included in the Private Placement Memorandum for each fund.

FPCM also provides investment supervisory to banks and thrift organizations that would like advice on the strategies and trading of securities that may also be the same strategies provided to the funds. FPCM will provide both execution and investment supervisory services or only investment supervisory services to such clients if they so choose.

Fees for FPCM's advisory services described in this section may involve the following fee types.

- Percentage of Assets Under Management.
- Performance Fees.
- Fixed/Flat Fees.

Annual Percentage of Assets Under Management:

FPCM may charge a percentage of assets under management fee for its advisory services. Such fee will be paid in advance on a period subject to negotiation with the client (typically monthly or quarterly). This fee is negotiable, but will generally range from 0.25% to 2.50% annually. The fee to a particular client, along with the payment frequency, will be detailed in the operating agreement and/or contract for services with the client. Once fees are paid they are non-refundable.

Performance Based Fees.

FPCM will also charge performance-based fees in its relationships. These fees are not only charged to private investment fund clients, but also to banks and thrift institutions. These charges will be subject to the contract or agreement struck with each client. The typical performance based fee would be 15%-20% of the net profits from the assets under management, but the calculation for such fee and the actual amount will be subject to negotiation as part of each client agreement. Once fees are paid they are non-refundable.

The following are examples of the fees and methodology for some particular client fee structures:

In consideration for providing investment supervisory services to funds, FPCM will charge a monthly fee in advance or in arrears as stipulated in the client service agreement. The management fee will be paid by the clients, subject to the following example schedules:

Catena Capital, LLC

Class A Members: An amount equal to $1/12^{\text{th}}$ of 1.00% per annum of the aggregate Funded Amounts of all Class A Members (calculated as the beginning of each month).

Class B Members: An amount equal to $1/12^{\text{th}}$ of 2.00% per annum of the aggregate Funded Amounts of All Class B Members (calculated as the beginning of each month).

Once fees are paid they are non-refundable.

Performance Fee for Catena Capital, LLC:

FPCM is entitled to receive an incentive allocation, if earned, subject to the covenants of the operating agreement, at the end of each fiscal quarter; 10% of the portion of the net profits, if any, credited to the capital account of each member during the fiscal quarter will be allocated to FPCM and charged against each member's respective capital account.

FPCM may also receive a deferred incentive allocation equaling 10% of the base amount for all accounting periods. This calculation method is included in the Private Placement Memorandum and the Operating Agreement for the fund.

Item 1.D. Response to Item 1.A.(1) (continued)	<p>Once fees are paid they are non-refundable.</p> <p>Fixed Fees:</p> <p>FPCM may charge a fixed fee for its advisory services. FPCM’s fixed fee is negotiable based on the client’s needs but payable in advance. The services that may correspond to the designated fixed fee amount may vary. Advisory services that are anticipated to be more complex will generally warrant a higher fixed-fee amount. Less complex services may generally result in a lower fixed-fee amount. Fees typically range between \$250,000 and \$1,000,000, annually.</p> <p>FPCM’s fixed fee for providing advisory services is determined based on anticipated work to be done. Since FPCM cannot accurately determine the fee amount until learning about the client’s financial circumstances, it is FPCM’s practice to provide an initial, no obligation, no cost meeting in order to become familiar with the client’s circumstances. FPCM will obtain information from the client verbally and on any current information gathering documents approved for use by FPCM. The information gathered during this session will assist FPCM in determining the fee amount for the client’s advisory services.</p>

Item 7.A and Item 7.C	<p>FPCM is actively engaged in the business of pooling and sponsoring investment vehicles as private investment funds. Approximately 50% of the firm’s time will be devoted to other business activity.</p> <p>Mr. Van Epps and Mr. Lewis hold active insurance appointments and are engaged in the business of asset administration and policy design advisory related to life insurance for institutional and select individual clients.</p>																																										
Item 8.D	<p>FPCM is the manager of private investment funds of which some bank or thrift institutions may be solicited to invest. Typically, FPCM’s client will be such funds.</p> <p>Catena Capital, LLC</p> <p>This fund is organized to pursue opportunities of investing in and managing a portfolio of conduit capital investments in Asset Backed Commercial Paper conduits. These conduit capital investments are intended to provide first loss credit protection to the Asset Backed Commercial Paper conduits, and thereby provide credit enhancement for certain holders of securities issued by Asset Backed Commercial Paper conduits, for Asset Backed Commercial Paper conduit liquidity providers and for Asset Backed Commercial Paper conduit credit enhancement providers.</p>																																										

