Material Changes

Annual Update

The Material Changes section of this brochure will be updated annually when material changes occur since the previous release of the Firm Brochure.

Material Changes since the Last Update

Due to the ever changing financial markets and Compass EMP Funds' growth in assets, the management team of Compass EMP Funds has created additional financial products.

Exchange Traded Funds (Creation)

Compass EMP has filed an exemptive relief in September 2013 for five (5) new exchange traded funds. These Compass EMP ETFs will use a rules-based methodology to build equal weighting of risk among all stocks in the fund. With the creation of these new funds, Compass EMP Funds has a fund family of sixteen (16) mutual funds and five (5) exchange traded funds.

Advisory Business

Firm Description

Compass Efficient Model Portfolios (“Compass EMP”) is based outside of Nashville, Tennessee and was founded in 1996 as a traditional financial advisory firm, which later evolving into an elite institutional asset management company.

Compass EMP is the advisor to the Compass EMP Funds family of funds.

Compass EMP is the advisor to the Compass EMP ETFs family of funds.

Compass EMP is the creator for the Compass EMP Index funds.

Compass EMP provides personalized confidential investment advisory and investment management to individuals, pension and profit sharing plans, trusts, estates, charitable organizations and small businesses. Advice is provided through consultation with the client and may include: determination of financial objectives, identification of financial problems, cash flow management, insurance review, investment management, education funding, retirement planning, and estate planning.

Compass EMP is strictly a fee-only investment advisory and investment management firm. The firm as a practice does not sell commissioned products. The firm is not affiliated with entities that sell financial products or securities. No commissions in any form are accepted. No finder’s fees are accepted.

Principal Owners

The primary owners are David J. Moore, CFP® and Stephen M. Hammers, CIMA, ® who collectively possess an ownership of approximately 60%.

Index Funds

Compass EMP is the creator of thirteen (13) fundamental, volatility-weighted indexes (CEMP Indexes). Nine (9) have been calculated by S&P Dow Jones. The CEMP Enhanced Indexing methodology emphasizes a target weighting of different assets and asset classes by their riskiness and not by their performance or by their fundamentals. What makes the CEMP Enhanced Indexing methodology unique is in how it combines aspects of earnings and risk control with return enhancement.

These index funds are listed below.

Traditional

CEMP U.S. Large Cap 500 Volatility Weighted Index. The CEMP U.S. Large Cap 500 Volatility Weighted Index consists of 500 of the largest U.S. stocks with consistent positive earnings and with an equal weighting of risk among all 500 stocks. [Ticker: CEMPUSLT]

CEMP U.S. Small Cap 500 Volatility Weighted Index. The CEMP U.S. Small Cap 500 Volatility Weighted Index consists of 500 of the largest U.S. small cap stocks \$3 Billion or less with consistent positive earnings and with an equal weighting of risk among all 500 stocks. [Ticker: CEMPUSST]

CEMP International 500 Volatility Weighted Index. The CEMP International 500 Risk Weighted Index consists of 500 of the largest developed country stocks with consistent positive earnings and with an equal weighting of risk among all 500 stocks. [Ticker: CEMPDEVT]

CEMP Emerging Market 500 Volatility Weighted Index. The CEMP Emerging Market 500 Volatility Weighted Index consists of 500 of the largest emerging market country stocks with consistent positive earnings and with an equal weighting of risk among all 500 stocks. [Ticker: CEMPENT]

CEMP U.S. Large Cap 100 High Dividend Volatility Weighted Index. The CEMP U.S. Large Cap High Dividend 100 Volatility Weighted Index consists of the highest 100 dividend yielding stocks of the CEMP U.S. Large Cap 500 Volatility Weighted Index.

Alternative

CEMP U.S. REIT 100 Volatility Weighted Index. The CEMP U.S. REIT 100 Volatility Weighted Index consists of 100 of the largest U.S. REIT stocks with consistent positive earnings and with an equal weighting of risk among all 100 stocks. [Ticker: CEMPRET]

CEMP Commodity Volatility Weighted Index. The CEMP Commodity Volatility Weighted Index consists of the 20 most liquid commodities with an equal weighting of risk among all the 20 commodities. [Ticker: CEMPCOM]

Alternative Hedge

CEMP U.S. Large Cap 500 Long-Cash Volatility Weighted Index. The CEMP U.S. Large Cap 500 Long-Cash Volatility Weighted Index is based on the month end price of the CEMP U.S. Large Cap 500 Volatility Weighted Index. The index seeks to limit risk during unfavorable market conditions by reducing its exposure to the market. During a period of market decline, the Index's exposure to the market may be as low as 25% depending on the magnitude of such decline. [Ticker: CEMPUSHG]

