This Brochure provides information about the qualifications and business practices of JFS Wealth Advisors, LLC "JFS". If you have any questions about the contents of this Brochure, please contact us at 724-962-3200 or info@jfswa.com. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

JFS Wealth Advisors, LLC is a Registered Investment Advisor. Registration of an Investment Advisor does not imply any level of skill or training. The oral and written communications of an Advisor provide you with information about which you determine to hire or retain an Advisor.

Additional information about JFS Wealth Advisors, LLC is also available on the SEC's website at www.adviserinfo.sec.gov.

Relationships Built on Loyalty and Trust.

Item 2 – Material Changes

On July 28, 2010, the United States Securities and Exchange Commission (SEC) published “Amendments to Form ADV,” which amends the disclosure document that we provide to clients as required by SEC Rules. This Brochure dated March 31, 2011 is a new document prepared according to the SEC’s new requirements and rules. As such, this Document is materially different in structure and requires certain new information that our previous brochure did not require.

In the future, this Item will discuss only specific material changes that are made to the Brochure and provide clients with a summary of such changes. We will also reference the date of our last annual update of our Brochure.

In the past, we have offered or delivered information about our qualification and business practices to clients on at least an annual basis. Pursuant to new SEC Rules, we will ensure that you receive a summary of any material changes to this and subsequent Brochures within 120 days (150 days for this year only) of the close of our business’ fiscal year. We may further provide other ongoing disclosure information about material changes as necessary.

We will further provide you with a new Brochure as necessary based on changes or new information, at any time, without charge.

Currently, our Brochure may be requested by contacting Laura Blaire, Chief Compliance Officer, by phone at 724-962-3200 or 1-877-745-1700 or by email at lblaire@jfswa.com. Our Brochure is also available on our website, www.jfswa.com, also free of charge.

Additional information about JFS Wealth Advisors, LLC is also available via the SEC’s website, www.adviserinfo.sec.gov. The SEC’s website also provides information about any persons affiliated with JFS Wealth Advisors, LLC (JFS) who are registered, or are required to be registered, as investment adviser representatives of JFS.

Item 4 – Advisory Business

JFS Wealth Advisors, LLC (JFS), successor to the firm founded in 1986, is part of the Focus Financial Partners, LLC (Focus) network. As such, JFS is a wholly-owned subsidiary of Focus Operating, LLC, which is a wholly-owned subsidiary of Focus Financial Partners, LLC.

Wealth Management Services (WM)

Wealth Management Services include continuous investment management and personal financial planning.

JFS Wealth Advisors, LLC provides continual advice to a client regarding investment of client funds based on the individual needs of the client. Through personal discussions in which goals and objectives based on a client's particular circumstances are established, JFS develops a Financial Goal Plan and creates and manages a portfolio based on the Plan. JFS will manage advisory accounts on a discretionary or non-discretionary basis. Account supervision is guided by the stated objectives of the client.

A Financial Goal Plan is developed to determine the appropriate investments, investment timeframes, and levels of risk. The Plan is developed as follows:

- Gather client information.
- Consult with the client to determine goals and objectives.
- Review basic financial data, which may include overviews of assets and liabilities, cash flow, tax situation, short-term events, long-term goals, risk management, and estate structures.
- Identify the need for additional professional advice, such as legal, tax, accounting, etc.

A client may decide to complete a Financial Goal Plan in phases rather than complete a full Plan at one time. The typical areas of a Plan are investment planning, retirement planning, cash flow analysis and budgeting, risk assessment and insurance needs analysis, tax planning, estate planning, and education planning.

A client may impose restrictions on the types of securities included in the portfolio (ex. use only socially responsible securities). However, most clients do not impose restrictions nor do we suggest that they do.

The primary custodians used for client accounts are Charles Schwab & Co., Inc., TD Ameritrade Institutional, National Advisors Trust Co., and Fidelity Investments. Client accounts are typically invested in no load mutual funds or Exchange Traded Funds (ETF's) although other securities may be used depending upon the unique needs, circumstances, and risk tolerance of the individual client.

Investment Advisory Services (IAS)

For those individuals who do not wish to engage JFS for the Wealth Management Services referenced above, JFS offers its Investment Advisory Services (IAS) platform.

Under IAS, the client receives services limited to JFS' allocation (and automatic rebalancing) of the client's assets among various mutual funds or ETF's consistent with the client's investment objectives. JFS also provides retirement planning.

JFS remains available to provide personal financial planning and consulting services on a fixed fee basis upon client request.

Financial Planning Services

JFS provides advice on investment planning, retirement planning, risk management planning/insurance needs analysis, tax planning, cash management, estate planning, and education planning. Financial planning services are typically provided in the form of a Financial Goal Plan. While a Financial Goal Plan is typically comprehensive in nature, JFS will focus on specific financial planning topics based on the client's request and unique needs. Specific services are agreed upon in advance. Clients are engaged under a specific engagement letter that details the nature of the services and the fixed fee amount. These engagement letters may be terminated by the client without penalty by giving written notice of termination within five business days of executing a contract for services. The fixed fee is non-negotiable and non-refundable after the five-day grace period and is payable in full upon completion of contracted services.

Tax Preparation Services

JFS offers to provide tax return preparation services to its clients on a fixed fee basis. The fixed price depends upon the professional providing the service and the complexity of the return. Clients are engaged under a specific engagement letter that details the nature of the services and the fixed fee amount. These engagement letters may be terminated by the client without penalty by giving written notice of termination within five business days of executing a contract for services. The fixed fee is non-negotiable and non-refundable after the five-day grace period and is payable in full upon completion of contracted services.

Advisory Services

JFS may provide investment advice as a part of Financial Goal Plans issued to clients. The advice is general in nature and includes guidance on asset allocation strategies and alternatives to achieve strategies. Fees for this service are charged on a fixed fee basis. Clients are engaged under a specific engagement letter that details the nature of the services and the fixed fee amount. These engagement letters may be terminated by the client without penalty by giving written notice of termination within five business days of executing a contract for services. The fixed fee is non-negotiable and non-refundable after the five-day grace period and is payable in full upon completion of contracted services.

Consulting Services

JFS provides other services for clients, as requested, on a fixed price basis. Clients are engaged under a specific engagement letter that details the nature of the services and the fixed fee amount. These engagement letters may be terminated by the client without penalty by giving written notice of termination within five business days of executing a contract for services. The fixed fee is non-negotiable and non-refundable after the five-day grace period and is payable in full upon completion of contracted services.