Item 9.D and 9.E	See Item 8.D. above for the appropriate disclosure and explanation for Item 9.D. Both FPCM and its principals may be investors in a fund that is a client of FPCM, therefore FPCM or related persons may purchase securities for themselves, as owners of their proportionate share of the funds, that FPCM is also recommending to clients, which may be funds, banks, or other thrift institutions.
Item 10	<p>Generally, FPCM shall impose a minimum account balance for its investment advisor services. FPCM's minimum investment size varies by fund for investment supervisory services provided to the individual funds. All minimum investment amounts can be identified in the fund Private Placement Memorandum.</p> <p>FPCM shall also impose a minimum account size and fee for other clients. These minimums will be instituted on a case-by-case basis and subject to negotiation.</p>
Item 11.A	<p>Reviews:</p> <p>The Firm will review the client's account(s) quarterly. The Designated Principal or his/her designee shall review the client accounts for best execution, suitability, and service.</p> <p>Every quarter, transaction suitability is reviewed. For fund clients, the Designated Principal will review the performance and cost basis for the client's transactions, comparing executed transactions to the offering memorandum and to the client's investment policy statement in the operating agreement. For non-fund clients, the client's investment objectives are used to review for suitability. Quarterly, transactions are reviewed referencing client's objectives for any transaction that may not fit the client's stated objectives, or FPCM's understanding of the client's objectives will be flagged and reviewed. Additional reviews (daily/monthly) will be made by the Chief Risk Officer/Chief Compliance Officer in regards to other metrics like Value at Risk (VaR) and credit events taking place on the underlying investments.</p> <p>Events that may trigger further client account reviews in addition to the standard quarterly review process may include, but would not be limited to, a notable increase in the volume of requests by the client to effect transactions in his/her account(s), where such transactions may appear to be inconsistent with the client's previously stated investment objectives. Other factors may include requests by the client to liquidate certain securities positions/contracts where such transactions may appear to be inconsistent with the client's previously stated investment objectives.</p> <p>Reviewers:</p> <p>Number of reviewers: 1 Name and title of Designated Principal: Stephen R. Miller, Chief Risk Officer/CCO.</p> <p>Mr. Miller will employ the procedures noted above for the client's account(s) subject to FPCM's investment advisory services.</p>
Item 11.B	Quarterly statements will be provided by the custodian (not by FPCM) of the account identifying the account positions by cost basis, current price, and gains/(losses) for all securities transactions. Upon the client's request, a quarterly account appraisal may be created for the client as well as an annual year-end statement.
Item 12.A	<p>FPCM may exercise discretion over the following areas/items.</p> <ol style="list-style-type: none"> 1) 12.A.(1): The specific securities to be bought or sold on the client's behalf; 2) 12.A.(2): The amount of securities to be bought or sold on the client's behalf; and/or 3) 12.A.(3): The particular broker or dealer to be used for arranging client securities transactions;