CEMP International 500 Long-Cash Volatility Weighted Index. The CEMP International 500 Long-Cash Volatility Weighted Index is based on the month end price of the CEMP International 500 Volatility Weighted Index. The index seeks to limit risk during unfavorable market conditions by reducing its exposure to the market. During a period of market decline, the Index's exposure to the market may be as low as 25% depending on the magnitude of such decline. [Ticker: CEMPDVHG]

CEMP U.S. REIT Long-Cash Volatility Weighted Index. The CEMP U.S. REIT Long-Cash Volatility Weighted Index is based on the month end price of the CEMP U.S. REIT 100 Volatility Weighted Index. The index seeks to limit risk during unfavorable market conditions by reducing its exposure to the market. During a period of market decline, the Index's exposure to the market may be as low as 25% depending on the magnitude of such decline. [Ticker: CEMPREH]

CEMP U.S. Large Cap 100 High Dividend Long-Cash Volatility Weighted Index. The CEMP U.S. Large Cap High Dividend 100 Long-Cash Volatility

Weighted Index is based on the month end price of the CEMP U.S. Large Cap High Dividend 100 Volatility Weighted Index. The index seeks to limit risk during unfavorable market conditions by reducing its exposure to the market. During a period of market decline, the Index's exposure to the market may be as low as 25% depending on the magnitude of such decline.

CEMP U.S. Small Cap 500 Long-Cash Volatility Weighted Index. The CEMP U.S. Small Cap 500 Long-Cash Volatility Weighted Index is based on the month end price of the CEMP U.S. Small Cap 500 Volatility Weighted Index. The index seeks to limit risk during unfavorable market conditions by reducing its exposure to the market. During a period of market decline, the Index's exposure to the market may be as low as 25% depending on the magnitude of such decline.

CEMP Commodity Long-Cash Volatility Weighted Index. The CEMP Commodity Long/Cash Volatility Weighted Index is based on the month end price of the CEMP Commodity Volatility Weighted Index. The index seeks to limit risk during unfavorable market conditions by reducing its exposure to the market. During a period of market decline, the Index's exposure to the market may be as low as 25% depending on the magnitude of such decline.

Exchange Traded Funds

Compass EMP filed for exceptive relief for five (5) newly created ETFs. These funds are expected to launch early April 2014.

Mutual Funds

Compass EMP is the advisor to three (3) core diversified multi-asset class funds and thirteen (13) individual asset class funds. The Compass EMP portfolios and mutual funds utilize a rules-based asset allocation methodology that provides an emphasis on alternative assets and hedging strategies thus providing the opportunity to capitalize on significant rising or declining markets. The current Compass EMP Funds are typically used as a core portfolio due to their vast amount of global diversification. Each Fund's objective is income and capital appreciation, with a strategy to provide lower volatility and downside risk without sacrificing long-term returns and performance.

Compass EMP has a fund family of sixteen (16) total funds. These funds are presented below.

Traditional Growth Asset Class

Compass EMP U.S. 500 Volatility Weighted Fund* is designed to track the performance of the CEMP U.S. Large Cap 500 Volatility Weighted Index before expenses. [Classes: A, C, I, and T]; [Tickers: CFLAX, CFLCX, CFLIX, and CFLTX]

Compass EMP U.S. Small Cap 500 Volatility Weighted Fund* is designed to track the performance of the CEMP U.S. Small Cap 500 Volatility Weighted Index before expenses. [Classes: A, C, I, and T]; [Tickers: CHSAX, CHSCX, CHSIX, and CHSTX]

Compass EMP International 500 Volatility Weighted Fund* is designed to track the performance of the CEMP International 500 Volatility Weighted Index before expenses. [Classes: A, C, I, and T]; [Tickers: CTIAX, CTICX, CTIIX, and CTITX]

Compass EMP REC Enhanced Volatility Weighted Fund* is designed to track the performance of the CEMP U.S. REIT Long/Cash Volatility Weighted Index before expenses. [Classes: A, C, I, and T]; [Tickers: CWRAX, CWRCX, CWRIX, and CWRTX]

Alternative Long Only Asset Class

Compass EMP Commodity Strategies Volatility Weighted Fund* is designed to track the performance of the CEMP Commodity Volatility Weighted Index before expenses. The patent pending index combines commodity futures liquidity for inclusion along with an equal weighting of risk among all commodity futures in the index. [Classes: A, C, I, and T]; [Tickers: CCOAX, CCOCX, CCOIX, and CCOTX]

