Advisory Business

Firm Description

WEALTH CARE LLC, ("WEALTH CARE LLC") was founded in 2002. WEALTH CARE LLC provides personalized confidential financial planning and investment management to individuals, pension and profit sharing plans, trusts, estates, charitable organizations and small businesses. Advice is provided through consultation with the client and may include: determination of financial objectives, identification of financial problems, cash flow management, tax planning, insurance review, investment management, education funding, retirement planning, and estate planning.

WEALTH CARE LLC is strictly a fee-only financial planning and investment management firm. The firm does not sell annuities, insurance, stocks, bonds, mutual funds, limited partnerships, or other commissioned products. The firm is not affiliated with entities that sell financial products or securities. No commissions in any form are accepted. No finder's fees are accepted.

Investment advice is an integral part of financial planning. In addition, WEALTH CARE LLC advises clients regarding cash flow, college planning, retirement planning, tax planning and estate planning.

Investment advice is provided, with the client making the final decision on investment selection. WEALTH CARE LLC does not act as a custodian of client assets. The client always maintains asset control. WEALTH CARE LLC places trades for clients under a limited power of attorney.

A written evaluation of each client's initial situation is sometimes provided to the client. Periodic reviews are also

communicated to provide reminders of the specific courses of action that need to be taken. More frequent reviews occur but are not necessarily communicated to the client unless immediate changes are recommended.

Other professionals (e.g., lawyers, accountants, insurance agents, etc.) are engaged directly by the client on an as-needed basis. Conflicts of interest will be disclosed to the client in the unlikely event they should occur.

The initial meeting, which may be by telephone, is free of charge and is considered an exploratory interview to determine the extent to which financial planning and investment management may be beneficial to the client.

Principal Owners

STEVEN PODNOS is a 100% stockholder.

Types of Advisory Services

WEALTH CARE LLC provides investment supervisory services, also known as asset management services; manages investment advisory accounts not involving investment supervisory services; furnishes investment advice through consultations; issues periodicals about securities by subscription; issues special reports about securities; and issues, charts, graphs, formulas, or other devices which clients may use to evaluate securities.

On more than an occasional basis, WEALTH CARE LLC furnishes advice to clients on matters not involving securities, such as financial planning matters, taxation issues, and trust services that often include estate planning.

As of JANUARY 3, 2017, WEALTH CARE LLC manages approximately \$278,315,176 dollars in assets for approximately 514 accounts. Approximately \$278,315,176 is managed on a

discretionary basis, and \$0 is managed on a non-discretionary basis.

Tailored Relationships

The goals and objectives for each client are documented in our client relationship management system. Investment policy statements are created that reflect the stated goals and objective. Clients may impose restrictions on investing in certain securities or types of securities.

Agreements may not be assigned without client consent.

Types of Agreements

The following agreements define the typical client relationships.

Financial Planning Agreement

A financial plan is designed to help the client with all aspects of financial planning without ongoing investment management after the financial plan is completed.

The financial plan may include, but is not limited to: a net worth statement; a cash flow statement; a review of investment accounts, including reviewing asset allocation and providing repositioning recommendations; strategic tax planning; a review of retirement accounts and plans including recommendations; a review of insurance policies and recommendations for changes, if necessary; one or more retirement scenarios; estate planning review and recommendations; and education planning with funding recommendations.

Detailed investment advice and specific recommendations may be provided as part of a financial plan. Implementation of the recommendations is at the discretion of the client.

The fee for a financial plan is predicated upon the facts known at the start of the engagement. The minimum fee for a plan and follow up is \$ 4000/year. Since financial planning is a discovery process, situations occur wherein the client is unaware of certain financial exposures or predicaments.

In the event that the client's situation is substantially different than disclosed at the initial meeting, a revised fee will be provided for mutual agreement. The client must approve the change of scope in advance of the additional work being performed when a fee increase is necessary.

After delivery of a financial plan, future face-to-face meetings may be scheduled as necessary.

Advisory Service Agreement

Most clients choose to have WEALTH CARE LLC manage their assets in order to obtain ongoing in-depth advice and life planning. Most aspects of the client's financial affairs are reviewed. Realistic and measurable goals are set and objectives to reach those goals are defined. As goals and objectives change over time, suggestions are made and implemented on an ongoing basis.

The annual Advisory Service Agreement fee is based on a percentage of the investable assets according to the following schedule:

- 1.00%_ on the first \$1,000,000;
- 0.50%_ on the next \$1,000,000 and
- 0.25%_ on the assets above \$2,000,000.

The minimum annual fee is \$ 4000 and but can be modified depending on circumstances. Current client relationships may exist where the fees are higher or lower than the fee schedule

above. In addition, negotiated fees for larger accounts are possible.

Although the Advisory Service Agreement is an ongoing agreement and constant adjustments are required, the length of service to the client is at the client's discretion. The client or the investment manager may terminate an Agreement by written notice to the other party. At termination, fees will be billed on a pro rata basis for the portion of the quarter completed. The portfolio value at the completion of the prior full billing quarter is used as the basis for the fee computation, adjusted for the number of days during the billing quarter prior to termination.

Investment Management Agreement

An *Investment Management Agreement* may be presumed when financial planning is not provided as part of the relationship. The annual fee for an *Investment Management Agreement* is per the fee schedule above, but may also be a smaller percentage of assets under management. Typically pension plan management fees begin at 0.5% a year.

Asset Management

Assets are invested primarily in no-load or low-load mutual funds and exchange-traded funds, usually through discount brokers or fund companies. Fund companies charge each fund shareholder an investment management fee that is disclosed in the fund prospectus. Discount brokerages may charge a transaction fee for the purchase of some funds.

