FIRM BACKGROUND

- Based in Montreal, Van Berkomp and Associates Inc. (“VBA”) was established in 1991 and is 100% owned by its employees (six shareholders; three are on the U.S. Small-Cap Team).
- VBA has a unique expertise in the management of small-capitalization portfolios, dedicated solely to U.S. and Canadian small-cap products.
- Firm assets under management are approximately \$862 million; U.S. Small-Cap Product assets under management are \$301 million.
- Four of the nine investment professionals are solely dedicated to the U.S. Small-Cap product for complete coverage and superior knowledge of the U.S. market. Senior members of the firm average 23 years of industry experience.
- A hard-working and passionate investment team and a proven research process have translated into significant value added over the Russell 2000 Index (777 bps annually since inception in June 2000).
- Business plan is to target Canadian and U.S. institutions with a goal of increasing U.S. Small-Cap assets to US\$1 billion.

RECENT DEVELOPMENTS

Common Share Ownership

- 100% owned by employees
- Senior executives control more than 92% of VBA's common shares
- Six shareholders (two new shareholders)
- Mathieu Sirois increased his ownership from 10.0% to 13.0%
- Philippe Hynes increased his ownership from 3.0% to 5.0%
- Lawrence Lai became a shareholder with 1.5%
- Andrew Chan became a shareholder with 1.0%

- Sebastian van Berkom, President and Chief Executive Officer, currently owns 57.5% of VBA's common shares
- Benoît Durand, Vice-President, Canadian Small-Cap Equities, currently owns 22.0% of VBA's common shares

Business Development Efforts

- Several opportunities for new institutional accounts are actively pursued by the U.S. Small-Cap team, confirming the significant interest in the product from Canadian, American and European institutional clients.

ORGANIZATION CHART

Owners are in bold

VBA U.S. SMALL-CAP EQUITY RESEARCH TEAM

Senior Portfolio Manager – Mathieu Sirois

Academic Credentials

- April 1999: Completion of a Bachelor's Degree in Finance – **Université Laval, Quebec City**
- May 2001: Completion of a Master's Degree in Finance – **HEC Montreal, Montreal**
- October 2003: Award of the **CFA Charter**

Professional Credentials

- May 2000: Summer internship at VBA with the U.S. Small-Cap Equity Management Division (followed by continued employment at VBA for eight consecutive years.)
- Went from exclusive research focus on the healthcare and retail sectors to more of a generalist research approach focused on the U.S. Small-Cap Universe. Was promoted to Senior Analyst in January 2004, with coverage of the entire U.S. Small-Cap Universe, with continued specific expertise in healthcare.
- Successful track record, hard work and dedication have led to numerous promotions, leading to his nomination as Portfolio Manager for the VBA U.S. Small-Cap product in July 2006 and to Senior Portfolio Manager in March 2007.
- Mathieu owns 13.0% of VBA's common shares.

VBA U.S. SMALL-CAP EQUITY RESEARCH TEAM

Analysts on VBA U.S. Small-Cap Research Team

Philippe Hynes, Analyst

- Joined the VBA U.S. Small-Cap Equity Division in February 2004, after completion of his Master's Degree at HEC Montreal
- CFA Charter Holder since August 2005
- Has done research on and covered numerous companies in the U.S. Small-Cap Universe
- Acquired specific expertise on the Oil and Gas sector
- Is fully independent in his work and is now responsible and accountable for about 30% of the portfolio
- As a result of his significant contribution to the firm, Philippe now owns 5.0% of VBA's common shares

Andrew Chan, Analyst

- Started his career at VBA in 2001 with the U.S. Small-Cap Equity Division
- Left VBA in January 2003 to complete his Master's Degree at HEC Montreal
- Worked for two years as an analyst at Montrusco Bolton
- Rejoined VBA as an Analyst on the U.S. Small-Cap Equity Team in May 2007
- Now has nearly five years of relevant experience and strong success in the U.S. stock market, and with specific expertise on the Technology and Education sectors
- In recognition of his already strong contribution to our team and of his great talent, Andrew recently became a shareholder of VBA and now owns 1.0% of VBA's common shares.

