Item 4 - Advisory Business

Falcons Rock Investment Counsel, LLC (“Falcons Rock”) is a registered investment adviser. Falcons Rock became registered as an investment adviser in October 2003. Falcons Rock provides investment planning and manager search and selection and investment consulting services to a wide variety of clients. Falcons Rock is wholly-owned by Gregory D. Wait. Falcons Rock does not control any other firm, but is under common control with Prophecy Impact Investments, LLC, a SEC registered investment advisor exclusively providing services over the internet. The advisory services of Falcons Rock are described in detail below.

Investment Planning and Manager Selection Services

Falcons Rock often begins services by preparing comprehensive Investment Planning Analysis using information collected during discussions and interviews with each client to determine specific objectives and restrictions, cash flow needs, tax situation, and attitudes toward investing. This Planning Analysis may include an extensive review of the client’s current investment positions and strategies, a calculation of portfolio returns, and a structural analysis of portfolio holdings. Falcons Rock then develops and proposes asset allocation strategies based on the client’s cash flow analysis and forecasts of asset class returns, volatility and correlation of returns. The Analysis addresses strategic and tactical investment strategies as appropriate given existing market conditions and modern portfolio concepts.

Falcons Rock may then conduct a search for investment managers (separate account managers), mutual funds, hedge funds or other investments appropriate for the investment strategy of each client. Guidelines for the selection (and termination) of investment managers will be developed, including performance measurement standards (benchmarks), tax parameters, and other quantitative and qualitative analyses. Falcons Rock will provide each client with a detailed report of the results of the customized manager search and a proposed structure for the selection of money managers.

Falcons Rock usually uses manager background information prepared by the manager, which describe the histories, investment philosophies, risk factors, investment returns, and investing time frames of investment management firms. Generally, these firms have agreed to provide management services to a client provided the client’s account size and other conditions meet the minimum standards established by the manager and further provided that the client’s investment objectives are consistent with the manager’s investment philosophy. To facilitate account reporting, account assets are usually custodied at a custodian designated by the client based on the recommendations of Falcons Rock.

It is important to note that even though certain managers may have provided higher return results than other managers, they may not be presented to a client by Falcons Rock due to the influence of other factors, including the nature of a portfolio manager’s investment style and time under which securities were managed to produce returns.

Once a client has selected a manager from those presented, Falcons Rock supplies the manager with information regarding the financial background and investment objectives of the client to the extent such information is provided by the client. Falcons Rock will coordinate and supervise the

implementation of investment managers in each client account. This includes the negotiation of manager fees and separate account minimums, communication of any securities restrictions, and coordination of custody and brokerage services. The client then enters into an advisory agreement with the manager whereby the manager agrees to accept and manage the client's account on a discretionary basis in accordance with the objectives and restrictions of the client. Falcons Rock also provides periodic assistance in evaluating manager performance and, if necessary, recommendations to replace a manager selected. To the extent Falcons Rock becomes aware of changes in a client's financial circumstances or objectives, this information is relayed to the client's manager. Updated financial information about a client is not collected by Falcons Rock on a regular basis or given to a manager unless Falcons Rock is made aware of changes by the client. Clients may communicate such changes to the client's manager at any time.

Falcons Rock generally does not recommend the replacement of a manager based on short-term performance results. In the event there is significant change in the manager's investment philosophy, loss of significant investment management personnel, a change in ownership or some other significant event, Falcons Rock will reevaluate the manager to determine whether the manager has changed from how the manager represented itself initially and then determine whether to recommend a manager change to a client.

Each client grants the selected manager discretionary trading authority so the manager can place transaction orders at will for a client's account. Each client has the opportunity to instruct the manager with respect to investment restrictions imposed on the management of the client's account and there is no restriction on a client contacting the manager directly for other purposes. Each client account with a manager is managed individually and is separate from the accounts of other clients of the manager, except in the case of mutual funds or other pooled investment vehicles. Each client receives confirmations of each securities transaction placed by the manager for the client's account, periodic custodian account statements, as well as a summary of account performance (prepared by Falcons Rock) at least quarterly.

Ongoing monitoring and supervision of each client's investment strategy, tax management, and money manager performance measurement and evaluation is provided by Falcons Rock, culminating in a detailed quarterly appraisal of consolidated holdings and transactions, and quarterly performance reports to each client. Personal account review meetings are conducted with each client to discuss investment strategy, manager and portfolio returns versus customized benchmarks, and an analysis of current market conditions.

All planning is based on information provided by the client. It is the client's responsibility to be certain Falcons Rock has current and accurate information to enable Falcons Rock to prepare the initial plan, and it is the client's responsibility to inform Falcons Rock of material changes affecting the investments and planning strategies implemented so the Representative has them for future reference.

