Item 4 Advisory Business

Stephen K. Davis Financial Services, LTD., d/b/a Safeharbor Asset Management is a Registered Investment Advisor since 1995 and currently registered with the Securities and Exchange Commission. We provide financial planning and comprehensive advisory and portfolio asset management services to individuals, high net worth individuals and pension and profit sharing plans. The principal owner is Stephen K. Davis.

Portfolio Management Services

We provide advice regarding the investment of client funds based on the individual needs of the client and the investment philosophy of our firm. Through personal discussions in which the financial objectives, investment time horizon and risk tolerance of a client's particular circumstances are established and written in a personal Investment Policy Statement. We provide this service to individuals, pension and profit sharing plans, and corporations. Our firm will manage advisory accounts on a discretionary or non-discretionary basis.

We may create a portfolio of mutual funds, closed end funds, exchange traded funds, real estate investment trusts and other pooled investment vehicles and directly manage the investments, and may, in addition, allocate all or a portion of a client's assets to independent third party money managers. When managing a portfolio of funds, we will allocate the client's assets among the various investments and thereafter periodically rebalance and reallocate the portfolio assets. Accounts will be reviewed for rebalancing on a quarterly basis and upon the occurrence of market events, and rebalanced as appropriate at such times. Funds and other pooled investments vehicles will be selected on the basis of any or all of the following criteria: performance history; the industry sector or investment objective represented by the fund; the track record of the fund's manager; the fund's management style and philosophy; and the fund's management fee structure. Portfolio weighting among funds will be determined by each client's individual needs and circumstances. Clients will have the opportunity to place reasonable restrictions on the types of investments which will be made on the client's behalf. Clients will retain individual ownership of all securities. As December, 2014, our firm manages \$29,565,275 on a discretionary basis and \$0 on a non-discretionary basis.

Financial Planning Services

We also provide advice in the form of a computerized Financial Plan. Clients purchasing this service will receive a written financial plan, providing the client with a detailed financial plan designed to achieve their stated financial goals and objectives. In general, the financial plan may address any or all of the following areas of concern:

- Investment portfolio design, evaluation and implementation
- Pension investment management
- Retirement planning
- Estate tax matters and planning
- Business planning
- Tax management of investments and property
- Charitable Remainder Trusts
- Insurance Evaluation, life and disability, as to amount and type

Our firm gathers required information through in-depth personal interviews. Information gathered includes a client's current financial status, future goals and attitudes toward risk. Related documents supplied by the client are carefully reviewed, which may include a questionnaire completed by the client, and a written report if prepared. Should a client choose to implement the recommendations contained in the plan, we suggest the client work closely with his/her attorney, accountant, insurance agent, and/or stockbroker. Implementation of financial plan recommendations is entirely at the client's discretion.

Consulting

Clients can also receive investment advice on a more limited basis. This may include advice on only an isolated area(s) of concern such as estate planning, retirement planning, or any other specific topic. We also provide specific consultation and administrative services regarding investment and financial concerns of the client, such as review of client portfolios not managed by our firm. Additionally, we provide advice on non-securities matters. Generally, this is in connection with the rendering of estate planning, insurance, and/or annuity advice.

Seminars

Our firm occasionally holds seminars on the techniques and strategies of financial planning. The seminars cover topics such as Modern Portfolio Theory, asset allocation, retirement planning, estate planning, investment planning, specific investment product sessions and generic education sessions on the aspects of financial planning. Attendance at these seminars is restricted by invitation.

Item 5 Fees and Compensation

Portfolio Management Services

The annual fee for Portfolio Management Services will be charged as a percentage of assets under management, according to the fee schedule below:

<u>Assets under Management</u>	<u>Annual Fee (%)</u>
From \$0 to \$250,000	2.5%

The advisory fee will be charged in advance at the end of the calendar quarter based upon the value of the assets held in the client's account as of the date it is deducted. The value of the assets will be the market value reported by the custodian maintaining the client's assets, and if there is no reported value for an asset, then the value of such asset will be the fair value as determined by our firm. All fees are debited direct from the clients accounts by the custodian.

For new accounts, the initial advisory fee will be based upon the value of the client's assets and will be prorated from the date the account is fully funded, and will be due and payable at such time. Subsequent quarterly fees will be deducted from the client's account.

A client agreement may be canceled at any time, by either party, for any reason 30 days after receipt of written notice. Upon termination of any account, any prepaid, unearned fees will be promptly refunded upon a client's written or verbal request. Fees will be prorated based on the date of termination. The client has the right to terminate an agreement without penalty within five business days after entering into the agreement.

