This brochure provides information about the qualifications and business practices of Thermopolis Partners, LLC. If you have any questions about the contents of this brochure, please contact us at the telephone number and/or e-mail address above. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or any state securities authority.

Thermopolis Partners, LLC is a registered investment advisor. Registration of an investment advisor does not imply any level of skill or training. The verbal and written communications of an investment adviser provide you with information you need to determine whether to hire or retain the advisor.

Additional information about Thermopolis Partners, LLC is also available on the SEC's website at www.adviserinfo.sec.gov.

Thermopolis Partners, LLC

Our previous annual update was February 1, 2013. Following is a summary of the material changes made to Part 2 since that amendment.

Throughout the Part 2A information was added for RAEIF Levered, LP and the Levered Account of which this Fund will be a part.

Item 1 (Cover Sheet):

Updated Philip Treick's e-mail address to: philip@stephens-co.com

Updated the office address to:

Thermopolis Partners, LLC
235 East Broadway, 2nd Floor
Jackson Hole, WY 83001

Item 4: As of December 31, 2013, we have \$12.1 million in discretionary assets under management.

Item 6: We receive incentive allocations for managing the Fund and an incentive fee for managing the Levered Account. We have an incentive to generate more gains in accounts that pay us a higher performance based remuneration. To address this conflict of interest, we will attempt to hold the same securities in all accounts and aggregate all trades when feasible.

Item 10: Mr. Mullin is no longer an investment adviser representative with Marathon Resource Investments LLC.

Item 12: During 2013, we used soft dollars for the following items, all of which fell within the safe harbor:

- Bloomberg - security quotation service
- Brent Cook Research - Geologic resource service
- New York Stock Exchange - security pricing feed
- Behind the Numbers Research - short sale research service
- Weiss Harrington Research - security research service

Item 13 and 16: Philip Treick, Managing Member, James Keller, Member, and Robert Mullin are our current portfolio managers.

ITEM 4: ADVISORY BUSINESS

Who we Are

Thermopolis Partners, LLC (referred to as “we,” “our,” “us,” or “Thermopolis”) has been registered as an investment advisor since March 2005. Our principal owners and officers are Philip W. Treick, Managing Member, James R. Keller, Jr., Member, and Robert W. Mullin, Jr., Member.

Services We Offer

We provide investment services to RAEIF ALPHA, LP and RAEIF Levered, LP, two investment limited partnership (referred to as the “Fund” or “Funds”). In addition, we manage a separately managed account established by a non-affiliated investment advisory firm (the “NAIA”). The assets of RAEIF Levered, LP are fully invested in this separately managed account (the “Levered Account”).

RAEIF Levered, LP capital in the Levered Account will represent 10% of the total investable funds, with the balance (90%) provided by the NAIA. Losses in the Levered Account will initially be allocated to RAEIF Levered, LP’s capital account, and, should the value of that account reach \$0, then to the NAIA’s capital account. While there are net losses in the Levered Account, subject to a high water mark, any gains will be allocated preferentially to offset prior loss allocations, in reverse order of those loss allocations. If there are no prior net losses, gains earned in the Levered Account by the portion of the assets owned by RAEIF Levered, LP will be allocated 100% to RAEIF Levered, LP’s capital account and gains earned in the Levered Account by the portion of the assets owned by the NAIA will be allocated 50% to RAEIF Levered, LP’s capital account and 50% to the NAIA’s capital account. Please refer to the offering documents for RAEIF Levered, LP for additional details.

We specialize in long/short public equity investments. Separately managed accounts are invested using the same guidelines as the pooled accounts.

For the Funds, our investments are tailored to comply with the investment guidelines disclosed in the offering materials for the Funds. Each potential investor in the Fund receives a complete set of offering materials prior to investing in any Fund.

Assets Under Management

As of December 31, 2013, we have \$12.1 million in discretionary assets under management. We do not manage assets on a non-discretionary basis.