Alternative Long/Short (Hedge) Growth Asset Classes

Compass EMP Commodity Long/Short Strategies Fund is designed to take advantage and profit during significant rising or declining market conditions within the commodity markets. The Fund is expected to have high correlation to broad commodities during bull markets and low to negative correlation during bear markets. [Classes: A, C, I, and T]; [Tickers: CCNAX, CCNCX, CCNIX, and CCNTX]

Compass EMP Long/Short Strategies Fund is designed to take advantage and profit during significant rising or declining market conditions within the U.S. and International markets. The Fund is expected to have high correlation to broad equities during bull markets and low to negative correlation during bear markets. [Classes: A, C, I, and T]; [Tickers: CHLAX, CHLCX, CHLIX, and CHLTX]

Alternative Long/Short (Hedge) Income Asset Classes

Compass EMP Long/Short Fixed Income Fund is designed to take advantage and profit during significant rising or declining interest rate environments within the U.S. and international developed Treasury bond market. The Fund is expected to have low correlation to the U.S. and international intermediate-term Treasury bond market during a full market cycle. [Classes: A, C, I, and T]; [Tickers: CBHAX, CBHCX, CBHIX, and CBHTX]

Traditional Income Asset Classes

Compass EMP Enhanced Fixed Income Fund is designed to enhanced the return and minimize downside risks compared to traditional U.S. and international developed Treasury bonds. The Fund is expected to achieve its objective by investing in Treasury bond futures and ultra short-term commercial paper, corporate bonds and Treasuries with non-collateral futures cash in attempt to enhanced total return. [Classes: A, C, I, and T]; [Tickers: CEBAX, CEBCX, CEBIX, and CEBTX]

Compass EMP Ultra Short-Term Fixed Income Fund is designed to invest in cash equivalent fixed income instruments which average 12 months or less in maturity. The Fund is expected to achieve its objective by investing in ultra short-term commercial paper, corporate bonds and Treasuries. [Classes: A and I]; [Tickers: COFAX and COFIX]

Multi-Asset Class Funds

Compass EMP Multi-Asset Balanced Fund is a conservative to moderate alternative asset allocation fund. The Fund seeks to capitalize on significant rising or declining market conditions. The rules-based asset allocation methodology is designed to provide diversification among many asset classes, markets and economics around the world. The Fund may be suitable for investors seeking to access global, multi-asset diversification with alternatives. [Classes: A, C, and T]; [Tickers: CTMAX, CTMCX, and CTMTX]

Compass EMP Multi-Asset Growth Fund is a growth alternative asset allocation fund. The Fund seeks to capitalize on significant rising and declining market conditions. The rules-based asset allocation methodology is designed to provide diversification among many asset classes, markets and economics around the world. The Fund may be suitable for investors seeking to access global, multi-asset diversification with alternatives. [Classes: A, C, and T]; [Tickers: LTGAX, LTGCX, and LTGTX]

Compass EMP Alternative Strategies Fund is a moderate to aggressive alternative asset allocation fund. The Fund seeks to capitalize on significant rising or declining market conditions. The rules-based asset allocation methodology is designed to provide diversification among many asset classes, markets and economies around the world. The Fund has an emphasis on alternative asset classes compared to traditional stock and bond portfolios. The Fund may be suitable for investors seeking to access a diversified portfolio of alternative assets. [Classes: A, C, and T]; [Tickers: CAIAX, CAICX, and CAITX]

Types of Advisory Services

Compass EMP provides investment supervisory services, also known as asset management services; manages investment advisory accounts not involving investment supervisory services; furnishes investment advice through consultations; issues special reports about securities; and issues charts, graphs, formulas, or other information which clients may use to evaluate securities.

As of 12/31/2013, Compass EMP managed approximately \$1.3 billion in assets for approximately 243 clients.

Tailored Relationships

The goals and objectives for each client are documented in our client relationship management system. Investment Suitability Questionnaires are created with clients that reflect the stated goals and objective. Clients may impose restrictions on investing in certain securities or types of securities.

Agreements may not be assigned without client consent.

Advisory Service Agreement

Most clients choose to have Compass EMP manage their assets in order to obtain investment advice. Realistic and measurable goals are set and objectives to reach those goals are defined. As goals and objectives change over time, suggestions are made and implemented on an ongoing basis.

