INVESTMENT STRATEGIES AND RISK OF LOSS

A.

MPC's securities and analysis methods do not include traditional fundamental, technical and cyclical analysis. MPC is solely an investment consultant and does not, in its normal course of business, advise on specific securities. Clients typically utilize investment advisors to manage their portfolios which may be invested across a broad array of asset classes. Some clients may choose to implement certain investment

programs with selected investment organizations utilizing vehicles regulated as securities, such as an investment company securities or limited partnership interests.

Other methods of analysis may include interviews and on-site visits with investment managers.

MPC's analytical focus is on recommending suitable investment managers for clients; MPC does not engage in analysis of individual equity or fixed income securities. These investment managers, in turn, select individual securities for each client based on the investment manager's stated investment strategy.

B.

Investing in securities involves risks of loss that clients should be prepared to bear. The principal risks associated with MPC's consulting services are:

- General Investment Risk, *i.e.*, the risk of deterioration in the financial markets in general;
- Strategy Risk, *i.e.*, the risk that MPC's investment asset allocation strategies and/or investment techniques may not work as intended;
- Investment Manager Risk, *i.e.*, the risks associated with the presentation of third-party investment management firms, such as fraud, deviation from defined strategies, human or system error and poor judgment.

General Investment Risk. All investments in securities and other financial instruments involves substantial risk of volatility (potentially resulting in rapid declines in market prices and significant losses) arising from any number of factors that are beyond the control of MPC and the investment managers that it recommends, such as changing market sentiment, changes in inflation, exchange or interest rates, changing domestic or international economic or political conditions or events or changes in tax laws and governmental regulation. Changes such as these, as well as innumerable other factors, are often unpredictable and unforeseeable, rendering it difficult or impossible to predict or foresee future market movements.

Strategy Risk. MPC will use its best efforts to present suitable investment managers for clients. MPC's investment strategies and/or investment techniques may not work as intended because of the results of the presented strategies to properly meet client objectives. MPC will also use its best efforts to ascertain significant details regarding the strategies used by the investment managers that it recommends. In many cases, however, MPC will not be given access to all required information.

Investment Manager Risk. MPC will not have custody or control over the assets managed by the investment managers. Clients are at risk if the investment manager fails to perform or exercises fraud, misrepresentation or simple bad judgment. Among other things, an investment manager could divert or abscond with the assets allocated to it, fail to follow its stated investment strategy and restrictions, issue false reports or engage in other misconduct. This could result in serious losses to the client.

ITEM 9 DISCIPLINARY INFORMATION

In the past ten years, neither MPC nor any of its management persons have been involved in any material legal or disciplinary events. For the purpose of this item, a “management person” includes anyone with the power to exercise, directly or indirectly, a controlling influence over MPC’s management or policies, or to determine the general investment advice given to its clients.
