Item 4 Advisory Business

LJIWM is an SEC-registered investment adviser with its principal place of business located in Indiana. LJIWM began conducting business in 2009.

Listed below are the firm's principal shareholders (i.e., those individuals and/or entities controlling 25% or more of this company).

- Layton Leon John, President

LJIWM offers the following advisory services to our clients:

Investment Supervisory Services

Individual Portfolio Management & Portfolio Management for Businesses & Institutional Clients

Our firm provides continuous advice to a client regarding the investment of client funds based on the individual needs of the client. Through personal discussions in which goals and objectives based on a client's particular circumstances are established, we develop a client's personal investment policy and create and manage a portfolio based on that policy.

During our data-gathering process, we determine the client's individual objectives, time horizons, risk tolerance, and liquidity needs. As appropriate, we also review and discuss a client's prior investment history, as well as family composition and background.

We manage these advisory accounts on a discretionary or non-discretionary basis. Account supervision is guided by the client's stated objectives (i.e., maximum capital appreciation, growth, income, or growth and income), as well as tax considerations.

Our investment recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company and will generally include advice regarding mutual funds.

However, we may also offer advice on the following securities:

- Exchange-listed securities
- Securities traded over-the-counter
- Foreign issuers
- Warrants
- Corporate debt securities (other than commercial paper)
- Commercial paper
- Certificates of deposit
- Municipal securities
- Variable life insurance
- Variable annuities
- Exchange Traded Funds (ETFs)
- United States governmental securities
- Options contracts on securities
- Options contracts on commodities

Because some types of investments involve certain additional degrees of risk, they will only be implemented/recommended when consistent with the client's stated investment objectives, tolerance for risk, liquidity and suitability.

Financial Planning

We provide financial planning services. Financial planning is a comprehensive evaluation of a client's current and future financial state by using currently known variables to predict future cash flows, asset values and withdrawal plans. Through the financial planning process, all questions, information and analysis are considered as they impact and are impacted by the entire financial and life situation of the client.

Our financial planning service will usually include general recommendations for a course of activity or specific actions to be taken by our clients.

For example, recommendations may be made that our clients obtain insurance or revise their existing coverage, establish an individual retirement account, increase or decrease funds held in savings accounts or invest funds in securities.

We may develop tax or estate plans for clients or refer our clients to an accountant or attorney.

We may also create a cash flow analysis or work with and advise our clients as to the rearrangement of cash flow in order to fund certain long-term objectives such as buying a house or planning for college or retirement

Clients purchasing this service receive a written report which provides the client with a detailed financial plan designed to assist the client achieve his or her financial goals and objectives.

In general, the financial plan can address any or all of the following areas:

- **PERSONAL:** We review family records, budgeting, personal liability, estate information and financial goals.
- **TAX & CASH FLOW:** We analyze the client's income tax and spending and planning for past, current and future years; then illustrate the impact of various investments on the client's current income tax and future tax liability.
- **INVESTMENTS:** We analyze investment alternatives and their effect on the client's portfolio.
- **INSURANCE:** We review existing policies to ensure proper coverage for life, health, disability, long-term care, liability, home and automobile.
- **RETIREMENT:** We analyze current strategies and investment plans to help the client achieve his or her retirement goals.

- **DEATH & DISABILITY:** We review the client's cash needs at death, income needs of surviving dependents, estate planning and disability income.
- **ESTATE:** We assist the client in assessing and developing long-term strategies, including as appropriate, living trusts, wills, review estate tax, powers of attorney, asset protection plans, nursing homes, Medicaid and elder law.

We gather required information through in-depth personal interviews. Information gathered includes the client's current financial status, tax status, future goals, returns objectives and attitudes towards risk. We carefully review documents supplied by the client, including a questionnaire completed by the client, and prepare a written report.

Should the client choose to implement the recommendations contained in the plan, we suggest the client work closely with his/her attorney, accountant, insurance agent, and/or stockbroker. Implementation of financial plan recommendations is entirely at the client's discretion.

We also provide general non-securities advice on topics that may include tax and budgetary planning, estate planning and business planning.

Typically the financial plan is presented to the client within six months of the contract date, provided that all information needed to prepare the financial plan has been promptly provided.

