Item 4 Advisory Business

Montgomery Capital Advisors is an independent fee-only registered investment advisory firm specializing in discretionary portfolio management for investors seeking private investment counsel. We are not a volume business, and we have no desire to be one. We prefer to focus our attention on a select number of clients and their portfolios, enabling us to develop personalized investment strategies for each client. Our goal is not only to be the manager of our client's financial assets, but also to develop solutions to help our clients reach their financial goals.

This brochure provides information about the qualifications and business practices of Montgomery Capital Advisors, LLC (hereinafter "Montgomery Capital"). Please contact Mark J. Montgomery, President of Montgomery Capital, if you have any questions about the contents of this brochure. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any State securities authority. The CRD number for Montgomery Capital is 138148.

Montgomery Capital provides Investment Supervisory Services, defined as giving continuous advice to a client or making investments for a client based on the individual needs of the client. Through personal discussions in which goals and objectives based on a client's particular circumstances are established, Montgomery Capital develops a client's personal investment policy and creates and manages a portfolio based on that policy. Montgomery Capital provides this service to individuals, pension and profit sharing plans, trusts, estates, charitable organizations and corporations. Montgomery Capital will manage advisory accounts on a discretionary and non-discretionary basis. Account supervision is guided by the stated objectives of the client. Montgomery Capital will create a portfolio consisting of one or all of the following: individual equities, bonds, corporate debt securities, municipal securities, commercial paper, warrants, certificates of deposit, other investment products, no-load, load-waived and front-load mutual funds, and exchange traded funds. Montgomery Capital will allocate the client's assets among various investments taking into consideration the overall management style selected by the client. The mutual funds will be selected on the basis of any or all of the following criteria: the fund's performance history; the industry sector in which the fund invests; the track record of the fund's manager; the fund's investment objectives; the fund's management style and philosophy; and the fund's management fee structure. Portfolio weighting between funds and market sectors will be determined by each client's individual needs and circumstances. Clients will have the opportunity to place reasonable restrictions on the types of investments which will be made on the client's behalf. Clients will retain individual ownership of all securities.

Item 5 Fees and Compensation

Montgomery Capital is an independent fee-only registered investment advisory firm, which means fees paid by clients are the only source of compensation. We do not sell any products and we do not receive any commissions. Our sole fiduciary responsibility is to the client.

The annual fee for portfolio management services will be charged as a percentage of assets under management, according to the following schedule:

Assets under management Annual Fee (%)

\$0 to \$750,000 1.5%

\$750,000 to \$5,000,000 1.0%

\$5,000,000 to \$10,000,000 0.75%

Above \$10,000,000 Negotiable

GENERAL INFORMATION ON FEES & SERVICES

Negotiability of Fees: In certain circumstances, all of Montgomery Capital's fees may be negotiable.

Fee Calculation: The fee charged is calculated as described above and is not charged on the basis of a share of capital gains upon or capital appreciation of the funds or any portion of the funds of an advisory client (Section 205(a)(1) of the Investment Advisers Act of 1940).

Termination of Advisory Relationship: A client agreement may be canceled at any time, by either party, for any reason upon receipt of 30 days prior written notice. Upon termination of any account, any prepaid, unearned fees will be promptly refunded. The client has the right to terminate an agreement without penalty within five business days after entering into the agreement. In the event of withdrawal of funds or the termination of any account, any fees, commissions or other expenses associated with rebalancing or liquidating the account holdings may be assessed to the client's account.

Mutual Fund & ETF Fees: All fees paid to Montgomery Capital for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds and ETFs to their shareholders. These fees and expenses are described in each fund's prospectus. These fees will generally include a management fee, other fund expenses, and a possible distribution fee. If the fund also imposes sales charges, a client may pay an initial or deferred sales charge. A client could invest in mutual funds or ETFs directly, without the services of Montgomery Capital. In that case, the client would not receive the services provided by Montgomery Capital which are designed, among other things, to assist the client in determining which mutual fund or funds are most appropriate to each client's financial condition and objectives. Accordingly, the client should review both the fees charged by the funds and the fees charged by Montgomery Capital to fully understand the total amount of fees to be paid by the client and to thereby evaluate the advisory services being provided.

Item 6 *Performance-Based Fees and Side-By-Side Management*

Montgomery Capital does not charge any Performance-Based Fees and or engage in Side by Side Manangement. (Performance- based fees are based on a share of the capital gaines or capital appreciation of the assets of a client. Side by Side management is when a firm manages a hedge fund "side-by-side with a mutual fund.)
