Advisory Business

Firm Description

TOWER WEALTH MANAGEMENT, LLC, was founded in 2008.

TOWER WEALTH MANAGEMENT, LLC provides personalized confidential investment management services to individuals, pension and profit sharing plans, trusts, estates, charitable organizations and small businesses. Advice is provided through consultation with the client and may include: determination of financial objectives, identification of financial problems, cash flow management, tax planning, insurance review, investment management, education funding, retirement planning, and estate planning.

TOWER WEALTH MANAGEMENT, LLC is strictly a fee-only investment management firm. The firm does not sell products or services for which it receives commissions. The firm is not affiliated with entities that sell financial products or securities. No commissions in any form are accepted. No finder's fees are accepted.

Other professionals (e.g., financial planners, lawyers, accountants, insurance agents, etc.) are engaged directly by the client on an as-needed basis. Conflicts of interest will be disclosed to the client in the unlikely event they should occur.

The initial meeting is free of charge and is considered an exploratory interview to determine the extent to which financial planning and investment management may be beneficial to the client.

Principal Owners

Ensign J. Cowell owns 100% of TOWER WEALTH MANAGEMENT LLC.

Types of Advisory Services

TOWER WEALTH MANAGEMENT, LLC provides investment supervisory services, also known as asset management services; manages investment advisory accounts not involving investment supervisory services; and furnishes investment advice through consultations.

On more than an occasional basis, TOWER WEALTH MANAGEMENT, LLC furnishes advice to clients on matters not involving securities, such as financial planning matters, taxation issues, and trust services that often include estate planning.

As of December 31, 2010, TOWER WEALTH MANAGEMENT, LLC managed approximately \$158 million in assets for approximately 90 clients. All current clients have signed investment management agreements that grant full discretion to TOWER WEALTH MANAGEMENT, LLC; however, in certain cases clients are consulted prior to trades being executed.

Tailored Relationships

The goals and objectives for each client are discussed with the client. In many cases, a formal written investment policy statement is created that reflects the clients stated goals and objectives. Clients may impose restrictions on investing in certain securities or types of securities, which are typically reflected in the investment policy statement.

Investment Management Agreements may not be assigned without client consent.

Types of Agreements

The following agreements define the typical client relationships.

Investment Management Agreement

Most clients choose to have TOWER WEALTH MANAGEMENT, LLC manage their assets in order to obtain ongoing in-depth advice. All aspects of the client's financial affairs are reviewed, including those of their children. Realistic and measurable goals are set and objectives to reach those goals are defined. As goals and objectives change over time, suggestions are made and implemented on an ongoing basis.

The annual Advisory Service Agreement fee is based on a percentage of the quarterly investable assets according to the following schedule:

For Portfolios Containing Only Fixed Income Securities-

Assets Under Management:	Annual Fee:
First \$1 Million	0.60%
\$1 Million to \$2 Million	0.50%
\$2 Million to \$5 Million	0.40%
Over \$5 Million	0.30%

For Portfolios Containing Either A Mix of Fixed Income and Equity Securities Or Only Equity Securities-

Assets Under Management:	Annual Fee:
First \$1 Million	1.00%
\$1 Million to \$2 Million	0.75%
\$2 Million to \$5 Million	0.60%
Over \$5 Million	0.50%

Fees are generally non-negotiable. Current client relationships may exist where the fees are lower or higher than the above fee schedule or where certain assets are exempted from charge.

Fees are charged on a quarterly basis and are payable in advance and are calculated based on the quarter end value of investable assets. Client fees generally are deducted directly from a client's account(s). A courtesy copy of the invoice is sent to all clients. A pro rata refund will be made, in a timely manner, of any unearned management fees upon termination of a relationship.

Retainer Agreement

In some circumstances, a *Retainer Agreement* is executed in lieu of an *Investment Management Agreement* when it is more appropriate to work on a fixed-fee basis. The annual fee for a *Retainer Agreement* is negotiable and is set based on the nature of the scope of anticipated work.

Asset Management

Investments may include: equities (stocks), warrants, corporate debt securities, commercial paper, certificates of deposit, municipal securities, investment company securities (variable life insurance, variable annuities, and mutual funds shares), U. S. government securities, options contracts, futures contracts, exchange traded funds and notes and interests in partnerships.

