**ADVISORY SERVICES AND FEES*****INVESTMENT SUPERVISORY SERVICES***

IFC Advisory (hereinafter IFC) provides continuous advice to a client regarding the investment of client funds based on the individual needs of the client. Through personal discussions in which goals and objectives based on a client's particular circumstances are established, IFC develops a client's personal investment policy and creates and manages a portfolio based on that policy. IFC provides this service to individuals, pension and profit sharing plans, trusts, estates, charitable organizations, and corporations. IFC will manage advisory accounts on a discretionary and non-discretionary basis. Account supervision is guided by the stated objectives of the client (i.e., maximum capital appreciation, growth, income, or growth and income).

When appropriate to the needs of the client, IFC may recommend the use of trading (securities sold within 30 days), margin transactions or option writing. Because these investment strategies involve certain additional degrees of risk, they will only be recommended when consistent with the client's stated tolerance for risk.

Please contact Chief Compliance Officer, if you have any questions about this Schedule F narrative. Additional information about IFC is available on the Internet at [www.adviserinfo.sec.gov](http://www.adviserinfo.sec.gov). You can search this site by a unique identifying number, known as a CRD number. The CRD number for IFC is 133810.

Individuals associated with IFC will provide its investment advisory services. These individuals are appropriately licensed, qualified, and authorized to provide advisory services on behalf of the Firm. Such individuals are known as Investment Adviser Representatives (IARs).

Prior to engaging IFC to provide any of the foregoing investment advisory services, the client will be required to enter into one or more written agreements with IFC setting forth the terms and conditions under which SWM shall render its services (collectively the "Agreement").

***PORTFOLIO MANAGEMENT***

IFC also manages investment advisory accounts not involving Investment Supervisory Services. Each portfolio is designed to meet a particular investment goal that IFC has determined is suitable to the client's circumstances. Once the appropriate portfolio has been determined, the portfolio will be continuously managed based on the portfolio's goal, rather than on each client's individual needs. However, each client will have the opportunity to place reasonable restrictions on the types of investments to be held in the portfolio.

For these accounts, IFC will ensure that the following conditions are met and maintained:

- 1) IFC will manage each client's account on the basis of the client's financial situation and investment objectives and any reasonable investment restrictions the client may impose;
- 2) IFC will obtain sufficient client information to be able to provide individualized

**Item 1(D)**  
**(Continued)**

investment advice to the client. At least annually, IFC will contact the client to determine whether there have been any changes in the client's financial situation or investment objectives and whether the client wishes to impose investment restrictions or modify existing restrictions. On a quarterly basis IFC will notify the client in writing to notify IFC if there have been changes in the client's financial situation or investment objectives and whether the client wishes to impose investment restrictions or modify existing restrictions. These quarterly notifications will include the means through which contact shall be made to IFC;

- 3) IFC will be reasonably available to consult with the client;
- 4) Each client is able to impose reasonable investment restrictions on the management of the account;
- 5) Each client will receive a quarterly statement with a description of all account activity; and,
- 6) Each client will retain certain indicia of ownership of the securities and funds in the account, e.g., the ability to withdraw securities, vote securities, among others.

***FINANCIAL PLANNING***

IFC also provides advice in the form of a Financial Plan. Clients purchasing this service will receive a written financial plan, providing the client with a detailed financial plan designed to achieve their stated financial goals and objectives.

In general, the financial plan will address any or all of the following areas of concern:

- PERSONAL: Family records, budgeting, personal liability, estate information and financial goals.

- TAX & CASH FLOW: Income tax and spending analysis and planning for past, current and future years. IFC will illustrate the impact of various investments on a client's current income tax and future tax liability.

- DEATH & DISABILITY: Cash needs at death, income needs of surviving dependents, estate planning and disability income analysis.

- RETIREMENT: Analysis of current strategies and investment plans to help the client achieve his or her retirement goals.

- INVESTMENTS: Analysis of investment alternatives and their effect on a client's portfolio.

IFC gathers required information through in-depth personal interviews. Information gathered includes a client's current financial status, future goals and attitudes towards risk. Related documents supplied by the client are carefully reviewed, including a questionnaire completed by the client, and a written report is prepared. Should a client choose to implement the recommendations contained in the plan, IFC suggests the client work closely with his/her attorney, accountant, insurance agent, and/or stockbroker. Implementation of financial plan recommendations is entirely at the client's discretion.

***CONSULTING***

Clients can also receive investment advice on a more limited basis. This may include advice on only an isolated area(s) of concern such as estate planning, retirement planning, or any other specific topic. IFC also provides specific consultation and administrative services regarding investment and financial concerns of the client. Additionally, IFC provides advice on non-securities matters. Generally, this is in connection with the rendering of estate planning, insurance, and/or annuity advice.

**(Continued)**

Financial plan and/or consulting recommendations are not limited to any specific product or service offered by a broker dealer or insurance company. All recommendations are of a generic nature.