The scope of work and fee for an Advisory Service Agreement is provided to the client in writing prior to the start of the relationship. An Advisory Service Agreement includes comprehensive investment management and performance reporting, as well as the implementation of recommendations within each area.

The annual Advisory Service Agreement fee is based on the following schedule:

0.50% flat rate

Due to grandfathering, some client relationships may exist where the fees are higher or lower than the fee schedule above.

Although the Advisory Service Agreement is an ongoing agreement and constant adjustments are required, the length of service to the client is at the client's discretion. The client or the investment manager may terminate an Agreement by written notice to the other party. At termination, fees will be billed on a pro rata basis for the portion of the quarter completed. The portfolio value at the completion of the prior full billing quarter is used as the basis for the fee computation, adjusted for the number of days during the billing quarter prior to termination.

Retainer Agreement

Compass EMP does not enter into retainer agreements.

Investment Management Agreement

An *Investment Management Agreement* may be executed when advisory services are not provided as part of the relationship. The annual fees for an *Investment Management Agreement* are based upon assets to be managed by Compass EMP.

Asset Management

Assets are invested primarily in no-load or low-load mutual funds and exchange-traded funds, usually through discount brokers or fund companies. Fund companies charge each fund shareholder an investment management fee that is disclosed in the fund prospectus. Discount brokerages may charge a transaction fee for the purchase of some funds.

Stocks and bonds may be purchased or sold through a brokerage account when appropriate. The brokerage firm charges a fee for stock and bond trades. Compass EMP does not receive any compensation, in any form, from fund companies.

Investments may also include: equities (stocks), warrants, corporate debt securities, commercial paper, certificates of deposit, municipal securities, investment company securities (variable life insurance, variable annuities, and mutual funds shares), U. S. government securities, options contracts, futures contracts, and interests in partnerships.

Initial public offerings (IPOs) are not available through Compass EMP.

Termination of Agreement

A Client may terminate any of the aforementioned agreements at any time by notifying Compass EMP in writing and paying the rate for the time spent on the investment advisory engagement prior to notification of termination. If the client made an advance payment, Compass EMP will refund unearned portion of the advance payment upon request.

Compass EMP may terminate any of the aforementioned agreements at any time by notifying the client in writing. If the client made an advance payment, Compass EMP will refund the unearned portion of the advance payment upon request by the client.

Fees and Compensation

Description

Compass EMP bases its fees on a percentage of assets under management, fixed fees (not including subscription fees), and subscription fees.

Fees are provided in a schedule of disclosed fees.

Fee Billing

Investment management fees are billed quarterly, in *advance*. Fees are usually deducted from a designated client account to facilitate billing. The client must consent in advance to direct debiting of their investment account.

Other Fees

Custodians may charge transaction fees on purchases or sales of certain mutual funds, exchange-traded funds, and/or other securities. These transaction charges are usually small and incidental to the purchase or sale of a security. The selection of the security is more important than the nominal fee that the custodian charges to buy or sell the security.

Compass EMP, in its sole discretion, may waive its minimum fee and/or charge a lesser investment advisory fee based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with clients, etc.).

New Advisory Service Agreement fees are calculated on a formula basis and adjusted for complexity of individual situations. *The formula is based on gross income, gross assets and other financial considerations.*

Expense Ratios

Mutual funds generally charge a management fee for their services as investment managers. The management fee is called an expense ratio. For example, an expense ratio of 0.50 means that the mutual fund company charges 0.5% for their services. These fees are in addition to the fees paid by you to Compass EMP.

Performance figures quoted by mutual fund companies in various publications are after their fees have been deducted.

Past Due Accounts and Termination of Agreement

Compass EMP reserves the right to stop servicing on any account that does not have the ability to fund the management fee.

Any unused portion of fees collected in advance will be refunded if requested by the client within 30 days of the account termination.

Performance-Based Fees

Sharing of Capital Gains

Fees are not based on a share of the capital gains or capital appreciation of managed securities.

Compass EMP does not use a performance-based fee structure because of the potential conflict of interest. Performance-based compensation may

create an incentive for the adviser to recommend an investment that may carry a higher degree of risk to the client.

Types of Clients

Description

Compass EMP generally provides investment advice to individuals, banks or thrift institutions, investment companies, pension and profit sharing plans, trusts, estates, or charitable organizations, corporations or business entities, or others.

Client relationships vary in scope and length of service.

Account Minimums

The minimum account size for is \$100,000 of assets under management.

