1.2 Redhawk Advisors Fees and Expenses

Redhawk charges a single fee based on the value of the Client’s assets. The single fee includes portfolio management, trading commissions, custody service, and financial advisor fees (if applicable). Fees are calculated and deducted on a monthly basis in arrears and the daily market value of the assets under management is used to calculate the fee. Redhawk reserves the right to adjust the fee at its full discretion for any Client.

Clients are required to establish brokerage accounts at a qualified custodian (“Custodian” or “Custodians”) identified by Redhawk. All identified Custodians are member firms of FINRA and SIPC. The current identified Custodian(s) are:

- TD Ameritrade

All Redhawk’s Client’s assets are in custody at the above listed Custodians. The Custodians are not affiliated with Redhawk.

In determining whether to establish an account, a Client should be aware that the overall cost of the Advisory Services may be higher or lower than the Client might incur by purchasing separately the types of securities available through the Advisory Services. In order to compare the cost of the Advisory Services with unbundled services, the Client should consider the turnover rate in Redhawk's investment strategies, trading activity in the account, standard advisory fees and brokerage commissions that would be charged at other broker-dealers and investment advisors.

The Client authorizes Redhawk to debit the advisory fee due from the Client's account. If insufficient cash is available to pay such fees, securities in an amount equal to the balance of unpaid fees will be liquidated to pay for the unpaid balance. Redhawk reserves the right to reduce the fee at its discretion, including for promotional events that may result in complimentary or reduced advisory fees for new Clients, and/or to current Clients. On an annualized basis, Redhawk's fee for the Advisory Services is based on the following schedule:

Client Assets	Annualized Advisory Services Fee
\$1,000,000 or more	0.50%

Example: Client has \$7 Million in assets.

Annual Fee Calculation:

\$7 Million times 0.50% = \$35,000

1.3 Other Fees and Expenses

All fees paid to Redhawk, for Advisory Services are separate and distinct from the fees and expenses charged by exchange traded funds ("ETF" or "ETFs"), mutual funds, closed-end investment companies, or other managed investments. The specific fees and expenses are described in each fund's prospectus or ADV.

In addition to the aforementioned, there may be other costs assessed, which are not included in the Advisory Services fees, such as charges for transactions not executed through the Custodian, costs associated with exchanging currencies, wire transfer fees, or other fees required by law.

1.4 Advisor Representative Compensation

Registered Investment Advisor Representatives of Redhawk may receive compensation for providing the Advisory Services.

2. Account Requirements and Types of Clients

Redhawk Advisory Services has a minimum relationship size of \$1,000,000. The minimum values may be reduced or waived at Redhawk's discretion.

3. Portfolio Managers Selection and Evaluation

3.1 Investment Strategies

Redhawk has agreements in place with sub-advisors that have different investment philosophies in order to offer an array of model portfolios to Clients. The sub-advisor strategies need to be appropriate to the needs of the Client

and consistent with the Client's investment objectives, risk tolerance, and time horizons, among other considerations. The sub-advisors cover the following investment strategies:

Fixed Income Management

Fixed income investments generally pay a return on a fixed schedule, though the amount of the payments can vary. Individual bonds may be the best known type of fixed income security, but the category also includes bond funds, ETFs, CDs, and money market funds.

Tactical Asset Allocation Management

An active management portfolio strategy that rebalances the percentage of assets held in various categories in order to take advantage of market pricing anomalies or strong market sectors. This strategy allows portfolio managers to create extra value by taking advantage of certain situations in the marketplace. It is an active strategy since sub-advisors return to the portfolio's original strategic asset mix when desired short-term profits are achieved. The sub-advisor may use fundamental, technical, and/or macroeconomic analysis in determining when and how to change the investments in the portfolio.

Strategic Asset Allocation Management

A passive portfolio strategy that involves periodically rebalancing the portfolio in order to maintain a long-term goal for asset allocation. At the inception of the portfolio, a "base policy mix" is established based on expected returns. Because the value of assets can change given market conditions, the portfolio constantly needs to be re-adjusted to meet the policy. Asset allocation is an investment strategy that attempts to balance risk versus reward by adjusting the percentage of each asset in an investment portfolio according to the investor's risk tolerance, goals and investment time frame.

Alternative Investments

An investment that is not one of the three traditional asset types (stocks, bonds and cash). Alternative investments include hedge funds, managed futures, real estate, commodities and derivatives contracts. Alternative investments typically have a low correlation with those of standard asset classes.

Risks

The strategies and investments may have unique and significant tax implications. Redhawk strongly recommends that Clients continuously consult with a tax professional prior to and throughout the investing of Client assets. Investing in securities involves risk of loss that Clients should be prepared to bear. Although portfolios are selected in a manner consistent with Client's risk tolerances and there can be no guarantee that the portfolio will be successful. Clients should be prepared to bear the risk of loss.