### ***SELECTION AND MONITORING SERVICES***

IFC provides several advisory services separately or in combination. While the primary clients for these services will be pension, profit sharing and 401(k) plans, IFC will also offer these services, where appropriate, to individuals and trusts, estates and charitable organizations. Selection and Monitoring Services are comprised of four distinct services. Clients may choose to use any or all of these services.

#### **Investment Policy Statement Preparation (hereinafter referred to as "IPS"):**

IFC will meet with the client (in person or over the telephone) to determine the client's investment needs and goals. IFC will then prepare a written IPS stating those needs and goals and encompassing a policy under which these goals are to be achieved. The IPS will also list the criteria for selection of investment vehicles and the procedures and timing interval for monitoring of investment performance.

#### **Selection of Investment Vehicles:**

IFC will review various investments, consisting of, but not limited to mutual funds (both index and managed), Exchange Traded Funds, Stocks, Bonds, and Options to determine which of these investments are appropriate to implement the client's IPS. The number of investments to be recommended will be determined by the client, based on the Investment Policy Statement.

#### **Monitoring of Investment Performance:**

Client investments will be monitored continuously based on the procedures and timing intervals delineated in the Investment Policy Statement. Although IFC will not be involved in any way in the purchase or sale of these investments, IFC will supervise the client's portfolio and will make recommendations to the client as market factors and the client's needs dictate.

#### **Employee Communications:**

For pension, profit sharing and 401(k) plan clients wherein there are individual accounts with participants exercising control over assets in their own account ("self-directed plans"), IFC also provides quarterly educational support and investment workshops designed for the Plan participants. The nature of the topics to be covered will be determined by IFC and the client under the guidelines established in ERISA Section 404(c). The educational support and investment workshops will NOT provide Plan participants with individualized, tailored investment advice or individualized, tailored asset allocation recommendations.

### ***FEE SCHEDULE***

#### ***INVESTMENT SUPERVISORY SERVICES/PORTFOLIO MANAGEMENT***

The annual fee for investment supervisory services and/or portfolio management accounts will be charged as a percentage of assets under management generally ranging

**(Continued)**

from 0.40% to 2.00%, depending on the nature and complexity of the client's situation. IFC will quote an exact percentage to each client based on both the nature and total dollar value of that account. IFC requires a minimum annual fee of \$2,000. However, IFC will ensure that this minimum does not exceed 3% of the client's assets per year.

Clients are requested to select one of two fee payment options in IFC's advisory agreement, as detailed below:

If selected by the client, the client will be invoiced in advance at the beginning of each calendar quarter based upon the value (market value or fair market value in the absence of market value, plus any credit balance or minus any debit balance), of the client's account at the end of the previous quarter.

Alternatively, if selected, the client will be invoiced in arrears at the end of each calendar quarter based upon the value (market value or fair market value in the absence of market value, plus any credit balance or minus any debit balance), of the client's account at the end of the previous quarter.

### ***FINANCIAL PLANNING/CONSULTING***

Financial planning and/or consulting fees will be charged in one of two ways:

1. As a fixed fee, typically ranging from \$500 - \$5,000, depending on the nature and complexity of each client's circumstances. 50% of this fee is due upon signing the agreement, with the balance due upon presentation of the work to the client.
2. On an hourly basis, ranging from \$150 - \$250 per hour, depending on the nature and complexity of each client's circumstances. An estimate for total hours will be determined at the start of the advisory relationship. 50% of the estimated fee is due upon signing the advisory agreement, with the balance (based on actual hours) due upon presentation of the work to the client.

### ***SELECTION AND MONITORING SERVICES***

IFC charges a fixed fee for these services, typically ranging from \$5,000 - \$100,000, depending on the nature and complexity of each client's circumstances. IFC's Selection and Monitoring Service fees are payable quarterly as earned.

### ***GENERAL INFORMATION ON FEES***

Negotiability of Fees: In certain circumstances, IFC's fees may be negotiable.

Fee Calculation: The fee charged is calculated as described above and is not charged on the basis of a share of capital gains upon or capital appreciation of the funds or any portion of the funds of an advisory client (Section 205(a)(1) of the Investment Advisers Act of 1940, as amended).

Termination of Advisory Relationship: A client agreement may be canceled at any time, by either party, for any reason upon receipt of 30 days prior written notice. Upon termination of any account, any prepaid, unearned fees will be promptly refunded, and any earned, unpaid fees will be due and payable. The client has the right to terminate an agreement without penalty within five business days after entering into the agreement.

Mutual Fund Fees and Expenses: All fees paid to IFC for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds to their

shareholders. These fees and expenses are described in each fund's prospectus.

These fees will generally include a management fee, other fund expenses, and a possible distribution fee. A client could invest in a mutual fund directly, without the services of IFC. In that case, the client would not receive the services provided by IFC which are designed, among other things, to assist the client in determining which mutual fund or funds are most appropriate to each client's financial condition and objectives.

Accordingly, the client should review both the fees charged by the funds and the fees charged by IFC to fully understand the total amount of fees to be paid by the client and to thereby evaluate the advisory services being provided.