Retirement Rollovers-Potential for Conflict of Interest:

A client or prospective client leaving an employer typically has four options regarding an existing retirement plan (and may engage in a combination of these options): (i) leave the money in the former employer's plan, if permitted, (ii) roll over the assets to the new employer's plan, if one is available and rollovers are permitted, (iii) roll over to an Individual Retirement Account ("IRA"), or (iv) cash out the account value (which could, depending upon the client's age, result in adverse tax consequences). If we recommend that a client roll over their retirement plan assets into an account to be managed by our firm, such a recommendation creates a conflict of interest if we will earn an advisory fee on the rolled over assets. No client is under any obligation to roll over retirement plan assets to an account managed by our firm. Our Chief Compliance Officer remains available to address any questions that a client or prospective client may have regarding the potential for conflict of interest presented by such rollover recommendation.

Selection and Monitoring of 3rd Party Money Managers Service

We also offer advisory management services to our clients through the Selection and Monitoring of 3rd Party Money Manager programs (hereinafter, "Programs").

Our firm provides the client with an asset allocation strategy developed through personal discussions in which goals and objectives based on the client's particular circumstances are established. This asset allocation strategy is drafted into the client's Personal Investment Policy Statement ("PIPS").

Based on the client's individual circumstances and needs (as exhibited in the client's PIPS) we will then perform management searches of various unaffiliated registered investment advisers to identify which registered investment adviser's portfolio management style is appropriate for that client.

Factors considered in making this determination include

- account size,
- risk tolerance,
- the opinion of each client, and
- the investment philosophy of the selected registered investment adviser.

Clients should refer to the selected registered investment adviser's Firm Brochure or other disclosure document for a full description of the services offered. We are available to meet with clients on a regular basis, or as determined by the client, to review the account.

Once we determine the most suitable investment adviser(s) for the client, we provide the selected adviser(s) with the client's PIPS. The adviser(s) then creates and manages the client's portfolio based on the client's individual needs as exhibited in the PIPS.

We monitor the performance of the selected registered investment adviser(s). If we determine that a particular selected registered investment adviser(s) is not providing sufficient management services to the client, or is not managing the client's portfolio in a manner consistent with the client's PIPS, we may suggest that the client contract with a different registered investment adviser and/or program sponsor.

Under this scenario, our firm assists the client in selecting a new registered investment adviser and/or program. However, any move to a new registered investment adviser and/or program is solely at the discretion of the client.

Amount of Managed Assets

As of January 3, 2017, we were actively managing \$167,364,111 of client assets on a discretionary basis plus \$2,635,889 of client assets on a non-discretionary basis.

Item 5 Fees and Compensation

Investment Supervisory Services

Fees for Individual Portfolio Management & Portfolio Management for Businesses & Institutional Clients:

The annualized fee for Investment Supervisory Services will be charged as a percentage of assets under management, according to the following schedule:

<u>Assets Under Management</u>	<u>Annual Fee</u>	<u>Quarterly Fee</u>
Up to \$199,999	1.40%	0.350%
\$200,000 to \$499,999	1.10%	0.275%
\$500,000 to \$999,999	1.00%	0.250%
\$1,000,000 to \$1,999,999	0.90%	0.225%
\$2,000,000 to \$4,999,999	0.70%	0.175%
\$5,000,000+	0.50%	0.125%
Fixed Income Portfolio	Custom Quotation	Custom Quotation

Our fees are billed quarterly, in advance, at the beginning of each calendar quarter based upon the value (market value or fair market value in the absence of market value), of the client's account at the end of the previous quarter. Fees will be debited from the account in accordance with the client authorization in the Client Services Agreement.

Limited Negotiability of Advisory Fees. Although LJIWM has established the aforementioned fee schedule, we retain the discretion to negotiate alternative fees on a client-by-client basis. Client facts, circumstances and needs will be considered in determining the fee schedule. Among others, these will include:

- the complexity of the client, assets to be placed under management,
- anticipated future additional assets,
- related accounts,
- portfolio style,
- account composition, and
- reports

We may group certain client accounts for the purposes of achieving the minimum account size requirement and determining the annualized fee.

Discounts, not generally available to our advisory clients, may be offered to family members and friends of associated persons of our firm.

Financial Planning Fees

LJIWM's Financial Planning fee will be determined based on the nature of the services being provided and the complexity of each client's circumstances. All fees are agreed upon prior to entering into a contract with any client.