Business Retirement Plan Consulting Services and Business Retirement Plan Advisory Services

JFS assists retirement plan sponsors with retirement plan design, group and individual employee education and counseling, investment strategy selection, and monitoring. JFS and the plan sponsor share the fiduciary role and serve as "co-fiduciaries." Custodians of retirement plan Trustee accounts and retirement plan participant accounts include Charles Schwab & Co., Inc., TD Ameritrade Institutional, TD Ameritrade Trust Company, and National Advisors Trust Co.

JFS' Business Retirement Plan Consulting Services and Business Retirement Plan Advisory Services are fee-based, and clients are engaged under a specific contract for services. These contracts may be terminated by the client without penalty by giving written notice of termination within five business days of executing a contract for services. After the five-day period, a client may terminate the agreement at any time with 30 days written notice.

Wrap Fee Programs

JFS has clients who participate in wrap fee programs. JFS provides advice through consultations by providing clients access to independent money management firms through the Managed Account Link wrap-fee program (the MAL program) offered by Lockwood Advisors, Inc. (LAI) and the Managed Assets Program (MAP) and Separate Account Exchange (SAE) offered by TD Ameritrade. Lockwood Advisors and TD Ameritrade are both broker-dealers, and neither firm is affiliated with JFS.

Factors JFS considers in choosing independent managers include the client's stated investment objectives, management style, performance, reputation, financial strength, reporting, pricing, and research. Based on this information, the Lead Advisor, with assistance from the Investment Committee, will select from among the independent investment advisers participating in the MAL, MAP, or SAE programs those advisers whose investment objectives and philosophies are consistent with those of the client.

JFS will periodically review and update a client's financial circumstances and investment objectives. When appropriate, JFS may recommend the replacement of one investment manager with another.

LAI will continually monitor the investment manager firms participating in the MAL program. TD Ameritrade will continually monitor the investment manager firms participating in the MAP and SAE programs.

Miscellaneous

Non-Discretionary Service Limitations

Clients who decide to engage JFS on a non-discretionary investment management or advisory basis must be willing to accept that JFS cannot effect any account transactions without obtaining prior written or verbal consent to any such transactions from the client. Accordingly, in the event of a market correction during which the client is unavailable, JFS will be unable to effect any account transactions (as it would for its discretionary clients) without first obtaining the client's written or verbal consent.

Client Obligations

Each client retains the responsibility to promptly notify JFS if there is ever any change in the client's financial situation or investment objectives for the purpose of reviewing, evaluating, and/or revising JFS previous recommendations or services.

When performing requested services, JFS will not be required to verify any information received from the client or from the client's other professionals. JFS is expressly authorized to rely on such information.

Financial Planning and Non-Investment Consulting/Implementation Services

Neither JFS, nor any of its employees, serves as an attorney. Accordingly, none of JFS' services should be viewed as those provided by an attorney.

When requested by a client, JFS may recommend the services of other professionals for the implementation of certain financial planning recommendations or other non-investment implementation purposes (ex. attorneys, accountants, insurance agents/agencies, etc.), including JFS' related licensed insurance entity. Clients are under no obligation to engage the services of any recommended professional. Clients retain absolute discretion over all such implementation decisions and are free to accept or reject any recommendation from JFS.

If any client engages a recommended professional, and a dispute arises afterward relative to that engagement, the client agrees to seek recourse exclusively from and against the engaged professional.

Conflict of Interest

The recommendation by JFS that a client purchase an insurance commission product from JFS' related insurance entity, JFS Risk Management, LLC, presents a conflict of interest. The receipt of commissions by JFS Risk Management, LLC may provide an incentive to recommend insurance products based on commissions to be received rather than on a particular client's need. However, JFS does have a duty at all times to act in the client's best interest.

No client is under any obligation to purchase any insurance commission products from JFS' related insurance entity. Clients are reminded that they may purchase insurance products recommended by JFS through other, non-related insurance agencies. JFS' Chief Compliance Officer, Laura Blaire, remains available to address any questions that clients or prospective clients may have regarding this or any other conflict of interest.

Class Actions, Bankruptcies, and Other Legal Proceedings

JFS is available to advise and assist clients relative to legal proceedings involving companies whose securities are held or previously were held in the client's account(s). These include, but are not limited to, the filing of "Proofs of Claim" in class action settlements. If desired, clients may direct JFS to transmit copies of class action notices to the client or a third party. Upon such direction, JFS will make reasonable efforts to forward such notices in a timely manner. Clients retain the ultimate responsibility or responding to such legal notices.

Assets Under Management

JFS manages \$816,345,798 in client assets as of December 31, 2010 of which \$583,822,723 are discretionary and \$232,523,075 are non-discretionary.

Additional Practices

JFS provides prospective and new clients with JFS' Privacy Statement, which details JFS' commitment to protecting nonpublic personal client information. JFS does not share nonpublic client information with affiliates or other parties unless authorized by the client to do so or required by law. JFS also provides all clients with a copy of the Privacy Statement annually.

JFS maintains a Business Continuity Plan (BCP), which is reviewed, tested, and updated periodically. The BCP is designed to ensure that JFS is able to resume business functions as quickly as possible in the event of a natural or manmade emergency.

JFS designed and implemented Compliance Processes and Procedures as part of developing its overall Compliance Program. These processes and procedures include, but are not limited to: Portfolio Management, Investment Trading, Proprietary Trading, Disclosures, Safeguarding Client Assets, Recordkeeping, Marketing/Advertising, Valuation of Securities, Privacy, and a Business Continuity Plan. JFS also maintains an Insider Trading Policy and Code of Ethics, which all employees must review and acknowledge in writing no less than annually. JFS reviews and updates these “living” documents periodically to ensure the processes and procedures remain current and accurate. JFS conducts an Annual Review of the Compliance Program, which is reviewed and approved by the Chief Compliance Officer. JFS also provides periodic staff training to ensure employees remain current and informed regarding compliance requirements.

JFS strives to instill and maintain a culture of compliance throughout the firm.

Item 5 – Fees and Compensation

FEE SCHEDULES

Wealth Management Services, Investment Advisory Services, and Business Retirement Plan Services are fee-based and clients are engaged under a specific contract for services. These contracts may be terminated by the client without penalty by giving written notice of termination within five business days. After the five-day period, clients may terminate the agreement at any time with a thirty day written notice, and fees due will be prorated to the effective date of termination.