ITEM 5: FEES AND COMPENSATION

Fees and Compensation

RAEIF ALPHA, LP

For managing this Fund we receive both an asset-based fee and an incentive allocation. The asset-based fee is 1.5% per year, billed in monthly installments. This fee is billed monthly in advance, based on the value of the assets under management as of the first day of the month. The incentive allocation is calculated as of December 31 each year. When profits for the current period exceed the unrecouped net

losses for prior periods, we will receive an incentive allocation of 20% of the profits generated. Solely for purposes of computing this fee, net profits and net losses include unrealized gains and losses. If you withdraw capital from this Fund, the incentive allocation for the amount withdrawn will be calculated as of the withdrawal date.

For investors who do not meet the minimum requirements to pay an incentive allocation, we will charge an asset-based fee of 3%, with no incentive allocation. This asset-based fee will be billed on the same schedule as disclosed above.

Investors in the Fund may make withdrawals as of the last day of any calendar quarter by giving us 30 days written notice.

RAEIF Levered, LP

We don't receive compensation for the management of RAEIF Levered, LP. Subject to additional terms in the Fund's offering documents, investors may withdraw capital quarterly after a 12 quarter lock-up period.

Levered Account

As mentioned above, RAEIF Levered, LP will quarterly receive 50% of the gains generated by the NAIA's capital account ("Fee Income".) The Fee Income, after deduction of expenses and assets needed for maintaining operating reserves, will be distributed to us and investors in RAEIF Levered, LP. For the management of the account we will receive, in the form of a performance based fee, 30% of the distributions until each investor in RAEIF Levered, LP has received their initial investment in distributions. Thereafter, we will receive 60% of the distributions.

The Levered Account has agreed not to terminate our services in the first year, and provide 45 days written notice prior to termination. The Levered Account may, however terminate the agreement, or withdraw a portion of their assets when the value of RAEIF Levered, LP's capital account fall below certain values, as described in the investment management agreement.

General Disclosures

In order to pay an incentive allocation/fee you must meet certain requirements. Typically our clients and investors meet one of the following criteria:

- Have a net worth (or together with your spouse have a net worth) of at least \$2 million.
- Have at least \$1,000,000 invested with us.

Investors and clients with initial contributions prior to September 19, 2011, may continue to rely on the exemption available at the time of initial investment.

The subscription documents for the Funds and the investment advisory agreement for separately managed accounts provide additional qualifications standards. All incentive allocations/fees will be made in a manner that complies with Rule 205-3 of the Investment Advisers Act of 1940, as amended from time to time.

Incentive allocation/fee arrangements could create an incentive for us to make investments that are riskier or more speculative than would be the case in the absence of the arrangement. In some circumstances, we may receive increased compensation as a result of unrealized appreciation as well as realized gains.

Other Costs Involved

In addition to our advisory fees shown above, expenses associated with making investments on behalf of the Funds will also be incurred. These fees include:

- mutual fund loads (if applicable). These charges are paid to brokers as a form of commission.
- management fees for ETFs and mutual funds. These are fees charged by the managers of the ETF or mutual fund and are a portion of the expenses of the ETF or mutual fund.
- brokerage costs and transaction fees for any securities or fixed income trades. These are generally charged by your custodian and/or executing broker.
- direct research costs such as travel to visit companies and/or investment conferences.

The Levered Account has an established maximum of commission costs that will be borne by the NAIA's capital account. Any commission costs that exceed this maximum, will be allocated to RAEIF Levered, LP's capital account.

Additional information about brokerage costs and services is provided in "Item 12: Brokerage Practices."

ITEM 6: PERFORMANCE-BASED FEES AND SIDE-BY-SIDE MANAGEMENT

We receive incentive allocations for managing the Fund and an incentive fee for managing the Levered Account. We have an incentive to generate more gains in accounts that pay us a higher performance based remuneration. To address this conflict of interest, we will attempt to hold the same securities in all accounts and aggregate all trades when feasible.

ITEM 7: TYPES OF CLIENTS

We provide investment advice to the Funds, which are pooled investment vehicles. The Levered Account was established by a non-affiliated investment advisory firm.