Our Financial Planning fees are calculated and charged on an hourly and/or fixed-fee basis. Our hourly fee is \$250 per hour. Although the length of time it will take to provide a Financial Plan will depend on each client's personal situation, we will provide an estimate for the total hours at the start of the advisory relationship.

Fixed fees for financial planning services range from \$500 to \$5,000, depending on the specific arrangement reached with the client.

We may request a retainer upon completion of our initial fact-finding session with the client;

however, advance payment will never exceed \$1,200 for work that will not be completed within six months. The balance is due upon completion of the plan.

Financial planning fees may be negotiable, depending on certain circumstances, such as the complexity of the client, related accounts, assets to be placed under management. Other factors may also be taken into account.

Selection and Monitoring of 3rd Party Money Managers Fees

We are paid by the independent adviser selected by the client for portfolio management services. Our fee is based on a percentage of the client's managed assets (typically ranging up to 70% of the fee charged by the independent investment adviser, depending on the size of the account), which is included in the independent investment adviser's annual management fee. The portion of the advisory fee paid to us does not increase the client's ultimate advisory fee paid to the selected independent investment adviser.

Clients are provided with a separate disclosure document describing the fee paid to us by such independent registered investment advisers. The total asset management fee, including the referral fee paid to our firm, is disclosed in the independent investment adviser's disclosure document.

GENERAL INFORMATION

Termination of the Advisory Relationship: A client agreement may be canceled at any time, by either party, for any reason upon receipt of 30 days written notice. As disclosed above, certain fees are paid in advance of services provided. Upon termination of any account, any prepaid, unearned fees will be promptly refunded. In calculating a client's reimbursement of fees, we will pro rate the reimbursement according to the number of days remaining in the billing period.

Mutual Fund Fees: All fees paid to LJWIM for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds and/or ETFs to their shareholders. These fees and expenses are described in each fund's prospectus. These fees will generally include a management fee, other fund expenses, and a possible distribution fee. If the fund also imposes sales charges, a client may pay an initial or deferred sales charge.

A client could invest in a mutual fund directly, without our services. In that case, the client would not receive the services provided by our firm which are designed, among other things, to assist the client in determining which mutual fund or funds are most appropriate to each client's financial condition and objectives.

Accordingly, the client should review both the fees charged by the funds and our fees to fully understand the total amount of fees to be paid by the client and to thereby evaluate the advisory services being provided.

Additional Fees and Expenses: In addition to our advisory fees, clients are also responsible for the fees and expenses charged by custodians and imposed by broker dealers, including, but not limited to, any transaction charges imposed by a broker dealer with which an independent investment manager effects transactions for the client's account(s). Please refer

to the "Brokerage Practices" section (Item 12) of this Form ADV for additional information.

Grandfathering of Minimum Account Requirements: Pre-existing advisory clients are subject to LJIWM's minimum account requirements and advisory fees in effect at the time the client entered into the advisory relationship. Therefore, our firm's minimum account requirements will differ among clients.

ERISA Accounts: LJIWM is deemed to be a fiduciary to advisory clients that are employee benefit plans or individual retirement accounts (IRAs) pursuant to the Employee Retirement Income and Securities Act ("ERISA"). As such, our firm is subject to specific duties and obligations under ERISA and the Internal Revenue Code that include among other things, restrictions concerning certain forms of compensation.

To avoid engaging in prohibited transactions, LJIWM may only charge fees for investment advice about products for which our firm and/or our related persons do not receive any commissions or 12b-1 fees, or conversely, investment advice about products for which our firm and/or our related persons receive commissions or 12b-1 fees, however, only when such fees are used to offset LJIWM's advisory fees.

Advisory Fees in General: Clients should note that similar advisory services may (or may not) be available from other registered (or unregistered) investment advisers for similar or lower fees.

Limited Prepayment of Fees: Under no circumstances do we require or solicit payment of fees in excess of \$1,200 more than six months in advance of services rendered.

Item 6 Performance-Based Fees and Side-By-Side Management

LJIWM does not charge performance-based fees.