SUMMARY OF VBA U.S. SMALL-CAP EQUITY TEAM

- All the VBA U.S. Small-Cap Research Team members focus on companies that have the greatest potential within the broad U.S. Small-Cap Universe.
- In addition to its generalist approach, the VBA U.S. Small-Cap Equity Team covers, with specific expertise in each, all of the most important sectors of the Russell 2000 Index:
- Mathieu Sirois: Health Care, Consumer Discretionary and Financial Services
- Philippe Hynes: Oil and Gas, and Consumer Discretionary
- Andrew Chan: Technology, and Industrials
- As a result of a common mentorship and training at VBA, all three members of the U.S. Small-Cap Research Team deeply share and embrace the very same VBA investment style and philosophy that have led to this successful long-term track record.
- The VBA U.S. Small-Cap Equity Team has three accomplished research team members actively contributing to new investment ideas and to the investment performance with a high level of accountability within the group. We believe that this is the best-ever breadth of resources and deepest “bench” that the U.S. Small-Cap Division has ever had.
- VBA’s U.S. Small-Cap Equity Team is very passionate and hard working; those attributes have translated into strong investment performance over time.

DISTINCTIONS

➤ **Team**

The team is disciplined, hard-working and passionate, and enthusiastically meets with the management of over 500 companies yearly. All three research team members deeply share the same investment philosophy.

➤ **Research**

Rigorous bottom-up, fundamental analysis is conducted on each investment candidate. The research-intensive due diligence process focuses on internal returns, sources and uses of cash flow, and valuation.

➤ **Conviction**

We concentrate on our best ideas as our portfolio contains only between 35 and 45 stocks. This attribute of our portfolio has been a major driver of our significant outperformance versus the Russell 2000 Index since inception.

➤ **Long-term Perspective**

Annual turnover has ranged between 35% and 55% over the history of the product. We typically only buy 10-15 new names every year, leading to relatively low stock turnover and strong knowledge of each of our holdings. We typically keep our holdings for many years.

➤ **Performance**

All of the above-mentioned attributes have translated into strong annualized performance since inception (777 bps of annualized outperformance versus the Russell 2000 Index since June 2000).

Monthly comparison where the market (Russell 2000) is down is highlighted in red.

We believe the best opportunity for investment success is found by investing in high-quality, well-managed, small-cap companies and holding them for the long term.

We buy companies that:

- Have the ability to generate free cash flows
- Produce high returns on capital
- Are selling below intrinsic value based upon discounted cash flows

Return on Capital is the single best measure of a company's strength and management execution.

PROCESS OVERVIEW

**2000
stocks**

Idea Generation

- screening
- meetings
- traditional sources

**650-700
stocks**

Basic Analysis

- industry
- competitive advantage
- financial modeling
- valuation

**200-250
stocks**

Detailed Analysis

- cash flow
- capital expenditures
- return on capital
- historical 10-K's

**80-100
stocks**

Valuation

- discounted cash flow
 - P/CF, P/E
 - Debt/EBITDA

**35-45
stocks**

PROCESS – SOURCES OF IDEAS

The investment team generates ideas from a variety of resources.

**Consistent flow of
potential investment
ideas**

- Screen Factset database for:
 - Positive Cash Flow
 - Return on Equity greater than 12%
 - Debt to EBITDA less than 3x
 - Price/Cash Flow less than 15x
- **Attend conferences and management meetings (primary source of new ideas)**
- Traditional news, independent research, and Street resources
- Monitoring of recent purchases and sales by highly-successful portfolio managers with a similar investment style

More than 90% of new investment ideas are generated internally by the U.S. Small-Cap Research Team.

PROCESS – FUNDAMENTAL ANALYSIS

We analyze historical 10K reports to develop a thorough understanding of a company's business model, financial health and managerial talent.

**Proven research
process**

Financial Quality:

- Income Statement
 - Strength and consistency of cash flow generation
 - Cyclicity of the business
 - Strength and stability of return on capital
 - Margin progression over time
 - Revenue growth (organic versus acquisitions)
- Balance Sheet
 - Ability to finance expansion
 - Debt to EBITDA < 3x

Operational Quality:

- Product or Service
 - Sound business model
 - Barriers to entry
 - Competitive advantages identified
 - Sustainability of advantages / moat around the business
- Management
 - Audit management's record of success and passion for the business
 - Direct share ownership in the company and long-term financial incentives
 - Clear strategy backed up by real numbers

**650-700
stocks**

**200-250
stocks**

**80-100
stocks
"Wish List"**

In small-cap equities, there is enough operational risk that financial risk should be avoided.

PROCESS – VALUATION

A company must be selling below intrinsic value before it will be purchased for the portfolio.

