Advisory Business

Advisory Firm

Sicner Asset Management, LLC has been providing investment advisory services since 1999. John C. Sicner is the founder and only employee of the firm and has been in the financial services industry since 1986. Mr. Sicner, born in 1957, received his AB degree in History from the University of Illinois in Champaign, Illinois in 1980 and received his Juris Doctor degree from the Emory University School of Law in Atlanta, Georgia in 1982. He attained the Certified Financial Planner Designation in 1984. In 1983, he began his career working as a tax specialist at McGladrey, Hendrickson and Pullen and in 1986 became an associate at Acorn Financial Services, Inc. In 1989, Mr. Sicner formed his own company and has been providing independent financial advisory services since that time.

Advisory Services

Sicner Asset Management, LLC provides investment supervisory services, which means the firm manages the investment portfolios of clients of the firm.

As of December 31, 2011, Sicner Asset Management, LLC had \$48,911,510.00 of assets under supervision on a discretionary basis, and no assets under supervision on a non-discretionary basis.

Services are based on the individual needs of the client. An initial interview is undertaken to determine the client's financial situation and investment objectives, and to give the client the opportunity to impose reasonable restrictions on the management of the account. Clients have the ability direct the firm to refrain from investing in particular securities or types of securities, or invest in limited amounts of securities. Clients may call in at any time during normal business hours to discuss directly with John C. Sicner, the client's account, financial situation, or investment needs. Clients will receive from the custodian/brokerage firm timely confirmations and at least quarterly statements containing a description of all transactions and all account activity. The client will retain rights of ownership of all securities and funds in the account. In addition to custodial statements, Sicner Asset Management, LLC sends quarterly reports to the client.

Sicner Asset Management, LLC provides limited Financial Planning advice consistent with the individual client's financial and tax status and risk/reward objectives. Planning will focus on investments and taxes.

Fees and Compensation

All clients are provided investment supervisory services at .5% annually, paid quarterly, in advance, based on the value of the assets at the end of each quarter. As an example, the annual fee for a portfolio of \$1,000,000 will be \$5,000.

These fees are for advisory services only and do not include any transaction fees or commissions, which are charged separately by the custodial firm.

Payment of fees may be paid direct by the client, or client may authorize the custodian holding client funds and securities to deduct advisory fees direct from the client account in accordance with statements prepared and submitted to the custodian. The custodian will provide periodic account statements to the client. Such statements will reflect all fee withdrawals. It is the client's responsibility to verify the accuracy of the fee calculation. The custodian will not determine whether the fee is properly calculated.

Fees are not negotiable.

Fees are not collected for services to be performed more than six months in advance.

In addition to fees paid for advisory services with respect to clients' investments in mutual funds, clients pay additional fees on the mutual fund investment because the mutual funds also pay advisory and/or management fees to an investment advisor.

For investment supervision services, services will continue until either party terminates the Agreement.

If termination occurs prior to the end of a calendar quarter, a pro-rata refund of unearned fees will be made to the client.

Performance-Based Fees And Side-By-Side Management

Sicner Asset Management, LLC does not charge performance-based fees, which are based on capital gains in the client account.