Item 7 Types of Clients

LJIWM provides advisory services to the following types of clients:

- Individuals (other than high net worth individuals)
- High net worth Individuals
- Charitable Organizations
- Corporations or other businesses

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

We use the following methods of analysis in formulating our investment advice and/or managing client assets:

Charting. In this type of technical analysis, we review charts of market and security activity in

an attempt to identify when the market is moving up or down and to predict when how long the trend may last and when that trend might reverse.

Fundamental Analysis. We attempt to measure the intrinsic value of a security by looking at economic and financial factors (including the overall economy, industry conditions, and the financial condition and management of the company itself) to determine if the company is underpriced (indicating it may be a good time to buy) or overpriced (indicating it may be time to sell).

Fundamental analysis does not attempt to anticipate market movements. This presents a potential risk, as the price of a security can move up or down along with the overall market regardless of the economic and financial factors considered in evaluating the stock.

Technical Analysis. We analyze past market movements and apply that analysis to the present in an attempt to recognize recurring patterns of investor behavior and potentially predict future price movement.

Technical analysis does not consider the underlying financial condition of a company. This presents a risk in that a poorly-managed or financially unsound company may underperform regardless of market movement.

Cyclical Analysis. In this type of technical analysis, we measure the movements of a particular stock against the overall market in an attempt to predict the price movement of the security.

Risks for all forms of analysis. Our securities analysis methods rely on the assumption that the companies whose securities we purchase and sell, the rating agencies that review these securities, and other publicly-available sources of information about these securities, are providing accurate and unbiased data. While we are alert to indications that data may be incorrect, there is always a risk that our analysis may be compromised by inaccurate or misleading information.

Investment Strategies

We use the following strategy(ies) in managing client accounts, provided that such strategy(ies) are appropriate to the needs of the client and consistent with the client's investment objectives, risk tolerance, and time horizons, among other considerations:

Long-term purchases. We purchase securities with the idea of holding them in the client's account for a year or longer. Typically we employ this strategy when:

- we believe the securities to be currently undervalued, and/or
- we want exposure to a particular asset class over time, regardless of the current projection for this class.

Short-term purchases. When utilizing this strategy, we purchase securities with the idea of selling them within a relatively short time (typically a year or less). We do this in an attempt to take advantage of conditions that we believe will soon result in a price swing in the securities we purchase.

Trading. We purchase securities with the idea of selling them very quickly (typically within 30 days or less). We do this in an attempt to take advantage of our predictions of brief price swings.

Short sales. We borrow shares of a stock for your portfolio from someone who owns the stock on a promise to replace the shares on a future date at a certain price. Those borrowed shares are then sold. On the agreed-upon future date, we buy the same stock and return the shares to the original owner. We engage in short selling based on our determination that the stock will go down in price after we have borrowed the shares. If we are correct and the stock price has gone down since the shares were purchased from the original owner, the client account realizes the profit.

Margin transactions. We will purchase stocks for your portfolio with money borrowed from your brokerage account. This allows you to purchase more stock than you would be able to with your available cash, and allows us to purchase stock without selling other holdings.

Option writing. We may use options as an investment strategy. An option is a contract that gives the buyer the right, but not the obligation, to buy or sell an asset (such as a share of stock) at a specific price on or before a certain date. An option, just like a stock or bond, is a security. An option is also a derivative, because it derives its value from an underlying asset.

The two types of options are calls and puts:

- A call gives us the right to buy an asset at a certain price within a specific period of time. We will buy a call if we have determined that the stock will increase substantially before the option expires.
- A put gives us the holder the right to sell an asset at a certain price within a specific period of time. We will buy a put if we have determined that the price of the stock will fall before the option expires.

We will use options to speculate on the possibility of a sharp price swing. We will also use options to "hedge" a purchase of the underlying security; in other words, we will use an option purchase to limit the potential upside and downside of a security we have purchased for your portfolio.

We use "covered calls", in which we sell an option on security you own. In this strategy, you receive a fee for making the option available, and the person purchasing the option has the right to buy the security from you at an agreed-upon price.

We use a "spreading strategy", in which we purchase two or more option contracts (for example, a call option that you buy and a call option that you sell) for the same underlying security. This effectively puts you on both sides of the market, but with the ability to vary price, time and other factors.

Risk of Loss. Securities investments are not guaranteed and you may lose money on your investments. We ask that you work with us to help us understand your tolerance for risk.

Item 9 Disciplinary Information

We are required to disclose any legal or disciplinary events that are material to a client's or prospective client's evaluation of our advisory business or the integrity of our management.