Investors in RAIEF ALPHA, LP are required to make a minimum investment of \$500,000. The minimum required investment in RAEIF Levered, LP is \$100,000. We generally require a minimum investment commitment of \$10,000,000 to manage assets in a separate account. These minimums may be waived at our sole discretion.

ITEM 8: METHODS OF ANALYSIS, INVESTMENT STRATEGIES AND RISK OF LOSS

We primarily use cash on cash return analysis to determine the attractiveness of a given investment. For companies that are more junior or in a rapid growth phase, we determine whether the company is trading at a significant discount to the present value of future net cash flows.

The material risks involved in determining cash on cash returns are varied. We are attempting to predict values that will occur in the future, so upward interest rates volatility is a risk, equity market dislocations which can effect overall liquidity is a risk and items specific to the company and its products such as product demand, competitors, substitution and obsolescence are risks as well. The material risks involved in analyzing junior / fast growing companies include all the above and inadequate cash flow generation which can lead to dilutive equity issuance and or debt burden. Geologic risk is also present in the case of mining and resource extraction companies.

Resource based equities incorporate commodity price risk. Underlying commodity price volatility can be extreme. The source of this volatility is related to a number of factors such as general interest rate policies, currency values, sovereign risk, global GDP growth and inflation expectations.

An investment in RAEIF Levered, LP incorporates all the above factors. In addition, the use of significant leverage will magnify those risks, and investors in this Fund should be prepared for significant volatility and the potential for total loss of capital.

All investments involve different degrees of risk. You should be aware of your risk tolerance level and financial situations at all times. We cannot guarantee the successful performance of an investment and we are expressly prohibited from guaranteeing accounts against losses arising from market conditions.

ITEM 9: DISCIPLINARY INFORMATION

Registered investment advisors are required to disclose any material facts regarding any legal or disciplinary actions that would be material to your evaluation of the investment advisor and each investment advisor representative providing investment advice to you. We have no information of this type to report.

ITEM 10: OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS

As a registered investment advisor, we are required to disclose when we, or any of our principals, have any other financial industry affiliations.

Philip Treick is also a Managing Member of RAIF, LLC, a registered investment advisor of which Mr. Keller and Mr. Mullin are co-members. RAIF, LLC acts as the general partner and investment advisor to RAEIF, L.P., a pooled investment vehicle. Thermopolis has no arrangement under which it or a related person recommends or selects other investment advisers for its clients and receives compensation directly or indirectly from those advisers that creates a material conflict of interest with any Thermopolis client.

ITEM 11: CODE OF ETHICS, PARTICIPATION OR INTEREST IN CLIENT TRANSACTIONS AND PERSONAL TRADING

Code of Ethics

We have adopted a set of enforceable guidelines (Code of Ethics), which describes unacceptable conduct by Thermopolis and our associated persons. Summarized, this Code of Ethics prohibits us from:

- placing our interests before yours,

- using non public information gathered when providing services to you for our own gains, or
- engaging in any act, practice or course of business that is, or might be considered, fraudulent, deceptive, manipulative, or in violation of any applicable law, rule or regulation of a governmental agency.

Please contact us if you would like to receive a full copy of this Code of Ethics.

Personal Trading for Associated Persons

We may buy or sell some of same securities for you that we already hold in our personal account. We may also buy for our personal account some of the same securities that you already hold in your account. Our associated persons may also invest directly in the Fund. It is our policy not to permit our associated persons (or their immediate relatives) to trade in a way that takes advantage of price movements caused by your transactions.

We may restrict trading for a particular security for our accounts or those of our associated person if there is a pending trade in that security in a client account. Trades for our accounts (and those of our associated persons) will be placed at least one business day after client trades have been completed. We may receive a better or worse price than that received by the client.

Thermopolis and our associated persons may purchase or sell specific securities for their own account based on personal investment considerations without regard to whether the purchase or sale of such security is appropriate for clients.

All persons associated with us are required to report all personal securities transactions to us quarterly.