Additional Services for Qualified Retirement Plans, Endowments, Foundations

Falcons Rock provides all of the above Investment Planning and Manager Selection Services to qualified retirement and other employee benefit plans, endowments, and foundations. Additional services for these clients may include, but are not limited to, a search for plan service providers,

review of actuarial and accounting assumptions, analysis of past and expected contributions and distributions, review and development of a written investment policy statement, a fiduciary compliance review, and quarterly compliance reports comparing the investment activity of the plan to the investment policy statement. Additional services may be included in a retained fee arrangement, or provided separately on an hourly fee or project fee basis.

Investment Consulting Services

Falcons Rock provides Investment Consulting Services on an hourly fee or project fee basis. Services are performed in the scope requested by a client and usually include an analysis of a client's current investments, investment objectives and risk tolerance followed by recommendations as to asset allocation strategies and the selection of investment managers as applicable. Consideration is given to risk tolerance, income needs and short and long-term financial objectives. Consulting Services result in a report being provided to a client which may be in writing if requested by the client.

After the initial analysis of the client's investment situation is performed and initial advice provided to a client, Falcons Rock makes available ongoing consulting services, also on an hourly fee or flat dollar fee basis, designed to continue the advisory relationship to implement, update and modify the initial advice provided.

All Investment Consulting Services advice is based on information provided by the client. It is the client's responsibility to be certain that Falcons Rock has current and accurate information.

The decision to accept any recommendation or advice provided by Falcons Rock and all decisions regarding implementation thereof are left to the client. Clients are free to implement recommended transactions through broker-dealers and other service providers other than those recommended by Falcons Rock. Clients are advised to evaluate independently the transaction execution services recommended by Falcons Rock Representatives, including the reasonableness of any transaction price and commission.

Item 5 - Fees and Compensation

Fees paid to Falcons Rock are for Falcons Rock advisory services only. The fees do not include, for example, the fees charged by third parties such as third-party managers, or accountants and attorneys assisting with providing the client with accounting and legal advice. Commissions on transactions and other account fees will also be charged by brokerage firms in accordance with the account's brokerage firm's normal commission schedule. See Item 12, Brokerage Practices.

Prospective clients should be aware that in addition to Falcons Rock's advisory fees, each mutual fund, commingled fund, or hedge fund in which a client's assets are invested also pays its own advisory fees and other internal expenses which already have been deducted from the fund's reported performance. Depending on the fund, a client may be able to invest directly in the shares issued by the fund with or without incurring any sales or third-party management fees. Account maintenance fees may also be deducted by the custodian.

In addition, there are tax effects pertaining to fund share redemptions, and other sales, made by Falcons Rock on behalf of clients. Redemptions and sales are taxable events which may accelerate

the recognition of capital gains, and losses, and frequent redemptions and sales may result in short-term, rather than long-term, capital gains and losses.

Investment Planning, Manager Selection and Ongoing Monitoring Service Fees

For the full range of Investment Planning, Manager Selection and Ongoing Monitoring Services, the standard annual fee schedule is as follows:

<u>Account Value</u>	<u>Balanced/Equity Portfolio Fee</u>	<u>Fixed Income Portfolio Fee</u>
Up to \$1 million	0.80%	0.40%
Next \$2 million	0.60%	0.30%
Next \$2 million	0.50%	0.25%
Next \$5 million	0.30%	0.15%
Next \$10 million	0.20%	0.10%
Over \$20 million	Negotiable	Negotiable

The schedule shown above is usually applied to individual investors. Fees for charitable organizations and retirement plans are generally lower.

Fees are due at the beginning of each calendar quarter, and are either deducted directly from the client's account, or billed to the client for remittance, at the client's discretion. Fees are generally payable quarterly, in advance of the period. If services begin after the start of a calendar quarter, fees are prorated accordingly. In the event of termination, which can occur upon 10 days advance notice by either party, any paid, unearned fees may be refunded to the client on a prorated basis. However, the termination effective date is typically the last day of the calendar quarter during which notice is served, and therefore no prorated fee calculation is made. The minimum annual fee is \$8,000. In certain circumstances, fees may be negotiable. The values of related accounts may, at Falcon Rocks' discretion, be combined for fee calculation purposes.

Additional Services for Qualified Retirement Plans, Endowments, Foundations Fees

These types of clients follow the same basic fee schedule as noted above but in general the fees are lower.

Investment Consulting Services Fee

Falcons Rock's hourly fee for Investment Consulting Services varies from \$150 to \$300 per hour and depends upon the nature and scope of the advice requested by the client, nature and number of investments in a client's portfolio, amount and nature of research required to complete the project and the scope and number of reports requested by a client. Prior to engagement, each client signs an agreement which provides an estimate of the total fee for services. A portion of the fee is due at contract signing and the balance is due promptly after services are completed. A minimum fee may also apply.

The Consulting Services Agreement between Falcons Rock and a client may be terminated by either party at any time by 10 days advance written notice to the other. Any fee due, but not yet paid by a client, is due promptly after termination of the agreement. Any unearned prepaid fee is returned to the client.

Item 6 - Performance Based Fees and Side-by-Side Management

Falcons Rock does not charge any performance-based fees. All fees are disclosed above.