The annual fee for Wealth Management (WM) Services will be charged as a percentage of assets under management according to the following CUMULATIVE schedule:

- 1.0% of first \$1,000,000 of assets, plus
- 0.9% of next \$1,000,000, plus
- 0.8% of next \$1,000,000, plus
- 0.7% of next \$1,000,000, plus
- 0.6% on assets greater than \$4,000,000
- Minimum \$1,500 per quarter

The annual fee for Investment Advisory Services (IAS) will be charged as a percentage of assets under management according to the following schedule:

- 1.25% of assets
- Minimum \$250 per quarter

The annual fee for Business Retirement Plan Services will be charged as a percentage of assets under management according to the following applicable CUMULATIVE schedule:

Consulting Services

- 0.75% of first \$500,000 of assets, plus
- 0.60% of next \$500,000, plus
- 0.45% of next \$500,000, plus

0.30% of next \$500,000, plus
0.15% of next \$1,000,000

Advisory Services - Advisor Directed, Pooled Accounts

0.75% of first \$1,000,000 of assets, plus
0.60% of next \$500,000, plus
0.45% of next \$500,000, plus
0.30% of next \$500,000, plus
0.15% of next \$500,000

Advisory Services - Advisor Directed SIMPLE IRA or SEP IRA or Separately Managed Accounts

1.0% of first \$1,000,000 of assets, plus
0.9% of next \$1,000,000, plus
0.8% of next \$1,000,000, plus
0.7% of next \$1,000,000, plus
0.6% on assets greater than \$4,000,000

In addition to the fees listed above for Business Retirement Plan Services, a minimum fee per participant may be applied.

Billing

The specific way in which fees are charged by JFS is detailed in the client's specific contract with JFS.

Typically, JFS' advisory fees are billed quarterly in advance based upon the market value of the assets on the last business day of the previous quarter unless otherwise specified in the client's advisory contract. JFS' advisory fee is prorated, if applicable.

Clients may elect to be billed for services or to have fees directly debited from their account(s).

Fixed Price Agreements

The following services are provided on a fixed price basis and are billed at the completion of the service or client engagement or as detailed in the client's agreement. The fixed price amount is based upon the requested services, the professional(s) providing the services, and the complexity of the engagement.

- Financial Planning Services, including Tax Planning Services
- Tax Return Preparation Services*
- Advisory Services
- Consulting Services
- Other Services, including Trust and Estate Administration Services, As Requested and Mutually Agreed Upon

* At the exclusive discretion of JFS, tax return preparation services may be included for certain clients as part of their annual fee for Wealth Management Services.

Wrap Fee Programs

All fees paid to JFS for wrap fee programs through Managed Account Link (MAL), Managed Assets Program (MAP), Separate Account Exchange (SAE), or any other wrap fee program sponsors are credited towards the participating client's advisory fees. The investment management fees charged by the designated independent manager(s), together with the fees charged by the corresponding designated broker-dealer/custodian of the client's assets, are exclusive of, and in addition to, JFS investment management or investment advisory fees, which are listed above. In addition, to the extent that an independent manager purchases mutual funds for a client's account, the account will also incur charges imposed directly at the mutual fund level (i.e., advisory fees and other fund expenses).

Fees for MAL, MAP, and SAE accounts vary based on several factors, including but not limited to, account size. Clients should refer to the respective Schedule H provided by LAI or TD Ameritrade for further details. The fees associated with the MAL, MAP, and SAE programs do not include JFS' advisory fee.

Generally, Charles Schwab will provide execution services for transactions in the client's portfolio for the MAL program, and TD Ameritrade will provide execution services for transactions in the client's portfolio for the MAP and SAE programs. However, clients should carefully review the disclosure document provided by the wrap fee sponsor and the disclosure document provided by the manager(s) selected by the client for full information on brokerage services and fees.

The fees and account minimums for the MAL program are disclosed in LAI's disclosure document. The fees and account minimums for the MAP and SAE programs are disclosed in TD Ameritrade's disclosure document. All fees are paid to LAI or TD Ameritrade, which then compensates JFS and the investment manager(s) selected by a client for their services. Clients should review the termination and refund policies for the MAL, MAP, and SAE programs, which are available in the respective brochures. JFS receives its normal fee schedule which depends on the service and asset levels of the program participant.

In the event that JFS is engaged to provide investment management services as part of an unaffiliated wrap fee program, JFS will be unable to negotiate commissions and/or transaction costs. Under a wrap program, the wrap program sponsor arranges for the investor participant to receive investment advisory services, the execution of securities brokerage transactions, custody, and reporting services for a single specified fee. Participation in a wrap program may cost the participant more or less than purchasing such services separately. In the event that JFS is engaged to provide investment management services as part of an unaffiliated managed account program, JFS will likewise be unable to negotiate commissions and/or transaction costs. If the program is offered on a non-wrap basis, the program sponsor will determine the broker-dealer through which transactions must be effected and the amount of transaction fees and/or commissions to be charged to the participant investor accounts.

GENERAL INFORMATION ON FEES & SERVICES

Negotiability of Fees

In certain circumstances, all of JFS' fees may be negotiable.

The fee schedule for each client is detailed in the advisory contract for that client. Fees are discussed with each client and mutually agreed upon before execution of the advisory contract.

Fee Calculation

The advisory fee for Wealth Management Services and Investment Advisory Services are detailed above. The fee charged is calculated as described above and is not charged on the basis of a share of capital gains upon or capital appreciation of the funds or any portion of the funds of an advisory client (Section 205(a) (1) of the Investment Advisers Act of 1940).

The services above may be provided on a fixed price basis depending upon the services requested and the unique needs of the client. The fixed price is agreed upon in advance and is detailed in the specific contract for the services.

Account Minimums

JFS generally requires a \$600,000 aggregate account minimum for Wealth Management Services. However, JFS, in its sole discretion, may charge a lesser investment management fee and/or reduce or waive its account minimum based on certain criteria (ex. anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, etc.).

JFS does not enforce an account minimum for Business Retirement Plan Services. However, a per participant fee may be applied based on several factors, including the amount of assets under management.

Termination of Advisory Relationship

A client agreement may be canceled at any time, by either party, for any reason upon receipt of 30 days prior written notice. Upon termination of any account, any prepaid, unearned fees will be promptly refunded. The client has the right to terminate an agreement without penalty within five business days after entering into the agreement. In the event of withdrawal of funds or the termination of any account, any fees or other expenses associated with rebalancing or liquidating the account holdings may be assessed to the client's account.

From time to time, small portions of positions will be sold to bring the cash account balance to the level required for automatic deduction of fees. It is understood that the payment of these fees will reduce the total investment return.

Clients will incur additional transaction costs related to specific investments. JFS neither receives nor shares in any portion of these costs. In the case of individual stocks, bonds, closed-end and open-end investment companies, options, and the like, there may be costs charged directly by the custodian or clearing broker-dealer. The costs may include transaction fees.

