Item 4: Advisory Business

A. Description of the Advisory Firm

This firm has been in business since March 4, 2008, and the principal owners are David Larkin George and Andrew Phillip Sontag.

B. Types of Advisory Services

Carlsbad Wealth Advisory Group, Inc. (hereinafter "CWAG") offers the following services to advisory clients:

Investment Supervisory Services

CWAG offers ongoing portfolio management services based on the individual goals, objectives, time horizon, and risk tolerance of each client. CWAG creates an Investment Policy Statement for each client, which outlines the client's current situation (income, tax levels, and risk tolerance levels) and then constructs a plan (the Investment Policy Statement) to aid in the selection of a portfolio that matches each client's specific situation. Investment Supervisory Services include, but are not limited to, the following:

- Investment strategy
- Asset allocation
- Risk tolerance
- Personal investment policy
- Asset selection
- Regular portfolio monitoring

CWAG evaluates the current investments of each client with respect to their risk tolerance levels and time horizon. CWAG will request discretionary authority from clients in order to select securities and execute transactions without permission from the client prior to each transaction. Risk tolerance levels are documented in the Investment Policy Statement, which is given to each client.

Financial Planning

Financial plans and financial planning may include, but are not limited to: investment planning, life insurance; tax concerns; retirement planning; college planning; and debt/credit planning. These services are based on hourly fees and the final fee structure is documented in Exhibit II of the Financial Planning Agreement.

In offering financial planning, a conflict exists between the interests of the investment adviser and the interests of the client. The client is under no obligation to act upon the investment adviser's recommendation, and, if the client elects to act on any of the recommendations, the client is under no obligation to effect the transaction through the investment adviser. This statement is required by California Code of Regulations, 10 CCR Section 260.235.2.

Services Limited to Specific Types of Investments

CWAG limits its investment advice and/or money management to ETFs, mutual funds, equities, bonds, fixed income, debt securities, no-load annuities, and government securities. CWAG may use other securities as well to help diversify a portfolio when applicable.

C. Client Tailored Services and Client Imposed Restrictions

CWAG offers the same suite of services to all of its clients. However, specific client financial plans and their implementation are dependent upon the client Investment Policy Statement which outlines each client's current situation (income, tax levels, and risk tolerance levels) and is used to construct a client specific plan to aid in the selection of a portfolio that matches restrictions, needs, and targets.

Clients may impose restrictions in investing in certain securities or types of securities in accordance with their values or beliefs. However, if the restrictions prevent CWAG from properly servicing the client account, or if the restrictions would require CWAG to deviate from its standard suite of services, CWAG reserves the right to end the relationship.

D. Wrap Fee Programs

CWAG does not participate in any wrap fee programs.

E. Amounts Under Management

CWAG has the following assets under management:

Discretionary Amounts:	Non-discretionary Amounts:	Date Calculated:

- ❖ High-Net-Worth Individuals
- ❖ Corporations or Business Entities

Minimum Account Size

There is an account minimum, \$500,000, which may be waived by the investment advisor, based on the needs of the client and the complexity of the situation.

Item 8: Methods of Analysis, Investment Strategies, and Risk of Investment Loss

A. Methods of Analysis and Investment Strategies

Methods of Analysis

CWAG's methods of analysis include charting analysis, fundamental analysis, technical analysis, and cyclical analysis.

Charting analysis involves the use of patterns in performance charts. CWAG uses this technique to search for patterns used to help predict favorable conditions for buying and/or selling a security.

Fundamental analysis involves the analysis of financial statements, the general financial health of companies, and/or the analysis of management or competitive advantages.

Technical analysis involves the analysis of past market data; primarily price and volume.

Cyclical analysis involved the analysis of business cycles to find favorable conditions for buying and/or selling a security.

Investment Strategies

CWAG uses long term trading and covered-call options writing.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

B. Material Risks Involved

Methods of Analysis

Charting analysis strategy involves using and comparing various charts to predict long and short term performance or market trends. The risk involved in solely using this method is that only past performance data is considered without using other methods to crosscheck data. Using charting analysis without other methods of analysis would be making the assumption that past performance will be indicative of future performance. This may not be the case.

Fundamental analysis concentrates on factors that determine a company's value and expected future earnings. This strategy would normally encourage equity purchases in stocks that are undervalued or priced below their perceived value. The risk assumed is that the market will fail to reach expectations of perceived value.

Technical analysis attempts to predict a future stock price or direction based on market trends. The assumption is that the market follows discernible patterns and if these patterns can be identified then a prediction can be made. The risk is that markets do not always follow patterns and relying solely on this method may not work long term.