Stocks and bonds may be purchased or sold through a brokerage account when appropriate. The brokerage firm charges a fee for stock and bond trades. WEALTH CARE LLC does not receive any compensation, in any form, from fund

companies or any other party other than directly from the client.

Investments may also include: equities (stocks), warrants, corporate debt securities, commercial paper, certificates of deposit, municipal securities, investment company securities (variable life insurance, variable annuities, and mutual funds shares), U. S. government securities, options contracts, futures contracts, and interests in partnerships.

Initial public offerings (IPOs) are not available through WEALTH CARE LLC.

Termination of Agreement

A Client may terminate any of the aforementioned agreements at any time by notifying WEALTH CARE LLC in writing and paying the rate for the time spent on the investment advisory engagement prior to notification of termination. If the client made an advance payment, WEALTH CARE LLC will refund any unearned portion of the advance payment.

WEALTH CARE LLC may terminate any of the aforementioned agreements at any time by notifying the client in writing. If the client made an advance payment, WEALTH CARE LLC will refund any unearned portion of the advance payment.

Fees and Compensation

Description

WEALTH CARE LLC bases its fees on a percentage of assets under management, hourly charges, and fixed fees.

Some *Retainer Agreements* may be priced based on the complexity of work, especially when asset management is not the most significant part of the relationship.

Financial plans are priced according to the degree of complexity associated with the client's situation.

Fee Billing

Investment management fees are billed quarterly, in *arrears*, meaning that we invoice you *after* the three-month billing period has *ended*. Payment in full is expected upon invoice presentation. Fees are usually deducted from a designated client account to facilitate billing. The client must consent in advance to direct debiting of their investment account, which is usually done at the time of the account application.

Other Fees

Custodians may charge transaction fees on purchases or sales of certain mutual funds and exchange-traded funds. These transaction charges are usually small and incidental to the purchase or sale of a security. The selection of the security is more important than the nominal fee that the custodian charges to buy or sell the security.

WEALTH CARE LLC, in its sole discretion, may waive its minimum fee and/or charge a lesser investment advisory fee based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with clients, etc.).

Expense Ratios

Mutual funds generally charge a management fee for their services as investment managers. The management fee is called an expense ratio. For example, an expense ratio of 0.50 means that the mutual fund company charges 0.5% for their

services. These fees are in addition to the fees paid by you to WEALTH CARE LLC.

Performance figures quoted by mutual fund companies in various publications are after their fees have been deducted.

Past Due Accounts and Termination of Agreement

WEALTH CARE LLC reserves the right to stop work on any account that is more than 30 days overdue. In addition, WEALTH CARE LLC reserves the right to terminate any financial planning engagement where a client has willfully concealed or has refused to provide pertinent information about financial situations when necessary and appropriate, in WEALTH CARE LLC's judgment, to providing proper financial advice. Any unused portion of fees collected in advance will be refunded within 10 days.

Performance-Based Fees

Sharing of Capital Gains

Fees are not based on a share of the capital gains or capital appreciation of managed securities.

WEALTH CARE LLC does not use a performance-based fee structure because of the potential conflict of interest. Performance-based compensation may create an incentive for the adviser to recommend an investment that may carry a higher degree of risk to the client.

Types of Clients

Description

WEALTH CARE LLC generally provides investment advice to individuals, pension and profit sharing plans, trusts, estates, or charitable organizations, corporations or business entities.

Client relationships vary in scope and length of service.

Account Minimums

The minimum account size is \$1,000,000 of assets under management, which equates to an annual fee of \$10,000. However, certain clients (typically referred by existing clients) may be taken with a smaller level of assets.

WEALTH CARE LLC has the discretion to waive the account minimum. Accounts of less than \$ 1,000,000 may be set up when the client and the advisor anticipate the client will add additional funds to the accounts bringing the total to \$1,000,000 within a reasonable time. Other exceptions will apply to employees of WEALTH CARE LLC and their relatives, or relatives of existing clients.

Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Security analysis methods may include charting, fundamental analysis, technical analysis, and cyclical analysis.

The main sources of information include financial newspapers and magazines, inspections of corporate activities, research materials prepared by others, corporate rating services, timing services, annual reports, prospectuses, filings with the Securities and Exchange Commission, and company press releases.

Investment Strategies

The primary investment strategy used on client accounts is strategic asset allocation utilizing a core and satellite approach. This means that we use passively-managed index and exchange-traded funds as the core investments, and then add actively-managed funds where there are greater opportunities

to make a difference. Portfolios are globally diversified to control the risk associated with traditional markets.

The investment strategy for a specific client is based upon the objectives stated by the client during consultations. The client may change these objectives at any time.

Risk of Loss

All investment programs have certain risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks:

- **Interest-rate Risk:** Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- **Market Risk:** The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- **Inflation Risk:** When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.
- **Currency Risk:** Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.

- **Reinvestment Risk:** This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
- **Business Risk:** These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company, which generates its income from a steady stream of customers who buy electricity no matter what the economic environment is like.
- **Liquidity Risk:** Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- **Financial Risk:** Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.

Review of Accounts

Periodic Reviews

Account reviews are performed quarterly by advisors Steven Podnos and Rachel Podnos. Account reviews are performed more frequently when market conditions dictate.

Review Triggers

Other conditions that may trigger a review are changes in the tax laws, new investment information, and changes in a client's own situation.

Regular Reports

Account reviewers are members of the firm's Investment Committee. They are instructed to consider the client's current security positions and the likelihood that the performance of each security will contribute to the investment objectives of the client.

Clients receive periodic communications on at least an annual basis. *Advisory Service Agreement* clients, *Investment Management* clients, and *Retainer Agreement* clients receive written quarterly updates.

Client Referrals and Other Compensation