All fees paid to JFS for advisory services (ex. Wealth Management Services, Investment Advisory Services, and Business Retirement Plan Services, etc.) are separate and distinct from the fees and expenses charged by mutual funds to their shareholders. These fees and expenses are described in each fund's prospectus. These fees will generally include a management fee, other fund expenses, and a possible distribution fee. JFS believes these costs are unavoidable, but it strives to select

funds with low or competitive expense structures. In large part, "no-load" funds are selected. Some funds that are usually distributed through stockbrokers with commission charges may be purchased by JFS without commissions. Some funds also offer "I" or "Institutional, Advisor" classes of shares that are not usually available to the general public. These types of shares offer clients internal costs slightly reduced from those of "public" shares.

When deemed cost effective, JFS strives to purchase these lower cost shares, if they are available and comparable to "public" shares. In no instance does JFS receive any portion of mutual fund fees, costs, or any "soft-dollar" benefits from any mutual fund. A client could invest in mutual funds directly, without the services of JFS. In that case, the client would not receive the services provided by JFS which are designed, among other things, to assist the client in determining which mutual fund or funds are most appropriate to the client's financial condition and objectives. Accordingly, the client should review both the fees charged by the funds and the fees charged by JFS to fully understand the total amount of fees to be paid by the client and to evaluate the advisory services being provided.

When beneficial to a client, individual equity and/or fixed income transactions may be effected through broker-dealers with whom JFS and/or the client have entered into arrangements for prime brokerage clearing services. This includes effecting certain transactions through other SEC registered and FINRA member broker-dealers. In these instances, the client generally will incur both the transaction fee charged by the executing broker-dealer and a "tradeaway" fee charged by the account custodian.

Item 6 – Performance-Based Fees and Side-By-Side Management

JFS does not charge any performance-based fees (fees based on a share of capital gains on or capital appreciation of a client's assets).

Item 7 – Types of Clients

JFS provides services to individuals, high net worth individuals, trusts, estates, pension and profit sharing plans, charitable organizations and foundations, businesses, and municipal government entities.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

Robert C. Jazwinski, President and Chairman of the Investment Committee works with Investment Committee members to conduct fundamental analysis on securities recommended for client accounts. Investment Committee members include Karen L. Chikosky and Ron Wyatt with research and support provided by Anthony S. Burt. This analysis varies depending on the security in question.

For stocks and bonds the analysis generally includes a review of:

- The issuer's management;
- The amount and volatility of past profits or losses;

- The issuer's assets and liabilities, as well as any material changes from historical norms;
- Prospects for the issuer's industry, as well as the issuer's competitive position within that industry;
- Credit ratings;
- Income potential; and
- Any other factors considered relevant.

For mutual funds and ETFs the analysis generally includes a review of:

- The fund's management team;
- The fund's historical risk and return characteristics;
- The fund's exposure to sectors and individual issuers;
- The fund's fee structure;
- The fund's management style;
- The fund's investment philosophy;
- The fund's total assets under management;
- The fund's style consistency;
- The fund's risk adjusted performance relative to peers;
- The fund's regulatory oversight; and
- Any other factors considered relevant.

The Investment Committee generally meets no less than quarterly to discuss existing and prospective investments. Investments are evaluated independently, as well as in the context of clients' existing holdings and sector exposures.

JFS primarily invests for relatively long time horizons, normally for a year or more. However, market developments could cause JFS to sell securities more quickly.

Depending on a client's investment objectives, JFS might engage in short selling or option transactions. All investing involves a risk of loss; however, the use of short selling and option writing poses additional risks that are discussed in detail with any clients who are considering the use of these investment vehicles.

All investing involves a risk of loss. Different types of investments involve varying degrees of risk. Clients should not assume that future performance of any specific investment or investment strategy, including those recommended or undertaken by JFS, will be profitable or equal any specific performance levels.

Item 9 – Disciplinary Information

JFS Wealth Advisors, LLC and its employees have no reportable disciplinary history.

Item 10 – Other Financial Industry Activities and Affiliations

Other Business Activities

In addition to the services listed in Item 4, JFS also provides certain accounting-related services (ex. journal entries, payroll review, etc.), although JFS is not an accounting firm.

JFS may recommend itself to an advisory client who needs these services, provided that the recommendation is consistent with JFS's fiduciary duties to the client. If a client decides to hire JFS to provide these services, the fees for these services are entirely separate and distinct from advisory fees charged by JFS. No advisory client is obligated to use JFS to provide any additional services.

JFS's President, Robert C. Jazwinski, is a Board member of, and has approximately 5% ownership of the preferred stock of, Novocell Semi-Conductor, Inc. Robert C. Jazwinski is Treasurer of the Board of Sharon Regional Health System and an Advisory Board Member for FNB Capital Corporation. He also serves on the Boards of Penn Northwest Development Corp. and Westminster College. JFS will not recommend these firms or any firms for which JFS's associated persons may serve as officers or directors to a client as part of JFS's advisory recommendations. However, if an advisory client has assets not being managed by JFS, the President, in his separate capacity as an officer or director of another firm, will discuss investments in another firm with that client. The President receives no separate compensation for introducing clients to these firms. No client is obligated to invest in any firm with which JFS' officers are associated.

Robert C. Jazwinski served on the TD Ameritrade Institutional Advisor Panel (Panel) for a one year term from February 2006-2007. Stephanie Rossi currently serves on the Panel. The Panel consists of independent investment advisers that advise TD Ameritrade Institutional (TDA) on issues relevant to the independent adviser community. The Panel meets in person on average three to four times per year and conducts periodic conference calls on an as needed basis. Investment advisers are appointed to serve on the Panel for two year terms by TDA Institutional senior management. An investment adviser may serve longer than two years if appointed to additional terms by TDA Institutional senior management. At times, Panel members are provided confidential information about TDA Institutional initiatives. Panel members are required to sign confidentiality agreements. TD Ameritrade, Inc. (TD Ameritrade) does not compensate Panel members. However, TD Ameritrade pays for the travel, lodging and meal expenses JFS incurs in attending Panel meetings. The benefits received by JFS or its personnel by serving on the Panel do not depend on the amount of brokerage transactions directed to TD Ameritrade. Receipt of economic benefits by JFS or its related persons creates a potential conflict of interest and may indirectly influence JFS' recommendation of TD Ameritrade for custody and brokerage services. These activities are not the principal business of JFS or its principal executive officers.

Robert C. Jazwinski served on the Board of Directors of National Advisors Holdings, Inc. and National Advisors Trust Company from early 2007 to February 2008. He also previously served on the advisory council of Envestnet, Lockwood Advisors, and Charles Schwab Company. These activities are not the principal business of JFS or its principal executive officers.

Financial Industry Affiliations

JFS is a wholly-owned subsidiary of Focus Operating Partners, LLC (Focus). Focus also owns other registered investment advisers, broker-dealers, pension consultants, insurance firms, and other financial services firms (the Focus Partners). The Focus Partners provide wealth management and benefit and investment consulting services, serving individuals, families, employers, and institutions. JFS' management does not feel that this relationship poses a material conflict to

clients. The Focus Partners do not share client information amongst each other without prior client consent. Management of the other Focus Partners is not involved in the management of JFS.