For the Compass EMP Institutional Full Access Portfolios, the minimum account size is \$25,000; which consist of single account comprehensive portfolio management

Compass EMP has the discretion to waive the account minimum.

Exceptions may apply to employees of Compass EMP and their relatives, or relatives of existing clients.

Clients with assets below the minimum account size may pay a higher percentage rate on their annual fees than the fees paid by clients with greater assets under management.

Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Security analysis methods may include charting, fundamental analysis, technical analysis, and cyclical analysis.

The main sources of information include financial newspapers and magazines, inspections of corporate activities, research materials prepared by others, corporate rating services, timing services, annual reports, prospectuses, filings with the Securities and Exchange Commission, and company press releases.

Investment Strategies

The primary investment strategy utilizes a multi-asset structure of traditional and multi-weighted asset classes. This means that we use passively-managed index and exchange-traded funds as the core investments, and then add actively-managed funds where there are greater opportunities to

make a difference. Portfolios are globally diversified to control the risk associated with traditional markets.

The investment strategy for a specific client is based upon the objectives stated by the client during consultations. The client may change these objectives at any time. Each client executes an Investment Policy Statement that documents their objectives and their desired investment strategy.

Other strategies may include long-term purchases, short-term purchases, trading, short sales, margin transactions, and option writing (including covered options, uncovered options or spreading strategies).

Risk of Loss

All investment programs have certain risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks:

- **Interest-rate Risk:** Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- **Market Risk:** The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- **Inflation Risk:** When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.
- **Currency Risk:** Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- **Reinvestment Risk:** This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
- **Business Risk:** These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company, which generates its income from a steady stream of customers who buy electricity no matter what the economic environment is like.
- **Liquidity Risk:** Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are

interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.

- **Financial Risk:** Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.
- **Short Sales and Leverage Risk:** Short sales create a risk that the Fund will be required to close the short position by buying the security at a time when the security has appreciated in value, thus resulting in a loss to the Fund. Because a short position loses value as the security's price increases, the maximum loss on a short sale is theoretically unlimited. Short sales involve leverage because the Fund borrows securities and then sells them, effectively leveraging its assets. Assets segregated to cover these transactions may decline in value and are not available to meet redemptions.

Disciplinary Information

Legal and Disciplinary

The firm and its employees have not been involved in legal or disciplinary events related to past or present investment clients.

Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Code of Ethics

The employees of Compass EMP have committed to a Code of Ethics. The firm will provide a copy of the Code of Ethics to any client or prospective client upon request.

Participation or Interest in Client Transactions

Compass EMP and its employees may buy or sell securities that are also held by clients. Employees may not trade their own securities ahead of client trades. Employees comply with the provisions of the Compass EMP *Compliance Manual*.

Personal Trading

The personal trading reviews ensure that the personal trading of employees does not affect the markets, and that clients of the firm receive preferential treatment. Since most employee trades are small mutual fund trades or exchange-traded fund trades, the trades have little effect on the securities markets.

Brokerage Practices

Selecting Brokerage Firms

Compass EMP does not have any affiliation with product sales firms. Specific custodian recommendations are made to Clients based on their need for such services. Compass EMP recommends custodians based on the proven integrity and financial responsibility of the firm and the best execution of orders at reasonable commission rates.

Best Execution

Compass EMP reviews the execution of trades at each custodian each quarter. Trading fees charged by the custodians is also reviewed on a quarterly basis.

Soft Dollars

Compass EMP receives a software maintenance credit from Charles Schwab & Company because some client assets are custodied at Schwab. This credit offsets annual maintenance fees for our portfolio management software. All clients benefit from this credit as it reduces the firm's overall expenses.

The selection of Charles Schwab & Company as a custodian for clients is not affected by this nominal credit.

Review of Accounts

Periodic Reviews

Account reviews are performed quarterly by advisors in the offices of Compass EMP and are led by the Sr. VP of Client Relations. Account reviews are performed more frequently when market conditions dictate.

Review Triggers

Other conditions that may trigger a review are changes in the tax laws, new investment information, and changes in a client's own situation.

Regular Reports

Account reviewers are members of the firm's Investment Committee. They are instructed to consider the client's current security positions and the likelihood that the performance of each security will contribute to the investment objectives of the client.

Clients receive periodic communications on at least an annual basis. The written updates may include a net worth statement, portfolio statement, and a summary of objectives and progress towards meeting those objectives.

Client Referrals and Other Compensation

Incoming Referrals

Compass EMP has been fortunate to receive many client referrals over the years. The referrals came from current clients, estate planning attorneys, accountants, employees, personal friends of employees and other similar sources. The firm may not compensate referring parties for these referrals. Typically Compass EMP will only pay for referrals through the Compass EMP Full Turnkey Asset Allocation Program.