Certain securities such as mutual funds and exchange traded notes and funds may bear additional ongoing management fees by their sponsors in addition to Tower Wealth Management LLC's fees. Brokerages may charge a transaction fee for the purchase of some investments. Tower Wealth Management, LLC does not receive any compensation, in any form, from mutual fund companies, brokers or sponsors of exchange traded securities.

Termination of Agreement

A Client may terminate any of the aforementioned agreements at any time by notifying Tower Wealth Management, LLC in writing and paying the rate for the time spent on the investment advisory engagement prior to notification of termination. If the client made an advance payment, TOWER WEALTH MANAGEMENT, LLC will refund any unearned portion of the advance payment.

TOWER WEALTH MANAGEMENT, LLC may terminate any of the aforementioned agreements at any time by notifying the client in writing. If the client made an advance payment, TOWER WEALTH MANAGEMENT, LLC will refund any unearned portion of the advance payment.

Fees and Compensation

Description

TOWER WEALTH MANAGEMENT, LLC bases its fees on a percentage of assets under management or on a fixed fee basis (not including subscription fees).

Some *Retainer Agreements* may be priced based on the complexity of work, especially when asset management is not the most significant part of the relationship.

Fees are generally not negotiable.

Fee Billing

Investment management fees are billed quarterly, in *advance*, meaning that we invoice you before the three-month billing period has begun. Payment in full is expected upon invoice presentation. Fees are usually deducted from a designated client account to facilitate billing. The client must consent in advance to direct debiting of their investment account.

Other Fees

Custodians may charge account maintenance fees as well as transaction fees on purchases or sales of securities. These transaction charges are usually small and incidental to the purchase or sale of a security. The selection of the security is more important than the nominal fee that the custodian charges to buy or sell the security.

Expense Ratios

Exchange traded funds and notes, and mutual funds generally charge a management fee for their services as investment managers. The management fee is called an expense ratio. For example, an expense ratio of 0.50 means that the mutual fund company charges 0.5% for their services. These fees are in addition to the fees paid by you to TOWER WEALTH MANAGEMENT, LLC.

Performance figures quoted by mutual fund companies in various publications are after their fees have been deducted.

Past Due Accounts and Termination of Agreement

TOWER WEALTH MANAGEMENT, LLC reserves the right to stop work on any account that is more than 90 days overdue. In addition, TOWER WEALTH MANAGEMENT, LLC reserves the right to terminate any financial planning engagement where a client has willfully concealed or has refused to provide pertinent information about financial situations when necessary and appropriate, in TOWER WEALTH MANAGEMENT, LLC's judgment, to

providing proper financial advice. Any unused portion of fees collected in advance will be refunded within 30 days.

Performance-Based Fees

Sharing of Capital Gains

Fees are not based on a share of the capital gains or capital appreciation of managed securities.

TOWER WEALTH MANAGEMENT, LLC does not use a performance-based fee structure because of the potential conflict of interest. Performance-based compensation may create an incentive for the adviser to recommend an investment that may carry a higher degree of risk to the client.

Types of Clients

Description

TOWER WEALTH MANAGEMENT, LLC generally provides investment advice to individuals, pension and profit sharing plans, trusts, estates, or charitable organizations, corporations or business entities.

Client relationships vary in scope and length of service.

Account Minimums

The minimum account size is \$300,000 of assets under management, which equates to an annual fee of \$3,000.

TOWER WEALTH MANAGEMENT, LLC has the discretion to waive the account minimum.

Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Security analysis methods may include fundamental analysis, technical analysis, and cyclical analysis.

The main sources of information include financial newspapers and magazines, inspections of corporate activities, research materials prepared by others, corporate rating services, timing services, annual reports, prospectuses, filings with the Securities and Exchange Commission, and company press releases.

Investment Strategies

The investment strategy for a specific client is based upon the objectives stated by the client during consultations. The client may change these

objectives at any time. Strategies may include one of or a combination of long-term purchases, short-term purchases, trading or asset allocation using passive index vehicles.

Risk of Loss

All investment programs have certain risks that are borne by the investor, including among others,

- **Interest-rate Risk:** Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- **Market Risk:** The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- **Inflation Risk:** When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.
- **Currency Risk:** Overseas investments may be subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- **Reinvestment Risk:** This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
- **Business Risk:** These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company, which generates its income from a steady stream of customers who buy electricity no matter what the economic environment is like.
- **Liquidity Risk:** Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- **Financial Risk:** Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of

financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.

Tower seeks to consider these risks in its investment philosophy and process.