JFS is affiliated with JFS Risk Management, LLC, a Pennsylvania licensed insurance agency. JFS Risk Management, LLC may offer for sale, insurance-related products on a commission basis, including to investment advisory clients of JFS. The recommendation by JFS that a client purchase an insurance commission product from JFS' related insurance entity, JFS Risk Management, LLC, presents a conflict of interest. The receipt of commissions by JFS Risk Management, LLC may provide an incentive to recommend insurance products based on commissions to be received rather than on a particular client's need. However, JFS does have a duty at all times to act in the client's best interest.

No client is under any obligation to purchase any insurance commission products from JFS' related insurance entity. Clients are reminded that they may purchase insurance products recommended by JFS through other, non-related insurance agencies. JFS' Chief Compliance Officer, Laura Blaire, remains available to address any questions that clients or prospective clients may have regarding this or any other conflict of interest.

JFS Capital Partners, LLC is a single member Limited Liability Company owned by Jazwinski Financial Services, Inc. JFS Capital Partners, LLC handles business ventures that may be organized as investment opportunities. These types of business ventures, such as the Venango Oil Drilling Partnership, are not a part of the investment advisory activities of JFS Wealth Advisors, LLC. Clients of JFS may be serviced by JFS Capital Partners, LLC, if such services are requested by and/or appropriate to the unique needs of the individual client. No client is obligated to engage the services of JFS Capital Partners, LLC.

JFS Wealth Advisors, LLC and Robert C. Jazwinski each have a minority ownership interest in a savings and loan holding company, National Advisors Holdings, Inc. (NAH) that formed a federally chartered trust company, National Advisors Trust Company (NATC). NAH and NATC are regulated by the Office of Thrift Supervision. The trust company provides a low cost alternative to traditional trust service providers, and JFS refers clients to NATC for trust services.

Robert C. Jazwinski owns a minority interest in All Star Financial Group, LLC (ASFG), which is a national association of Certified Public Accountants (CPAs) who specialize in financial and tax planning for clients with high net worth and/or unique circumstances. ASFG has no business activities and is simply an association structured as a study group.

Affiliated Private Funds

JFS is affiliated with several private investment funds (together, the "affiliated funds"):

- PWA Gas 2003 Limited Partnership;
- PWA Gas 2004 Limited Partnership;
- PWA Gas 2005 Limited Partnership;
- PWA Gas 2006 Limited Partnership;
- Venango 2006 Oil Partners I Partnership; and
- Private Company Ventures, LLC - loan participations.

Condensed descriptions of each of the affiliated funds are listed below. The complete description of the terms, conditions, risks, and fees associated with each of the affiliated funds is detailed in each of the affiliated funds' offering documents.

JFS, on a non-discretionary basis, may recommend that qualified clients consider allocating a portion of their investment assets to these types of affiliated funds. The terms and conditions for participation in any affiliated fund, including management fees, conflicts of interest, and risk factors are detailed in each fund's offering documents. JFS' clients are under absolutely no obligation to consider or make an investment in these or any other private investment fund.

Private investment funds generally involve various risk factors, including, but not limited to, potential for complete loss of principal, liquidity constraints, and lack of transparency. These risk factors are detailed in each fund's offering documents, which are provided to each prospective investor for review and consideration. Unlike other liquid investments that a client may maintain, private investment funds do not provide daily liquidity or pricing. Each prospective client investor would be required to complete a Subscription Agreement. Afterward, the client would have to establish that he or she is qualified for investment in the fund and acknowledges and accepts the various risk factors that are associated with such an investment.

A related person of JFS, Pittsburgh Wealth Advisors, is a general partner in PWA Gas 2003 Limited Partnership, PWA Gas 2004 Limited Partnership, PWA Gas 2005 Limited Partnership, and PWA Gas 2006 Limited Partnership. Jazwinski Financial Services, Inc. is a 50% owner of Pittsburgh Wealth Advisors. When appropriate to the needs of accredited investors, JFS will suggest investing in these partnerships. JFS does not receive a separate advisory fee for assets invested in PWA Gas 2003, 2004, 2005, or 2006 Limited Partnerships. JFS does not consider PWA Gas 2003, 2004, 2005, or 2006 Limited Partnership funds part of its discretionary asset base. There are no sales fees or commissions paid with respect to PWA Gas 2003, 2004, 2005, or 2006 Limited Partnerships by any investor or partner. Pittsburgh Wealth Advisors, as a general partner, receives separate and typical compensation for acting in this role.

A related person of JFS, JFS Capital Partners, is a general partner in Venango 2006 Oil Partners I Partnership. JFS Capital Partners, LLC is a single member Limited Liability Company owned by Jazwinski Financial Services, Inc. When appropriate to the needs of accredited investors, JFS will suggest investing in this type of partnership. JFS Wealth Advisors does not receive a separate advisory fee for assets invested in Venango 2006 Oil Partners I Partnership. JFS Wealth Advisors does not consider Venango 2006 Oil Partners I Partnership funds part of its discretionary asset base. There are no sales fees or commissions paid with respect to Venango 2006 Oil Partners I Partnership by any investor or partner. JFS Capital Partners, as a general partner, receives separate and typical compensation for acting in this role.

JFS does not anticipate participating in additional gas and oil ventures at this time.

A related person of JFS, Private Company Ventures, LLC is the manager for a series of loan participations. Private Company Ventures, LLC is a Limited Liability Company managed by JFS Capital Partners, LLC. When appropriate to the needs of accredited investors, JFS will suggest investing in this type of loan participation. JFS Wealth Advisors does not receive a separate advisory fee for assets invested in Private Company Ventures, LLC or any of its series. JFS Wealth Advisors does not consider Private Company Ventures, LLC or any of its series funds part of its discretionary asset base. There are no sales fees or commissions paid with respect to Private

Company Ventures, LLC, or any of its series, by any investor or partner. JFS Capital Partners, as a manager, receives separate and typical compensation for acting in this role.

Additional Compensation

JFS receives benefits from the independent custodians JFS uses by participation in the custodians' institutional programs and/or referral programs. (Please see the disclosure under Item 14 below.)

JFS' clients do not pay more for investment transactions effected and/or assets maintained at TD Ameritrade, Charles Schwab, National Advisors Trust Company, or Fidelity as a result of these types of arrangements. JFS, consistent with its best execution obligation, has negotiated favorable transaction fee arrangements with all of the independent custodians used by JFS for the benefit of all of JFS' clients.

