Advisory Business

Firm Description

CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC was founded in 2003.

CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC provides personalized confidential financial planning and investment management to individuals, pension and profit sharing plans, trusts, estates and business owners. Advice is provided through consultation with the client and may include: determination of financial objectives, identification of financial problems, cash flow management, tax planning, insurance review, investment management, education funding, retirement planning, and estate planning.

CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC is strictly a fee-only financial planning and investment management firm. The firm does not sell products, annuities, insurance, stocks, bonds, mutual funds, limited partnerships, or other commissioned products to earn commissions although it does use some of those products. The firm is not affiliated with entities that sell financial products or securities. No commissions in any form are accepted. No finder's fees are accepted.

Investment advice is an integral part of financial planning. In addition, CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC advises clients regarding cash flow, college planning, retirement planning, tax planning and estate planning.

CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC does not act as a custodian of client assets. The client always maintains asset control. CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC places trades for clients under a limited power of attorney.

An evaluation of each client's initial situation is provided to the client. Periodic reviews are also communicated to provide reminders of the specific courses of action that need to be taken. More frequent reviews occur, but are not necessarily communicated to the client unless immediate changes are recommended.

Other professionals (e.g., lawyers, accountants, insurance agents, etc.) are engaged directly by the client on an as-needed basis. CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC can refer clients to appropriate professionals whose expertise we trust. Conflicts of interest will be disclosed to the client in the unlikely event they should occur.

The initial meeting, which may be by telephone (518) 280-0030, is free of charge and is considered an exploratory interview to determine the extent to which financial planning and investment management may be beneficial to the client.

Principal Owners

Paul Corr owns 33.33% of capital. Walton Williams owns 33.33% of capital.
Kerry Mayo owns 33.33% of capital.

Types of Advisory Services

CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC provides investment supervisory services, also known as asset management services, and furnishes investment advice through consultations.

On more than an occasional basis, CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC furnishes advice to clients on matters not involving securities, such as financial planning matters, taxation issues, and trust services that often include estate planning.

As of 3/26/2013, CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC manages approximately \$82 million in assets for approximately 55 clients. Approximately \$82 million is managed on a discretionary basis, and \$0 is managed on a non-discretionary basis.

Tailored Relationships

The goals and objectives for each client are documented in our client relationship management system. Investment policy statements are created that reflect the stated goals and objectives. Clients may impose restrictions on investing in certain securities or types of securities.

Agreements may not be assigned without client consent.

Types of Agreements

The following agreements define the typical client relationships:

Financial Planning Agreement

A financial plan is designed to help the client with all aspects of financial planning without ongoing investment management after the financial plan is completed.

The financial plan may include, but is not limited to: a cash flow statement; a review of investment accounts, including reviewing asset allocation and providing repositioning recommendations; strategic tax planning; a review of retirement accounts and plans including recommendations; a review of insurance policies and recommendations for changes, if necessary; one or more retirement scenarios; estate planning review and recommendations; and education planning with funding recommendations.

Detailed investment advice and specific recommendations are provided as part of a financial plan. Implementation of the recommendations is at the discretion of the client.

The fee for a financial plan is predicated upon the facts known at the start of the engagement. The firm charges \$175 per hour for financial planning services. It provides an estimate of the time it will take to complete the services. Since financial planning is a discovery process, situations occur wherein the client is unaware of certain financial exposures or predicaments.

In the event that the client's situation is substantially different than disclosed at the initial meeting, a revised fee will be provided for mutual agreement. The client must approve the change of scope in advance of the additional work being performed when a fee increase is necessary.

Additional implementation work is billed separately at the rate of \$175 per hour.

Advisory Services Agreements

Most clients choose to have CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC manage their assets in order to obtain ongoing in-depth advice and life planning. All aspects of the client's financial affairs are reviewed, including those of their children. Realistic and measurable goals are set and objectives to reach those goals are defined. As goals and objectives change over time, suggestions are made and implemented on an ongoing basis.

