Item 2: Material Changes

On December 30th 2011, Aspire Capital Management Inc. (a holding company owned by Rajiv Dixit & Gina Griffo) , acquired all the membership interest in Ralph Parks Investment Group LLC from the estate of Ralph Parks.

Effective January 1st 2012, Gina Griffo will continue in her role as Chief Executive Officer and Rajiv Dixit will serve the firm as Chief Investment Officer.

Ralph Parks Investment Group LLC will continue to operate as Parks Capital and all legal and financial obligations of Ralph Parks Investment Group LLC will continue.

In the past the Advisor may enter into an arrangements from to time to time and with clients whereby the Advisor would agree to reduce fees when clients referred other clients to the Advisor. The Adviser does not rebate client fee in lieu of referrals.

Item 4: Advisory Business

Parks Capital is a S.E.C registered investment advisor established in 2005. The firm provides the following wrap fee advisory services for its clients.

Managed Discretionary Fusion portfolio program. Under this program the firm uses discretionary authority granted by the client to buy and sell equity investments suitable to achieve client's long term capital appreciation goals. Parks Capital seeks to provide its clients with a momentum based technical analysis strategy.

"The Balanced Portfolio" stated in March of 2010, In this program Parks Capital provides advisory services for client accounts on a non-discretionary basis. Under this program, customized portfolios are created for clients based on the individual income and growth needs.

Ralph Parks Investment Group LLC. (d.b.a Parks Capital) is a single member LLC incorporated in New York State. On December 30th 2011 Aspire Capital Management Inc. acquired the membership share. Aspire Capital Management Inc. is owned by Gina Griffo & Rajiv Dixit.

As of 12/31/2011 the firm has 83 Discretionary accounts with an asset size of \$5,312,117.00 and 187 Non-discretionary accounts with an asset size of \$20,418,813.00.

Parks Capital charges its clients an asset based fee model that includes all trading, custody, operational and advisory charges for the account. This fee is deducted by its custodian Pershing LLC. on a quarterly basis. In addition to this quarterly fee, some client account may be charged a \$2.00 per month performance reporting fee that is paid directly to Pershing for the performance reporting services.

Item 5: Fees and Compensation

The Advisory client may participate in one or more of the Adviser advisory services. The scope of such services are determined at the time such services are requested. Services are subject to the provisions of the respective agreements, including the provisions relating to separate payment of fees and the limitations of Adviser's duties and liabilities.

Fees are automatically deducted from the Client's account on a quarterly basis, in advance. Clients who terminate during the quarter will receive a pro-rata reimbursement for pre-paid fees at the time of account closing.

Typically, the client is charged a single quarterly fee which includes the Adviser's advisory, clearing and custody fee as well as the cost of all transactions executed through Excel Securities & Associates, Inc., Member FINRA, SIPC. The Adviser uses the clearing and custody services of Pershing, a member of the New York Stock Exchange and SIPC, for safekeeping assets and Excel Securities for execution of securities transactions for its clients.

Fees are automatically deducted from the Client's account on a quarterly basis, in advance by its custodian Pershing LLC. Fees are calculated as an annual percentage of

assets based on the value of the account on the last day of the prior quarter. They are billed on a prorated basis from inception of the account for the remainder of the calendar quarter and quarterly in advance thereafter. Fees will be adjusted for significant contributions and withdrawals during the quarter. Excel Securities collects fees and pays the Adviser its portion.

The schedule below reflects fees charged by Pershing LLC. on behalf of the Adviser. Subsequent to Excel Securities deducting their own fees and other third party payments (which total approximately 45 b.p.), Excel Securities remits the balance to the Adviser. For example if the fee is 1.50% the remaining 1.05% is paid to Parks Capital for advisory management services.

The blended fee schedule for All-Cap Diversified Equity Growth Portfolio- A.K.A. "Fusion" is:

- 3.00% Fee for Managed Growth Portfolio Under \$500,000
- 2.50% Fee for Managed Growth Portfolio From 500,000 To \$1 Million
- 2.00% Fee for Managed Growth Portfolio Over \$1 Million

The fee schedule for Balanced Portfolio is:

- 1.50% Flat Fee – No minimum

Clients who elect to have all assets managed by the Adviser are charged:

- 1.50% Flat Fee regardless of the product(s) chosen.

There may be situations when a mutual fund or other vehicle will be used to fill a specific asset class. Mutual funds, or other vehicles that may be used in the clients account, may have charges and expenses that are imposed independent of the Adviser and may include investment management administrative and transaction expenses. Therefore, in cases where mutual funds or other vehicles are used, the client may be charged the underlying management fee for these mutual funds or other vehicles. These are explained fully in the prospectuses or other disclosure documents that the custodian delivers to clients.

Certain Adviser employees may also act as broker-dealer representatives through Excel Securities. Under the supervision of Excel Securities Parks Capital's registered brokers may execute non discretionary trades and receive commission based compensation through Excel Securities. Advisory fees are reduced to offset any mark up or fees received by representatives on a client advisory account.