Our firm and our management personnel have no reportable disciplinary events to disclose.

Item 10 Other Financial Industry Activities and Affiliations

Related persons of LJWIM are licensed insurance agents and/or brokers with various insurance companies for which they may be paid a commission for their services.

In addition to being a registered investment adviser, LJWIM is also licensed as a mortgage broker (with the State of Indiana), with Mr. Layton John acting as the Principal Manager and Mr. Joshua John (registered investment advisor representative) as the Loan Originator.

We receive flat-fee compensation for these services which are separate and distinct from our advisory business. Our IA clients are often referred to our Mortgage Brokerage business and vice versa. However, our advisory clients are not required to utilize our investment advisory business, and vice versa.

The mortgage business constitutes approximately 10% of Mr. Layton John's time and 95% of Mr. Joshua John's time.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and

Personal Trading

Our firm has adopted a Code of Ethics which sets forth high ethical standards of business conduct that we require of our employees, including compliance with applicable federal securities laws.

LJWIM and our personnel owe a duty of loyalty, fairness and good faith towards our clients, and have an obligation to adhere not only to the specific provisions of the Code of Ethics but to the general principles that guide the Code.

Our Code of Ethics includes policies and procedures for the review of quarterly securities transactions reports as well as initial and annual securities holdings reports that must be submitted by the firm's access persons. Among other things, our Code of Ethics also requires the prior approval of any acquisition of securities in a limited offering (e.g., private placement) or an initial public offering. Our code also provides for oversight, enforcement and recordkeeping provisions.

LJWIM's Code of Ethics further includes the firm's policy prohibiting the use of material non-public information. While we do not believe that we have any particular access to non-public information, all employees are reminded that such information may not be used in a personal

or professional capacity.

A copy of our Code of Ethics is available to our advisory clients and prospective clients. You may request a copy by email sent to brad@ljiwm.com, or by calling us at 317-466-9702.

LJIWM and individuals associated with our firm are prohibited from engaging in principal transactions.

LJIWM and individuals associated with our firm are prohibited from engaging in agency cross transactions.

Our Code of Ethics is designed to assure that the personal securities transactions, activities and interests of our employees will not interfere with (i) making decisions in the best interest of advisory clients and (ii) implementing such decisions while, at the same time, allowing employees to invest for their own accounts.

Our firm and/or individuals associated with our firm may buy or sell for their personal accounts securities identical to or different from those recommended to our clients. In addition, any related person(s) may have an interest or position in a certain security(ies) which may also be recommended to a client.

It is the expressed policy of our firm that no person employed by us may purchase or sell any security prior to a transaction(s) being implemented for an advisory account, thereby preventing such employee(s) from benefiting from transactions placed on behalf of advisory accounts.

Item 12 Brokerage Practices

LJIWM does not have any soft-dollar arrangements and does not receive any soft-dollar benefits.

We do not request or accept the discretionary authority to determine the broker dealer to be used for client accounts. Clients must direct us as to the broker dealer to be used for all client securities transactions. Not all advisers require their clients to direct brokerage.

By the client directing the use of a particular broker or dealer, it should be understood that we will not have authority to negotiate commissions among various brokers, and best execution may not be achieved, resulting in higher transaction costs for clients.

However, LJIWM has an arrangement with National Financial Services LLC, and Fidelity Brokerage Services LLC (together with all affiliates, "Fidelity") through which Fidelity provides our firm with their "platform" services.

The platform services include, among others, brokerage, custodial, administrative support, record keeping and related services that are intended to support intermediaries like LJIWM in conducting business and in serving the best interests of our clients but that may also benefit us.

Fidelity charges brokerage commissions and transaction fees for effecting certain securities transactions (i.e., transactions fees are charged for certain no-load mutual funds, commissions are charged for individual equity and debt securities transactions). Fidelity enables LJIWM to obtain many no-load mutual funds without transaction charges and other no-load funds at nominal transaction charges.

Fidelity's commission rates are generally considered discounted from customary retail commission rates. However, the commissions and transaction fees charged by Fidelity may be higher or lower than those charged by other custodians and broker-dealers.

A client may pay a commission that is higher than another qualified broker-dealer might charge to effect the same transaction where we determine in good faith that the commission is reasonable in relation to the value of the brokerage and research services received.