All investments involve the risk of loss, including (among other things) loss of principal, a reduction in earnings (including interest, dividends, and other distributions), and the loss of future earnings. These risks include market risk, interest rate risk, issuer risk, and general economic risk. Regardless of the methods of analysis or strategies suggested for Clients particular investment goals, Clients should carefully consider these risks, as they all bear risks.

3.2 Selection and Evaluation

Redhawk uses the following methods of analysis in formulating investment advice and/or managing Client assets:

Redhawk has a formal Investment Committee ("RIC") that meets on a monthly basis and operates under a formalized charter and set of policies and procedures outlined under the Redhawk Investment Provider Selection and Monitoring Methodology document. RIC is responsible for the selection, monitoring, and termination/replacement of investment providers and sub-advisors. Redhawk will offer sub-advisors and investments that have varied investment philosophies and strategies that cover tactical managers, strategic allocation managers, and alternative investments encompassing a broad range of investment solutions.

Frequency: RIC is aware that the ongoing review and analysis of the investment provider and sub-advisor is just as important as the initial selection. Investment performance will be monitored on a monthly basis, and it is at Redhawk's discretion to take corrective action by either terminating or replacing an investment if deemed appropriate at any time. RIC intends to evaluate investment performance from a long-term perspective. RIC makes available to financial advisors an advisory communication that summarizes the opinions of the RIC for each investment offered to Clients.

Selection Criteria: RIC will use the information submitted by the investment company as required under the Redhawk Investment Provider Due Diligence Request for Information (RFI) document. RIC will review the information and make a decision using various criteria.

Monitoring: The ongoing monitoring of investment providers and sub-advisors is a regular and disciplined process. Monitoring confirms that the criteria remain satisfied and that an investment continues to be appropriate. The process of monitoring investment performance relative to specified guidelines will be consistently applied. Frequent change of investment providers and sub-advisors is neither expected nor desired. Monitoring will utilize some of the same selection criteria used in the selection analysis. Each unique investment strategy will have its own unique monitoring criteria. Unusual, notable, or extraordinary events will be communicated to the financial advisor and Client on a timely basis. Examples of such events include investment manager or team departure, violation of investment guidelines, material litigation against the firm, or material changes in firm ownership structure and announcements thereof.

RIC has established performance objectives for each investment. Investment manager performance will be evaluated in terms of an appropriate market index (e.g., the S&P 500 Index for the large-cap domestic equity manager) or the relevant peer group (e.g., the large-cap growth mutual fund universe for a large-cap growth mutual fund). RIC will exercise discretion and reasonable judgment in the monitoring process. In fulfilling RIC's ongoing duty, certain indicators have been selected to assist in determining whether a particular investment remains a suitable investment for the plan.

Replacement/Termination: RIC will give consideration to either replacing or terminating a sub-advisor or investment if one or several of the following conditions occur. Each month RIC scores the investments by reviewing a number of key criteria for each portfolio and any company related activities. Enclosed is a summary of the monitoring criteria and Redhawk has three (3) monitoring levels for the sub-advisors and investments that are on the managed accounts platform.

The levels consist of:

1. **Approved** - The portfolio or investment has been approved by the committee without any investment restrictions other than a minimum account balance and suitability.
2. **Watch List** - The portfolio or investment has been placed on the watch list for any one of the following criteria listed below:
 - a. The sub-advisor or investment significantly underperforms without a justifiable rationale.
 - b. The sub-advisor or investment fails to achieve performance and risk objectives.
 - c. The sub-advisor or investment fails to maintain a consistent investment style.
 - d. The sub-advisor or investment fails to satisfy a minimum score of 8 (for the 12 criteria) for the past four successive months.
 - e. There is material changes in the sub-advisor's organization, investment philosophy, and/or personnel.
 - f. Any legal, Securities and Exchange Commission (SEC), and/or other regulatory agency proceedings affecting the sub-advisor's organization.

3. **Restricted List** - The portfolio can be placed on the Restricted List for any one of the criteria listed under the Watch List due to the severity of the issue. In addition, the portfolio can also be placed on the Restricted List for any of the following:
 - a. The investment is no longer offered by the sub-advisor or investment provider.
 - b. RIC may also remove any sub-advisor or investment at any time and for whatever reason it deems appropriate, including a determination that the sub-advisor or investment is no longer suitable for clients.

Once a sub-advisor or investment is placed on the Restricted List, RIC will give consideration to either replacing, terminating, or restricting the sub-advisor or investment. The following courses of action are available.

- **Severity 1** - Keep the sub-advisor and/or investment and limit the amount of new assets that can be placed in the investment. This may have a temporary timeframe or a permanent timeframe.
- **Severity 2** - Keep the sub-advisor and/or investment and freeze the assets with the sub-advisor or in the investment and do not allow any new assets to be invested in the investment. This may have a temporary timeframe or a permanent timeframe.