The scope of work and fee for Advisory Services is provided to the client in writing prior to the start of the relationship. The agreements that govern Advisory Services include: Financial Planning Engagement Letter, Investment Management Agreement and Investment Policy Statement. Advisory Services may include: cash flow management; insurance review; investment management (including performance reporting); education planning; retirement planning; estate planning; and tax preparation, as well as the implementation of recommendations within each area.

The annual Investment Management Agreement fee is based on a percentage of the investable assets according to the following schedule:

- 1.00% on the first \$1,000,000;
- 0.75% on the next \$1,000,000 (from 1,000,001 to 2,000,000); and
- 0.50% on the assets above \$2,000,000.

The minimum annual fee is \$5,000 and is negotiable. Current client relationships may exist where the fees are higher or lower than the fee schedule above.

Although the Agreements are ongoing, adjustments may be required. The length of service to the client is at the client's discretion. The client or the investment manager may terminate an Agreement by written notice to the other party. At termination, fees will be billed on a pro rata basis for the portion of the quarter completed. The portfolio value at the completion of the prior full billing quarter is used as the basis for the fee computation, adjusted for the number of days during the billing quarter prior to termination.

CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC may waive management fees for family members.

Retainer Agreement

In some circumstances, a *Retainer Agreement* is executed in lieu of the fee schedule in the Investment Management Agreement, when it is more appropriate to work on a fixed-fee basis. The annual fee for a *Retainer Agreement* is dependent on the assets under management and is *negotiable*.

Tax Preparation Agreement

Tax preparation work is not included in the *Advisory Service Agreements* or *Retainer Agreements* scope of work. CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC prepare summary tax information for the client's tax preparer.

Hourly Planning Engagements

CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC provides hourly planning services for clients who need advice on a limited scope of work. The hourly rate for limited scope engagements is \$175 per hour.

Asset Management

Assets are invested primarily in no-load mutual funds and exchange-traded funds through TD Ameritrade. Fund companies charge each fund shareholder an investment management fee that is disclosed in the fund prospectus. TD Ameritrade may charge a transaction fee for the purchase of some funds.

Stocks and bonds may be purchased or sold through TD Ameritrade. TD Ameritrade may charge a fee for stock and bond trades. CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC does not receive any compensation, in any form, from fund companies or TD Ameritrade.

Investments may also include: equities (stocks), warrants, corporate debt securities, commercial paper, certificates of deposit, municipal securities, investment company securities (mutual funds shares), U. S. government securities, options contracts, futures contracts, and interests in partnerships.

Initial public offerings (IPOs) are not available through CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC.

Termination of Agreement

A Client may terminate any of the aforementioned agreements at any time by notifying CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC in writing and paying the rate for the time spent on the investment advisory engagement prior to notification or termination. If the client made an advance

payment, CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC will refund any unearned portion of the advance payment.

CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC may terminate any of the aforementioned agreements at any time by notifying the client in writing. If the client made an advance payment, CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC will refund any unearned portion of the advance payment.

Fees and Compensation

Description

CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC bases its fees on a percentage of assets under management, hourly charges and fixed fees.

Some *Retainer Agreements* may be priced based on the complexity of work.

Financial plans are priced according to the degree of complexity associated with the client's situation.

Fees are *negotiable* in some cases.

Fee Billing

Investment management fees are billed quarterly, in *ARREARS*, meaning that we invoice the client *AFTER* the three-month billing period has *ENDED*.

Payment in full is expected upon invoice presentation. Fees are usually deducted from a designated client account to facilitate billing. The client must consent in advance to direct debiting of their investment account.

Other Fees

Custodians may charge transaction fees on purchases or sales of certain mutual funds and exchange-traded funds. These transaction charges are usually small and incidental to the purchase or sale of a security. The selection of the security is more important than the nominal fee that the custodian charges to buy or sell the security.

CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC, in its sole discretion, may waive its minimum fee and/or charge a lesser investment advisory fee based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition and similar considerations).

New Advisory Service Agreement fees are calculated on a formula basis and adjusted for complexity of individual situations. *The formula is based on gross income, gross assets and other financial considerations.*

Expense Ratios

Mutual funds generally charge a management fee for their services as investment managers. The management fee is called an expense ratio. For example, an expense ratio of 0.50 means that the mutual fund company charges 0.5% for their services. These fees are in addition to the fees paid by you to CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC.

Performance figures quoted by mutual fund companies in various publications are after their fees have been deducted.

Past Due Accounts and Termination of Agreement

CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC reserves the right to stop work on any account that is more than 30 days overdue. In addition, CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC reserves the right to terminate any financial planning engagement where a client has willfully concealed or has refused to provide pertinent information about financial situations when necessary and appropriate, in CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC's judgment, to providing proper financial advice. Any unused portion of fees collected in advance will be refunded within 30 days.

Performance-Based Fees

Sharing of Capital Gains

Fees are not based on a share of the capital gains or capital appreciation of managed securities.

CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC does not use a performance-based fee structure because of the potential conflict of interest. Performance-based compensation may create an incentive for the adviser to recommend an investment that may carry a higher degree of risk for the client.

Types of Clients

Description

CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC generally provides investment advice to individuals, pension and profit sharing plans, trusts, estates and corporations or business entities.

Client relationships vary in scope and length of service.

Account Minimums

The minimum account size is \$500,000 of assets under management, which equates to an annual fee of \$5,000.

CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC has the discretion to waive the account minimum. Accounts of less than \$500,000 may be set up when the client and the advisor anticipate the client will add additional funds to the accounts bringing the total to \$500,000 within a reasonable time. Other exceptions will apply to employees of CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC and their relatives, or relatives of existing clients.

Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Security analysis methods may include fundamental analysis, technical analysis, and cyclical analysis.

The main sources of information include financial newspapers and magazines, review of corporate activities, research materials prepared by others, corporate rating services, annual reports, prospectuses, filings with the Securities and Exchange Commission, and company press releases.

Other sources of information that CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC may use include Morningstar Principia mutual fund information, TD Ameritrade, Advisor Intelligence, and the World Wide Web.

Principals of CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC attend conferences, seminars and educational meetings sponsored by their affiliated organizations such as the FPA, AICPA, NAPFA, IMA and others.

Investment Strategies

The primary investment strategy used on client accounts is strategic asset allocation. Portfolios are globally diversified to control the risk associated with traditional markets.

The investment strategy for a specific client is based upon the objectives stated by the client during consultations. The client may change these objectives at any time. Each client executes an Investment Policy Statement that documents his or her objectives and desired investment strategy.

Other strategies may include long-term purchases, short-term purchases, trading, short sales, margin transactions, and option writing (including covered options, uncovered options or spreading strategies).

Risk of Loss

All investment programs have certain risks that are borne by the investor. Our investment approach assesses the risk appropriate for each client. Investors face the following investment risks:

- **Interest-rate Risk:** Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on

existing bonds become less attractive, causing their market values to decline.

- **Market Risk:** The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- **Inflation Risk:** When any type of inflation is present, a dollar next year will not buy as much as a dollar today, because purchasing power is eroding at the rate of inflation.
- **Currency Risk:** Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- **Reinvestment Risk:** This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e., interest rate). This primarily relates to fixed income securities.
- **Business Risk:** These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company which generates its income from a steady stream of customers who buy electricity no matter what the economic environment is like.
- **Liquidity Risk:** Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- **Financial Risk:** Excessive borrowing to finance business operations increases the risk of profitability because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.

The client approves the custodian to be used and the commission rates paid to the custodian. CAPITAL FINANCIAL ADVISORS OF NEW YORK, LLC does not receive any portion of the transaction fees or commissions paid by the client to the custodian on certain trades.