	<p>FPCM will have general authority to exercise its full discretion on the above named factors without restriction. FPCM shall observe any specific limitations that may be imposed by the client in relation to this discretionary authority. The limits on the discretionary authority on securities and amounts to be bought or sold will be identified in the Private Placement Memorandum and the operating agreement for the fund clients. FPCM being the manager of the fund is restricted to the investment policy statement and the investment objectives of the fund. The limits on the types of securities are to those available under the Private Placement Memorandum and the operating agreement specific to each fund, which is a client. There are no limits on the amounts of such securities purchases.</p> <p>FPCM will review brokers, dealers and banks for their financial wherewithal and ongoing operational strength as part of making a decision on the purchase of investments from such firms. FPCM may operate in its full discretion to select such broker or dealers because there are only select firms in which to purchase investments that are described in the investment policy statements for its fund clients. The value of products, research and services given to FPCM are a factor in that FPCM looks to purchase the investment products that best serve the needs of the funds and FPCM's other clients. FPCM does receive research and services from such brokers, dealers, or banks; however, such factors are negligible in the overall discretionary decision to use such broker, dealer or bank. Research is generally used; however, each client typically is restricted to certain investment products therefore certain specific research or services received may only be viable to a singular client.</p>
Item 12.B	<p>From time to time, FPCM may suggest that clients use specific brokers, dealers, or banks for the purposes of the effecting of securities transactions. For details as to what factors FPCM may consider in selecting such institutions, see below.</p> <p>SECURITIES AND BROKERAGE SERVICES</p> <p>FPCM is not a broker-dealer, but as of Q3-2005 is affiliated with FPCM Securities LLC, a registered broker-dealer.</p> <p>FPCM will use either FPCM Securities LLC, or other unaffiliated firms to solicit investors for the purpose of distributing private placement securities managed by FPCM. Such firms shall generally be broker-dealers or banks that may also maintain registrations that allow such firms to engage in other types of businesses outside of their broker-dealer or banking activities.</p> <p>Any such other firm may act in the capacity as the custodian for the client's account(s). In no case shall FPCM act or attempt to act in the capacity of "custodian" of the client's investment accounts.</p> <p>Factors that FPCM considers in recommending certain custodians to clients may include such entity's financial strength, reputation, execution, pricing, and service. In return for effecting securities transactions through certain broker-dealers/custodians, FPCM or certain of its representatives may receive certain support services that may assist FPCM in its investment decision-making process for all of FPCM's clients.</p> <p>In seeking best execution, the determinative factor is not always the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of broker-dealer or bank services, including factors such as execution capability, commission rates, and responsiveness. Accordingly, although FPCM will seek competitive rates, it may not necessarily obtain the lowest possible commission rates for the client's transactions.</p> <p>FPCM's general policies relative to the execution of the client's securities and brokerage transactions are as follows:</p> <p>Transactions for the client's account generally will be effected independently, unless FPCM can purchase or sell the same securities for several clients at approximately the same time. FPCM may (but is not obligated to) combine or "batch" such orders to obtain best execution, to negotiate more favorable transaction rates. To the extent that FPCM elects to aggregate client orders for the purchase or sale of securities, including securities in which FPCM's</p>

	<p>principal(s) and/or associated person(s) may invest, FPCM shall generally do so in accordance with the parameters set forth in SEC No-Action Letter, <i>SMC Capital, Inc.</i> FPCM shall not receive any additional compensation or remuneration as a result of the aggregation.</p> <p>The client may direct FPCM to use a particular broker, dealer, or bank (subject to FPCM's right to decline and/or terminate the engagement) to execute some or all transactions for the client's account. In such an event, the client will negotiate terms and arrangements for the account with that broker-dealer, and FPCM will not seek better execution services or prices from other broker-dealers or be able to "batch" the client's transactions for execution through other brokers, dealers, or banks with orders for other accounts managed by FPCM. As a result, the client may pay higher commissions or other transaction costs or greater spreads, or receive less favorable net prices, on transactions for the account than would otherwise be the case.</p>
Item 13.A	<p>Consistent with obtaining best execution, transactions for a client's account may be effected through other brokers, dealers, or banks in return for executions, research products and/or services, which assist the Firm in its investment decision-making process. Such research generally will be used to service all of the Firm's clients, but brokerage commissions paid by client may be used to pay for research that is not used in managing the client's account. The account may pay to a broker-dealer or bank a commission greater than another qualified broker-dealer or bank might charge to effect the same transaction where the Firm determines in good faith that the commission is reasonable in relation to the value of the brokerage and research services received.</p> <p>All transactions for clients where such soft dollar transactions will be effected shall be in compliance with Section 28(e) of the Securities Exchange Act of 1934.</p> <p>Certain investment adviser representatives of FPCM, when acting as registered representatives of a broker-dealer, may receive selling compensation from such broker-dealer as a result of the facilitation of certain securities transactions on a client's behalf through such broker-dealer.</p> <p>The above-mentioned arrangements may cause a conflict of interest.</p>
Item 13.B	<p>FPCM may enter into agreements with various independent solicitors or limited partners (collectively "solicitors") that refer investors to private investment funds for which FPCM provides investment supervisory services. FPCM does not charge such investors introduced by solicitors fees or costs greater than the fees or costs such funds charge its other investors who were not introduced by the solicitors. Any such agreements must be handled in accordance with the provisions of Rule 206(4)-3 under the Investment Advisers Act of 1940. included in the Private Placement Memorandum for each fund.

FPCM also provides investment supervisory to banks and thrift organizations that would like advice on the strategies and trading of securities that may also be the same strategies provided to the funds. FPCM will provide both execution and investment supervisory services or only investment supervisory services to such clients if they so choose.