We are the general partner of, and investment advisor to, the Fund. We do not expect to be engaged to advise investors as to the appropriateness of investing in the Fund, and we will not receive any compensation for doing so, or for selling interests in the Fund.

ITEM 12: BROKERAGE PRACTICES

Selection of Brokers

In selecting brokers to execute portfolio transactions, we make a good faith judgment of about which broker would be appropriate. We take into consideration not only the available prices and rates of brokerage commissions, but also other relevant factors that may include (without limitation):

- the execution capabilities of the broker/dealer,
- research (including economic forecasts, investment strategy advice, fundamental and technical advice on individual securities, valuation advice and market analysis),
- custodial and other services provided by the broker/dealer that are expected to enhance our general portfolio management capabilities,
- the size of the transaction,
- the difficulty of execution,

- the operational facilities of the broker-dealers involved,
- the risk in positioning a block of securities, and
- the quality of the overall brokerage and research services provided by the broker/dealer.

When we select the broker/dealer for a transaction, we may cause you and/or the Fund to pay a higher commission for effecting a transaction than another broker/dealer would have charged for effecting that transaction. We do this if we determine in good faith that the amount of the commission is reasonable in relation to the value of the brokerage and research services provided by the broker/dealer. The determination is viewed in terms of either the particular transaction or our overall responsibilities with respect to you and the Fund.

Aggregation of Orders

There are occasions on which portfolio transactions will be executed as part of concurrent authorizations to purchase or sell the same security for the Fund, a separately managed account and/or one or more of our associated persons.

We may choose to block (aggregate) trades for your account with those of other client accounts (including the Fund). When we place a block trade, all participants included in the block receive the same price per share on the trade. The price is calculated by averaging the price of all of the shares traded. Due to the averaging of price over all of the participating accounts, aggregated trades could be either advantageous or disadvantageous. Commission costs are not averaged. You will pay the same commission whether your trade is placed as part of a block or on an individual basis. The objective of the aggregated orders will be to allocate the executions in a manner that is deemed equitable to the accounts involved.

We always aggregate trades amongst portfolios with the same strategy.

Soft Dollars

General Information

We have a fiduciary duty to our clients to obtain best execution, on an overall basis, for any securities transactions. When determining whether we have obtained best execution, we rely on Section 28(e) of the Securities Exchange Act of 1934, as amended (the “Safe Harbor”). A safe harbor is a provision of a statute or a regulation that reduces or eliminates a party's liability on the grounds that the party performed its actions in good faith. Legislators include safe-harbor provisions to protect legitimate or excusable violations.

This Safe Harbor is provided to an investment advisor like us that has “investment discretion” over client accounts. It provides us protection against certain state and federal breach of fiduciary obligation claims (including ERISA claims) because we, the advisor, caused a client to pay more than the lowest available commission when executing a securities trade in exchange for receiving investment research services and products which helped us make investment decisions of benefit to our clients. To rely on the Safe Harbor provision, we must determine in good faith that the amount of the commissions paid is reasonable in relation to the value of the research services we have received. We take into account not only the costs for a specific transaction but also our overall responsibility to you. When we cause an account to pay more than the lowest available commission to a broker/dealer in return for research products and services, these payments are commonly referred to as “soft dollar” benefits. The broker/dealer tracks the soft dollar

benefits generated to be used on our behalf. Not all trades generate soft dollar benefits, and we try to limit “soft dollar” trades whenever preferable.

For purposes of the Safe Harbor, “research services” means “advice,” “analyses,” and “reports” which meet the following criteria:

- The research is related to the market for securities, such as trade analytics (including analytics available through order management systems) and advice on market color and execution strategies; or
- The research constitutes market, financial, economic or similar data.

For the purposes of the Safe Harbor, “brokerage services” are those products and services that relate to the execution of a trade from the point at which the investment manager communicates with the broker-dealer for the purpose of transmitting an order for execution, through the point at which funds or securities are delivered or credited to an account under our management.