Cyclical analysis assumes that the markets react in cyclical patterns which, once identified, can be leveraged to provide performance. The risks with this strategy are two-fold : 1) the markets do not always repeat cyclical patterns and 2) if too many

investors begin to implement this strategy, it changes the very cycles they are trying to take advantage of.

Investment Strategies

Long term trading is designed to capture market rates of both return and risk. Frequent trading, when done, can affect investment performance, particularly through increased brokerage and other transaction costs and taxes.

Covered-Call options writing generally holds a greater risk and clients should be aware that there is a chance of material risk of loss using any of these strategies.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

C. Risks of Specific Securities Utilized

CWAG generally seeks investment strategies that do not involve significant or unusual risk beyond that of the general domestic and/or international equity markets. However, it will utilize options writing. Options writing generally hold greater risk of capital loss and clients should be aware that there is a chance of material risk of loss using any of those strategies.

Past performance is not a guarantee of future returns. Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

Item 9: Disciplinary Information

Pursuant to negotiations with the Certified Financial Planning Board, David agreed to suspend his CFP designation from 8/23/2010 to 11/23/2010. This agreement was reached as a result of discussions concerning David's departure from Ameriprise Financial in March of 2008. After Mr. George's departure from Ameriprise, Ameriprise documented and reported customer complaints to FINRA. The various complaints were investigated by the California Department of Insurance as well as FINRA and no fines, suspensions, or disciplinary events resulted other than Mr. George's negotiations with the CFP Board. Mr. George strongly disagrees with Ameriprise's conduct during and after his termination.

Item 10: Other Financial Industry Activities and Affiliations

All material conflicts of interest Under Section 260.238 (k) of the Corporations Code are disclosed regarding the investment adviser, its representatives or any of its employees, which could be reasonable expected to impair the rendering of unbiased and objective advice.

D. Selection of Other Advisors or Managers and How This Adviser is Compensated for Those Selections

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

We have a written Code of Ethics that covers the following areas: Prohibited Purchases and Sales, Insider Trading, Personal Securities Transactions, Exempted Transactions, Prohibited Activities, Conflicts of Interest, Gifts and Entertainment, Confidentiality, Service on a Board of Directors, Compliance Procedures, Compliance with Laws and Regulations, Procedures and Reporting, Certification of Compliance, Reporting

C. Investing Personal Money in the Same Securities as Clients

From time to time, representatives of CWAG may buy or sell securities for themselves that they also recommend to clients. CWAG will always document any transactions that could be construed as conflicts of interest and will always transact client business before their own when similar securities are being bought or sold.

D. Trading Securities At/Around the Same Time as Clients' Securities

From time to time, representatives of CWAG may buy or sell securities for themselves at or around the same time as clients. CWAG will not trade non-mutual fund or non-ETF securities 5 days prior to or 5 days after trading the same security for clients.

Item 12: Brokerage Practices

A. Factors Used to Select Custodians and/or Broker/Dealers

Advisor may recommend that clients establish brokerage accounts with the Schwab Institutional division of Charles Schwab & Co., Inc. ("Schwab Institutional"), a registered broker-dealer, to maintain custody of clients' assets and to effect trades for their accounts. Advisor and Schwab Institutional are separate, unaffiliated entities. Schwab Institutional provides Advisor with access to its institutional trading and operations services typically not available to Schwab's retail customers. These services generally are available to independent investment advisory firms at no charge to them so long as a total of at least \$10 million of the advisor's clients' account assets are maintained at Schwab Institutional. Schwab Institutional's services include brokerage, custody, research, access to mutual funds and other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment. Schwab Institutional also makes available to Advisor other products and services that benefit Advisor. Some of these other products and services assist Advisor in managing and administering clients' accounts. These include software and other technology that provide access to client account data (such as balances, positions and transactions, as well as trade confirmations and account statements), facilitate trade execution (and allocation of aggregated trade orders for multiple client

accounts), provide research, pricing information and other market data, facilitate payment of Advisor's fees from its clients' accounts, and assist with back-office support, record keeping and client reporting. Many of these services generally may be used to service all or a substantial number of Advisor's accounts, including accounts not maintained at Schwab Institutional. Schwab Institutional may also provide Advisor with other services intended to help Advisor manage and further develop its business enterprise. These services may include consulting, publications and presentations on practice management, information technology, business succession, regulatory compliance, and marketing.

1. Research and Other Soft-Dollar Benefits

Schwab Institutional also provides various products, services and other benefits to Advisor at no cost or a reduced cost based upon Advisor's commitment that Advisor's clients will place or maintain a specified dollar amount of assets in accounts with Schwab Institutional within a specified period of time. Advisor may be influenced by this commitment in recommending or requiring that clients' establish brokerage accounts at Schwab Institutional.