Fees for FPCM's advisory services described in this section may involve the following fee types.

- Percentage of Assets Under Management.
- Performance Fees.
- Fixed/Flat Fees.

Annual Percentage of Assets Under Management:

FPCM may charge a percentage of assets under management fee for its advisory services. Such fee will be paid in advance on a period subject to negotiation with the client (typically monthly or quarterly). This fee is negotiable, but will generally range from 0.25% to 2.50% annually. The fee to a particular client, along with the payment frequency, will be detailed in the operating agreement and/or contract for services with the client. Once fees are paid they are non-refundable.

Performance Based Fees.

FPCM will also charge performance-based fees in its relationships. These fees are not only charged to private investment fund clients, but also to banks and thrift institutions. These charges will be subject to the contract or agreement struck with each client. The typical performance based fee would be 15%-20% of the net profits from the assets under management, but the calculation for such fee and the actual amount will be subject to negotiation as part of each client agreement. Once fees are paid they are non-refundable.

The following are examples of the fees and methodology for some particular client fee structures:

In consideration for providing investment supervisory services to funds, FPCM will charge a monthly fee in advance or in arrears as stipulated in the client service agreement. The management fee will be paid by the clients, subject to the following example schedules:

Catena Capital, LLC

Class A Members: An amount equal to 1/12th of 1.00% per annum of the aggregate Funded Amounts of all Class A Members (calculated as the beginning of each month).

Class B Members: An amount equal to 1/12th of 2.00% per annum of the aggregate Funded Amounts of All Class B Members (calculated as the beginning of each month).

Once fees are paid they are non-refundable.

Performance Fee for Catena Capital, LLC:

FPCM is entitled to receive an incentive allocation, if earned, subject to the covenants of the operating agreement, at the end of each fiscal quarter; 10% of the portion of the net profits, if any, credited to the capital account of each member during the fiscal quarter will be allocated to FPCM and charged against each member's respective capital account.

FPCM may also receive a deferred incentive allocation equaling 10% of the base amount for all accounting periods. This calculation method is included in the Private Placement Memorandum and the Operating Agreement for the fund.

Item 1.D. Response to Item 1.A.(1) (continued)	<p>Once fees are paid they are non-refundable.</p> <p>Fixed Fees:</p> <p>FPCM may charge a fixed fee for its advisory services. FPCM’s fixed fee is negotiable based on the client’s needs but payable in advance. The services that may correspond to the designated fixed fee amount may vary. Advisory services that are anticipated to be more complex will generally warrant a higher fixed-fee amount. Less complex services may generally result in a lower fixed-fee amount. Fees typically range between \$250,000 and \$1,000,000, annually.</p> <p>FPCM’s fixed fee for providing advisory services is determined based on anticipated work to be done. Since FPCM cannot accurately determine the fee amount until learning about the client’s financial circumstances, it is FPCM’s practice to provide an initial, no obligation, no cost meeting in order to become familiar with the client’s circumstances. FPCM will obtain information from the client verbally and on any current information gathering documents approved for use by FPCM. The information gathered during this session will assist FPCM in determining the fee amount for the client’s advisory services.</p>																																	
Item 2	FPCM has been established to offer investment supervisory advice to private partnership or limited liability company investment funds sponsored and administered by it.																																	
Item 3.L.	Asset Backed Commercial Paper Conduit interests, CMOs, interest rate swaps, over the counter derivatives (other than options or futures)

Also, FPCM uses business software provided by Lehman Brothers' Strategic Client Services, which includes a deal capture system called Smart Ticket. Also provided by SCS, FPCM uses a mark-to-market and risk analytics system, in conjunction with excel as a risk management system.																																	
Item 4.C.(7)	FPCM uses a strategy to maximize return and preserve long-term capital.