Proxies: As a matter of firm policy, IFC does not vote proxies on behalf of clients. Clients are responsible for voting their own proxies.

Advisory Fees in General: Clients should note that similar advisory services may (or may not) be available from other registered investment advisers for similar or lower fees.

IFC in General: This Schedule F narrative provides clients with information regarding IFC and its advisory services that should be considered before becoming a client of IFC. While these individuals endeavor at all times to put the interest of the clients first as part of IFC's fiduciary duty, clients should be aware that the receipt of additional compensation itself creates a conflict of interest, and may affect the judgment of these

individuals when making recommendations.

The officers and employees of IFC will typically spend up to 10% of their time on these other activities.

**Item 8(C)(1)**

**PARTICIPATION OR INTEREST IN CLIENT TRANSACTIONS**

**Item 9 (B), (D), (E) &  
Miscellaneous**

IFC or individuals associated with the Firm may buy or sell – for their personal account(s) - investment products identical to those recommended to clients. It is the expressed policy of the Adviser that no person employed by the Firm may purchase or sell any security prior to a transaction(s) being implemented for an advisory account, and therefore, preventing such employees from benefiting from transactions placed on behalf of advisory accounts.

**CODE OF ETHICS**

Pursuant to Securities & Exchange Commission Rules and Regulations, as these situations may represent a conflict of interest, IFC has established the following restrictions in order to ensure its fiduciary responsibilities:

- IFC emphasizes the unrestricted right of the client to specify investment objectives, guidelines, and/or conditions on the overall management of their account. IFC's standard investment process begins with reviewing applicable federal and state statutes, investment policy, and permitted investment language provided by the client.
- Associated persons or their immediate family members shall not buy or sell securities for their personal portfolio(s) where their decision is derived in whole or in part, by reason of the associated person's employment, unless the information is also available to the investing public on reasonable inquiry. No associated person of the Firm shall prefer his or her own interest to that of the advisory client.
- IFC and its associated persons generally may not purchase and sell securities being considered for, or held by client accounts without pre-clearance of the Firm's Compliance Officer. Moreover, investment personnel may be subject to a blackout period from trading in such securities.
- IFC and its employees generally may not participate in private placements or initial public offerings (IPOs) without pre-clearance from the Firm's Compliance Officer.
- The Firm requires that all individuals must act in accordance with all applicable federal and state regulations governing registered investment advisory practices.
- Records will be maintained of all securities bought or sold by the Firm, associated persons of the Firm, and related entities. The Compliance Officer will review these records on a regular basis.
- Any individual not in observance of the above may be subject to termination.

IFC's Code requires Covered Persons to comply with all state and federal securities laws. In addition, Covered Persons are prohibited from defrauding, misleading, or manipulating a client in any way in connection with the purchase or sale of a security. Further, Covered Persons may not favor the interests of one client over another client.

In the course of normal business, Covered Persons may receive confidential information concerning clients and potential clients. The general rule, as discussed in the Code, is that this information should never be communicated to anyone other than financial advisors, assistants, and employees of IFC who need to know, and where appropriate, to the participants involved in a specific transaction.

**Item 10**

**CONDITIONS FOR MANAGING AN ACCOUNT**

As disclosed under Item 1(D), IFC requires a minimum annual fee of \$2,000. However, IFC will ensure that this minimum does not exceed 3% of the client's assets per year.

**Items 12(A)(1) &  
12(A)(2)**

**INVESTMENT DISCRETION**

For discretionary clients, IFC requests that it be provided with written authority to determine which securities and the amounts of securities that are bought or sold.

The discretionary authority of IFC with respect to investment activities and brokerage placement decisions is sometimes, though not usually, limited by the client's objectives and guidelines. In instances where the Adviser has discretionary authority over a client's account, the Adviser will use its best efforts to select a financially responsible broker who will provide the best net execution (price received and commission paid) as well as be able to provide value added services including effective service in clearing and settling the transactions. IFC will not always execute transaction where it can receive the lowest price because it believes that timing and quality of clearing executions are crucial factors in effective portfolio management. While the price may not always be the lowest price, IFC anticipates competitiveness of the commission and fee structure, taking into consideration all factors impacting the execution of the order, including liquidity and amount of capital under management at the broker-dealer.

IFC anticipates that there will be occasions in which portfolio transactions may be executed as a part of concurrent authorizations to purchase or sell securities for more than one account serviced by Adviser. Although such concurrent authorizations could be either advantageous or disadvantageous to any one or more of the particular accounts, they will be effectuated only when Adviser believes that to do so will be in the best interest of the affected accounts. When such concurrent authorizations occur, the objective is to allocate the execution in a manner deemed equitable to the accounts involved. Clients are typically allocated securities with prices averaged on a per-share or per contract bases.

Any limitations on this discretionary authority shall be included in this written authority statement. Clients may change/amend these limitations as required. Such amendments shall be submitted in writing.

**Item 12(B)**
