Item 4- Advisory Business

Quantelligent Solutions, LLC was founded in October 2006 by Janine M. Foreman to provide investment consulting services to jointly trustee, private corporation pension plans, endowment, foundation, not-for-profit, 401(k) and annuity plans. Ms. Foreman has provided a broad range of investment consulting services for over 25 years.

We are an independent investment consulting firm categorized as a limited liability corporation under the laws of New Jersey. Currently, Janine Foreman, CIMA®, President and Managing Member owns 100% of the firm.

The firm is not an affiliate of, nor a subsidiary of another company. Quantelligent Solutions is completely independent and is not affiliated with any investment advisor or broker dealer.

Quantelligent Solutions provides a full complement of investment consulting services on an ongoing basis and special research or projects on an as-needed basis, when requested by clients.

Quantelligent Solutions investment consulting services are mainly comprised of the following:

Investment Policy & Guideline Statement Development & Review:

We will assist clients in the development and/or review of the existing investment guidelines and suggest possible changes and or enhancements throughout the course of our relationship with clients. These policies and guidelines are based on each client's unique circumstances, realistic investment goals, risk tolerance, liquidity requirements, and other pertinent factors. On a continuous basis, we will reevaluate the assumptions and conditions and will propose written alternatives to the formal plan including our rationale for such recommendations.

Generally, with new client relationships, Quantelligent Solutions needs to familiarize ourselves with existing policies and procedures. This requires a review of the Fund's Investment Policies and Procedures and, if necessary, making reasoned recommendations for amendments.

Performance Monitoring and Reporting:

Quantelligent Solutions performs ongoing monitoring and evaluation of client portfolios. On a quarterly basis, Quantelligent Solutions provide the client with a comprehensive investment performance report. The comprehensive report will contain performance analysis and total rates of return for the Fund and each manager by asset class. The quarterly report contains current quarter performance, as well as trailing periods (typically 2, 5, 10 years of historical performance). Quantelligent Solutions will meet with clients, when requested, to discuss such reports which assist the client in fulfilling its fiduciary duties and facilitating its decision-making process.

Asset Allocation Studies and Analysis:

When directed by a client, Quantelligent Solutions will perform an asset allocation study in which the risk/return expectations for one or a series of asset allocation structures are presented to the client who decides which allocation structure to implement. The goal of the analysis is to assist the client in structuring a portfolio designed to achieve the client's risk, return, and liquidity objectives. As part of this process, or separately, we may recommend reallocating assets among existing investment managers and/or asset classes as part of a rebalancing strategy.

Investment Manager Search Assignments and Evaluation:

When directed by a client, Quantelligent Solutions will conduct manager searches for an investment manager/and or custodian bank. We will identify, analyze, and perform comprehensive due diligence on qualified candidates for presentation to the client. Finalists are presented to the client who decides which candidate(s) to retain for the applicable mandate.

Quantelligent Solutions tailors our investment consulting services to the individual needs of our clients in every service that we provide. While the above description details the major activities Quantelligent Solutions engages in, we also provide clients with updates and education on the various issues such as the market environment, asset classes, and investment products. Item 12- Brokerage Practices

Quantelligent Solutions is not a broker dealer. Quantelligent Solutions does not have any soft-dollar arrangements and does not receive any soft-dollar benefits.

Quantelligent Solutions may occasionally present to a client the services of a broker-dealer for a commission recapture program, discounted commission program, and/or transition management. In such situations, we do not receive any monetary or other benefit should a client establish an agreement with a broker-dealer for these services.

Clients who direct their investment managers to use the service of a broker-dealer may not be guaranteed best execution on transactions executed by that broker-dealer. To deal with this issue, should a client retain the services of a broker-dealer for a commission recapture program or discounted commission program, Quantelligent recommends the client inform its investment managers they are not required to execute a specified percentage of client transactions with that broker-dealer only that the client has an agreement with a broker- dealer.

Therefore, the decision whether to execute transactions with a broker-dealer is made by the investment manager not the client. The investment manager, not the client, makes the decision whether the broker-dealer offers best execution and the investment manager is not required to transact with the broker-dealer.

Item 13- Review of Accounts

Quantelligent Solutions reviews client accounts on a regular, monthly, quarterly, semi-annual, or annual basis as established in advance with the client.

Quantelligent Solutions reviews client accounts on, at least, a quarterly basis. Every client portfolio is reviewed for: Performance; asset allocation, allocation of assets among investment managers, style drift, benchmark and peer group comparisons, risk characteristics, investment manager fees, equity turnover and commission costs for separate accounts, cash flow; and other pertinent accounting information.

Each client is sent a written investment performance report on a regular basis as established in advance with the client. Performance reports typically include the information described above as well as other related information. Reports are reviewed by the President of Quantelligent Solutions, prior to the client meeting.

Item 14-Client Referrals and Other Compensation