Item 7.A and Item 7.C	<p>FPCM is actively engaged in the business of pooling and sponsoring investment vehicles as private investment funds. Approximately 50% of the firm’s time will be devoted to other business activity.</p> <p>Mr. Van Epps and Mr. Lewis hold active insurance appointments and are engaged in the business of asset administration and policy design advisory related to life insurance for institutional and select individual clients.</p>																	
Item 8.D	<p>FPCM is the manager of private investment funds of which some bank or thrift institutions may be solicited to invest. Typically, FPCM’s client will be such funds.</p> <p>Catena Capital, LLC</p> <p>This fund is organized to pursue opportunities of investing in and managing a portfolio of conduit capital investments in Asset Backed Commercial Paper conduits. These conduit capital investments are intended to provide first loss credit protection to the Asset Backed Commercial Paper conduits, and thereby provide credit enhancement for certain holders of securities issued by Asset Backed Commercial Paper conduits, for Asset Backed Commercial Paper conduit liquidity providers and for</p>																	

	Asset Backed Commercial Paper conduit credit enhancement providers.
Item 9.D and 9.E	See Item 8.D. above for the appropriate disclosure and explanation for Item 9.D. Both FPCM and its principals may be investors in a fund that is a client of FPCM, therefore FPCM or related persons may purchase securities for themselves, as owners of their proportionate share of the funds, that FPCM is also recommending to clients, which may be funds, banks, or other thrift institutions.
Item 10	<p>Generally, FPCM shall impose a minimum account balance for its investment advisor services. FPCM's minimum investment size varies by fund for investment supervisory services provided to the individual funds. All minimum investment amounts can be identified in the fund Private Placement Memorandum.</p> <p>FPCM shall also impose a minimum account size and fee for other clients. These minimums will be instituted on a case-by-case basis and subject to negotiation.</p>
Item 11.A	<p>Reviews:</p> <p>The Firm will review the client's account(s) quarterly. The Designated Principal or his/her designee shall review the client accounts for best execution, suitability, and service.</p> <p>Every quarter, transaction suitability is reviewed. For fund clients, the Designated Principal will review the performance and cost basis for the client's transactions, comparing executed transactions to the offering memorandum and to the client's investment policy statement in the operating agreement. For non-fund clients, the client's investment objectives are used to review for suitability. Quarterly, transactions are reviewed referencing client's objectives for any transaction that may not fit the client's stated objectives, or FPCM's understanding of the client's objectives will be flagged and reviewed. Additional reviews (daily/monthly) will be made by the Chief Risk Officer/Chief Compliance Officer in regards to other metrics like Value at Risk (VaR) and credit events taking place on the underlying investments.</p> <p>Events that may trigger further client account reviews in addition to the standard quarterly review process may include, but would not be limited to, a notable increase in the volume of requests by the client to effect transactions in his/her account(s), where such transactions may appear to be inconsistent with the client's previously stated investment objectives. Other factors may include requests by the client to liquidate certain securities positions/contracts where such transactions may appear to be inconsistent with the client's previously stated investment objectives.</p> <p>Reviewers:</p> <p>Number of reviewers: 1 Name and title of Designated Principal: Stephen R. Miller, Chief Risk Officer/CCO.</p> <p>Mr. Miller will employ the procedures noted above for the client's account(s) subject to FPCM's investment advisory services.</p>
Item 11.B	Quarterly statements will be provided by the custodian (not by FPCM) of the account identifying the account positions by cost basis, current price, and gains/(losses) for all securities transactions. Upon the client's request, a quarterly account appraisal may be created for the client as well as an annual year-end statement.
Item 12.A	<p>FPCM may exercise discretion over the following areas/items.</p> <ol style="list-style-type: none"> 1) 12.A.(1): The specific securities to be bought or sold on the client's behalf; 2) 12.A.(2): The amount of securities to be bought or sold on the client's behalf; and/or