Referrals Out

Compass EMP does not accept referral fees or any form of remuneration from other professionals when a prospect or client is referred out to another professional.

Custody

Account Statements

All assets are held at qualified custodians, which mean the custodians provide account statements directly to clients at their address of record at least quarterly. Clients are instructed to notify Compass EMP if they do not receive their custodian statements at least quarterly.

Performance Reports

Clients are urged to compare the account statements received directly from their custodians to the performance report statements provided by Compass EMP.

Investment Discretion

Discretionary Authority for Trading

Compass EMP accepts discretionary authority to manage securities accounts on behalf of clients. Compass EMP has the authority to determine, without obtaining specific client consent, the securities to be bought or sold, and the amount of the securities to be bought or sold. However, if a blanket trading authorization has not been given, Compass EMP consults with the client prior to each trade to obtain concurrence.

Discretionary trading authority facilitates placing trades in clients' accounts on the client's behalf so that Compass EMP may promptly implement the investment policy that the client has approved in writing.

Limited Power of Attorney

A limited power of attorney is a trading authorization for this purpose. You sign a limited power of attorney so that we may execute the trades that you have approved.

Voting Client Securities

Proxy Votes

Compass EMP does not vote proxies on securities. Clients are expected to vote their own proxies.

Financial Information

Financial Condition

Compass EMP does not have any financial impairment that will preclude the firm from meeting contractual commitments to clients.

A balance sheet is not required to be provided because Compass EMP does not serve as a custodian for client funds or securities, and does not require prepayment of fees of more than \$1,200 per client, and six months or more in advance.

Business Continuity Plan

General

Compass EMP has a Business Continuity Plan in place that provides detailed steps to mitigate and recover from the loss of office space, communications, services or key people.

Disasters

The Business Continuity Plan covers natural disasters such as snow storms, hurricanes, tornados, and flooding. The Plan covers man-made disasters such as loss of electrical power, loss of water pressure, fire, bomb threat, nuclear emergency, chemical event, biological event, T-1 communications line outage, Internet outage, railway accident and aircraft accident. Electronic files are backed up daily and archived offsite.

Alternate Offices

Alternate offices are identified to support ongoing operations in the event the main office is unavailable. It is our intention to contact all clients within five days of a disaster that dictates moving our office to an alternate location.

Information Security Program

Information Security

Compass EMP maintains an information security program to reduce the risk that your personal and confidential information may be breached.

Privacy Notice

Compass EMP respects your privacy and understands that it is important to you; Compass Efficient Model Portfolios, LLC ("Compass EMP") is committed to protecting it. In establishing an advisory account with Compass EMP, it is necessary that you provide Compass EMP with certain personal financial information to manage your account in a manner consistent with your investment objectives and personal financial goals.

Types of Nonpublic Personal Information We Collect

Compass EMP may collect nonpublic personal information about you in the following ways:

- Provided by you from your applications or other account and Compass EMP forms
- Obtained with your authorization from your securities transactions with Compass EMP, or other advisers and broker/dealers, which may be providing financial services to you.

This information collected includes:

- Social Security number and other identification information
- Transaction history
- Income, assets and liabilities

Parties to Whom We Disclose Information

It is the policy of Compass EMP that we do not disclose any nonpublic personal information about our clients or former clients to unaffiliated third parties, except as permitted by law. When necessary to provide all of the services you request for your account, Compass EMP may provide nonpublic personal information about you to certain third parties, such as clearing firms that serve or may serve as the custodian of your account, or that may effect securities transactions on your behalf, or insurance companies. Such disclosure is only made to fulfill our duties to you in fully servicing your account. Under no circumstances do we sell your name or other information to anyone.

For our affiliates, in the course of everyday business; it may be necessary for Compass EMP to share information about your transactions and experiences.

Protecting the Confidentiality and Security of Clients' Information

Compass EMP retains records relating to professional services that we provide so that we are better able to assist you with your needs. Compass EMP restricts access to your personal and account information to those employees who need to know that information to provide products or services to you. Compass EMP maintains physical, electronic, and procedural safeguards to guard your non-public personal information. If you decide to close your account(s) with Compass EMP or become an inactive customer, Compass EMP will adhere to the privacy policies and practices as described in this notice.

If you have any questions regarding our Privacy Policy, please call our Chief Compliance Officer at 615.661.9622.