Item 6: Performance-Based Fees and Side-By-Side Management

Parks Capital does not charge a performance-based fee or engage in side-by-side management that is, fees based on a share of capital gains on or capital appreciation of the assets of a client (such as a client that is a hedge fund or other pooled investment vehicle). Accounts are not charged another type of fee, such as an hourly or flat fee or an asset-based fee.

Item 7: Types of Clients

Parks Capital is proud to offer its services to a diverse range of clients. Our clients include high net worth individuals, retirement accounts, charitable trusts, pension & profit sharing plans for small size companies.

While we focus more on the quality of our client base as opposed to their account size, we do have to maintain a minimum opening account size of \$500,000 to make our services effective for the client. On occasion there may be certain circumstances where the minimum account size may be waived.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

All-Cap Diversified Equity Growth Portfolio - A.K.A. 'Fusion'

This strategy is designed for the investor who needs exposure to an all cap growth equity portfolio. The model fusion portfolio usually has a high beta performance and thus requires the investor to have a moderate to aggressive risk profile. Investors should have a minimum of 3-5 years of investment time horizon. This strategy involves a high turnover ratio which could lead to inefficient returns and higher taxes.

The Fusion portfolio investment strategy focuses on the macro and micro analysis of U.S. financial markets. The Fusion portfolio is available only on a discretionary account basis. The investment process in this portfolio can be best described as a two step process.

Step 1: Macro Market Analysis - In this step the adviser determines the macro direction of the equity markets in the United States. Only if the macro direction test is positive i.e. adviser believes the current market trend is moving upwards, the investment process moves to the next step. Otherwise all assets in the portfolio remain in passive investment until the above scenario is attained.

Step 2 : Micro Market Analysis: - Once it is determined that the overall market trend is positive, the adviser uses an advanced technical configuration to determine what would be the best possible investment opportunity available in the market at that given time. Such strategies are selected from a group of 3,000 - 4,000 pre selected U.S. equity securities. Careful consideration is made towards reaching the goals of adequate diversification, liquidity and volume.

Investment Time Horizon : 3 - 5 Years

Risk Profile : Moderate - Aggressive

Tax Efficiency : Low

Balanced Portfolio

This strategy is designed for the investor who has a long term objective in income and or growth. Client individual needs are analyzed. Each portfolio is custom designed to meet client individual investment objectives based on their financial profile. Investments are made either on non-discretionary basis as elected by the client. Investments in this type of account include but are not limited to stocks, mutual funds, exchange traded funds,

bonds, preferred stocks and certificate of deposits. The Adviser conducts periodic reviews to ensure goals of adequate diversification, liquidity and income are being achieved.

Investment Time Horizon : Based on individual needs

Risk Profile : Based on individual needs

Tax Efficiency : Based on individual needs

Item 9: Disciplinary Information

Parks Capital has had no legal or disciplinary events to disclose that are material to a client's or prospective client's evaluation of the advisory business or the integrity of management.

Item 10: Other Financial Industry Activities and Affiliations

Certain Adviser employees act as broker-dealer representatives through Excel Securities. Under the supervision of Excel Securities the Adviser registered brokers may execute non-discretionary trades and receive commission based compensation through Excel Securities. (Any commission payments received are included in the calculation of the advisory fee for the client's account.)

Rajiv Dixit is the Chief Investment Officer of Parks Capital and as such manages investment strategy for the All Cap Diversified Equity Portfolio (Fusion) and The Balanced Portfolio.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

The Adviser's policy is to consider the clients interest before personal interests. Employees of the Adviser may execute transactions in their personal accounts in the same securities that are being executed in client accounts as long as there is not a perceived or potential conflict of interest. The Adviser has adopted a Code of Ethics and Personal Trading Policy in compliance with Investment Advisers Act rule 204A-1. The Adviser requires all associated persons to adhere to the highest ethical standards; placing client interest before personal interest. The Adviser requires access persons to report initial and annual holdings reports, quarterly transaction reports, and to pre-clear transactions in IPO's and private placements. In addition, the Adviser has outlined the sanctions for failing to comply with the Adviser's Policies and Procedures. The Code of Ethics is available upon request.

Parks Capital has adopted the following procedures:

- Employees are to identify any personal investment account and any accounts in which the employee has beneficial interest, including any accounts for the immediate family and household member, upon hire, annually thereafter and upon opening or closing any account(s).
- Initial Holdings reports must be submitted to the CCO.
- Annual Holdings reports must be subsequently submitted to the CCO.
- Personal investments in initial public offerings and limited offerings by access persons will be required to be pre-cleared.
- Employees are only permitted to trade subsequent to client orders being fully completed and evidenced by a time-stamp (unless employees are trading through a block traded with client accounts).
- All personal transaction reports are delivered to the CCO within 10 days following the quarter end. If any person opens a new account or trades outside of the accounts previously disclosed to the CCO, the advisory person must report the account immediately to the CCO.
- All personal securities transactions are covered except transactions in direct obligations of the Government of the United States, broker's acceptances, bank certificates of deposit, commercial paper and high quality short-term debt instruments, or shares issued by non-proprietary registered open-end investment companies managed by another adviser.
- All supervised persons will be required to promptly report any violations of the adviser's code of ethics to the CCO.
- The review officer will review all employees' reports of personal securities transactions for compliance with the firm's policies, including the Insider Trading Policy, regulatory requirements and the firm's fiduciary duty to its clients, among other things.