There is no corresponding commitment made by JFS to these custodians or any other any entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as a result of any such arrangement.

Laura Blaire, JFS' Chief Compliance Officer, is available to address any questions that a client or prospective client may have regarding these types of arrangements and any perceived conflict of interest these arrangements may create.

As part of its fiduciary duties to clients, JFS strives at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by JFS or its related persons in and of itself creates a potential conflict of interest and may indirectly influence JFS' choice of provider for custody and brokerage services.

Item 11 – Code of Ethics

JFS has adopted a Code of Ethics expressing the firm's commitment to ethical conduct. JFS' Code of Ethics describes the firm's fiduciary duties and responsibilities to clients, and details JFS' practice of monitoring the personal securities transactions of JFS employees. Individuals associated with JFS may buy or sell securities for their personal accounts identical to or different than those recommended to clients. It is the expressed policy of JFS that no person employed by JFS put his or her own interests before that of an advisory client or make personal investment decisions based on the investment decisions of advisory clients.

Additionally, JFS does not affect any principal or agency cross securities transactions for client accounts. Principal transactions are generally defined as transactions where an adviser, acting as the principal for its own account or the account of an affiliated broker-dealer, buys from or sells any security to an advisory client. An agency cross transaction is defined as a transaction where a person acts as an investment adviser in relation to a transaction in which the investment adviser, or any person controlled by or under common control with the investment adviser, acts as the broker-dealer for both the advisory client and for another person on the other side of the transaction.

To supervise compliance with its Code of Ethics, JFS requires its employees to report covered securities transactions to the firm's Chief Compliance Officer on a monthly basis. JFS also requires

its employees to receive approval from the Chief Compliance Officer prior to investing in any private placements (limited offerings) or IPOs.

JFS requires that all individuals must act in accordance with all applicable Federal and State regulations governing registered investment advisory practices. JFS' Code of Ethics further includes the firm's policy prohibiting the use of material non-public information. Any individual not complying with the above may be subject to disciplinary measures. JFS will provide a complete copy of its Code of Ethics to any client or prospective client upon request to the Chief Compliance Officer at JFS' principal address.

Item 12 – Brokerage Practices

Brokerage Recommendations

JFS does not have the discretionary authority to determine the broker-dealer to be used or commission rates to be paid. Clients must direct JFS as to the broker-dealer they wish to use.

JFS suggests broker-dealers to clients based on client objectives, the broker-dealer's past record, and the general reputation of the broker-dealer. However, the ultimate choice of broker-dealer is the client's. If a client selects a broker-dealer suggested and used by JFS, JFS will attempt to negotiate commissions and obtain volume discounts and has a duty of best execution. The duty of best execution means that JFS has an obligation to get the best overall value for the client when placing trades and must consider cost, quality, timeliness, etc. However, if a client does not select a broker-dealer suggested and used by JFS, it should be understood that JFS will not have authority to negotiate commissions among various broker-dealers or obtain volume discounts, and best execution may not be achieved. In addition, differences in commission charges may exist between the commissions charged to other clients.

JFS currently suggests and uses the following independent broker-dealers (custodians) for custody and brokerage services when appropriate for the client and consistent with JFS' fiduciary duty to put client interests first: Charles Schwab & Co., Inc., TD Ameritrade, Inc., National Advisors Trust Co., or Fidelity Investments. The specific broker-dealer recommended depends upon the client's unique needs, objectives, and preferences.

JFS participates in the Schwab Institutional (SI) services program offered to independent investment advisers by Charles Schwab & Company, Inc., a FINRA member registered broker-dealer and Member SIPC. JFS recommends Charles Schwab & Company to clients who need brokerage and custodial services. As part of the SI program, JFS may receive benefits that it would not receive if it did not offer investment advice. (Please see the disclosure under Item 14 below.)

JFS participates in the institutional advisor program offered by TD Ameritrade Institutional (TDA). TDA is a division of TD Ameritrade, Inc. (TD Ameritrade), which is a member of FINRA/SIPC/NFA. TD Ameritrade is an independent and unaffiliated SEC-registered broker-dealer and FINRA member. TD Ameritrade offers services to independently registered investment advisers, which include custody of securities, trade execution, clearance, and settlement of transactions. JFS receives some benefits from TD Ameritrade through its participation in the program. (Please see the disclosure under Item 14 below.)

A condition of participation in the Managed Account Link (MAL) program is that all clients must use Charles Schwab & Co., Inc. for clearing. Please refer to LAI's brochure and the disclosure document(s) of the investment manager(s) used in this program for information on brokerage practices.

A condition of participation in the Managed Assets Program (MAP) and the Separate Account Exchange (SAE) is that all clients must use TD Ameritrade for clearing. Please refer to TD Ameritrade's brochure and the disclosure document(s) of the investment manager(s) used in this program for information on brokerage practices.

Trade Error Policy

Charles Schwab does not use a trade error account; it makes the necessary corrections by buying or selling. When there is a profit from a trade error, Schwab posts a covering trade to the client's account, so the client receives the profit. If the client does not want the profit (ex. for tax purposes), the client may advise Schwab to send the gain to charity. If the profit is \$100 or less, the client may advise Schwab verbally. If the profit is greater than \$100, the client must provide such instructions to Schwab in writing. When there is a loss due to a trade error, JFS is responsible for any losses that are over \$100. Schwab will cover the loss if it is under \$100.

TD Ameritrade uses a trade error account. All profits and losses are held in this account and can be used to offset future errors. If the account falls to a debit balance, JFS has to send payment.

Fidelity has one master account that holds JFS' client fees and profits/losses from trade errors. Any profits held in this account can be used to offset future errors. Fidelity does not keep profits. However, when advisory fees are swept from this account to JFS' account, any trade error profits are also swept into JFS' account.

At National Advisors Trust Company (NATC), if a trade error results in a profit, the profit can be credited to the client's account or forfeited to a control account at NATC. Losses are moved to a trade error account, and the loss must be covered by JFS.

Item 13 – Review of Accounts

Underlying securities within JFS managed accounts are continually monitored. Accounts are reviewed as to asset allocation, individual holdings, suitability, and performance. Reviews of holdings used for client portfolios are performed by the Investment Committee on at least a quarterly basis and continually, as needed, based on changes in individual positions.

Client information is downloaded each business day, reflecting holdings and prices as of the close of business the previous business day or other most recently priced day. Calculations of asset allocation, individual position weights, total internal-rates-of-return since inception, and annualized internal-rates-of return are then made available, if not actually executed each day. Client portfolio data is maintained in-house in a customized, computer database. Transaction records and market pricing are downloaded from custodians each business day or as often as made available. Specific securities common to client portfolios are monitored on an ongoing basis.