In addition to the advisory fee, clients will be assessed a ticket charge in connection with the Pershing Platform. The ticket charge will be debited from the client's account. The ticket charges are as follows:

Please see section 9 Brokerage services for more details.

In the event the termination of a client agreement involves a liquidation of securities or a withdrawal of funds from an account, any fees, commissions, or other expenses associated with the withdrawal or liquidation may be charged to the client.

Financial Planning and Consulting Services

The fee for Financial Planning and Consulting Services will be based on a hourly rate of \$275.00. An estimate of the amount of time that will be required to perform the service may be provided at the start of the client relationship. The amount of time that will be required to prepare a comprehensive financial plan will depend upon the complexity of the client's circumstances and the services to be provided. Typically, a comprehensive financial plan will cost between \$1,500 and \$2,500. Of the estimated total fee, the client may be required to pay \$1,500 before work on the plan begins, with the balance due (based on the actual time spent) upon presentation of the written plan to the client. Typically the financial plan will be presented to the client within 10 days of the contract date, provided that all information needed to prepare the financial plan has been promptly provided by the client.

Termination of the advisory service may be effected upon receipt of written notice. In the event of termination of the advisory service before the presentation of the written plan, all earned and unpaid fees will be due and payable, and all unearned and prepaid fees will be refundable, in each case based upon the amount and type of work actually performed prior to the receipt of notice of termination. In addition, in the event of termination by the client after signing the contract, there is a minimum administrative fee in the amount of \$75.00.

Seminars

Normally, no fees are charged for Seminars.

General information on services and fees:

Advisory Fees in General: Clients should note that similar advisory services may be available from other registered investment advisers for similar or lower fees.

Fee calculation: The fee charged for portfolio management services is calculated as described above and is not charged on the basis of a share of capital gains upon or capital appreciation of the funds or any portion of the funds of an advisory client.

Mutual Fund Fees and Expenses: All fees paid to our firm for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds, ETF's, or other pooled investment vehicles ("Funds") to their shareholders. These fees and expenses are described in each Fund's prospectus. These fees will generally include a management fee, other fund expenses, and a possible distribution fee. Certain Funds also impose sales charges. A client could invest in a Fund directly, without the services of our firm. In that case, the client would not receive the services provided by our firm which are designed, among other things, to assist the client in determining which Fund or Funds are most appropriate to each client's financial condition and objectives.

Accordingly, the client should review both the fees charged by the funds and the fees charged by our firm to fully understand the total amount of fees to be paid by the client and to thereby evaluate the advisory services being provided.

Item 6 Performance-Based Fees and Side-By-Side Management

We do not charge performance-based fees to our clients.

Item 7 Types of Clients

Our firm provides advice to clients such as individuals, high net worth individuals and pension and profit sharing plans. Generally, a minimum of \$100,000 of assets under management is required for portfolio management services involving directly managed accounts. For portfolio management services involving accounts separately managed by a third party manager, account minimums will be determined on an individual client basis. Generally, financial plans are provided for a minimum fee of \$1,500.

In limited circumstances, these minimums may be negotiable based on the nature and scope of the client relationship.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

Our firm's portfolio management services uses a fundamental investment approach known as Modern Portfolio Theory. The goal of this approach is to identify the client's acceptable level of risk tolerance and then to construct a portfolio with the maximum expected return for that level of risk. Investing in securities involves risk of loss that clients should be prepared to expect.

We use various computer based analytical tools to determine the relevant characteristics of our investment strategies such as standard deviation, correlation coefficient, expected rate of return, etc. We currently rely on Morningstar Advisor Workstation and iShares web based analytical software.

Item 9 Disciplinary Information

Our firm, nor its principal, Stephen K. Davis, have any disciplinary history or event.

Item 14 Client Referrals and Other Compensation

- A. We may recommend that a client in need of brokerage and custodial services utilize Pershing LLC, among others. It may be the case that the recommended broker charges a higher fee than another broker charges for a particular type of service, such as commission rates. Clients may utilize the custodian of their choice and have no obligation to purchase or sell securities through such custodian as our firm recommends. In selecting a custodian, we will endeavor to select those custodians that will provide the best services at the lowest commission rates possible. The reasonableness of commissions is based on several factors, including the custodian's ability to provide professional services, competitive commission rates, volume discounts, execution price negotiations, and other services. When consistent with our firm's fiduciary duty of best execution, the firm will direct trades to any of the suggested custodians listed above. We may receive research and execution related services from Pershing LLC to assist our firm in managing its accounts. These services and products would include financial publications, pricing information and other products or services. Such research and execution related services are offered to all investment advisors who utilize these firms.