Item 12: Brokerage Practices

The Adviser's clients will generally use Excel Securities. The Adviser strongly recommends this because they are the broker dealer through which the Adviser executes transactions; allocating positions on an average price and performance reporting are all consistent for its clients. Clients choosing this broker dealer will typically instruct the firm to direct portfolio transactions through Excel at a rate agreed to between the parties, or as set forth in a wrap fee arrangement.

Clients are free to choose or change broker dealers, provided that the chosen broker dealer can provide adequate services as determined by the Adviser. In the event such brokerage cannot provide such services, to be determined by Adviser, Adviser may be unable to accept management of the portfolio. A client choosing another broker dealer to direct brokerage transactions is responsible for negotiating fees or commissions with that broker dealer, unless Adviser has a wrap fee arrangement with such broker dealer. The client is responsible to independently determine whether the commissions charged or execution effected is done at rates or prices that are better than could be obtained had Adviser directed the trade. In such circumstances, the client will receive trade

confirmations directly from the designated broker (or its clearing firm) and pay brokerage commissions in accordance with the designated broker's schedule of rates or whatever arrangement the client has negotiated.

The Adviser does not engage in cross trading, principal trading or in accepting soft dollar arrangements including research.

The advisory fee charged to the client is not affected by the use of a third party in connection with the client's account(s), and the client will not be assessed any additional fees for the use of such services by the Adviser. If the services of a third party are used in connection with the client's account, the structure of the arrangement and the compensation paid to the third party will be fully disclosed to the client pursuant to Rule 206(4) of the Investment Advisers Act of 1940 and all subsequent amendments thereto.

Item 13: Review of Accounts

The Adviser reviews accounts for performance on a portfolio level monthly and reviews securities held in the portfolios weekly. Recommendations are documented and implemented by a principal of the firm. Suitability reviews are offered to clients on a Bi-Annual basis; Investment performance reports, provided by Pershing, are reviewed by the principals of the firm upon receipt and with the client periodically upon request.

Pershing, as clearing agent, has custody of the assets and transmits trade confirmations to the client, Excel Securities, and the Adviser for all transactions executed, monthly statements for each month in which there is activity, and statements of securities held in custody at least quarterly to clients. Pershing provides the advisor with investment performance summaries for the client accounts which are available to the client upon request..”

The Adviser has full discretion over trading in client 'Fusion' accounts. All other accounts are on a non-discretionary basis. Under the supervision of Excel Securities the Adviser's registered brokers may execute non-discretionary trades and receive commission based compensation through Excel Securities for brokerage accounts.

Item 14: Client Referrals and Other Compensation

The advisory fee charged to the client is not affected by the use of a third party in connection with the client's account(s), and the client will not be assessed any additional fees for the use of such services by the Adviser. If the services of a third party are used in connection with the client's account, the structure of the arrangement and the compensation paid to the third party will be fully disclosed to the client pursuant to Rule 206(4) of the Investment Advisers Act of 1940.

Item 15: Custody

The Adviser uses the clearing and custody services of Pershing, a member of the New York Stock Exchange and SIPC, for safekeeping assets and Excel Securities for execution of securities transactions for its clients.

Pershing, as clearing agent, has custody of the assets and transmits trade confirmations to the client, Excel Securities, and the Adviser for all transactions executed, monthly statements for each month in which there is activity, and statements of securities held in custody at least quarterly to clients.

Item 16: Investment Discretion

The Adviser has full discretion over trading in client 'Fusion' accounts. Under the supervision of Excel Securities the Adviser's registered brokers may execute non-discretionary trades and receive commission based compensation through Excel Securities for brokerage accounts..

Parks Capital only accepts accounts when it is given specific trading authorization. The firm accepts certain limitations on such discretion, for example, investment restrictions or prohibitions as determined by individual clients. These limitations will be agreed upon at the outset of the relationship and are subject to change, with notice from the client. The client is requested to verify or change any restrictions annually in writing. Client restrictions may include specific securities or sectors or maintenance of certain cash amounts. Clients are required to sign a Discretionary Investment Management Agreement authorizing Parks Capital to assume discretionary authority

Item 17: Voting Client Securities

The Adviser's exercises proxy votes on behalf of its discretionary clients. Clients may request a copy of the Adviser's proxy voting policies and procedures. As a matter of policy, the Adviser monitors corporate actions, receives and votes client proxies and discloses any potential conflicts of interest, voting proxies for portfolio securities consistent with the best economic interests of its clients. Clients may request a copy of the proxy voting records.

Item 18: Financial Information

Parks Capital does not have custody of client funds or securities, or require or solicit prepayment of more than \$1,200 in fees per client, six months or more in advance.

Advisor knows of no financial condition that is reasonably likely to impair its ability to meet contractual commitments to clients.

Parks Capital has not been the subject of a bankruptcy petition at any time during the past ten years.