The Investment Committee is led by Robert C. Jazwinski and includes Karen L. Chikosky and Ron Wyatt as Investment Committee members with research and support also provided by Anthony S.

Burt. The Committee may invite contributions and also enlist the services of Lead Advisors and/or the Chief Compliance Officer.

REPORTS OF ACCOUNTS

In addition to the monthly statements and confirmations of transactions that Wealth Management and Investment Advisory Services clients receive from their designated custodian (ex. Charles Schwab, TD Ameritrade, National Advisors Trust Co., and Fidelity), JFS makes periodic reports available to all clients showing their portfolio's financial profile and performance data. Clients are urged to schedule/attend a face-to-face meeting (Progress Review Meeting) to review details, discuss progress in achieving goals, and determine if goals or plans should be adjusted.

Reports may include the client's original amount invested, cost basis for tax purposes, current value, cumulative income, internal and time weighted rates-of-return since inception, and annual rate-of-return for each holding. Weightings by category and portfolio totals are summarized as well.

Item 14 – Client Referrals and Other Compensation

Client Referrals/Solicitor Arrangements

There may be occasions when JFS may pay a percentage of the fee received from accounts that have been referred to us to the person making the referral (a solicitor). In such cases the client will receive a separate written disclosure statement from the solicitor before opening an account with JFS. The disclosure statement will explain, among other things, the nature of JFS' affiliation with the solicitor, if any, and a description of the compensation the solicitor will receive from us.

JFS has a solicitation agreement with an accounting firm, Schroedel, Scullin, and Bestic (SSB). SSB is independent of JFS. When SSB advisors believe that their clients may benefit from JFS' investment management or financial services, the clients are introduced to JFS. If the referred client becomes a client of JFS, SSB shares in a portion of any management fees that may be earned. SSB's share of the fees is approximately 30%. However, the percentage fee may vary depending on the services being provided by JFS and SSB. JFS does not charge clients referred by SSB any fees or costs higher than its standard schedule offered to its client. JFS does not pass solicitor fees on to its clients. Specifics are disclosed to each client beforehand. Clients introduced in this manner receive the same services and priorities as all other JFS clients.

JFS may receive client referrals from TD Ameritrade, Inc. (TD Ameritrade) through its participation in TD Ameritrade AdvisorDirect (the referral program). In addition to meeting the minimum eligibility criteria for participation in AdvisorDirect, JFS may have been selected to participate in AdvisorDirect based on the amount and profitability to TD Ameritrade of the assets in, and trades placed for, client accounts maintained with TD Ameritrade. TD Ameritrade is a discount broker-dealer independent of and unaffiliated with JFS. There is no employee or agency relationship between them. TD Ameritrade has established the referral program as a way of referring its brokerage customers and other investors seeking fee-based personal investment management services or financial planning services to independent investment advisers. TD Ameritrade does not supervise JFS and has no responsibility for JFS' management of client portfolios or JFS' other advice or services. JFS pays fees, not to exceed 25% of the advisory fee that the referred client pays to JFS, to TD Ameritrade in connection with successful referrals made through AdvisorDirect. JFS will also

pay TD Ameritrade the solicitation fee on any advisory fees received by JFS from any of a referred client's family members, including a spouse, child, or any other family member who resides with the referred client and hired JFS on the recommendation of the referred client. JFS does not charge clients referred through AdvisorDirect any fees or costs higher than its standard schedule offered to its client. JFS does not pass solicitor fees on to its clients. Specifics are disclosed to each client beforehand. Clients introduced in this manner receive the same services and priorities as all other JFS clients.

JFS' participation in AdvisorDirect raises potential conflicts of interest. TD Ameritrade will most likely refer clients through AdvisorDirect to investment advisers that encourage their clients to custody their assets and trade client accounts at TD Ameritrade and whose client accounts are profitable to TD Ameritrade. To obtain client referrals from TD Ameritrade, JFS may have an incentive to recommend that clients custody assets and place transactions for accounts that JFS manages with TD Ameritrade. Also, JFS has agreed not to solicit clients referred through AdvisorDirect to transfer their accounts from TD Ameritrade or to establish brokerage or custody accounts at other custodians, except when it is in the client's best interest to do so. JFS' participation in the AdvisorDirect program does not change JFS' duty to seek best execution of trades for client accounts.

At the time of their introduction to the firm, all potential clients referred by a solicitor are provided with a copy of Form ADV Part 2. They are also given a specific disclosure form, which they are asked to read, discuss with us, and sign to ensure that the nature of our potential association is fully understood.

Additional Compensation

JFS recommends that clients establish brokerage accounts with the Schwab Institutional division of Charles Schwab & Co., Inc. (SI), a registered broker-dealer, Member SIPC/NYSE, to maintain custody of clients' assets and to effect trades for their accounts. Schwab Institutional provides JFS with access to its institutional trading and operations services, which are typically not available to Schwab retail investors. These services generally are available to independent investment advisers at no charge to them so long as a total of at least \$10 million of the adviser's clients' account assets are maintained at Schwab Institutional.

SI's services include research, brokerage, custody, access to mutual funds and other investments that are otherwise available only to institutional investors or would require a significantly higher minimum initial investment. SI also makes available to JFS other products and services that benefit JFS but may not benefit its clients' accounts directly. Some of these other products and services assist JFS in managing and administering clients' accounts. These include software and other technology that provide access to client account data (such as trade confirmations and account statements), facilitate trade execution (and allocation of aggregated trade orders for multiple client accounts), provide research, pricing information and other market data, facilitate payment of JFS' fees from its clients' accounts, and assist with back-office support, recordkeeping and client reporting. Many of these services generally may be used to service all or a substantial number of JFS' accounts, including accounts not maintained at SI.

SI may also provide JFS with other services intended to help JFS to manage and further develop its business enterprise. These services may include consulting, publications and presentations on practice management, information technology, business succession, regulatory compliance, and marketing. In addition, SI may make available, arrange and/or pay for these types of services to JFS

by independent third parties. SI may discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to JFS.

While as a fiduciary, JFS strives to act in its clients' best interests, JFS' recommendation that clients maintain their assets in accounts at SI may be based in part on the benefit to JFS of the availability of some of the products and services listed above.

JFS also recommends that clients establish brokerage accounts with TD Ameritrade Institutional (TDA), a registered broker-dealer, Member SIPC/NYSE, to maintain custody of clients' assets and to effect trades for their accounts. TDA is a division of TD Ameritrade, Inc. (TD Ameritrade), Member FINRA/SIPC/NFA. TD Ameritrade is an independent and unaffiliated SEC-registered broker-dealer and FINRA member. There is no direct link between JFS' participation in the program and the investment advice it gives to its clients, although JFS receives economic benefits through its participation in the program that are typically not available to TD Ameritrade retail investors.