We may also use soft dollars generated by trades for your account to acquire services and products that provide benefits to us that may not qualify as research and/or brokerage services, or to pay expenses otherwise payable by us. Additionally, we may or may not use other clients’ soft dollars to pay such expenses and, if we do, such use may not be directly proportionate to the benefits to other clients. Payments of soft dollars outside the Safe Harbor do not necessarily involve a breach of fiduciary duty.

In the levered account, we have the authority to generate soft dollar benefits. When commissions exceed a set maximum for the NAIA account, additional commissions will be allocated to RAEIF Levered, LP’s capital account.

See section entitled “How We Use Soft Dollars” for additional details.

Prime Brokerage

We obtain certain services for RAEIF ALPHA, LP, including such services as custodial, recordkeeping, clearing and related services, through what is known as a “prime brokerage” relationship. Under this relationship, a single brokerage firm that we generally select provides the following services:

- maintain custody of the Fund’s assets (either directly or through clearing firms),
- provide margin credit,
- locate securities to borrow to facilitate short sales, and
- provide related services, but allows the Fund to use other brokers to execute transactions.

This relationship allows us to seek valuable research and to compare execution quality and commission rates, while maintaining only one custodial relationship. By using a brokerage firm, we also may avoid paying custodial fees that banks charge other institutional investors. The prime broker receives interest on credit balances, margin borrowings, stock loans and brokerage commissions as compensation.

Under this arrangement, the prime broker, among other things:

- arranges for the delivery of securities bought, sold, borrowed and lent,

- makes and receives payments for securities,
- maintains custody of cash and securities, and
- provides detailed trading, portfolio and related reports.

RAEIF ALPHA, LP's obligations to the prime broker (and its affiliates) may be secured by way of a first priority perfected security interest over all of the Fund's assets held in custody. The prime broker (and its affiliates) may transfer to themselves all rights, title and interest in and to those assets as collateral and may deal with, lend, dispose of, pledge or otherwise use all such collateral for their own purposes.

How We Use Soft Dollars

During 2013, we used soft dollars for the following items, all of which fell within the safe harbor:

- Bloomberg - security quotation service
- Brent Cook Research - Geologic resource service
- New York Stock Exchange - security pricing feed
- Behind the Numbers Research - short sale research service
- Weiss Harrington Research - security research service

Soft Dollar Procedures

During our last fiscal year, ended December 31, 2013 we adhered to the following directives before implementing trades through a soft dollar broker.

When directing a soft dollar trade to our soft dollar broker, we first determine if the security can be executed in a manner that is or very nearly approaches best execution. Our soft dollar execution is examined on a trade by trade basis for price and volume metrics. Instances where a security cannot be bought or sold in a best execution manner are not considered for soft dollar execution. This can occur in international securities, and thinly traded securities where a separate broker dealer may have overwhelming market share of a given stocks trading volume.

A broker/dealer with whom we have a soft dollar arrangement may establish "credits" relating to brokerage commissions paid in the past that may be used to pay, or reimburse the broker/dealer for research or other specified expenses. In other cases, a broker/dealer may provide or pay for a service or product and suggest a higher "commission" level for future business to fully compensate the broker/dealer.

Our actual transactional business with such a broker/dealer may be less than the suggested commission level but can—and likely will—exceed that level. This may be in part because our investment activities generate aggregate commissions in excess of the aggregate suggestions from all broker/dealers providing services and products. It may also be in part because those broker/dealers may also provide superior execution and may therefore be the most appropriate for particular transactions. We will not exclude broker/dealers from transaction business simply because they have not provided research or other services.

We believe the above procedures are consistent with the requirements of the Safe Harbor to the extent the services we acquire otherwise qualify as research or brokerage services. Transactions effected on a

principal basis, as most transactions with market-makers in over-the-counter securities are, with a mark-up or mark-down paid to the dealer, do not fall within the Safe Harbor.

ITEM 13: REVIEW OF ACCOUNTS

For all the accounts we manage, Philip Treick, Managing Member, James Keller, Member, and Robert Mullin, Portfolio Manager, perform daily reviews of the holdings. Additional reviews are performed to confirm compliance with our investment strategy on a regular basis.