Item 7 - Types of Clients/Minimum Account Size

Falcons Rock makes its advisory services available to a wide variety of clients including, but not limited to, individuals, pension and profit sharing plans, trusts, estates, endowments, foundations, charitable organizations, corporations and other business entities.

While there is no defined minimum account value, client accounts are subject to the minimum fees for services provided by Falcons Rock.

Item 8 - Methods of Analysis, Investment Strategies and Risk of Loss

Falcons Rock's investment manager or product analysis includes, but is not limited to, historical performance versus benchmarks and peer groups, risk-adjusted statistical measurements, style analysis, holdings analysis, and qualitative due diligence on a manager's business operations.

Falcons Rock's main sources of information include, but are not limited to, financial newspapers and magazines, research materials prepared by others, corporate rating services, annual reports, prospectuses, public filings and company press releases. Falcons Rock also subscribes to various databases for information related to investment managers.

Neither Falcons Rock, nor the third party managers it may secure, guarantees the results of the advice given. Thus, significant losses can occur by investing in any security, or by following any strategy, including those recommended or applied by Falcons Rock.

Falcons Rock or a third party manager may recommend exchange-traded funds ("ETF"). ETF shares are bought and sold at market price unlike mutual funds. ETFs are subject to risks similar to those of stocks.

Item 9 - Disciplinary Information

Falcons Rock does not have any disciplinary information to report regarding itself or any of its counselors or other related persons.

Item 10 - Other Financial Industry Activities and Affiliations

Gregory D. Wait is the President of Prophecy Impact Investments, LLC, a SEC registered investment advisor exclusively providing services over the internet. Falcons Rock Investment Counsel, LLC is under common control with Prophecy Impact Investments, LLC. The relationship does not create a material conflict of interest.

Item 11 - Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Falcons Rock and/or its employees may own securities which Falcons Rock also recommends to clients. In order to protect the interests of its clients, Falcons Rock prohibits the use of material, nonpublic information. Also, associated persons are not allowed to buy or sell a security which it is recommending to a client at a price which is better than any client receives, unless 10 days have passed since any client has purchased or sold the security. A copy of the Falcons Rock Code of Professional Conduct and Ethics is available upon request.

Item 12 - Brokerage Practices

Falcons Rock may recommend broker-dealers or custodians to its clients; however, clients are not required to use recommended broker-dealers or custodians. Third party managers recommended by Falcons Rock may require or recommend the use of certain custodians or broker-dealers.

Falcons Rock and its Representatives do not direct transactions and the commissions they generate (soft dollars) to brokerage firms or other parties to receive research or other benefits. Clients in need of custodial services may have Schwab Institutional (a division of Charles Schwab & Co., Inc.), a registered broker-dealer, member FINRA/SIPC (“Schwab”) recommended to them. Schwab services include: duplicate client confirmations and statements, ability to have investment advisory fees deducted directly from client accounts, access to an electronic communication network for client order entry and account information, receipt of compliance publications, daily market information, and other professional services. For certain Manager Selection Services, Falcons Rock may utilize services provided by Schwab to independent investment advisors.

Item 13 - Review of Accounts and Reports

Falcons Rock reviews the level of risk and investment goals and objectives associated with each client in connection with opening all new accounts. Falcons Rock will conduct at least a quarterly review of the account on the basis of consulting services engaged. Client portfolios are reviewed to be sure the client objectives are met. Personal or financial change of the client, or unique investment market conditions, may also trigger a review. Analysis of accounts shall include overall investment strategy, performance measurement, progress toward stated goals, risk analysis and proposed adjustments to the portfolio based on changing client circumstances or market conditions.

The Managing Member of the firm (Gregory D. Wait) currently serves as the reviewer for all accounts.

Item 14 - Client Referrals and Other Compensation

Falcons Rock does not currently have any client referral relationships. Thus, it does not pay any fee to a third party for making client referrals to it. Also, as indicated above, the firm does not direct brokerage transactions to any third party in return for client referrals.

Item 15 - Custody

Falcons Rock does not take custody of client funds or securities. These safekeeping services are typically provided to client accounts only by the brokerage firm or trust company processing the securities transactions ordered by Falcons Rock.

To the extent a client receives any account or other investment ownership statement from Falcons Rock, Falcons Rock recommends the client carefully compare the information in the report to that in the custodian's statements.

Item 16 - Investment Discretion

Falcons Rock does not exercise discretion over client accounts. When providing Investment Planning and Manager Monitoring Services, the third party managers may have authority granted by the client to purchase and sell securities at their discretion.

Item 17 - Voting Client Securities

Falcons Rock and its Representatives do not vote proxies on behalf of clients who will receive such notices from their account's custodian.

Falcons Rock also does not take any action on legal notices it or a client may receive from issuers of securities held in a client's managed account. However, it is available to answer questions regarding such notices.

Item 18 - Financial Information

Falcons Rock does not receive fees of more than \$1,200 six months or more in advance, thus no financial statement for Falcons Rock is attached. Falcons Rock does not have any financial condition that is reasonably likely to impair its ability to meet its contracted commitment to any client.