	<p>3) 12.A.(3): The particular broker or dealer to be used for arranging client securities transactions;</p> <p>FPCM will have general authority to exercise its full discretion on the above named factors without restriction. FPCM shall observe any specific limitations that may be imposed by the client in relation to this discretionary authority. The limits on the discretionary authority on securities and amounts to be bought or sold will be identified in the Private Placement Memorandum and the operating agreement for the fund clients. FPCM being the manager of the fund is restricted to the investment policy statement and the investment objectives of the fund. The limits on the types of securities are to those available under the Private Placement Memorandum and the operating agreement specific to each fund, which is a client. There are no limits on the amounts of such securities purchases.</p> <p>FPCM will review brokers, dealers and banks for their financial wherewithal and ongoing operational strength as part of making a decision on the purchase of investments from such firms. FPCM may operate in its full discretion to select such broker or dealers because there are only select firms in which to purchase investments that are described in the investment policy statements for its fund clients. The value of products, research and services given to FPCM are a factor in that FPCM looks to purchase the investment products that best serve the needs of the funds and FPCM's other clients. FPCM does receive research and services from such brokers, dealers, or banks; however, such factors are negligible in the overall discretionary decision to use such broker, dealer or bank. Research is generally used; however, each client typically is restricted to certain investment products therefore certain specific research or services received may only be viable to a singular client.</p>
Item 12.B	<p>From time to time, FPCM may suggest that clients use specific brokers, dealers, or banks for the purposes of the effecting of securities transactions. For details as to what factors FPCM may consider in selecting such institutions, see below.</p> <p>SECURITIES AND BROKERAGE SERVICES</p> <p>FPCM is not a broker-dealer, but as of Q3-2005 is affiliated with FPCM Securities LLC, a registered broker-dealer.</p> <p>FPCM will use either FPCM Securities LLC, or other unaffiliated firms to solicit investors for the purpose of distributing private placement securities managed by FPCM. Such firms shall generally be broker-dealers or banks that may also maintain registrations that allow such firms to engage in other types of businesses outside of their broker-dealer or banking activities.</p> <p>Any such other firm may act in the capacity as the custodian for the client's account(s). In no case shall FPCM act or attempt to act in the capacity of "custodian" of the client's investment accounts.</p> <p>Factors that FPCM considers in recommending certain custodians to clients may include such entity's financial strength, reputation, execution, pricing, and service. In return for effecting securities transactions through certain broker-dealers/custodians, FPCM or certain of its representatives may receive certain support services that may assist FPCM in its investment decision-making process for all of FPCM's clients.</p> <p>In seeking best execution, the determinative factor is not always the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of broker-dealer or bank services, including factors such as execution capability, commission rates, and responsiveness. Accordingly, although FPCM will seek competitive rates, it may not necessarily obtain the lowest possible commission rates for the client's transactions.</p> <p>FPCM's general policies relative to the execution of the client's securities and brokerage transactions are as follows:</p> <p>Transactions for the client's account generally will be effected independently, unless FPCM can purchase or sell the same securities for several clients at approximately the same time. FPCM may (but is not obligated to) combine or "batch" such orders to obtain best execution,</p>

	<p>to negotiate more favorable transaction rates. To the extent that FPCM elects to aggregate client orders for the purchase or sale of securities, including securities in which FPCM's principal(s) and/or associated person(s) may invest, FPCM shall generally do so in accordance with the parameters set forth in SEC No-Action Letter, <i>SMC Capital, Inc.</i> FPCM shall not receive any additional compensation or remuneration as a result of the aggregation.</p> <p>The client may direct FPCM to use a particular broker, dealer, or bank (subject to FPCM's right to decline and/or terminate the engagement) to execute some or all transactions for the client's account. In such an event, the client will negotiate terms and arrangements for the account with that broker-dealer, and FPCM will not seek better execution services or prices from other broker-dealers or be able to "batch" the client's transactions for execution through other brokers, dealers, or banks with orders for other accounts managed by FPCM. As a result, the client may pay higher commissions or other transaction costs or greater spreads, or receive less favorable net prices, on transactions for the account than would otherwise be the case.</p>
Item 13.A	<p>Consistent with obtaining best execution, transactions for a client's account may be effected through other brokers, dealers, or banks in return for executions, research products and/or services, which assist the Firm in its investment decision-making process. Such research generally will be used to service all of the Firm's clients, but brokerage commissions paid by client may be used to pay for research that is not used in managing the client's account. The account may pay to a broker-dealer or bank a commission greater than another qualified broker-dealer or bank might charge to effect the same transaction where the Firm determines in good faith that the commission is reasonable in relation to the value of the brokerage and research services received.</p> <p>All transactions for clients where such soft dollar transactions will be effected shall be in compliance with Section 28(e) of the Securities Exchange Act of 1934.</p> <p>Certain investment adviser representatives of FPCM, when acting as registered representatives of a broker-dealer, may receive selling compensation from such broker-dealer as a result of the facilitation of certain securities transactions on a client's behalf through such broker-dealer.</p> <p>The above-mentioned arrangements may cause a conflict of interest.</p>
Item 13.B	<p>FPCM may enter into agreements with various independent solicitors or limited partners (collectively "solicitors") that refer investors to private investment funds for which FPCM provides investment supervisory services. FPCM does not charge such investors introduced by solicitors fees or costs greater than the fees or costs such funds charge its other investors who were not introduced by the solicitors. Any such agreements must be handled in accordance with the provisions of Rule 206(4)-3 under the Investment Advisers Act of 1940.