The products and services or other benefits provided by Schwab Institutional include payments offsetting the fees otherwise payable by Advisor for: (1) software that, among other things, may provide portfolio accounting, performance reporting, and relationship management.

Some of the products, services and other benefits provided by Schwab Institutional benefit Advisor and may not benefit Advisor's clients' accounts. Advisor's recommendation that a client place assets in Schwab's custody may be based in part on benefits Schwab provides to Advisor, and not solely on the nature, cost or quality of custody and execution services provided by Schwab.

Advisor places trades for its clients' accounts subject to its duty to seek best execution and its other fiduciary duties. Advisor may use broker-dealers other than Schwab to execute trades for client accounts maintained at Schwab, but this practice may result in additional costs to clients so that Advisor is more likely to place trades through Schwab rather than other broker-dealers. Schwab's execution quality may be different than other broker-dealers.

For Advisor's clients' accounts maintained in custody at Schwab, Schwab generally does not charge separately for custody but is compensated by the account holders through commissions or other fees related to transactions and/or assets held in the client accounts.

2. Brokerage for Client Referrals

CWAG receives no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

3. Clients Directing Which Broker/Dealer/Custodian to Use

CWAG will not allow clients to direct CWAG to use a specific broker-dealer to execute transactions. Clients must use CWAG recommended custodian (broker-dealer). Not all investment advisers require their clients to direct brokerage. By requiring clients to use our specific custodian, CWAG may be unable to achieve most favorable execution of client transactions and this may cost clients money over using a lower-cost custodian.

B. Aggregating (Block) Trading for Multiple Client Accounts

CWAG maintains the ability to block trade purchases across accounts but will rarely do so. While block trading may benefit clients by purchasing larger blocks in groups, we do not feel that the clients are at a disadvantage due to the best execution practices of our custodian.

Item 13: Reviews of Accounts

A. Frequency and Nature of Periodic Reviews and Who Makes Those Reviews

Client accounts are reviewed at least quarterly by David Larkin George and/or Andrew Sontag. The chief advisors and are instructed to review clients' accounts with regards to their investment policies and risk tolerance levels. All accounts at CWAG are assigned to these reviewers.

All financial planning accounts are reviewed upon financial plan creation and plan delivery by David Larkin George and/or Andrew Sontag. There is only one level of review and that is the total review conducted to create the financial plan.

B. Factors That Will Trigger a Non-Periodic Review of Client Accounts

Reviews may be triggered by material market, economic or political events, or by changes in client's financial situations (such as retirement, termination of employment, physical move, or inheritance).

C. Content and Frequency of Regular Reports Provided to Clients

Each client will receive at least quarterly a written report detailing the clients account which may come from the custodian.

Clients who opt for financial planning are provided a one-time financial plan concerning their financial situation. After the presentation of the plan, there are no further reports. Clients may request additional plans or reports for a fee.

Item 14: Client Referrals and Other Compensation

A. Economic Benefits Provided by Third Parties for Advice Rendered to Clients (Includes Sales Awards or Other Prizes)

CWAG does not receive any economic benefit, directly or indirectly from any third party for advice rendered to CWAG clients.

B. Compensation to Non -Advisory Personnel for Client Referrals

CWAG does not directly or indirectly compensate any person who is not advisory personnel for client referrals.

Item 15: Custody

CWAG does not take custody of client accounts at any time. Custody of client's accounts is held primarily at Schwab Institutional, a division of Charles Schwab & Co., Inc. Clients will receive account statements from the custodian and should carefully review those statements.

Item 16: Investment Discretion

For those client accounts where CWAG provides ongoing supervision, the client has given CWAG written discretionary authority over the client's accounts with respect to securities to be bought or sold and the amount of securities to be bought or sold. Details of this relationship are fully disclosed to the client before any advisory relationship has commenced. The client provides CWAG discretionary authority via a limited power of attorney in the Investment Advisory Contract and in the contract between the client and the custodian.

Item 17: Voting Client Securities (Proxy Voting)

CWAG will accept voting authority for client securities in certain cases. When CWAG does accept voting authority for client securities, it will always seek to vote in the best interests of its clients. CWAG does not maintain preapproved voting guidelines but relies on the investment committee to determine the appropriate course of action in voting client securities that is in the best interest of the client. Clients may direct CWAG on how to vote client securities by communicating their wishes in writing or electronically to CWAG. When voting client proxies the investment committee will always hold the interests of the clients above its own interests. Clients of CWAG may obtain the voting record of CWAG on client securities by contacting CWAG at phone number or e-mail address listed on the cover page of this brochure. Clients may obtain a copy of CWAG's proxy voting policies and procedures upon request.