In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a broker-dealer's services, including the value of research provided, execution capability, commission rates, and responsiveness.

Accordingly, while LJIWM will seek competitive rates, to the benefit of all clients, we may not necessarily obtain the lowest possible commission rates for specific client account transactions.

LJIWM and Fidelity are not affiliated.

Item 13 Review of Accounts

Investment Supervisory Services Individual Portfolio Management

Reviews

While the underlying securities within Individual Portfolio Management Services accounts are continually monitored, these accounts are reviewed at least quarterly. Accounts are reviewed in the context of each client's stated investment objectives and guidelines.

More frequent reviews may be triggered by material changes in variables such as the client's individual circumstances, or the market, political or economic environment.

These accounts are reviewed by Layton L. John, President and Aaron Morrow, registered investment advisory representative.

Reports

Our clients receive quarterly statements and confirmations of transactions directly from their broker-dealer. We do not provide additional reports to our clients.

Financial Planning Services

Reviews

While reviews may occur at different stages depending on the nature and terms of the specific engagement, typically no formal reviews will be conducted for Financial Planning clients unless otherwise contracted for.

Reports

Financial Planning clients will receive a completed financial plan. Additional reports will not typically be provided unless otherwise contracted for.

Item 14 Client Referrals and Other Compensation

Client Referrals

Our firm may pay referral fees to independent persons or firms ("Solicitors") for introducing clients to us. Fees for such referrals are paid to the Solicitor based upon a percentage of the management fee we receive from the client referred by the Solicitor.

The Solicitor provides the prospective client with a copy of this document (our *Firm Brochure*) and a separate disclosure statement that includes the following information:

- the Solicitor's name and relationship with our firm;
- the fact that the Solicitor is being paid a referral fee;
- the amount of the fee; and
- whether the fee paid to us by the client will be increased above our normal fees in order to compensate the Solicitor.

As a matter of firm practice, the advisory fees paid to us by clients referred by Solicitors are not increased as a result of any referral.

Other Compensation

Our firm and/or our officers and representatives are prohibited from receiving incentive awards (including prizes such as trips or bonuses) for recommending certain types of insurance policies or other investment products.

Item 15 Custody

We previously disclosed in the "Fees and Compensation" section (Item 5) of this Brochure that our firm directly debits advisory fees from client accounts.

As part of this billing process, the client's custodian is advised of the amount of the fee to be deducted from that client's account. On at least a quarterly basis, the custodian is required to send to the client a statement showing all transactions within the account during the reporting

period.

Because the custodian does not calculate the amount of the fee to be deducted, it is important for clients to carefully review their custodial statements to verify the accuracy of the calculation, among other things. Clients should contact us directly if they believe that there may be an error in their statement.

Our firm does not have actual or constructive custody of client accounts.

Item 16 Investment Discretion

Clients may hire us to provide discretionary asset management services, in which case we place trades in a client's account without contacting the client prior to each trade to obtain the client's permission.

Our discretionary authority includes the ability to do the following without contacting the client:

- Determine the security to buy or sell; and/or
- Determine the amount of the security to buy or sell

Clients give us discretionary authority when they sign a discretionary agreement with our firm, and may limit this authority by giving us written instructions. Clients may also change/amend such limitations by once again providing us with written instructions.

Item 17 Voting Client Securities

As a matter of firm policy, we do not vote proxies on behalf of clients. Therefore, although our firm may provide investment advisory services relative to client investment assets, clients maintain exclusive responsibility for: (1) directing the manner in which proxies solicited by issuers of securities beneficially owned by the client shall be voted, and (2) making all elections relative to any mergers, acquisitions, tender offers, bankruptcy proceedings or other type events pertaining to the client's investment assets.

Clients are responsible for instructing each custodian of the assets, to forward to the client copies of all proxies and shareholder communications relating to the client's investment assets.

We may provide clients with consulting assistance regarding proxy issues if they contact us with questions at our principal place of business.

Item 18 Financial Information

LJIWM has no additional no financial circumstances to report.

Under no circumstances do we require or solicit payment of fees in excess of \$1,200 per client more than six months in advance of services rendered. Therefore, we are not required to include a financial statement.

LJIWM has not been the subject of a bankruptcy petition at any time during the past ten years.