TDA's products and services (provided without cost or at a discount) include receipt of duplicate client statements and confirmations, research related products and tools, consulting services, access to a trading desk serving adviser participants, access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to client accounts), the ability to have advisory fees deducted directly from client accounts, access to an electronic communications network for client order entry and account information, and access to mutual funds with no transaction fees and to certain institutional money managers. Services also include discounts on compliance, marketing, research, technology, and practice management products or services provided to JFS by third party vendors.

TDA may also have paid for business consulting and professional services received by JFS' related persons. Some of the products and services made available by TDA through the program may benefit JFS but may not benefit its client accounts. These products or services may assist JFS in managing and administering client accounts, including accounts not maintained at TDA. Other services made available by TDA are intended to help JFS manage and further develop its business enterprise. The benefits received by JFS or its personnel through participation in the program do not depend on the amount of brokerage transactions directed to TDA.

JFS receives certain economic benefits which may or may not be offered to any other independent advisers that participate in the TD Ameritrade institutional customer program. JFS received a one-time payment in 2009 for fees associated with legal services and reviews for business development purposes.

iRebal is portfolio rebalancing software that JFS uses for placing trades and maintaining asset allocations in client accounts. The standard base iRebal annual license fee is approximately \$26,000. That fee is subject to specific reductions (and even a complete waiver) if specified amounts of client taxable assets are either already on the TD Ameritrade platform or are committed to be placed on it. JFS' 2009 annual fee for its iRebal license was waived based on the assets in clients' accounts that were maintained at that time. The iRebal license fee is able to be waived from 2010 and forward if an additional \$25 million in net new taxable assets is brought to TD Ameritrade by JFS by the annual iRebal contract anniversary date. If any of the targets are not met, the fee will be prorated based on the percentage shortfall. Any excess above \$25 million in net new taxable assets in any 12 month period will be carried forward and applied toward the requirement

for future years, unless it is offset by negative net new asset flows during the year(s) the credit is applied.

Non-taxable assets that are excluded from the commitment levels described above include “plan assets” of plans subject to Title 1 of the Employee Retirement Income Security Act of 1974 (ERISA), amended, or of plans defined in Section 4975 of the Internal Revenue Code (which include IRAs).

If JFS does not maintain the necessary level of taxable assets on the TD Ameritrade platform, JFS may be required to make a penalty fee payment to TD Ameritrade, which is calculated based on the amount of the shortfall.

TDA does consider the amount and profitability to TDA of the assets in, and trades placed for, JFS' client accounts when determining whether to provide or continue providing additional services to JFS. JFS' receipt of additional services does not reduce JFS' duty to act in the best interests of its clients, including seeking best execution of trades for client accounts.

JFS' participation in the TD Ameritrade Institutional customer program and receipt of additional services may present a potential conflict of interest. Although JFS believes that the products and services TDA offers are competitive to similar services offered by other broker-dealers and custodians, the benefits that JFS receives from TDA may affect JFS' independent judgment in selecting or maintaining TDA as the broker-dealer or custodian for client accounts.

JFS may receive free or discounted support services and products from other independent custodians JFS uses, such as National Advisors Trust Company and Fidelity Investments. These products and services help JFS better monitor and service client accounts maintained at that particular custodian. These services and products may include investment-related research, pricing information and market data, software and other technology that provide access to client account data, compliance related publications, and practice management related publications. They may also include free or discounted consulting services, conference registration fees, meetings, other educational and/or social events, and computer software and/or other products used by JFS for its investment advisory business operations. Some of the support services and products assist JFS in managing and administering client accounts. Others do not directly provide such assistance, but assist JFS in managing and further developing its business enterprise. This may include discounted and shared expenses for existing and prospective client events.

JFS' clients do not pay more for investment transactions effected and/or assets maintained at TD Ameritrade, Charles Schwab, National Advisors Trust Company, or Fidelity as a result of these types of arrangements. JFS, consistent with its best execution obligation, has negotiated favorable transaction fee arrangements with all of the independent custodians used by JFS for the benefit of all of JFS' clients.

There is no corresponding commitment made by JFS to these custodians or any other any entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as a result of any such arrangement.

Laura Blaire, JFS' Chief Compliance Officer, is available to address any questions that a client or prospective client may have regarding these types of arrangements and any perceived conflict of interest these arrangements may create.

As part of its fiduciary duties to clients, JFS strives at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by JFS or its related persons in and of itself creates a potential conflict of interest and may indirectly influence JFS' choice of provider for custody and brokerage services.

Item 15 – Custody

All investment accounts are held at a qualified custodian (ex. Charles Schwab, TD Ameritrade, National Advisors Trust Co., and Fidelity). The custodian provides the client with no less than quarterly statements for each account. JFS urges clients to carefully review these statements and compare such official custodial records to the account statements that JFS may provide the client. JFS' statements may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

JFS has custody of some client funds and securities because JFS deducts advisory fees from client accounts when directed and authorized by the client to do so. JFS also has custody for client accounts for which Robert C. Jazwinski serves as trustee as requested and authorized by the client.

Effective March 12, 2010, JFS is subject to a surprise annual audit by a qualified, PCAOB Certified Public Accounting (CPA) firm, including related filings, for those client accounts where JFS is deemed to have custody. These include, but may not be limited to, the account types listed above.

Item 16 – Investment Discretion

JFS usually receives authority from the client at the beginning of an advisory relationship to select the identity and amount of securities to be bought or sold without prior consent (discretionary authority). In all cases, however, this discretion is to be exercised in a manner consistent with the stated investment objectives for the particular client account.

When selecting securities and determining amounts, JFS observes the investment policies, limitations and restrictions of the clients for which it advises. Asset allocations and preferences are typically detailed in an investment recommendation letter, asset allocation form, or investment policy statement. JFS' discretionary authority is detailed in the client's advisory agreement or a separate Limited Power of Attorney form. Investment restrictions are typically listed in the advisory agreement.

Changes to investment guidelines and restrictions must typically be provided to JFS in writing.

Item 17 – Voting Client Securities

JFS does not vote proxies for its clients as a matter of firm policy and practice. Clients expressly retain the authority for and responsibility to vote proxies for any and all securities maintained in client accounts. JFS may provide advice to clients regarding the clients' voting of proxies.

Item 18 – Financial Information

Registered investment advisers are required in this Item to provide clients with certain financial information or disclosures about JFS' financial condition. JFS has no financial commitment that impairs its ability to meet contractual and fiduciary commitments to clients and has not been the subject of a bankruptcy proceeding.

JFS' Chief Compliance Officer, Laura Blaire, remains available to address any questions regarding this Part 2A.