- Objective is to achieve 100% return in five years or less
- All facets of our research are used to build model assumptions
- Discounted cash flow model determines intrinsic value
 - Stable cash flow, high barriers to entry = lower discount rate
 - More cyclical cash flows, lower barriers to entry = higher discount rate
- We also work with key historical absolute and relative valuation ratios

**Discipline on
valuation**

**80-100
stocks
“Wish List”**

**Portfolio
35-45
stocks**

A great company is not a great investment if you pay too much for it.

PROCESS – PURCHASE AND SALE DECISION

Purchase Criteria

- 10%+ Return on Capital
- Steady cash flows and potential for strong free cash flows
- Sustainable competitive advantages clearly identified and a management team with the skill set to exploit such an edge in the marketplace
- Selling at a discount sufficient to double our investment in five years

High level of conviction

Sell Criteria

- Trim
 - Stocks are trimmed at 7% of the market value of the portfolio
 - Company is successful and stock valuation is significantly higher than five-year norm
- Sell
 - Company is successful and reaches full valuation
 - Fundamentals erode or management fails to execute
 - Mistake is made
 - In-depth research positions us to identify “red flags” early

**Portfolio
of 35-45
stocks**

Guidelines

- Number of positions will range from 35 to 45
- We buy 10-15 new names every year (25%-38% stock turnover)
- Individual positions are established at 1% to 3%; maximum weight of 7%
- Maintain fully invested portfolios, with cash and equivalents less than 10%
- Market cap at time of purchase - \$3 billion or less; 75% of holdings at less than \$2 billion

Main risk control tools

- High-quality companies only
- Focus and strict discipline on valuation
- Investment in companies with a strong balance sheet
- No more than 15% of the portfolio invested in businesses that are highly correlated

INVESTMENT OUTLOOK

- Despite the substantial financial support that the government has decided to provide to the U.S. banking system, we remain very prudent and sceptical regarding the efficacy of this plan and the likelihood of a quick economic recovery. The dislocation and meltdown of the consumer and business credit markets - a key driver of economic growth - should continue to severely hamper the US economy in the coming months, which will undoubtedly be evident when companies next report their financial results.
- In this context, we will continue our relentless focus on reducing the valuation of our portfolio as well as further increasing its quality.
- We must of course bear in mind that the stock market is a leading economic indicator; stocks should therefore react positively to even the slightest ray of hope for stability in the credit markets and a future economic recovery. Despite their relatively lacklustre valuation compared to large-capitalization stocks, small-cap stocks are usually the main beneficiaries of this type of market upturn (see table on page 28).
- With our target portfolio, which consists of only about forty high-quality stocks that we consider to be highly undervalued, we firmly believe that we are in control of our destiny and exceptionally well positioned to add considerable value in the coming years, regardless of the direction of the stock market or the relative performance of small-capitalization stocks.
- Thanks to our proactive, targeted investment decisions, we have taken advantage of this stock market to reposition our portfolio to maximize success in the years to come, by substantially reducing its valuation and seizing exceptional buying opportunities that should benefit our clients significantly over the next few years.

INVESTMENT OUTLOOK

- Our portfolio positioning can be summarized as follows:
 - Lowest absolute valuation level of our portfolio since the inception of this product in June 2000 (see table on page 29).
 - Very compelling valuation relative to the Russell 2000 Index.
 - In the short term, due to our very conservative profit forecasts for our companies and the very low valuation of our portfolio, we believe we have lower earnings risk and lower valuation risk than the Russell 2000 Index.
 - In the long term, we are strongly convinced of our ability to continue adding substantial value over our benchmark due to our more attractive portfolio valuation, superior earnings growth for our companies compared to the Russell 2000 companies, and the far superior quality of the stocks in our portfolio.
 - The VBA U.S. investment team has once again passed a crucial test with this unprecedented financial crisis, by adding substantial value over its benchmark and by outperforming its U.S. small-cap peers. We consider this to be the most experience and skilled team we have ever had, which is extremely promising as we continue to pursue the same value creation objective we have had since we started this U.S. Small-Cap Product over eight years ago.