Individual companies are first reviewed for incremental news items on a daily basis. This is followed by a review their respective percentage of the portfolio and trailing performance from our cost basis.

Investors in the Funds and our separately managed account client receive a monthly one page summary of monthly net returns as computed by our Fund Administrator ALPS/Price Meadows and investment weighting by geography and industry. In addition, investors in the Funds receive a quarterly investment letter.

ITEM 14: CLIENT REFERRALS AND OTHER COMPENSATION

We may also engage solicitors to provide client or investor referrals. We have an arrangement in place to pay a solicitor, a broker dealer registered with FINRA, the SEC, and a number of states, 35% of the management fees and 35% of the performance allocation we earn for managing the capital account for the investor that was referred. If you are referred by a solicitor, this practice will be disclosed in writing and we will comply with the requirements of Rule 206(4)-3, under the Investment Advisers Act of 1940, as amended, and any similar state rule or statute.

ITEM 15: CUSTODY

As the general partner for the Fund, we have custody of the Fund's assets. In order to comply with the regulatory requirements, we provide all investors in the Fund with audited financials. The audited financial statements are sent to investors within 120 days of the Fund's fiscal year-end.

When you give us authority to deduct our fees directly from your separately managed account, we have custody of those assets. In order to avoid additional regulatory requirements in these cases, we follow the procedures outlined in "Item 5: Fees and Compensation." You will also receive quarterly statements directly from custodian of the account that details all transactions in the account.

ITEM 16: INVESTMENT DISCRETION

We manage the Funds and Levered Account on a discretionary basis and do not allow for any limitations to be placed on our investment authority for the Funds. Our investment philosophy is summarized above, and more completely described in the offering materials for each Fund. In order to invest in a Fund, you must:

- Review the offering materials we provide. This Part 2A and the Part 2Bs for Philip Treick, James Keller, Jr. and Robert Mullin are included with the offering materials.

- Sign a copy of the limited partnership agreement for the Fund.
- Complete subscription documents for the Fund. These provide information about your qualifications to invest in the Fund.

As one of the conditions of managing a separately managed account, you are required to provide discretionary authority for us to manage your assets. Discretionary authority means that you are giving us a limited power of attorney to place trades on your behalf. This limited power of attorney does not allow us to withdraw money from your account, other than advisory fees if you agree to give us that authority.

You grant us discretionary authority by completing the following items:

- Sign a contract with us that provides a limited power of attorney for us to place trades on your behalf. Any limitations to the trading authorization will be added to this agreement.
- Provide us with discretionary authority on the new account forms that are submitted to the broker/dealer acting as custodian for your account(s).

All accounts are managed using the investment strategy described in the “Methods of Analysis, Investment Strategies and Risk of Loss” section above. We do not allow clients to limit investments we make that fall within the parameters of the investment strategy described.

ITEM 17: VOTING CLIENT SECURITIES

As a matter of policy and as a fiduciary to our clients, we have responsibility for voting proxies for your portfolio securities consistent with your best economic interests. We maintain policies and procedures as to the handling, research, voting and reporting of proxy voting and make appropriate disclosures about our proxy policies and practices. Our policy and practice includes the responsibility to monitor corporate actions, receive and vote client proxies and disclose any potential conflicts of interest as well as making information available to clients about the voting of proxies for their portfolio securities and maintaining relevant and required records. You may not provide direction regarding any particular proxy solicitation.

You may provide authorization for us to vote your proxies as described above for your separately managed account(s). You may elect to retain the authority to vote the proxies yourself. If you elect to retain the authority to vote proxies, we will not provide guidance regarding proxy issues.

You may request a copy of our Proxy Policies and Procedures and/or information about how a proxy was voted at any time.

ITEM 18: FINANCIAL INFORMATION

We do not charge or solicit pre-payment of more than \$1,200 in fees per client six months or more in advance. We have never filed for bankruptcy and are not aware of any financial conditions that are reasonably likely to impair our ability to meet our contractual obligations to clients.