KEY INVESTMENT PROFESSIONALS

U.S. Small-Cap Team

- **Mathieu Sirois, M.Sc., CFA** joined VBA in May 2000. In 2007, Mathieu was appointed Senior Portfolio Manager, U.S. Small-Cap Equities. Previously, in 2006, he was appointed Portfolio Manager, U.S. Small-Cap Equities after being Senior Analyst, U.S. Small-Cap Equities. He is responsible for all the investment decisions related to the U.S. Small-Cap Equity product and for managing the U.S. Small-Cap Equity Team. He is also responsible for conducting research on a broad spectrum of U.S. small-cap stocks.
- **Philippe Hynes, M.Sc., CFA** joined VBA in 2004 as Assistant Research Analyst, U.S. Small-Cap Equities to be promoted to Research Analyst, U.S. Small-Cap Equities in 2006. In 2007, he was appointed Analyst, U.S. Small-Cap Equities. He is responsible for conducting fundamental research on the energy sector, as well as on the broader U.S. equity market.
- **Andrew Chan, M.Sc. (Finance)**, first joined VBA in 2001 as Research Assistant, U.S. Small-Cap Equities, before becoming Assistant Research Analyst, U.S. Small-Cap Equities until January 2003, when he left to complete his Master's Degree. He worked thereafter as Analyst at Montrusco Bolton (2005-2007) before joining VBA as Analyst, U.S. Small-Cap Equities in May 2007. Andrew is responsible for conducting fundamental research on the technology sector, as well as on the broader U.S. small-cap equity market.
- **Judy M. Grant, CFA** joined VBA in 1995 and is currently Research Analyst, U.S. Small-Cap Equities. She is responsible for all U.S. small-cap equity trading. In addition, she monitors technical trends of the U.S. market, sectors and individual U.S. small-cap stocks. Judy commenced her investment career in 1990 with Toronto Dominion Bank. Later she worked for Jarislowsky Fraser & Co. in 1993.

Other Key Employees

- **J. Sebastian van Berkomp, B.Comm.**, founded Van Berkomp and Associates Inc. ("VBA") in 1991 and is currently President and Chief Executive Officer. Mr. van Berkomp commenced his investment management career in 1971 at the Bell Canada Pension Fund. In 1979 he became a partner of LRM, and in 1984 co-founded Montrusco Associates Inc.
- **Benoît Durand, B.Comm., CFA** joined VBA in 1999 and is currently Vice-President, Canadian Small-Cap Equities. He is also involved in the marketing, servicing and administration of the firm. Mr. Durand commenced his investment career in 1983 at Royal Trust Company. In 1984 he worked at Crédit Foncier and became a Portfolio Manager at Gentrust (which was acquired by Natcan Investment Management) in 1986.

MANAGEMENT FEES

Investment management fees are calculated and charged in arrears on a monthly basis.

Separate Account Management

Asset Value of Portfolio 1.00%

Minimum Account Size *\$5 million*

Minimum Annual Fee *\$50,000*

Services include discretionary account investment management, portfolio accounting, performance measurement and valuations. Also included are monthly reports, periodic presentations to management and/or the investment committee. Fees include all reasonable travel and other out-of-pocket expenses to service the pension fund client on an ongoing basis. Fees do not include custody services, brokerage commissions or sales taxes that may be payable.

DISCLOSURES

Van Berkomp and Associates Inc. (VBA) is defined as a SEC registered independent investment advisor. VBA is also registered with the Quebec, Nova Scotia, Ontario, Alberta and British Columbia Securities Commissions as an Investment Counselor.

Performance numbers shown are the time-weighted, total return results of the U.S. Small-Cap Equity Composite managed by the investment professionals at Van Berkomp and Associates Inc., from July 1, 2000 to present. The composite creation date is July 1, 2000.

The composite includes actual fee-paying, fully discretionary, institutional, tax-exempt separate account portfolios which are following a U.S. small capitalization equity mandate. Only full calendar quarters are included in the calculation of performance. Valuations are computed and performance is reported in US dollars. Performance shown is gross of all management and incentive fees, and net of withholding taxes on dividends, interest and capital gains.

The benchmark shown is the Russell 2000 Index for which there is no advisory fee. Performance results earned on behalf of VBA's clients are calculated gross of investment management fees and will be reduced by the investment advisory fee. Generally, fees are charged based upon the size of the portfolio and are stated below and in Part II of VBA's Form ADV.

Separate Account Management
All assets.....1.00%

DISCLOSURES (continued)

Composite performance is measured on a monthly basis and geometrically linked to obtain the quarterly and annual results. Trade date valuations are used to calculate performance. Eligible new portfolios are added to the composite after they have been fully invested for one full calendar month. Terminated accounts remain in the historical figures. A complete list and description of Van Berkom and Associates Inc.'s composites is available upon request. The following is presented for informational purposes:
